## PREFACE

This document is the printed version of the DOT National Geocoding Converter File 1. The report is arranged alphabetically by state and in ascending sequence by FIPS (Federal Information Processing Standard code). Volume II contains codes for the states of Alabama through Missouri. Volume III contains codes for the states of Montana through Wyoming.

The DOT National Geocoding File 1 was developed by the U.S. Department of Transportation with the aid of the Charles Stark Draper Laboratory Inc., the Urban Systems Laboratory of M.I.T. and Mr. Robert E. Barraclough. The codes used in File 1 are from a variety of sources, all of which are outlined in Volume I, Structure and Content.

The following source codes are copyrighted:

IBM State and County Codes reprinted by permission from "Data Processing Techniques - Numerical Code for States, Counties and Cities of the United States (GC20-8073-0)." Copyright 1969 by International Business Machines Corporation.

Dun State and County Codes reprinted by permission from "Dun and Bradstreet County Code Book." Copyright 1971 by Dun and Bradstreet, Inc.

Dun SMSA Code reprinted by permission from "Dun and Bradstreet Standard Metropolitan Statistical Area Codes". Copyright 1970 by Dun and Bradstreet, Inc.

SPLC Code reprinted by permission from "Standard Point Location Code Tape". Copyright 1973 by National Motor Freight Traffic Association.

The design of File 1 includes a self-documenting feature to explain codes with uncertain status, codes with which there is some special problem, or fields for which no code is available. The self-documenting feature utilizes two special characters, asterisks and dashes. Asterisks in a field indicate that a change has occurred in the status of a county or county equivalent and

the change has not yet been incorporated in the source file.  
Dashes in a field indicate that no code is available for that field.  
In Volumes II and III the user is directed to the page on which  
the asterisked information appears.

COMMENT

COUNTY

ITEM

FIPS

Park

30113

YNP

Originally those sections of Yellowstone National Park located in Idaho, Montana, and Wyoming were recognized as three separate county equivalents with unique codes. FIPS, OEP, MLC, and Census no longer recognize these sections of Yellowstone National Park located in Idaho and Wyoming as separate county equivalents. OBE, GSA65 and GSA72 do not recognize those sections of Yellowstone National Park located in any of the three states (Idaho, Montana and Wyoming) as separate county equivalents. However, DUM, IBM, BPR, and ICC still maintain three unique codes for those sections of Yellowstone National Park located in Idaho, Montana, and Wyoming. The code number which appears in this column in cases where the system has no separate code for Yellowstone National Park in Montana (OBE and GSA65) is that of the county, Park, in which it is located.

NEW HAMPSHIRE

COMMENT

FIPS ITEM

COUNTY

For New Hampshire an attempt was made to show a correlation between SMSA and SPIC county sections. Where this correlation exists, it is shown; where no correlation exists, the SPIC's are listed as separate records.

Dun and Bradstreet has not yet assigned an SMSA code to this recently designated SMSA county.

Hillsborough 3301102 Dun SMSA

NEW YORK

NEW YORK

COUNTY	FIPS	ITEM	COMMENT
Bronx	36005	OBE	In its coding system, OBE consolidates the five counties which constitute New York City (Bronx, Kings, New York, Queens, Richmond) and assigns the same county code to each.
Kings	36047		
New York	36061		
Queens	36081		
Richmond	36085		
Chemung	36015	Dun SMSA	Dun and Bradstreet has not yet assigned an SMSA code to these recently designated SMSA counties.
Dutchess	36027

COMMENT

FOR Rhode Island an attempt was made to show a correlation between SMSA and SPIC county sections. Where a correlation exists, it is shown; where no correlation exists, the SPIC's are listed as separate records.

COUNTY	FIPS	ITEM	COMMENT
			<p>Since the ICC codes were originally assigned the following changes have occurred:</p> <p>Norfolk City absorbed Norfolk county; Hampton City absorbed Elizabeth City County; Newport News City absorbed Warwick County; Princess Anne County was incorporated as Virginia Beach City; South Norfolk County was incorporated as Chesapeake City (the codes assigned by ICC to those five counties appear on this file under their newer designations)</p> <p>Bedford City was created from a section of Bedford County; Covington City was created from a section of Allegheny County; Emporia City was created from a section of Greenville County; Fairfax City was created from a section of Fairfax County; Franklin City was created from a section of Southampton County; Galax City was created from a section of Carroll County; Lexington City was created from a section of Botetown County; Norton City was created from a section of Wise County; Salem City was created from a section of Roanoke County; South Boston was created from a section of Halifax County (there are no ICC codes for these cities)</p> <p>OBE, DUN, and IBM associate independent cities and assign a code to the following groupings:</p> <p>Albemarle County and Charlottesville City, Allegheny County, Clifton Forge City and Covington City, Arlington County and Alexandria City, Augusta County, Staunton City and Waynesboro City, Bedford County and Bedford City, Campbell County and Lynchburg City, Carroll County and Galax City, Chesterfield County and Colonial Heights City, (in 1970 Colonial Heights became a part of the Petersburg SMSA and therefore was regrouped with Dunwiddie County and Petersburg City on the OBE file), Dinwiddie County and Petersburg City, Fairfax County, Falls Church City and Fairfax City,</p>

