| 16. Abstract<br><br>The 2007 Motor Vehicle Occupant Safety Survey was the sixth in a series of periodic national telephone surveys on occupant protection issues conducted for the National Highway Traffic Safety Administration (NHTSA). Data collection was conducted by Schulman, Ronca & Bucuvalas, Inc., a national survey research organization. The survey used two questionnaires, each administered to a randomly selected national sample of about 6,000 persons age 16 or older. Interviewing began January 9, 2007 and ended April 30, 2007. This report presents the detailed information on the survey methodology, as well as copies of the questionnaires. |                                                      |                                                                                                                                                                                                                  |           |

### Study Design

The 2007 Motor Vehicle Occupant Safety Survey (MVOSS), like the baseline Motor Vehicle Occupant Safety Survey in 1994 and its follow-up surveys in 1996, 1998, 2000, and 2003 was conducted by telephone. Hence, the study procedures called for the construction of a national sampling frame of telephone households from which a random population sample could be derived. For each of the two survey instruments (one focusing on seat belts and the other on child restraints, with a common core of questions relating to personal characteristics and driving behaviors), a national probability sample was developed. Each sample was composed of a cross-sectional sample of approximately 4,500 persons 16 and older, and an over-sample of approximately 1,500 persons ages 16 through 39. Since the sampling procedures and data collection methodology for the two samples were identical, procedures described in this report for one sample apply to the other as well.

The procedure for developing a population-based sample for this telephone survey involved four stages. The first stage sample involved using a population-based sample allocation, distributed in proportion to the geographic distribution of the target population according to the most recent Census estimates. The second stage employed a systematic selection of assigned land-line telephone banks within the geographically stratified first stage sample design. The third stage used a random digit dialing (RDD) sampling of telephone households within the telephone banks selected in the second stage. The fourth stage required the identification and systematic selection of one eligible respondent within each sampled household so that the household sampling frame yielded a representative sample of the eligible population. These procedures yielded national estimates of the target population, within specified limits of expected sampling variability, from which valid generalizations can be made to the general public. The sampling procedures used to develop the sample for the 2007 surveys were the same as those used to draw the samples for the 2003, 2000, 1998, 1996 and 1994 surveys.

There were several differences in study methodology between the current 2007 MVOSS and earlier surveys. First, the field period was changed from November-January in the surveys in 1994, 1996, 1998 and 2000 to January-March in 2003. In 2007, the field period was extended from January to April in order to permit an extended callback protocol for the survey. Second, there was a change in the contact protocol to increase the maximum contact attempts from a 5-call design to a 10-call design in 2003. In order to improve response rates, the 2007 survey was initially designed for a maximum of 17 contact attempts, 12 contact attempts to reach a household and an additional 5 contact attempts to reach and interview the designated respondent. The maximum number of contact attempts was subsequently increased to 22, 12 contacts to reach the household and 10 more contact attempts to interview the designated respondent. The extended call design increased the likelihood of including younger and more mobile respondents, who are less likely to be at home and reached in a five or ten call design, as well as increasing the response rate. Third, the earlier surveys had included a gender quota by geographic area to avoid over-representing women in the achieved sample. In the 2007 MVOSS, gender quotas were eliminated. Instead, the probability of selection was increased for males in households in which there were multiple eligible respondents. Finally, several experiments were performed as

## **2007 Motor Vehicle Occupant Safety Survey: Methodology**

part of the 2007 MVOSS, including a cell phone sample component and a test of the effects of advance letters on response rate to the survey.

### Cognitive Testing and Questionnaire Revisions

Although the two questionnaires for the 2007 MVOSS were identical to the 2003 MVOSS, several new or revised items were planned for the Version II questionnaire in 2007. Consequently, cognitive testing was conducted on the Version II questionnaire to measure how respondents might interpret and respond to new or revised questions. The cognitive testing process involved a series of standardized probes that were introduced at specified points in the draft questionnaire used to interview respondents. The objective was to identify any questions or response categories that posed problems for respondents with encoding, recall or decision processes prior to the full implementation of the survey.

A total of nine one-on-one cognitive interviews were conducted on December 7, 2005, with persons selected from the general public. The cognitive interviews were conducted by two researchers from SRBI: one who asked the basic survey questions and another who asked the cognitive probes. This two-person approach was utilized to ensure that all of the appropriate questions were asked for both the regular survey and the cognitive testing.

The cognitive testing of the instrument was performed by adding probes at various points during the interview designed to measure respondents' understanding of the questions and response options being offered. Illustrative probes used in the cognitive testing included the following:

- Please restate this question in your own words.
- What does.... mean to you?
- Are there any other answer categories I should have provided?
- As I read the following items, please tell me if any are confusing.
- Is there another term we should use?
- What types of answers did you think I was looking for?
- Was this question hard to answer?
- Can you rephrase the question to make it clearer?
- How did this question differ from the previous question?
- What part of the question did you focus on when you came up with your answer?

Respondents indicated a basic level of understanding of the questions asked and were able to accurately rephrase questions when probed. Respondents also indicated a basic level of understanding of specific words and phrases when probed. When asked to discuss the thought process for some questions, respondents tended to indicate that they generally thought about their own experiences when answering questions. Those respondents familiar with specific aspects of child safety seats were able to describe them and (on occasion) offer suggestions for alternative item descriptions. As a result of the cognitive testing, several questions and answer selections were modified slightly for clarity.

### Sample Construction

Most of the statistical formulas associated with sampling theories are based upon the assumption of simple random sampling. Specifically, the statistical formulas for specifying the sampling precision (estimates of sampling variance), given particular sample sizes, are premised on simple random sampling. Unfortunately, random sampling requires that all of the elements in the population have an equal chance of being selected. Since no enumeration of the total population of the United States (or its subdivisions) is available, all surveys of the general public are based upon an approximation of the actual population and survey samples are generated by a process closely resembling true random sampling.

The survey samples were based on a modified stratified random digit dialing method, using an area probability/RDD sample rather than a single-stage/RDD sample. There are several important advantages to using an area probability base: (1) it draws the sample proportionate to the geographic distribution of the target population rather than the geographic distribution of telephone households, which is vital to constructing unbiased population estimates from telephone surveys; (2) it allows greater geographic stratification of the sample to control for known geographic differences in non-response rates; and (3) it facilitates the use of Census estimates of population characteristics to weight the completed sample to correct for other forms of sampling and non-sampling bias. Moreover, the precision of sample estimates is generally improved by stratification.

Hence, as specified for the study design for the survey, the adult household population of the United States was stratified by the ten NHTSA regions. The estimated distribution of the population for 2007 by stratum was calculated on the basis of the Bureau of the Census, Interim State Projections of Population by Single Year of Age and Sex: July 1, 2004 to 2030, (release date, April 21, 2005). At the time of the survey, these were the most recent projections of the distribution of adult population by state. Based on the Census data on the geographic distribution of the target population, the total sample was proportionately allocated by stratum. The expected geographic allocation of the cross-sectional sample for the survey is presented in Table 1 (this table does not include the 1,500 cases from the over-sample).

Once the sample had been geographically stratified with sample allocation proportionate to population distribution, a sample of assigned telephone banks was randomly selected from an enumeration of the Working Residential Hundreds Blocks of the active telephone exchanges within the region. The Working Residential Hundreds Blocks were defined as each block of 100 potential telephone numbers within an exchange that included 3 or more residential listings. (Exchanges with one or two listings were excluded because in most cases such listings represent errors in the published listings). The sampling frame for working hundreds blocks in all surveys using random digit dialing is restricted to land-line telephones since there are no public listings of cell phones. Further, federal law prohibits the use of auto-dialers in calling of cell phone numbers. Hence, any known cell phone banks and numbers ported from land-line to cell phone are systematically excluded from the RDD land-line samples.

Source: Interim State Projections of Population by Single Year of Age and Sex: July 1, 2004 to 2030, U.S. Bureau of the Census, Population Division, Populations Projections Branch, <http://www.census.gov/population/www/projections/projectionsagesex.html>, (release date, April 21, 2005).

In the third stage sample, a two-digit number was randomly generated by computer for each Working Residential Hundreds Block selected in the second stage sample. This third stage sampling process is the random digit dialing (RDD) component. Every telephone number within the Hundreds Block has an equal probability of selection, regardless of whether it is listed or unlisted.

The third stage RDD sample of telephone numbers was then dialed by SRBI interviewers to determine which were currently working residential household phone numbers. Non-working numbers and non-residential numbers were immediately replaced by other RDD numbers selected within the same stratum in the same fashion as the initial number. Ineligible households (e.g., no adult in the household, language barriers other than Spanish) were also immediately replaced. Non-answering numbers were not replaced until the research protocol (in this study, a ten-call protocol) was exceeded.

#### Screening to Determine Household Eligibility

The sample construction process yielded a population-based, random digit dialing sample of telephone numbers. The systematic dialing of those numbers to obtain a residential contact yielded a random sample of telephone households. The next step was to select eligible households within the total sample of working numbers.

An adult respondent at each number drawn into the sampling frame was contacted about the composition of the household. Telephone numbers that yielded non-residential contacts such as businesses, churches, and college dormitories, were screened out. Only households, i.e., residences in which any number of related individuals or no more than five unrelated persons living together, were eligible for inclusion in the sample. This minimal screening was only to ascertain that the sample of telephone numbers reached by interviewers was residential households.

### Selection of Respondent Within Household

The multi-stage sampling process described in the previous sections yielded a random national sample of households with telephones, drawn proportionate to the population distribution. The final stage required the selection of one respondent per household for the interview.

A systematic selection procedure was used to select one designated respondent for each household sampled. First, the total number of age-eligible adults in the household was ascertained from a household informant. If there was only one eligible adult in the household that individual was the designated respondent. If there was more than one age eligible respondent in the household, the number of eligible males and females was ascertained.

The "most recent/next birthday method" was used for within household selection among multiple eligibles. The most recent/next birthday procedure has been widely used for two decades because it permits unbiased systematic selection without requiring full household enumeration.<sup>1</sup> The Within Household Selection Procedure is presented in Figure 1.

In the 2003 MVOSS and previous surveys, the CATI program included a gender quota by geographic division in order to avoid the over-representation of women that usually occurs in random digit dialing surveys even when the most recent birthday selection procedure is used. In the 2007 MVOSS the gender quota was dropped in favor of a probability based selection procedure designed to avoid an over-representation of women. When the age eligible respondents were exclusively from one gender in a household, the most recent birthday screen was applied. However, when there were age eligible respondents in the household from both genders, the program selected the eligible gender for that household according to an algorithm that sampled males at a higher rate than females when both were present. The program then asked for the selected gender in the household who had the most recent/next birthday. The CATI system alternated the "most recent" and "next" birthday specification for the selected respondent to avoid a temporal bias for birthdays before (or after) the field period.

