# Advisory Circular

**Subject: ADVISORY CIRCULAR CHECKLIST  
and Status of Other FAA Publications**

**Date: 8/15/97  
Initiated By: ABC-100**

**AC No: 00-2.11**

**1. Purpose.** This circular transmits the revised checklist of the Federal Aviation Administration's (FAA) Advisory Circulars (AC's). It also lists certain other FAA publications sold by the Superintendent of Documents, U.S. Government Printing Office (GPO). This checklist is available via the Internet at <http://www.faa.gov/abc/ac-chklst/actoc.htm>. See Appendix 6 for access information.

**2. Cancellation.** AC 00-2.10 dated August 15, 1996, is canceled.

**3. Explanation of AC system.** The FAA issues advisory circulars to inform the aviation public in a systematic way of nonregulatory material. Unless incorporated into a regulation by reference, the contents of an advisory circular are not binding on the public. Advisory circulars are issued in a numbered-subject system corresponding to the subject areas of the Federal Aviation Regulations (FAR's) (Title 14, Code of Federal Regulations, Chapter I, Federal Aviation Administration). An AC is issued to provide guidance and information in a designated subject area or to show a method acceptable to the Administrator for complying with a related Federal Aviation Regulation.

**4. The Advisory Circular Checklist.**

**a. General.** The checklist is divided into six appendices. Appendix 1 lists cancellations and additions that have occurred since the previous issuance. Appendix 2 explains the numbering system. Appendix 3 gives in numeric sequence the title and issuance date for each circular listed. A brief explanation of the contents is given for each entry. For cross-referencing purposes an alphabetical section is provided as Appendix 4. (The airplane symbol preceding the AC number indicates that it is new or updated since the previous edition.) A list of FAA publications sold by GPO is provided in Appendix 5. You may order the desired publications by using the forms/blanks located in Appendix 6.

**b. Omitted numbers.** In some series, consecutive numbers may be missing. These numbers were assigned to

advisory circulars still in preparation which will be issued at a later date or were assigned to advisory circulars that have been canceled.

**5. How to order:**

**a. Free Advisory Circulars (AC's).** If no price is given after the AC, it is free. You can expedite the delivery of your order by using the special order blank in Appendix 6 (photocopies are acceptable) or send it by FAX: 301-386-5394. Distribution personnel will send up to ten copies of any free publication. Larger quantities must be approved by the issuing office. Send your order for free AC's to:

When "(Sub.)" is identified with the price, the publication is available on a subscription basis only; supplements or changes to the basic document will be sent to you at no additional charge until the subscription expires. Orders for mailing to foreign countries should include an

additional 25 percent of the total price to cover handling. C.O.D. orders are not accepted

3. Within the General Subject Number Areas, specific selectivity in advisory circular mail lists is available corresponding to the applicable FAR Parts. For example: under the 60 general subject area, separate mail lists for advisory circulars issued in the 61, 63, 65, or 67 series are available. An AC numbered "60" goes to all numbers in the 60 series—61, 63, 65, 67. Breakdown of subject numbers. When the volume of circulars in a series warrants a subsubject breakdown, the general number is followed by a slash and a subsubject number. Material in the 150 series, Airports, is issued under the following subsubjects:

- 150/5000** Airport Planning.
- 150/5020** Noise Control and Compatibility Planning for Airports.
- 150/5100** Federal-aid Airport Program.
- 150/5150** Surplus Airport Property Conveyance Programs.
- 150/5190** Airport Compliance Program.
- 150/5200** Airport Safety - General.
- 150/5210** Airport Safety Operations (Recommended Training, Standards, Manning).
- 150/5220** Airport Safety Equipment and Facilities.
- 150/5230** Airport Ground Safety System.
- 150/5240** Civil Airports Emergency Preparedness.
- 150/5300** Design, Construction, and Maintenance-General.
- 150/5320** Airport Design
- 150/5325** Influence of Aircraft Performance on Aircraft Design
- 150/5335** Runway, Taxiway, and Apron Characteristics.
- 150/5340** Airport Visual Aids.
- 150/5345** Airport Lighting Equipment
- 150/5360** Airport Buildings.
- 150/5370** Airport Construction.
- 150/5380** Airport Maintenance.
- 150/5390** Heliports.

