- (a) For a county included within the jurisdiction of a statutorily created regional transportation planning agency, such agency.
- (b) For a county which is not included within the jurisdiction of a statutorily created regional transportation agency but for which there is a council of governments, and an election has not been made pursuant to Section 29536, such council. For a county which is not included within the jurisdiction of a statutorily created regional transportation agency but for which there is a council of governments for which an election has been made under the provisions of Section 29536 to form a local transportation commission, such local transportation commission authorized in Section 29535.
- (c) For a county not within the jurisdiction of a statutorily created regional transportation planning agency or a council of governments, the local transportation commission authorized in Section 29535.

### **LOCAL TRANSPORTATION COMMISSION (LTC)**

Section 29535 of the Government Code

Within each county which is not within the jurisdiction of a statutorily created regional transportation planning agency or a council of governments, a local transportation commission shall be established and composed of three members appointed by the board of supervisors, three members appointed by the city selection committee of the county or by the city council in any county in which there is only one incorporated city, and, where applicable, three members appointed by a transit district and one member representing, collectively, the other transit operators in the county. However, in a county in which there are no incorporated cities, five members may be appointed to the commission by the board of supervisors.

The appointing authority, for each regular member it appoints, may appoint an alternate member to serve in place of the regular member when the regular member is absent or disqualified from participating in a meeting of the commission.

#### **METROPOLITAN PLANNING ORGANIZATION (MPO)**

An organization designated by the Governor as a forum for cooperative transportation decision making for the metropolitan planning area. Federal provision requires an MPO in urbanized areas.