**Young Adult Over-Sample**

The survey design specified an over-sample of 16-39 year olds in the achieved sample in order to permit more detailed analysis of this subset of the population. A random sample of all persons age 16 and over in an RDD sample of 6,000 households yields too few individuals in this range to allow very close examination. Therefore, to increase the sub-sample sizes of the 16-39 year olds, within a projectable national sample, an independent national sample was conducted of that population. The allocation of sample by region for the young adult over-sample was proportional to the regional distribution of that population. The household selection procedure through RDD was the same for the over-sample as for the national cross-sectional sample.

The screening criteria for the over-sample were different from the simple cross-section in that households were screened for persons age 16 to 39. This systematic screening of a national probability sample of households for a subset of the total household population should yield a random sample of that population. As in the case of the simple cross-sectional sample, if there was only one eligible respondent in the household then he or she was selected. If there was more than one eligible respondent, then the "most recent/next birthday" method of selection was used. The over-sample screener script is presented in Figure 2.

### Contact Attempts

Initial telephone contact was attempted during the hours of the day and days of the week that have the greatest probability of respondent contact. The primary interviewing period was from 5:30 p.m. to 9:30 p.m. on weekdays, from 9:00 a.m. to 9:30 p.m. on Saturdays, and from 10:00 a.m. to 9:30 p.m. on Sundays (all are local time). Since interviewing was conducted across time zones, the interviewing shift lasted until 12:30 a.m. Eastern Time (9:30 p.m. Pacific Time).

If the interview was not conducted at the time of initial contact, the interview was rescheduled at a time convenient to the respondent. Although initial contact attempts were made on evenings and weekends, daytime interviews were scheduled when necessary. If four telephone contacts on the night and weekend shifts did not elicit a household contact, the fifth contact was attempted on a weekday during the daytime.

Interviewers attempted a minimum of 12 calls to each telephone number to reach a household. When the household was reached, the interviewer asked to speak to an adult to screen the household for eligibility and to determine the designated respondent. When the designated respondent was reached but an interview at that time was inconvenient or inappropriate, interviewers set up appointments with respondents. When contact was made with the household, but the designated respondent was not available, interviewers probed for appropriate callback times for an appointment. After a household was reached, an additional 10 calls were made to reach and interview the designated respondent.

The contact protocol specified that the fifth call to reach a household be made during weekdays. Messages were left on the answering machine on the sixth, eighth and tenth calls, if an answering machine was encountered on those attempts. The first answering machine message explained that the household had been selected as part of a USDOT study of American driving habits and attitudes, and asked the respondent to call SRBI's toll-free number to schedule an interview. The subsequent answering messages also included the DOT website where they could get more information about the study.

Once a household had been reached, up to 10 additional contact attempts were made to reach the designated respondent. These additional contact attempts were set to occur every 47 hours unless a scheduled callback was made with a respondent. Additional daytime contact attempts were made, along with nights and weekends. Additional answering machine messages were left periodically during the extended callback period. Although the maximum number of contact attempts was 22 according to the study protocol (12 to reach a household and 10 to interview the designated respondents), additional callbacks were made if requested by the designated respondent.

### Spanish Language Interviews

Spanish language versions of the two survey instruments were developed in order to eliminate language barriers for a small proportion of the U.S. adult population. The questionnaires were translated into Spanish by a professional translation firm. The Spanish

## **2007 Motor Vehicle Occupant Safety Survey: Methodology**

questionnaires were then back-translated to English by a different translator and checked for comparability. Any translations that were not comparable were revised to be accurate and precise to the original intent of the English questionnaire.

If the interviewer encountered a language barrier at the telephone number, either with the person answering the phone or with the designated respondent, the interviewer thanked the person and terminated the call. If the case was designated as Spanish language, it was turned over to the next available Spanish-speaking interviewer.

All households in which a language barrier (Spanish) was encountered were assigned to a Spanish-speaking interviewer. These bilingual interviewers re-contacted the Spanish-speaking households to screen for eligibility and conduct interviews with eligible respondents.

### Refusal Conversion

The process of converting terminations and refusals, once they had occurred, involved the following steps. First, there was a diagnostic period, when refusals and terminations were reported on a daily basis and the Project Director and Operations Manager reviewed them after each shift to see if anything unusual was occurring. Second, after enough time had passed to see a large enough sample of refusals and terminations, the Project Director and his staff developed a refusal conversion script. Third, the refusal conversion effort was fielded with reinterview attempts scheduled about a week after the initial refusal. Fourth, the Project Director and Operations Manager received the outcomes of the refusal conversion efforts on a daily basis. Minor revisions of the script and the procedures were made, as needed. The final refusal conversion script is shown in Figure 3, on the following two pages.

**FIGURE 3**  
**Refusal Conversion Script**

Hello, my name is \_\_\_\_\_. I am a field supervisor with SRBI, a national research organization in New York. I believe that someone in your household may have been contacted by one of our interviewers concerning a public policy study that we are conducting for the U.S. Department of Transportation in Washington, D.C.

Yes, respondent.....1

Yes, other.....2

No, don't recall.....3

1. In order to assess the effectiveness of current traffic laws, the U.S. Department of Transportation is conducting a study of Americans' attitudes about current driving laws. It is a public opinion study that will help the government to consider traffic laws in light of what the public really wants and does. It only takes about fifteen minutes and it's strictly confidential.

Willing to proceed.....1 GO TO SELECTION GRID

Refuses.....2

2. I understand. My job as a field supervisor is to find out if there are any problems with our surveys or interviewers that are discouraging people from participating. Could you tell me if we have done something wrong or is there something about the interview that concerns you?

IF: I don't do surveys.

ANSWER: I understand, but this survey examines whether our traffic laws are realistic and appropriate in terms of what people really want and really do. The results may affect laws in your state. It is really important.

IF: I don't know if you are who you say you are.

ANSWER: I can give you our 800 number to call and confirm the authenticity of the study.

IF: I don't know how the results will be used.

ANSWER: The Department of Transportation has been charged to collect information about public opinion and behavior related to traffic laws, in order to assist them in determining whether certain laws should be changed or not. That's why we need to talk to you.

IF: I don't drive.

ANSWER: Then the interview should only take a few minutes. Even if you don't drive, we need to get your opinion about some traffic laws that may affect you as a pedestrian. We also need a little background about non-drivers, but it won't take long at all.

**FIGURE 3**  
**Refusal Conversion Script**  
**(continued)**

IF: Don't know enough.

ANSWER: This is an opinion survey about driving, traffic safety and traffic laws based on your experience. We need to talk to all kinds of people to get a true picture of what ordinary Americans think, not just what "experts" say.

IF: I don't want the government to know about me/ what I do.

ANSWER: The interview is strictly confidential. Your telephone number was selected at random. As soon as we complete the interview and verify it, we destroy the phone number. No one will ever know who you are. We do this so that you can be comfortable in telling us what you really think, not what you think the government wants to hear.

IF: It's a bad time.

ANSWER: We can schedule a callback for a time that would be good for you.

Date \_\_\_\_\_ Time \_\_\_\_\_

**IF STILL HESITANT SAY:**

It is really important that we represent the views and experience of people like yourself so that the findings will be fair and accurate. You don't often get a chance to participate in studies that may affect the laws in your community. It's really important and we really want to represent your household in the study. If now is a bad time, we can schedule the interview during the day, in the evening, or on the weekend whenever is better for you.

**(IF SUGGESTS A TIME MORE THAN TWO WEEKS HENCE:**

We are supposed to finish the study by the end of (February/March). Could we find some time this week (or next) to do the interview?)

Date \_\_\_\_\_ Time \_\_\_\_\_

**IF AGREEABLE, GO TO THE SELECTION GRID.**

**IF STILL REFUSES, THANK AND COMPLETE.**

## 2007 Motor Vehicle Occupant Safety Survey: Methodology

### OMB Requested Experiments - Pre-notification and Cell Phone

In an attempt to better determine the most effective ways to improve sample estimates from the survey, the Office of Management and Budget (OMB) suggested that the 2007 MVOSS include two experiments: 1) a test of the effect of pre-notification letters on response rate in an RDD survey and 2) a test of the use of a cell phone sample to recruit cell phone only households into a national RDD survey. These experiments were conducted using the Questionnaire A version of MVOSS.

#### Pre-notification Experiment

Using replicate samples from the national RDD sample, two samples of 1,000 households were constructed. The telephone numbers drawn for both samples were submitted to an electronic telephone number/name and address matching service. The matches are made on the basis of telephone directory listings. The proportion of matched numbers out of the total sample was 37.9% for the first sample (AE1a) and 39.2% for the second sample (AE1b).

The drawn sample in both replicates was fielded for the telephone survey. However, the sub-sample for which name and address had been obtained in the first sample was sent a pre-notification letter informing the household that they had been selected to participate in the study. The letter contained a toll-free number and the DOT website address. These households and the control group (sample not sent a pre-notification letter) were first contacted about one week after the letters were mailed.

Tables 3a and 3b provide detailed sample information for both the pre-notification sample and the control sample. A total of 4995 numbers were dialed for this experiment (2384 pre-notification, 2611 control). Approximately 38% of the total numbers dialed in each sample were usable numbers. Of these usable numbers, nearly half (46% for the pre-notification sample and 48% for the control sample) were screened contacts.

The purpose of the experiment was to determine whether a pre-notification letter would increase response rate in a random digit dialing survey, such as MVOSS. In this experiment, however, we found no significant difference in the response rates and participation rates between the two samples. The response rate for the two samples using America Association of Public Opinion Research Response Rate 3 (AAPOR 3) is calculated using a four-step process:

1. Compute A' - estimate the number of qualified households/respondents for which eligibility was undeterminable (i.e., no answer/busy). This proportion is based on the percentage of usable (T2) numbers from the total numbers dialed;
2. Compute B' - estimate the number of eligible respondents based on the percentage of the total contacts screened minus the screenouts (ineligible because of age) divided by the total number of contacts screened;
3. Compute C' - sum the total number of eligible (screened) estimated eligible (not screened, eligibility unknown) respondents; and

4. Compute D' (response rate) - divide the total number of completed interviews by the sum of the total number of eligible (screened) estimated eligible (not screened, eligibility unknown) respondents (C').

The participation rate is calculated as the number of completed interviews and screenouts divided by the combined total number of completed interviews, screenouts, terminated interviews, and refusals to interview. The participation rate for the pre-notification sample was 63.88% compared to 62.90% for the control sample. The response rate for the pre-notification sample was 45.60% compared to 45.64% for the control sample. The 731 completed interviews (352 from the pre-notification sample and 379 from the control sample) from both samples used in this experiment are included in the data set.