4. Individual circular identification numbers. Each circular has a subject number either followed by a dash and a consecutive number (135-15) or a period with a specific FAR section number, followed by a dash and a consecutive number (135.169-2) identifying the individual circular. This consecutive number is not used again in the same subject series. Revised circulars have a letter A, B, C, etc., after the consecutive number to show complete revisions. Changes to circulars have Chg. 1, Chg. 2, Chg. 3, etc., after the identification number on pages that have been changed. The date on a revised page is changed to the date of the Change transmittal.

## FAA PUBLICATIONS SOLD BY GPO

**Stock Numbers**

Superintendent of Documents stock numbers (SN) have been included to aid personnel in processing orders. Please use them when ordering-along with the title and FAA publication number. To avoid unnecessary delays, do not order single-sales material and subscription sales material on the same order form as orders are separated for processing by different departments when they arrive at Superintendent of Documents. Be sure your name and address appear on each list.

**Prices**

Prices shown were in effect on the date indicated on this list. Government documents prices are subject to change without prior notice, therefore the price in effect when your order is processed will be the price charged for each publication ordered.

Make check or money order in the amount listed to Superintendent of Documents. Mail it with the exact title and stock number of the publications you are ordering to: *Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954*. GPO operates U.S. Government bookstores all around the country. For your convenience, a list of these bookstores is shown in this appendix. Both the commercial and FAX telephone numbers are listed after each address. All GPO bookstores accept VISA, MASTERCARD, and Superintendent of Documents deposit account orders.

## **ELECTRONIC BULLETIN BOARD ACCESS INFORMATION**

### **FAA CORPORATE BULLETIN BOARD (FAACBB)**

The FAA Corporate Bulletin Board system (FAACBB) is a centralized means of distributing information to the FAA and to the public. The FAACBB can be accessed via a toll free 1 800 number in conjunction with a PC and a modem. The FAACBB can handle up to eight calls simultaneously. The FAACBB contains such information as the Advisory Circular Checklist, the AF special interest group area, the Air Traffic Quality Assurance and the Flight Standards Bulletins, to name a few.

The FAACBB also has an interchange facility that allows users to use the FAACBB as a gateway to other FAA Bulletin Boards including the Airports BB, Air Traffic Operations BB, Pilot Exam BB, Aeromedical Forum BB, and the Safety Data Exchange BB to name a few. Some of the Advisory Circulars can be found posted on the Safety Data Exchange BB.

The FAACBB is maintained by the Office of Information Technology (AIT) for agency use. The FAACBB can be dialed at 1-800-224-6287. A PC with a modem and communications software will be required. The first time you call the FAACBB, you will be prompted by the system to answer some questions on-line. This is required by any user wishing to access the system. It is necessary to answer these questions since this is how to obtain your user ID and password in order to fully access the FAACBB. You will be required to fill out this on-line questionnaire only once. More information on the FAACBB is available by calling the AIT help desk at 202-267-9920.

### **OFFICE OF AIRPORT SAFETY AND STANDARDS ELECTRONIC BULLETIN BOARD (BBS)**

Several publications initiated by the Office of Airport Safety and Standards contain information that changes often. An electronic bulletin board has been established to provide timely access to such information. Certain new and changed advisory circulars and technical reports will be available for downloading from the bulletin board immediately upon their approval. In addition, several computer programs of use to airport operators and designers have been produced by the Office of Airport Safety and Standards. They also may be downloaded from the bulletin board. A list of the current dates and version numbers of all 150 (Airports) series advisory circulars and many other publications issued by the Federal Aviation Administration (Advisory Circular Checklist) is posted, indicating which are presently available for downloading. There is no charge to access the bulletin board or download information.