THIS REPORT ARRANGED IN ASCENDING SEQUENCE BY FIPS

VIRGINIA

VIRGINIA

Frederick County and Winchester City, Greensville County and Emporia City, Halifax County and South Boston City, (this is the grouping on DUN and OBE files, IBM associates South Boston City with Pittsylvania County), Henrico County and Richmond City, Henry County and Martinsville City, James City County and Williamsburg City, Montgomery County and Radford City, Rosemont County and Suffolk City, Chesapeake City, Norfolk City and Portsmouth City (this is the group on DUN and OBE files; IBM assigns a separate code to each) Pittsylvania County and Danville City (on the IBM file South Boston City is associated with this group), Prince George County and Hopewell City, Virginia Beach City (a separate code on all three files), Roanoke County, Roanoke City and Salem City, Rockbridge County, Buena Vista City and Lexington City, Rockingham County and Harrisonburg City, Southampton County and Franklin City, Spotsylvania County and Fredericksburg City, Washington County and Bristol City, Wise County and Norton City, Newport News City and Hampton City (on the OBE file Newport News City and Hampton City are grouped with York County. On the IBM file Newport News City and Hampton City have unique codes)

Even though BPF codes are not assigned to independent cities the following independent cities which were counties when BPF originally assigned codes have a BPF code:

Norfolk City which absorbed Norfolk County, Newport News City which absorbed Warwick County, Hampton City which absorbed Elizabeth City County, Virginia Beach City which was formerly Princess Anne County.

The full GSA65 geographic code includes a city code. The independent city county equivalents in Maryland, Missouri and Virginia are assigned a GSA city code. The county code digits of the GSA code for independent cities which are recognized as county equivalents are dash filled, therefore no GSA county code for the independent cities of Virginia appear on this file.

The county component voting for ZIP Code Market areas does not include independent cities in Virginia. Therefore no ZIP code Market designation for the independent cities of Virginia appears on this file.

independent city created in 1973. Formerly Nansemond county (code 123). Previous BPF ZIP market and GSA no longer are applicable.

Dun and Bradstreet has not yet assigned an SMSA code to these recently designated SMSA counties.

Nansemond 5169501

Dinwiddie 51053  
 Prince Georges 51149  
 Colonial 51570  
 Heights City 51670

WISCONSIN

WISCONSIN

WISCONSIN

COUNTY	FIPS	ITEM	COMMENT
Menominee	55079		Menominee County is not consistently recognized as a separate county and therefore not all of the geographic coding systems on this file have a unique code for Menominee County. Fips, DUN, IPM, Census, ICC, OEP, ZIP, GSA65, and GSN72 have unique codes for Menominee. BPF, NIC and PICADAD do not. OBE consolidates Menominee and Shawano Counties in Wisconsin and assigns the same county code to each.

COMMENT

COUNTY	FIPS	ITEM
Park	5602902	YHP

Originally these sections of Yellowstone National Park located in Idaho, Montana, and Wyoming were recognized as three separate county equivalents with unique codes. FIPS, OEP, NIC and census no longer recognize those sections of Yellowstone National Park located in Idaho and Wyoming as separate county equivalents. OBE, GSA65 and GSA72 do not recognize those sections of Yellowstone National Park located in any of three states (Idaho, Montana and Wyoming) as separate county equivalents. However DUN, DM, BFF and ICC still maintain three unique codes for those sections of Yellowstone National Park located in Idaho, Montana, and Wyoming. The code number which appears in this column in cases where the system has no separate code for Yellowstone National Park in Wyoming (FIPS, OEP, NIC, Census and GSA65) is that of the county, Park, in which it is located. The old OBE code for this Yellowstone section of Park County appears on this file because although OBE no longer recognizes this section as a separate county equivalent ONE maintains the old code on its file.