### Cell Phone Experiment

Traditionally, national population-based surveys are conducted via telephone using a Random Digit Dialing (RDD) sampling procedures. The robustness of the RDD method is based on the premise that it provides a sampling frame from which a relatively unbiased sample of the national population can be derived. The introduction of the cell, mobile, or wireless phone, however, has led some households to substitute cell phones for traditional landline telephone service. In fact, other studies have shown that the percentage of cell phone only households has steadily increased, from approximately 4% in 2004 to 8% in 2005 to nearly 13% in 2006 (Blumberg, 2007). This trend toward cell phone only households in the United States suggests that the exclusion of cell phone only households in a national random sample may increase the likelihood of under-coverage bias and thus have potential implications regarding the robustness of inferences made from traditional RDD methodology which only uses landlines (Ivie et al., 2006; Brick et al., 2007; Blumberg et al., 2006; Blumberg et al., 2007).

A limited number of studies have shown that cell-only households differ from the landline households. Demographically, cell phone only individuals tend to be younger and less affluent. Also, researchers have found that higher proportions of cell-only households (compared to landline households) are minority, single and rent rather than own their place of residence (Keeter, 2006; Blumberg, 2007). More importantly, as researchers begin to incorporate methods to survey households that are cell-only, substantive differences, in addition to demographic characteristics, between cell-only and landline households are also being discovered (Blumberg, 2006).

The exclusion of the cell phone only population poses some particular concerns for the Motor Vehicle Occupant Safety Survey. Young adults, aged 16-39, are over-sampled in the surveys because they are more likely to be involved in crashes, so adult occupant safety issues are important, and they are more likely to have children for whom child restraint issues need to be addressed. To address concerns about the potential bias in survey estimates introduced by the exclusion of cell phone only households from the sampling frame, the Office of Management and Budget suggested an experiment as part of the 2007 MVOSS to assess the need and feasibility of conducting a survey of the cell-only population.

The first goal of the cell phone experiment was to determine the degree of bias introduced into key survey estimates by the exclusion of the cell phone only households. The second objective was to determine whether demographic weighting of the landline sample could correct for the coverage bias. The third objective of the experiment was to gauge whether cell-only individuals could be recruited to participate in a full 20-minute interview via a landline phone or the Internet so that coverage bias could be corrected by direct measurement rather than weighting.

The Telecordia TPM data file was used as the sampling frame for the cell phone survey. Those prefixes and blocks whose NXX type was cellular or ported were included. In addition, those blocks identified as mixed or shared blocks were included if they were not found in a national list assisted RDD sampling frame. The sample was geographically stratified based on the state code of the billing center for the number. The full 50 states and the District of

## 2007 Motor Vehicle Occupant Safety Survey: Methodology

Columbia were included in the sampling frame. A systematic selection of 100 blocks was employed in a series of replicate samples with randomization of the last two digits.

The target sample size for the national cell phone survey was 500 completed interviews. The 2006 Pew Cell Phone Survey found that more than 20% of the respondents to a national cell phone survey were cell phone only. Hence, a sample of 500 completed cell phone interviews was expected to yield more than 100 interviews with cell phone only respondents. This was viewed as an appropriate size to meet the objectives of the experiment in a cost efficient manner.

A total of 5,597 numbers were dialed to complete 502 short (7-minute) cell phone interviews with eligible respondents. More than half of the numbers dialed (53%) were non-working. Approximately 7% of the respondents reached by cell phone were ineligible either due to age (under age 16) or exclusively business phone. The AAPOR 3 response rate for the cell phone survey was 22.5%. Two in five respondents in the completed sample were cell phone only households. Nearly sixty percent of the cell phone only sample completed the full interview (102 via phone, 17 via Internet). The cell phone only respondents were invited to participate in the full 20-minute MVOSS interview (via phone or the Internet).

The cell phone only sub-sample differed significantly from the landline plus cell phone sub-sample on several demographic characteristics. The vast majority of cell-only households were comprised of the younger age cohorts. While nearly 4 in 10 (38%)<sup>2</sup> of the cell-only households were in the 16 - 24 age range, only 10% of the cell and landline households were in this same age group. Education level was also statistically significant when comparing the two sub-samples (cell-only versus both cell and landlines). A smaller proportion of cell-only households were college graduates (25%) compared to respondents who had both cell and landlines in their households (36%).

Similarly, household income was significantly lower for persons from cell-only households compared to those from cell and landline households. Seven in ten of the cell phone only respondents had incomes under \$50,000, compared to only 41% of the persons with cell phones and landlines. By contrast, those from households with both cell phone and landlines were more than twice as likely to have incomes over \$100,000 (17%) compared to the cell phone only respondents (7%).

When comparing cell phone only respondents to landline respondents on several key motor vehicle occupant habits and attitudes, we found only one significant difference. When asked how often they wear their seat belts when riding in the front seat (not as the driver), 87% of the landline respondents indicated that they wore their seat belt all of the time, compared to only 74% of the cell-only respondents. This difference is statistically significant.

As earlier research has suggested (and this experiment confirms), cell-only households have a higher proportion of the younger age cohort. For MVOSS this may become an important issue especially if there are differences between the cell-only and landline households within this age cohort in vehicle occupant habits and attitudes. However, when comparing cell phone only

---

<sup>2</sup> Significance statistics exclude respondents who answered "don't know" or "refused."

## **2007 Motor Vehicle Occupant Safety Survey: Methodology**

respondents to landline respondents in the 30 and under age cohort on several key motor vehicle occupant habits and attitudes, we found no major differences. Additionally there were only two statistically significant demographic differences: a higher proportion of the 21-24 age cohort in the cell-only sample (35% cell-only, 21% cell and landline) and a higher proportion of cell-only respondents reporting a total household income of less than \$5,000 (13% cell-only, 6% cell and landline).

In summary, the results of the cell phone experiment suggest that 1) while there are significant demographic differences between cell-only and landline households; there were no great differences in key motor vehicle occupant habits and attitudes estimates; thus 2) demographic weighting of the landline sample (i.e., age, income and education-level) might be employed to correct for the coverage bias; and 3) cell-only individuals are willing to participate in a full 20-minute interview via a landline phone more so than the Internet (suggesting that it might be possible to correct possible coverage bias by direct measurement rather than weighting).

The completed surveys from this experiment are not included in the final data analysis. After discussing with OMB how these completed surveys should be incorporated, it was decided that the size of the weights required to incorporate the cell-only respondents would introduce too much design effects into the estimates.

### Field Outcomes

Survey data collection by the Federal government requires prior approval by the Office of Management and Budget (OMB). NHTSA published a Notice in the Federal Register soliciting comments on the information collection. The Notice appeared in the Federal Register, 70:131, pages 39851-39852, July 11, 2005. NHTSA then submitted the request for data collection to OMB. OMB approved the information collection on June 30, 2006, assigning it the OMB number 2127-0645 with an expiration date of June 30, 2009.

The field interviewing for the study commenced on January 9, 2007, following training of the field interviewers, and was completed on April 30, 2007. This was about one month longer than the field period for the 2003 Motor Vehicle Occupant Safety Survey (January 8, 2003 to March 30, 2003), in order to accommodate the longer callback protocol. Also, starting with the 2003 study, the field period start for the survey was moved from November-January to January-March in order to permit us to report results in the same calendar year as the data were collected.

A total of 5,908 interviews were conducted using Version 1, including 4,397 for the cross-section and 1,511 for the young adult over-sample. The average interview length for Version 1 was 18.05 minutes for the cross-section and 18.8 minutes for the over-sample. A total of 6010 interviews were completed using Version 2, including 4,510 for the cross-section and 1,500 for the young adult over-sample. The average interview length for Version 2 was 17.0 minutes for the cross-section and 18.8 minutes for the over-sample.

An overview of the sample disposition categories is presented in Figure 4.

**FIGURE 4**  
**Sample Disposition Categories**

|                     |                                                                                                                                                                 |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NIS/DIS/Change #    | The number was not in service, disconnected, or no longer an active number.                                                                                     |
| Non-residential     | The number yielded a contact with a business, government agency, pay telephone, or other identifiable non-residential unit.                                     |
| Computer/Fax        | The number yielded an electronic tone indicating a fax machine or data line. A handful of other non-household numbers are included in this category.            |
| Line problems       | These represent dialing attempts that did not result in other standard outcomes and may be bad area codes, or other transient or permanent connection problems. |
| Probably unassigned | No answers, exclusively, were encountered on every contact over a period of several weeks until the study protocol (10 attempts) was reached.                   |
| Non-contact (max)   | Answering machines or busy signals, as well as no answers, were encountered on all contact attempts until the study protocol (10 attempts) was reached.         |
| No answer/busy      | No household contact ever achieved, but less than 10 attempts. Ring, no answer or repeated busy signal on last attempt.                                         |
| Answering machine   | No household contact ever achieved, but less than 10 attempts. An answering machine was reached at the telephone number.                                        |
| Language barrier    | The interview could not be completed because of language barriers other than Spanish (which was treated as Spanish callback).                                   |
| Health/Deaf         | The designated respondent was unable to participate due to health or deafness.                                                                                  |
| Away for duration   | The designated respondent was out of the area for the entire field period.                                                                                      |
| Screen-Outs         | Households whose eligible participants did not meet the 16-39 age requirement in the over-sample version.                                                       |
| Callback            | Contact was made with the household, but not necessarily the designated respondent                                                                              |
| Refusal -- Initial  | Someone in the household refused before selection of a designated respondent.                                                                                   |
| Refusal -- Second   | Either an extremely strong initial refusal or a second refusal was encountered during refusal conversion, but before selection of a designated respondent.      |
| Qualified Callback  | The designated respondent had neither completed, nor refused an interview.                                                                                      |
| Refusal – Qualified | The designated respondent refused to participate in the survey.                                                                                                 |
| Terminate           | A respondent began the interview but refused to finish.                                                                                                         |
| Complete            | An interview was completed with the designated respondent.                                                                                                      |

## 2007 Motor Vehicle Occupant Safety Survey: Methodology

For the Version 1 Cross-Section (age 16 and older)- Seat Belt Usage Issues survey, 4,397 interviews were completed from the 29,564 randomly selected telephone numbers sampled within a geographically stratified national sampling frame (see Table 4). Of the telephone numbers dialed:

- 60% of the numbers were not active residential phone numbers, including 42% pre-screened or individually dialed Not-In-Service or Disconnected Numbers; 12% Business Numbers; and 6% computer, fax, cell phone or line problems;
- 5% of the numbers had reached the maximum number of contacts and were still in a no answer, status, including 1% that were probably unassigned numbers because they were consistently no answers on all ten dialing attempts;
- 1% were households in which the designated respondent was not interviewable (away for an extended period, incapacitated, or deaf) and an additional 0.74% were non-interviewable due to language barriers (non-Spanish); and
- at the close of the field period, 1216 cases (4%) were in callback status and an additional 981 cases (3%) were no answers or answering machines.