#### **CONGESTION MANAGEMENT PROGRAM AGENCY (CMA)**

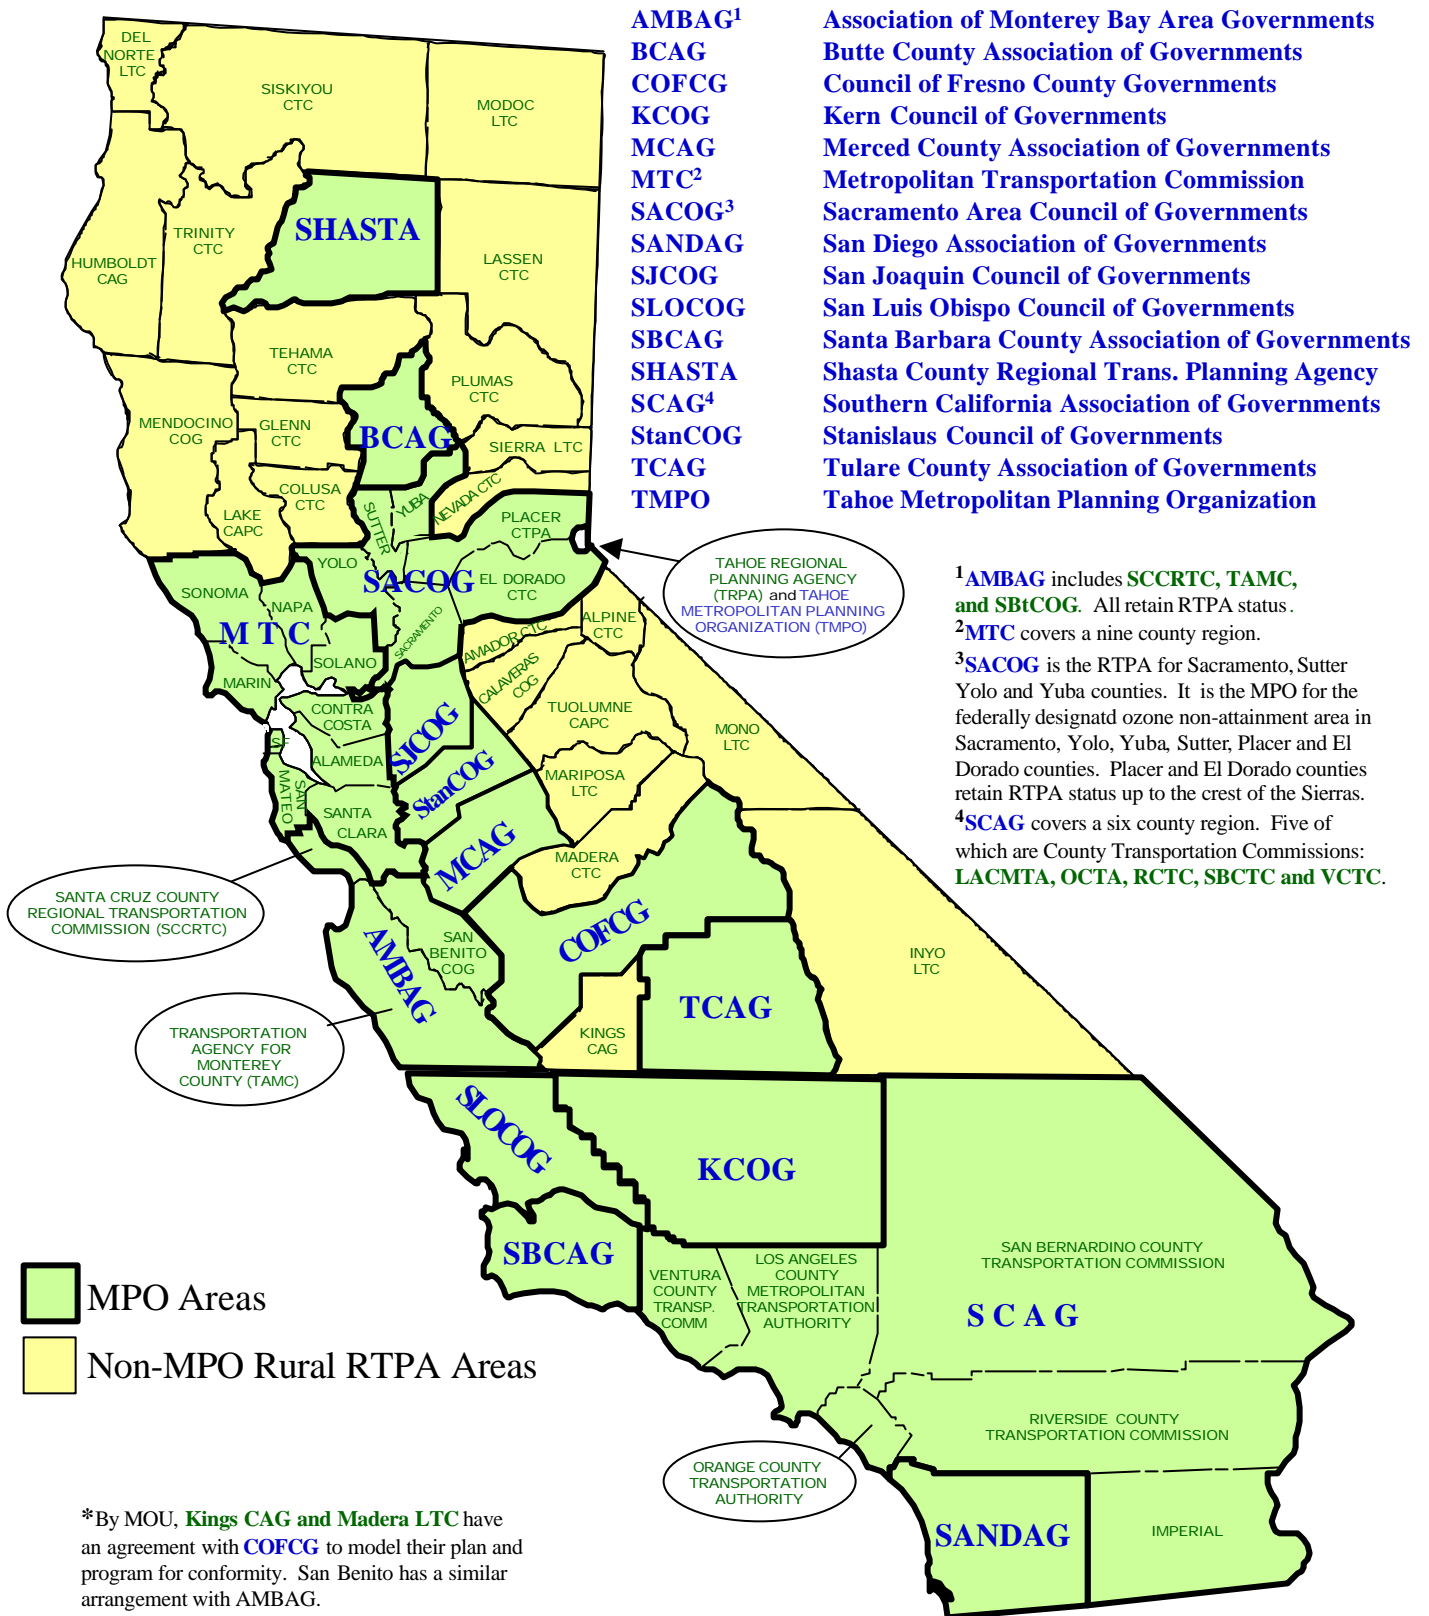

CMAs develop the Congestion Management Program in consultation with other agencies. CMAs can be either the Local Transportation Commission (as defined by Public Utilities Code 130000) or another public agency, as designated by resolutions adopted by the county board of supervisors and the city councils of a majority of the cities representing a majority of the population in the incorporated area of the county. If the county and cities agree, they can either designate an existing agency or form a new agency to develop and monitor the CMP.