The participation rate for the Version 1 Cross-Section (age 16 and older)- Seat Belt Usage Issues survey was 67.35% and the response rate was 48.04%.<sup>3</sup>

For the Version 1 Over Sample (age 16 to 39)- Seat Belt Usage Issues survey, 1,511 interviews were completed from the 33,498 randomly selected telephone numbers sampled within a geographically stratified national sampling frame (see Table 5). Of the telephone numbers dialed:

- 55% of the numbers were not active residential phone numbers, including 38% pre-screened or individually dialed Not-In-Service or Disconnected Numbers; 12% Business Numbers; and 5% computer, fax, cell phone or line problems;
- 12% of the numbers had reached the maximum number of contacts and were still in a no answer, status, including 4% that were probably unassigned numbers because they were consistently no answers on all ten dialing attempts;
- 0.69% were households in which the designated respondent was not interviewable (away for an extended period, incapacitated, or deaf) and an additional 0.63% were non-interviewable due to language barriers (non-Spanish); and
- at the close of the field period, 903 cases (3%) were in callback status and an additional 2986 cases (9%) were no answers or answering machines.

The participation rate for the Version 1 Over Sample (age 16 to 39)- Seat Belt Usage Issues survey was 77.95% and the response rate was 45.01%.

---

<sup>3</sup> See page 19 for an explanation of how the response rate and participation rate is calculated.

## 2007 Motor Vehicle Occupant Safety Survey: Methodology

For the Version 2 Cross-Section (age 16 and older)- Child Safety Seat Issues survey, 4,510 interviews were completed from the 29,286 randomly selected telephone numbers sampled within a geographically stratified national sampling frame (see Table 6). Of the telephone numbers dialed:

- 67% of the numbers were not active residential phone numbers, including 46% pre-screened or individually dialed Not-In-Service or Disconnected Numbers; 14% Business Numbers; and 6% computer, fax, cell phone or line problems;
- 3% of the numbers had reached the maximum number of contacts and were still in a no answer, status, including 0.61% that were probably unassigned numbers because they were consistently no answers on all ten dialing attempts;
- 2% were households in which the designated respondent was not interviewable (away for an extended period, incapacitated, or deaf) and an additional 0.89% were non-interviewable due to language barriers (non-Spanish); and
- at the close of the field period, 1,414 cases (5%) were in callback status and an additional 654 cases (2%) were no answers or answering machines.

The participation rate for the Version 2 Cross-Section (age 16 and older)- Child Safety Seat Issues survey was 65.86% and the response rate was 47.84%.<sup>4</sup>

For the Version 2 Over Sample (age 16 to 39)- Child Safety Seat Issues survey, 1,500 interviews were completed from the 34,907 randomly selected telephone numbers sampled within a geographically stratified national sampling frame (see Table 7). Of the telephone numbers dialed:

- 55% of the numbers were not active residential phone numbers, including 37% pre-screened or individually dialed Not-In-Service or Disconnected Numbers; 12% Business Numbers; and 5% computer, fax, cell phone or line problems;
- 14% of the numbers had reached the maximum number of contacts and were still in a no answer, status, including 3% that were probably unassigned numbers because they were consistently no answers on all ten dialing attempts;
- 0.64% were households in which the designated respondent was not interviewable (away for an extended period, incapacitated, or deaf) and an additional 0.47% were non-interviewable due to language barriers (non-Spanish); and
- at the close of the field period, 864 cases (2%) were in callback status and an additional 3,970 cases (11%) were no answers or answering machines.

The participation rate for the Version 2 Over Sample (age 16 to 39)- Child Safety Seat Issues survey was 76.59% and the response rate was 46.66%.

---

<sup>4</sup> See page 19 for an explanation of how the response rate and participation rate is calculated.

### Sample Weighting

The characteristics of a perfectly drawn sample of a population will vary from true population characteristics only within certain limits of sample variability (i.e., sampling error). Unfortunately, social surveys do not permit perfect samples. The sampling frames available to survey research are less than perfect. The absence of perfect cooperation from sampled units means that the completed sample will differ from the drawn sample. In order to correct these known problems of sample bias, the achieved sample is weighted to certain characteristics of the total population. Each of the survey samples was weighted separately.

The weighting plan for the survey was a multi-stage sequential process of weighting the achieved sample to correct for sampling and non-sampling biases in the final sample. The first stage in the sample weighting procedures was designed to correct the cases in the completed sample for known selection biases in the sampling procedures. At the household selection stage, a random digit dialing process will give households with more than one telephone number an unequal likelihood of selection. Nationally, about 9% of households selected by random digit dialing will have more than one telephone number (MVOSS 2007). This selection bias was corrected by giving each household a first stage weight equal to the inverse of the number of different telephone numbers in the household, up to a maximum of three phone numbers.

The second step in the weighting process was to correct for selection procedures that yielded unequal probability of selection within sampled households. Although the survey was designed as a population survey, only one eligible person per household could be interviewed (because multiple interviews per household are burdensome and introduce additional design effects into the survey estimates). A respondent's probability for selection is inverse to the size (number of other eligible adults) of the household. Hence, the second stage weight was equal to the number of eligible respondents within the household.

The next step in the weighting process was to correct the study design for deliberate disproportionate selection of younger population subsets in the sample design. The survey included both a cross-sectional sample of 4,500 respondents, aged 16 and older, and an over-sample of 1,500 persons, aged 16 to 39 years old. Hence, the total achieved sample yielded a disproportionate sample distribution by age. A third stage weight was used to correct the achieved sample for disproportionate sampling by dividing the expected population distribution, based on Census projections, by the achieved sample distribution on the stratification variables. Specifically, the third stage weight corrected the sample to the cell distribution of the population for five cohorts (16-20, 21-29, 30-39, 40-64 and 65 or older) by gender, using the Census Population Projections for Age, Sex and Race for 2007. The estimated distribution of the population for 2007 by stratum was calculated on the basis of the Bureau of the Census, Interim State Projections of Population by Single Year of Age and Sex: July 1, 2004 to 2030, (release date, April 21, 2005). At the time of the survey, these were the most recent projections of the distribution of adult population by state.

```

The final step in the weighting process was designed to correct for the fact that the total number of cases in the weighted sample was larger than the unweighted sample size because of the use of the number of eligibles weight. In order to avoid misinterpretation of sample size, the total number of cases in the unweighted sample was divided by the total number of cases in the weighted sample to yield a sample size weight. When this weight is applied, the size of the weighted sample is identical to the size of the unweighted sample.

The final weight (WEIGHT6) incorporates all of the intermediate weighting steps described above. The final weight adjusts the total completed interviews in the achieved sample to correct for known sampling and participation biases, while maintaining the unweighted sample size.

### Precision of Sample Estimates

The objective of the sampling procedures used on this study was to produce a random sample of the target population. A random sample shares the same properties and characteristics of the total population from which it is drawn, subject to a certain level of sampling error. This means that with a properly drawn sample we can make statements about the properties and characteristics of the total population within certain specified limits of certainty and sampling variability.

The confidence interval for sample estimates of population proportions, using simple random sampling without replacement, is calculated by the following formula:

$$p \pm z_{\alpha/2} \cdot SE(p) = p \pm z_{\alpha/2} \cdot \sqrt{\frac{(p \cdot q)}{(n - 1)}}$$

Where:

SE(p) = the standard error of the sample estimate for a proportion

p = some proportion of the sample displaying a certain characteristic or attribute

q = (1 - p)

n = the size of the sample

$z_{\alpha/2}$  = (1- $\alpha$ /2)-th percentile of the standard normal distribution (1.96 for 95% CI)

The sample sizes for the surveys are large enough to permit estimates for sub-samples of particular interest. Table 8, on the next page, presents the expected size of the sampling error for specified sample sizes of 12,000 and less, at different response distributions on a categorical variable. As the table shows, larger samples produce smaller expected sampling variances, but there is a constantly declining marginal utility of variance reduction per sample size increase.

NOTE: Entries are expressed as percentage points (+ or -)

However, the sampling design for this study included a separate, concurrently administered over-sample of youth and young adults (age 16-39). Both the cross-sectional sample and the over-sample of the youth/younger adult population were drawn as simple random samples; however, the disproportionate sampling of the age 16-39 population introduces a design effect that makes it inappropriate to assume that the sampling error for total sample estimates will be identical to those of a simple random sample.

In order to calculate a specific interval for estimates from a sample, the appropriate statistical formula for calculating the allowance for sampling error (at a 95% confidence interval) in a stratified sample with a disproportionate design is:

$$ASE = 1.96 \sqrt{\sum_{h=1}^g \left[ W_h^2 \left\{ (1 - f_h) \left( \frac{s_h^2}{n_h} \right) \right\} \right]}$$

where:

|         |   |                                                                                                     |
|---------|---|-----------------------------------------------------------------------------------------------------|
| ASE     | = | allowance for sampling error at the 95% confidence level;                                           |
| h       | = | a stratum;                                                                                          |
| g       | = | number of strata;                                                                                   |
| $W_h$   | = | proportion of stratum h to total population ( $N_h/N$ );                                            |
| $f_h$   | = | sampling fraction in stratum h – sample size divided by population size in stratum h ( $n_h/N_h$ ); |
| $n_h$   | = | the sample size for the stratum h.                                                                  |
| $s_h^2$ | = | sample variance in stratum h – for proportions, this is equal to                                    |
|         |   | $\frac{n_h}{n_h - 1} p_h(1 - p_h)$                                                                  |

Although Table 8 above provides a useful approximation of the magnitude of expected sampling error, precise calculation of allowances for sampling error requires the use of this formula. To assess the design effect for sample estimates, we calculated sampling errors for the disproportionate sample for a number of key variables using the above formula. These estimates were then compared to the sampling errors for the same variables, assuming a simple random sample of the same size. The two strata ( $h_1$  and  $h_2$ ) in the disproportionate sample were all respondents age 16-39 and all respondents age 40 and over respectively. The proportion for the 16-39 year old stratum ( $w_1$ ) was 42.2 percent while the proportion for the 40 and over stratum ( $w_2$ ) was 57.8 percent.

As shown in Table 9, the disproportionate sampling increases the confidence interval for total sample estimates by an average of 17.1 percent, compared to a simple random sample of the same size. This means the sample design decreases the sampling precision for total population estimates somewhat, while increasing the precision of sampling estimates for the sub-sample aged 16-39 years old. Since the maximum difference in the point estimate between the stratified disproportionate sample and a simple random sample is less than .34 of a percentage point, the sampling error table for a simple random sample will provide a reasonable approximation of the precision of sampling estimates in the survey.

### Estimating Statistical Significance

The estimates of sampling precision presented in the previous section yield confidence bands around the sample estimates, within which the true population value should lie. This type of sampling estimate is appropriate when the goal of the research is to estimate a population distribution parameter. However, the purpose of some surveys is to provide a comparison of population parameters estimated from independent samples (e.g. annual tracking surveys) or between subsets of the same sample. In such instances, the question is not simply whether or not there is any difference in the sample statistics that estimate the population parameter, but rather is the difference between the sample estimates statistically significant (i.e., beyond the expected limits of sampling error for both sample estimates).

To test whether or not a difference between two sample proportions is statistically significant, a rather simple calculation can be made. The maximum expected sampling error (i.e., confidence interval in the previous formula) of the first sample is designated **s1** and the maximum expected sampling error of the second sample is **s2**. The sampling error of the difference between these estimates is **sd** and is calculated as:

$$sd = \sqrt{(s1^2 + s2^2)}$$

Any difference between observed proportions that exceeds **sd** is a statistically significant difference at the specified confidence interval. Note that this technique is mathematically equivalent to generating standardized tests of the difference between proportions.

An illustration of the pooled sampling error between sub-samples for various sizes is presented in Table 10. This table can be used to determine the size of the difference in proportions between drivers and non-drivers or other sub-samples that would be statistically significant.

**TABLE 10. Pooled Sampling Error Expressed as Percentages for Given Sample Sizes (Assuming P=Q)**

| <b>Sample Size</b> |      |      |     |     |     |     |     |     |     |     |      |      |      |      |      |      |      |  |
|--------------------|------|------|-----|-----|-----|-----|-----|-----|-----|-----|------|------|------|------|------|------|------|--|

### Comparisons Between Samples

In order to permit statistical comparisons between the two samples, the data sets from the two separate samples were merged together on like questions. The sample versions (Version 1 for Seat belt Usage and Version 2 for Child Safety Seats) were cross-tabulated with each of the survey questions that had been asked in an equivalent fashion in the two samples. A chi-square test was conducted for each of these cross-tabulations to test for the independence of the samples.

An exact test of independence was calculated to test the differences between the two samples. Pearson's chi-square is a widely used statistic to test the hypothesis that the row and column variables are independent. It is calculated by summing over all cells the squared residuals divided by the expected frequencies. The calculated chi-square is compared to the critical points of the theoretical chi-square distribution to produce an estimate of how likely (or unlikely) this calculated value is, indicating if the two variables are in fact independent. This probability is also known as the observed significance level of the test. If the probability is small (greater than 0.05), the hypothesis that the two variables are independent is rejected.

No statistically significant difference (at the .05 level) was found between the two samples on most of the vehicle characteristics (e.g., airbags in vehicle, location of airbags, type of seatbelts in vehicle), driver behaviors (e.g., drive everyday, general seatbelt use), or demographic characteristics (e.g., race, ethnicity, gender).

There are, nonetheless, a limited set of differences large enough to be statistically significant with samples of this size. For example, the difference between the two samples regarding the type of vehicle driven most often was statistically significant. A higher proportion of drivers in Version 1 drove a van or minivan most often (10.4% v. 7.8%).<sup>5</sup> While a higher proportion of drivers in Version 2 drove a pickup truck most often (19.7% v. 17.2%). The proportion of drivers who always wore their lap belt is slightly higher in Version 1 (87.9) than in Version 2 (85.8). Of those reporting being in a crash, a higher proportion of respondents in Version 2 (69.3%) reported that they were wearing their seat belts at the time of the crash compared to 63.8% in Version 1. Significantly higher proportions of respondents in Version 2 reported achieving an 8<sup>th</sup> grade (4.5% v. 3.6), 10<sup>th</sup> grade (3.9% v. 3.1%) and 11<sup>th</sup> grade (5.3% v. 4.4%) level. Significantly higher proportions of respondents in Version 2 reported incomes of less than \$5,000 (4.8% v. 3.8%) and \$5,000 to \$14,999 (9.2% v. 6.8%). A statistically higher proportion of Version 1 respondents reported an income of \$50,000 to \$74,999 (21.0% v. 19.2%).

---

<sup>5</sup> Significance statistics excludes respondents who answered "don't know" or "refused."

INTRODUCTION

Hello, I'm \_\_\_\_\_ calling for the U.S. Department of Transportation. We are conducting a national study of Americans' driving habits and their attitudes about current driving laws. (If you would like to learn more about the survey, you can call our toll-free number at 1-888-772-4269 or visit the DOT website at [www.nhsta.dot.gov](http://www.nhsta.dot.gov).)

DUMMY QUESTION FOR BIRTHDAY QUESTIONS

- 1 Has had the most recent
- 2 Will have the next

IF SAMPLE TYPE EQ 1, ASK A1, ELSE SKIP TO B1.

A1 How many persons, age 16 and older, live in this household?

\_\_\_\_\_ Number of 16+ persons  
(VOL) None  
(VOL) Refused

**IF ONLY 1 PERSON, SKIP TO A3  
THANK AND SCREEN OUT  
THANK AND END [SOFT REFUSAL]**

A2 How many of those adults are (women/men)? **NONE=00.**

\_\_\_\_\_ Number of women  
\_\_\_\_\_ Number of men  
99 Refused

**IF BOTH MEN AND WOMEN, SELECT MALE 60%/FEMALE 40%**A3 **IF A1=1 READ:** May I please speak to him or her?**IF A1>1 READ:** In order to select just one person to interview, may I please speak to the (GENDER, If Refused in A2, read-in: "person") in your household, age 16 or older, who (has had the most recent/will have the next) birthday?

D Hello, I'm \_\_\_\_\_ calling for the U.S. Department of Transportation. We are conducting a national study of Americans' driving habits and their attitudes about current driving laws. (If you would like to learn more about the survey, you can call our toll-free number at 1-888-772-4269 or visit the DOT website at [www.nhsta.dot.gov](http://www.nhsta.dot.gov).)

D1 The interview is voluntary and the information you provide us will be used for statistical purposes only. We will not collect any personal information that would allow anyone to identify you. If there is a question you don't want to answer, that's OK. The interview takes about 15 - 20 minutes to complete. (This study has been reviewed and approved by the Office of Management and Budget under OMB control number 2127-0645.) Could we begin now?

- |   |                    |                   |
|---|--------------------|-------------------|
| 1 | Continue interview | <b>SKIP TO Q1</b> |
|---|--------------------|-------------------|

- 2 Arrange callback
- 3 Want to think about it/Not sure **SKIP TO D2**
- 9 Refused **SKIP TO D3**
- D2 If you would prefer, you can call our toll-free number to do the interview or you can go to the National Highway Traffic Safety Administration website to learn more about the survey. Would you like the toll-free number or website address?
- 1 Requested toll-free number **PROVIDE NUMBER (1800-----), CALLBACK**
- 2 Requested website address **PROVIDE WEBSITE ADDRESS ([www.nhtsa.dot.gov](http://www.nhtsa.dot.gov)) , CALLBACK**
- 3 Requested both **PROVIDE BOTH, CALLBACK**
- 4 Neither **CALLBACK**
- D3 Would you please tell me why you do not want to do the interview?

**THANK, END [QUALIFIED HARD REFUSAL]**

- Q1 How often do you drive a motor vehicle? Almost every day, a few days a week, a few days a month, a few days a year, or do you never drive?
- 1 Almost everyday/everyday
- 2 Few days a week
- 3 Few days a month
- 4 Few days a year
- 10 Never **SKIP TO Q30**
- 11 More than a year ago **SKIP TO Q30**
- 12 (VOL) Other (SPECIFY)
- 98 (VOL) Don't know
- 99 (VOL) Refused
- Q1a How often do you drive a motor vehicle at night, after 9:00 pm? Do you drive at night almost every day, a few days a week, a few days a month, a few days a year, or do you never drive after 9:00 at night?
- 1 Almost every day
- 2 Few days a week
- 3 Few days a month
- 4 Few days a year, or do you
- 10 Never drive after 9:00 at night
- 11 More than a year ago
- 12 Other (SPECIFY)
- 98 (VOL) Don't know
- 99 (VOL) Refused
- Q2 Not including driving to and from work, do you at least sometimes drive a vehicle as part of a job or business?

- |   |                  |                   |
|---|------------------|-------------------|
| 1 | Yes              |                   |
| 2 | No               | <b>SKIP TO Q5</b> |
| 3 | Don't work       | <b>SKIP TO Q5</b> |
| 8 | (VOL) Don't know | <b>SKIP TO Q5</b> |
| 9 | (VOL) Refused    | <b>SKIP TO Q5</b> |

Q3 How often do you drive a vehicle as part of a job or business? Almost every day, a few days a week, a few days a month, or a few days a year?

- |   |                                  |
|---|----------------------------------|
| 1 | Almost everyday/everyday         |
| 2 | Few days a week                  |
| 3 | Few days a month                 |
| 4 | Few days a year                  |
| 5 | (VOL) Never/more than a year ago |
| 6 | Other (SPECIFY)                  |
| 8 | (VOL) Don't know                 |
| 9 | (VOL) Refused                    |

Q4 Does your company or business have a policy requiring seatbelt use when driving on the job?

- |   |                  |                   |
|---|------------------|-------------------|
| 1 | Yes              |                   |
| 2 | No               | <b>SKIP TO Q5</b> |
| 8 | (VOL) Don't know | <b>SKIP TO Q5</b> |
| 9 | (VOL) Refused    | <b>SKIP TO Q5</b> |

Q4a Is that a written policy?

- |   |                  |
|---|------------------|
| 1 | Yes              |
| 2 | No               |
| 8 | (VOL) Don't know |
| 9 | (VOL) Refused    |

Q5 Now I'd like you to think about all the driving you do (whether or not it's part of your job). Is the vehicle you drive most often a car, van, motorcycle, sport utility vehicle, pickup truck, or other type of truck? **IF RESPONDENT DRIVES MORE THAN ONE VEHICLE OFTEN, ASK:** What kind of vehicle did you LAST drive?

- |   |                                                      |                    |
|---|------------------------------------------------------|--------------------|
| 1 | Car (station wagon)                                  |                    |
| 2 | Van or minivan                                       |                    |
| 3 | Motorcycle                                           | <b>SKIP TO Q30</b> |
| 4 | Pickup truck                                         |                    |
| 5 | Sport utility vehicle<br>(Jeep/Explorer/Trooper/etc) |                    |

| 7 | Other truck (SPECIFY)                                |                    |
| 8 | (VOL) Don't know                                     |                    |

9 (VOL) Refused

**IF Q5=MOTORCYCLE, SKIP TO Q30, ELSE GO TO Q6**

Q6 For the next series of questions, please answer only for the (car/truck/van) you said you usually drive. Do the seatbelts in the front seat of the (car/truck/van) go across your shoulder only, across your lap only, or across both your shoulder and lap? **SEATBELT QUESTIONS REFER TO DRIVER-SIDE BELTS.**

- |   |                      |                    |
|---|----------------------|--------------------|
| 1 | Across shoulder      | <b>SKIP TO Q9</b>  |
| 2 | Across lap           | <b>SKIP TO Q13</b> |
| 3 | Across both          |                    |
| 4 | Vehicle has no belts | <b>SKIP TO Q25</b> |
| 8 | (VOL) Don't know     | <b>SKIP TO Q14</b> |
| 9 | (VOL) Refused        | <b>SKIP TO Q14</b> |

Q7 Are the shoulder and lap belt one piece or are they two separate belts?

- |   |                    |                   |
|---|--------------------|-------------------|
| 1 | One piece          | <b>SKIP TO Q9</b> |
| 2 | Two separate belts |                   |
| 8 | (VOL) Don't know   |                   |
| 9 | (VOL) Refused      |                   |

Q8 Are both the shoulder and lap belt automatic, is only the shoulder belt automatic or is neither the shoulder or lap belt automatic?

- |   |                            |                    |
|---|----------------------------|--------------------|
| 1 | Both are automatic         | <b>SKIP TO Q10</b> |
| 2 | Only shoulder is automatic | <b>SKIP TO Q10</b> |
| 3 | Neither are automatic      | <b>SKIP TO Q11</b> |
| 8 | (VOL) Don't know           | <b>SKIP TO Q11</b> |
| 9 | (VOL) Refused              | <b>SKIP TO Q11</b> |

Q9 Is the shoulder belt automatic or do you have to fasten it?

- |   |                  |                    |
|---|------------------|--------------------|
| 1 | Automatic        |                    |
| 2 | Manual           | <b>SKIP TO Q11</b> |
| 8 | (VOL) Don't know | <b>SKIP TO Q11</b> |
| 9 | (VOL) Refused    | <b>SKIP TO Q11</b> |

Q10 When you drive, do you always wear your automatic belt or is it ever disconnected, disabled, or placed behind you?

- 1 Always wear it
- 2 Disconnected
- 3 Disabled
- 4 Placed behind me
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q11 Shoulder belts are usually attached to the door or frame behind the driver's left shoulder. In some vehicles, this attachment can be moved up or down to adjust the shoulder belt. Is this attachment adjustable in your vehicle?

- 1 Yes, adjustable
- 2 No, not adjustable **SKIP TO Q12**
- 8 Don't know **SKIP TO Q12**
- 9 Refused **SKIP TO Q12**

Q11a Have you ever tried to adjust it?

- 1 Yes
- 2 No **SKIP TO Q11c**
- 8 (VOL) Don't know **SKIP TO Q12**
- 9 (VOL) Refused **SKIP TO Q12**

Q11b Were you able to make the shoulder belt more comfortable by adjusting it?

- 1 Yes **SKIP TO Q12**
- 2 No **SKIP TO Q12**
- 3 (VOL) Could not adjust it **SKIP TO Q12**
- 8 (VOL) Don't know **SKIP TO Q12**
- 9 (VOL) Refused **SKIP TO Q12**

Q11c Is there any reason why you have never tried to adjust it?

- 1 Yes
- 2 No **SKIP TO Q12**
- 8 (VOL) Don't know **SKIP TO Q12**
- 9 (VOL) Refused **SKIP TO Q12**

Q11d What is the reason? **MULTIPLE RECORD. DO NOT READ.**

- 1 It already fits
- 2 It's comfortable enough
- 3 Someone adjusted it for me
- 4 Never thought about it
- 10 Hard to adjust
- 11 Automatic/self adjusting

- 12 Don't wear seatbelt
- 13 Didn't know it was adjustable
- 14 Other (SPECIFY)
- 98 (VOL) Don't know
- 99 (VOL) Refused

**IF Q6=1 OR 3 ASK Q12, ELSE GO TO Q13**

Q12 When driving this (car/truck/van), how often do you wear your shoulder belt? **READ LIST.**

- 1 All of the time
- 2 Most of the time
- 3 Some of the time
- 4 Rarely or
- 5 Never
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF Q6=2 OR 3 ASK Q13, ELSE GO TO Q14**

Q13 When driving this (car/truck/van), how often do you wear your lap belt? **READ LIST.**

- 1 All of the time
- 2 Most of the time
- 3 Some of the time
- 4 Rarely or
- 5 Never
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF Q6=5-6 OR Q12=1-4, 6, 7 OR Q13=1-4, 6, 7 THEN ASK Q14; ELSE SKIP TO Q17**

Q14 When was the last time you did NOT wear your seatbelt (neither lap nor shoulder belt) when driving?

- 1 Today
- 2 Within the past week
- 3 Within the past month
- 4 Within the past 12 months
- 5 A year or more ago/I always wear it
- 8 (VOL) Don't know
- 9 (VOL) Refused

**ASK Q14a IF DON'T KNOW/REF IN Q14, ELSE SKIP TO Q15**

Q14a Has there been any occasion in the past 12 months when you did not wear your seatbelt (neither lap nor shoulder belt) when driving?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF Q2=YES AND (Q12 EQ 1-4 OR Q13 EQ 1-4) ASK Q15 ELSE GO TO Q17**

Q15 Are you more likely, less likely or just as likely to wear your seatbelt when driving on the job as compared to when driving for personal use?

- |   |                  |                     |
|---|------------------|---------------------|
| 1 | More likely      | <b>GO TO Q16A</b>   |

| 8 | (VOL) Don't know | <b>SKIP TO Q17</b>  |
| 9 | (VOL) Refused    | <b>SKIP TO Q17</b>  |

Q16a Why are you MORE likely to wear your belt when driving on the job? Anything else?  
**MULTIPLE RECORD. DO NOT READ.**

- 1 Company policy
- 2 Increased awareness of safety
- 3 Seatbelt law
- 4 Don't want ticket
- 5 Habit/always wear it
- 6 Drive long distances
- 7 Have passengers/client in vehicle with me
- 8 Insurance reasons
- 9 Driving in heavy traffic
- 10 Driving larger vehicle
- 11 More highway driving
- 12 Other (SPECIFY)
- 98 (VOL) Don't know
- 99 (VOL) Refused

**IF Q15=2 THEN ASK Q16B; ELSE SKIP TO Q17**

Q16b Why are you LESS likely to wear your belt when driving on the job? Anything else?  
**MULTIPLE RECORD. DO NOT READ.**

- 1 Not company policy/practice
- 2 Don't drive on roads/main streets
- 3 Don't like being told what to do
- 4 Don't like wearing them
- 5 Habit/never/rarely wear it
- 6 Drive short distances
- 7 In/out of vehicle all the time/type of work/equipment gets in the way
- 8 Driving slowly
- 9 Don't have passengers with me
- 10 Seatbelt broken/not working
- 13 Other (SPECIFY)
- 98 (VOL) Don't know
- 99 (VOL) Refused

Q17 In the past 12 months, has your use of seatbelts when driving (car driven most often) increased, decreased, or stayed the same?

- |   |                  |                    |
|---|------------------|--------------------|
| 1 | Increased        |                    |
| 2 | Decreased        | <b>SKIP TO Q19</b> |
| 3 | Stayed the same  | <b>SKIP TO Q19</b> |

Q36j1 **IF YES:** What are they (other reasons for not wearing seatbelt)?

---

**IF MORE THAN ONE YES IN Q36a-j, ASK Q37, ELSE GO TO Q38**

Q37 Of the following reasons you just gave me for not wearing your seatbelt, which is the most important? **READ LIST. SINGLE RECORD.**

- 1 I'm only riding a short distance
- 2 I'm riding in light traffic
- 3 I'm in a rush
- 4 I forget to put it on
- 5 I don't want my clothes to get wrinkled
- 6 The seatbelt is uncomfortable
- 7 The probability of being in a crash is too low
- 8 The people I am with are not wearing seatbelts
- 9 I don't like being told what to do
- 10 (VOL) Can't say one is most important/all important
- 13 (VOL) Other (SPECIFY)
- 98 (VOL) Don't know
- 99 (VOL) Refused

Q38 Is there anything that you particularly dislike or find annoying about wearing your seatbelt?

- |   |                  |                    |
|---|------------------|--------------------|
| 1 | Yes              |                    |
| 2 | No               | <b>SKIP TO Q40</b> |
| 8 | (VOL) Don't know | <b>SKIP TO Q40</b> |
| 9 | (VOL) Refused    | <b>SKIP TO Q40</b> |

Q39 What is it that you dislike or find annoying? Anything else? **MULTIPLE RECORD. DO NOT READ.**

- |    |                                                   |
|----|---------------------------------------------------|
| 1  | Uncomfortable                                     |
| 2  | Seatbelts are a nuisance/hassle/annoyance         |
| 3  | Feel restricted/too confining/constricting        |
| 4  | Pressure on my neck/chokes me/cuts across my neck |
| 5  | Pressure on my shoulder/shoulder strap too tight  |
| 6  | Pressure on my chest/Strap doesn't fit my chest   |
| 7  | Irritates/chafes my skin/rash                     |
| 8  | Wrinkles my clothes                               |
| 9  | Other (SPECIFY)                                   |
| 98 | Don't know                                        |
| 99 | Refused                                           |

Q40 Now I'd like to ask your opinion about seatbelt laws. How do you feel about laws that require drivers and front seat passengers to wear seatbelts? Do you favor these laws a lot, do you favor them some or do you not favor these laws at all?

- |   |                  |                    |
|---|------------------|--------------------|
| 1 | Favor a lot      |                    |
| 2 | Favor some       |                    |
| 3 | Not favor at all | <b>SKIP TO Q44</b> |
| 8 | (VOL) Don't know | <b>SKIP TO Q44</b> |
| 9 | (VOL) Refused    | <b>SKIP TO Q44</b> |

Q41 Do you think that seatbelt laws should also apply to back seat ADULT passengers?

- |    |                                 |
|----|---------------------------------|
| 1  | Yes                             |
| 2  | No                              |
| 3  | Depends on age of the passenger |
| 4  | Depends on type of vehicle      |
| 9  | (VOL) Other (SPECIFY)           |
| 98 | (VOL) Don't know                |
| 99 | (VOL) Refused                   |

Q42 Do you favor or oppose fines for drivers who do not wear seatbelts?

- 1 Favor
- 2 Oppose **SKIP TO Q43**
- 8 (VOL) Don't know **SKIP TO Q43**
- 9 (VOL) Refused **SKIP TO Q43**

Q42a What do you think the minimum fine should be for a seatbelt violation?

- \_\_\_\_\_ Amount of fine (**RANGE=0-1000**)
- 0 No fine/warning
  - 9998 (VOL) Don't know

Q43 Do you favor or oppose receiving points against a license as a penalty for seatbelt violations?

- 1 Favor
- 2 Oppose
- 3 Depends on past violations
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q44 I'd like you to think about someone you know who doesn't wear seatbelts all of the time. If that person were stopped and fined (AMOUNT OF FINE IN STATE) for not wearing seatbelts, would this person definitely wear seatbelts more often, probably wear seatbelts more often, or probably not change his or her seatbelt wearing habits?

- 1 Definitely wear more often
- 2 Probably wear more often
- 3 Probably not change seatbelt wearing habits
- 4 (VOL) Maybe short-term change, but no long term change
- 8 (VOL) Don't know
- 9 (VOL) Don't know anyone like that

Q45 Suppose you get a ticket for not wearing your seatbelt. Which of the following statements better describes your likely reaction?

- 1 I deserve the ticket because I broke the law, or
- 2 I do NOT deserve the ticket because wearing a seatbelt should be a personal choice
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q46 The next questions are about seatbelt laws in your state. Does (STATE) have a law requiring seatbelt use?

- |   |                  |                    |
|---|------------------|--------------------|
| 1 | Yes              |                    |
| 2 | No               | <b>SKIP TO Q49</b> |
| 8 | (VOL) Don't know | <b>SKIP TO Q49</b> |
| 9 | (VOL) Refused    | <b>SKIP TO Q49</b> |

Q47 Who is required to wear seatbelts according to your state law? Are (READ ITEM) required to wear seatbelts?

|                                       | Yes | No | Don't Know | Refused |
|---------------------------------------|-----|----|------------|---------|
| a. Drivers                            | 1   | 2  | 8          | 9       |
| b. Children in the front seat         | 1   | 2  | 8          | 9       |
| c. Children in the back seat          | 1   | 2  | 8          | 9       |
| d. Adult passengers in the front seat | 1   | 2  | 8          | 9       |
| e. Adult passengers in the back seat  | 1   | 2  | 8          | 9       |

Q48 According to your state law, can police stop a vehicle if they observe a seatbelt violation or do they have to observe some other offense first in order to stop the vehicle?

- |   |                                      |
|---|--------------------------------------|
| 1 | Can stop just for seatbelt violation |
| 2 | Must observe another offense first   |
| 8 | (VOL) Don't know                     |
| 9 | (VOL) Refused                        |

Q49 In your opinion, SHOULD police be allowed to stop a vehicle if they observe a seatbelt violation when no other traffic laws are being broken?

- |   |                           |                    |
|---|---------------------------|--------------------|
| 1 | Should be allowed to stop | <b>SKIP TO Q50</b> |
| 2 | Should not                |                    |
| 8 | (VOL) Don't know          | <b>SKIP TO Q50</b> |
| 9 | (VOL) Refused             | <b>SKIP TO Q50</b> |

Q49a Most other traffic laws allow police to stop the vehicle whenever they see a violation. Why do you think seatbelt violations should be treated differently from other traffic violations? **DO NOT READ LIST. MULTIPLE RECORD.**

- |    |                                                               |
|----|---------------------------------------------------------------|
| 1  | Don't pose a risk to others                                   |
| 2  | Not as serious a violation                                    |
| 3  | Police may abuse it                                           |
| 4  | Should be a personal choice/not a good law/infringe on rights |
| 5  | Can't always tell if seatbelt is on/Can be mistaken           |
| 6  | Should only apply to children                                 |
| 10 | Other (SPECIFY)                                               |
| 98 | Don't know                                                    |
| 99 | Refused                                                       |

**IF Q1=10 (NEVER) OR YEAR + (11) , SKIP TO Q51**

Q50 In the past twelve months, since (MONTH) of last year, have you been stopped by police for ANY traffic-related reason while driving?

- |   |                  |                    |
|---|------------------|--------------------|
| 1 | Yes              |                    |
| 2 | No               | <b>SKIP TO Q51</b> |
| 8 | (VOL) Don't know | <b>SKIP TO Q51</b> |
| 9 | (VOL) Refused    | <b>SKIP TO Q51</b> |

Q50a Were you wearing a seatbelt when you were stopped? **IF STOPPED MORE THAN ONCE IN PAST 12 MONTHS, ASK ABOUT MOST RECENT TIME.**

- |   |                  |                     |
|---|------------------|---------------------|

- |   |                  |  |
|---|------------------|--|
| 1 | Yes              |  |
| 2 | No               |  |
| 8 | (VOL) Don't know |  |
| 9 | (VOL) Refused    |  |

**IF YES IN Q50b SKIP TO Q52**

Q51 Have you ever received a ticket for not wearing seatbelts?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF YES IN Q50c SKIP TO Q52a**

Q52 Have you ever received a warning for not wearing seatbelts?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF YES IN Q50b, Q50c, Q51 OR Q52 ASK Q52a, OTHERWISE SKIP TO Q53**

Q52a After you received the seatbelt (ticket/warning), did you start wearing your seatbelts more often, less often, or was there no change in how often you wore them?

- 1 Wore seatbelt more often
- 2 Wore seatbelt less often
- 3 No change in how often wore seatbelt
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF Q1=NEVER (10) OR YEAR + (11) SKIP TO Q54 ELSE ASK Q53**

Q53 Assume that you do not wear your seatbelt AT ALL while driving over the next six months. How likely do you think you will be to receive a ticket for not wearing a seatbelt? **READ LIST.**

- 1 Very likely
- 2 Somewhat likely
- 3 Somewhat unlikely
- 4 Very unlikely
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q54 How often do you think police should ticket for seatbelt violations? On a scale of 1 to 10, where 1 means police should hardly ever give tickets and 10 means police should give tickets at every opportunity when it comes to enforcing seatbelt laws, how strict should police enforcement be?

- 1 Police should hardly ever give a ticket for violations
- 2
- 3
- 4
- 5
- 6

- 7  
8  
9  
10 Police should give a ticket at every opportunity  
98 (VOL) Don't know  
99 (VOL) Refused

Q55 Now I'm going to read you a few statements Please tell me whether you strongly agree, somewhat agree, somewhat disagree, or strongly disagree. **ROTATE LIST.**

|         |                                                                                                  | Strongly<br>Agree | Somewhat<br>Agree | Disagree | Strongly<br>Disagree | Don't<br>Know |   |
|---------|--------------------------------------------------------------------------------------------------|-------------------|-------------------|----------|----------------------|---------------|---|
| Refused |                                                                                                  |                   |                   |          |                      |               |   |
| a.      | Seatbelts are just as likely to harm you as help you.                                            | 1                 | 2                 | 3        | 4                    | 8             | 9 |
| b.      | Police in my community generally do not bother to write tickets for seatbelt violations.         | 1                 | 2                 | 3        | 4                    | 8             | 9 |

| c.      | An accident close to home is usually not as serious as an accident farther away.                 | 1                 | 2                 | 3        | 4                    | 8             | 9 |
| d.      | If I were in an accident, I would want to have my seatbelt on.                                   | 1                 | 2                 | 3        | 4                    | 8             | 9 |
| e.      | Most motor vehicle accidents happen within five miles of home.                                   | 1                 | 2                 | 3        | 4                    | 8             | 9 |
| f.      | I would feel self-conscious around my friends if I wore a seatbelt and they did not.             | 1                 | 2                 | 3        | 4                    | 8             | 9 |
| g.      | I have a habit of wearing a seatbelt because my parents insisted I wear them when I was a child. | 1                 | 2                 | 3        | 4                    | 8             | 9 |
|         | <b>CODE "NOT APPLICABLE" IF NO SEATBELTS WHEN CHILD</b>                                          |                   |                   |          |                      |               |   |
| i.      | Putting on a seatbelt makes me worry more about being in an accident.                            | 1                 | 2                 | 3        | 4                    | 8             | 9 |

I'd like to ask you a few questions about speed limits.

Q57 In general, do you think most highway speed limits are too low, too high or about right?

- 1 Too low  
2 Too high  
3 About right  
8 (VOL) Don't know  
9 (VOL) Refused

Q58 How about residential speed limits or those not on a highway? Do you think they are too low, too high or about right?

- 1 Too low
- 2 Too high
- 3 About right
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q59 Would you say the driving of most other drivers is.....? **READ LIST.**

- 1 Excellent
- 2 Very good
- 3 Good
- 4 Fair or
- 5 Poor
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF Q1=NEVER (10) OR YEAR+ (11) SKIP TO Q67 ELSE ASK Q60**

Q60 How often do you feel pressure from other drivers to go faster than the speed limit? **READ LIST.**

- 1 Very often
- 2 Often
- 3 Rarely
- 4 Never
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q61 Which statement best describes your highway driving? (1) I tend to pass other cars more often than other cars pass me, or (2) Other cars tend to pass me more often.

- 1 I tend to pass other cars more often than other cars pass me
- 2 Other cars tend to pass me more often
- 3 (VOL) Neither, I drive the same as most others
- 4 (VOL) I don't drive on highways **SKIP TO Q63**
- 7 (VOL) Both, that is, I tend to pass and others tend to pass me
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q62 In general, how fast do you drive on highways?

\_\_\_\_\_ Miles per hour (**RANGE=40-120**)

- 997 Don't drive on highways
- 998 Don't know
- 999 Refused

Now I'd like to ask you a few questions about airbags.

**IF Q1=NEVER (10) OR YEAR+ (11) OR Q5=MOTORCYCLE, SKIP TO Q67 ELSE ASK Q63**

Q63 Does the (car/truck/van) you normally drive have an air bag?

- 1 Yes
- 2 No **SKIP TO Q66**
- 8 (VOL) Don't know **SKIP TO Q66**
- 9 (VOL) Refused **SKIP TO Q66**

Q64 Does your (car/truck/van) have an air bag in front of the driver?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q65 Does your (car/truck/van) have an airbag in front of where a passenger would sit in the front seat?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q65a Is there an air bag anywhere else in your (car/truck/van)? If so, where? Anywhere else?  
**IF SAY SIDE AIRBAG, ASK IF FRONT OR BACK OR BOTH. DO NOT READ. MULTIPLE RECORD.**

- 1 In the car doors next to front seat
- 2 In the car doors next to rear seat(s)
- 3 Descending curtain from above front seat doors
- 4 Descending curtain from above rear seat doors
- 5 In the front seat itself
- 6 In the rear seat itself
- 9 Yes, but I don't know where
- 10 Other (SPECIFY)
- 20 No
- 98 (VOL) Don't know
- 99 (VOL) Refused

Q66 If you are driving in a vehicle that has an air bag and you get into an accident involving major vehicle damage is it likely or unlikely that you would be injured?

- 1 Likely

- 2 Unlikely
- 3 (VOL) Depends on type of accident
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF Q1=10 OR 11, READ "PASSENGER" & "RIDING" ELSE READ "DRIVER" & "DRIVING"**

Q67 Please tell me whether you agree or disagree with the following statement. If my car has a (driver/passenger) side airbag, I don't need to wear my seatbelt when (driving/riding).

- 1 Agree
- 2 Disagree
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q71 Would you prefer that your next vehicle have DRIVER airbags only, DRIVER AND PASSENGER airbags or NO airbags?

- 1 Driver
- 2 Driver and passenger
- 3 No airbags
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q72 Do you have any concerns about the safety of airbags?

- 1 Yes
- 2 No **SKIP TO Q73**
- 8 (VOL) Don't know **SKIP TO Q73**
- 9 (VOL) Refused **SKIP TO Q73**

Q72a What are those concerns (about the safety of air bags)? **DO NOT READ. MULTIPLE RECORD.**

- 1 Accidental inflation/deploying prematurely
- 3 Failure to deploy/concern about them not working right
- 4 Chemical Powder that burns
- 5 Rate of speed airbag inflates causes injuries
- 6 Injuries/airbags can break your neck
- 7 Broken bones/airbags can break your bones (i.e., nose, fingers, etc.)
- 8 Injuries sustained when airbag is opened on impact
- 10 Adults can be injured by airbags
- 11 Adults can suffocate/can't breath from airbags
- 12 Smaller adults can be injured by airbags
- 13 Children's injury/safety
- 16 Other (SPECIFY)

Q73 In general, do you feel safer in motor vehicles with airbags, about the same, or less safe in vehicles with airbags than those without airbags?

- 1 Safer in vehicles with airbags
- 2 About the same
- 3 Less safe in vehicles with airbags
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q73a In general, how much protection from injury do you feel an air bag would provide in an accident involving major motor vehicle damage? Would the air bag provide....?

- 1 A lot of protection from injury
- 2 Some protection from injury
- 3 Very little protection from injury
- 4 No protection from injury
- 5 (VOL) Depends on type of accident
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q78 Now I'm going to ask you a few questions about alcohol use. During the past 30 days have you had at least one drink of any alcoholic beverage, including liquor, beer, wine or wine coolers?

- 1 Yes **SKIP TO Q80**
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q79 Did you drink any alcoholic beverages at all during the past 12 months?

- 1 Yes **SKIP TO Q81**
- 2 No **SKIP TO Q86**
- 8 (VOL) Don't know **SKIP TO Q86**
- 9 (VOL) Refused **SKIP TO Q86**

Q80 How many days out of the past 30 days did you drink alcoholic beverages?

- \_\_\_\_\_ Days (**RANGE=0-30**)
- 98 Don't know
- 99 Refused

Q81 On the average, how many drinks did you typically have on the days you drank?

- \_\_\_\_\_ Drinks (**RANGE=0-12**)
- 13 More than 12 drinks
- 98 Don't know

99      Refused

**IF Q1=NEVER (10) OR YEAR+ (11) OR Q78=NO, DK OR REFUSED, SKIP TO Q86 ELSE ASK Q82**

Q82      During the past 30 days, have you driven a vehicle after you had been drinking alcohol?

1      Yes

2      No

**SKIP TO Q86**

8      (VOL) Don't know

**SKIP TO Q86**

9      (VOL) Refused

**SKIP TO Q86**

Q83      How many days out of the past 30 days did you drive after drinking alcoholic beverages?

\_\_\_\_\_ Days (**RANGE=0-30**)

98      Don't know

99      Refused

Q84      In the past 30 days, have you driven a vehicle when you thought you might have consumed too much alcohol to drive safely?

1      Yes

2      No

8      (VOL) Don't know

9      (VOL) Refused

Q86      Have YOU ever been injured in a motor vehicle accident? Only count injuries that required medical attention.

1      Yes

**SKIP TO Q87**

2      No

8      (VOL) Don't know

9      (VOL) Refused

Q86a      Have YOU ever been injured in a motor vehicle accident when you were a passenger, or have you ever been hit and injured by a motor vehicle when you were walking or riding a bike? Only count injuries that required medical attention.

1      Yes

2      No

**SKIP TO Q97**

8      (VOL) Don't know

**SKIP TO Q97**

9      (VOL) Refused

**SKIP TO Q97**

Q87      How many times has this happened to you?

\_\_\_\_\_ Times (**RANGE=1-50**)

98      Don't know

99      Refused

Q88 How long ago did (that/the most recent) accident occur? **ONLY ACCIDENTS WHERE THEY REQUIRED MEDICAL ATTENTION**

- \_\_\_\_\_ Years ago (**RANGE=0-97**)
- 0 Within the past 12 months
- 98 Don't know
- 99 Refused

Q88a Did (that/the most recent) accident happen less than 5 miles from where you lived at the time of the accident?

- 1 Yes, less than 5 miles
- 2 No, 5 miles or more away **SKIP TO Q89**
- 8 (VOL) Don't know **SKIP TO Q89**
- 9 (VOL) Refused **SKIP TO Q89**

Q88b Where were you GOING when you had that accident? Were you going home, going to work, going to the food store, going to a friend's home or were you going somewhere else?

- 1 Home
- 2 Work
- 3 Food store
- 4 Friend's/Relative's home
- 5 Somewhere else (SPECIFY)
- 8 School/College/Class
- 9 Restaurant/Fast food place
- 10 Recreational activity (ballgame, movies, etc)

D Hello, I'm \_\_\_\_\_ calling for the U.S. Department of Transportation. We are conducting a national study of Americans' driving habits and their attitudes about current driving laws. (If you would like to learn more about the survey, you can call our toll-free number at 1-888-772-4269 or visit the DOT website at [www.nhsta.dot.gov](http://www.nhsta.dot.gov).)

D1 The interview is voluntary and the information you provide us will be used for statistical purposes only. We will not collect any personal information that would allow anyone to identify you. If there is a question you don't want to answer, that's OK. The interview takes about 15 - 20 minutes to complete. (This study has been reviewed and approved by the Office of Management and Budget under OMB control number 2127-0645.) Could we begin now?

- |   |                                 |                   |
|---|---------------------------------|-------------------|

| a. The teenager can Not drive unsupervised after 9:00 pm                                                                                | 1     | 2        | 3             |
| b. The teenager has a restriction on the number of teenage passengers when he/she is driving                                            | 1     | 2        | 3             |
| c. The teenager can NOT use a cell phone while driving                                                                                  | 1     | 2        | 3             |
| d. The teenager must drive at least one year without any violations on his or her driving record before getting a regular adult license | 1     | 2        | 3             |
| e. The teenager must wear a seat belt at all times while driving                                                                        | 1     | 2        | 3             |

Now, I'd like to ask you a few questions about airbags.

**IF Q1=10 (NEVER) or 11 (Year+) OR Q2 = 3 (MOTORCYCLE) SKIP TO Q76A, ELSE ASK Q73**

Q73 Does the (car/truck/van) you normally drive have an airbag?

- 1 Yes
- 2 No **SKIP TO Q76a**
- 8 (VOL) Don't know **SKIP TO Q76a**
- 9 (VOL) Refused **SKIP TO Q76a**

Q74 Does your (car/truck/van) have an airbag in front of the driver?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q75 Does your (car/truck/van) have an air bag in front of where a passenger would sit in the front seat?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q75a Is there an air bag anywhere else in your (car/truck/van)? Where? Anywhere else? **[IF SAY SIDE AIR BAG, ASK IF FRONT OR BACK OR BOTH] MULTIPLE RESPONSE. DO NOT READ LIST**

- 1 In the car doors next to front seat
- 2 In the car doors next to the rear seat
- 3 Descending curtain from above front seat door
- 4 Descending curtain from above rear seat doors
- 5 In the front seat itself
- 6 In the rear seat itself
- 8 (HOLD) Yes, but I don't know where
- 10 Other (SPECIFY)
- 20 No
- 98 (VOL) Don't know
- 99 (VOL) Refused

Q76a Based on what you know or have heard, how likely is it that an adult sitting in the front seat **AND WEARING A SEATBELT** would be injured by an air bag when it opens normally? Are they... **(READ)?**

- 1 Very likely to be injured
- 2 Somewhat likely to be injured
- 3 Somewhat unlikely to be injured, or
- 4 Very unlikely to be injured

- 8 (VOL) Don't know
- 9 (VOL) Refused

Q76b Based on what you know or have heard, how likely is it that an adult sitting in the front seat and **NOT** wearing a seatbelt would be injured by an air bag when it opens normally? Are they ... **(READ)**?

- 1 Very likely to be injured
- 2 Somewhat likely to be injured
- 3 Somewhat unlikely to be injured, or
- 4 Very unlikely to be injured
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q77 How likely is it that a small child sitting in the front seat would be injured by an air bag when it opens normally? Are they... **(READ LIST)**?

- 1 Very likely to be injured
- 2 Somewhat likely to be injured
- 3 Somewhat unlikely to be injured, or
- 4 Very unlikely to be injured
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q78 Have you heard or seen any safety warnings about air bags?

- 1 Yes
- 2 No **SKIP TO Q91**
- 8 (VOL) Don't know **SKIP TO Q91**
- 9 (VOL) Refused **SKIP TO Q91**

Q79 What safety warnings about air bags have you heard or seen? Anything else?  
**DO NOT READ LIST. MULTIPLE RECORD**

- 1 Air bags can kill children/smaller adults
- 2 Back seat is safest for children
- 3 Never put rear facing child seat in front
- 4 Sit as far back from air bag as possible
- 5 Airbags can injure you
- 6 Gave weight/height/age restrictions/warnings
- 7 Always wear your seatbelt when around an airbag
- 9 Airbags can burn/chemicals can cause harm
- 13 Turn off airbags if children/smaller adults in front seat
- 14 Force/impact/speed of airbag
- 15 Airbags accidentally going off
- 10 Other (Specify \_\_\_\_\_)
- 98 (VOL) Don't know

99 (VOL) Refused

**IF Q1=10 (NEVER) or 11 (Year+), Q2=3 (MOTORCYCLE) or Q73 NE 1 (NOT HAVE AIR BAG) SKIP TO Q91**

Q80 Are there any warning labels about air bags in the (car/truck/van) you normally drive?

- 1 Yes
- 2 No **SKIP TO Q91**
- 8 (VOL) Not sure **SKIP TO Q91**
- 9 (VOL) Refused **SKIP TO Q91**

Q81 Where in the (car/van/truck) are the warning labels? **DO NOT READ. MULT. RECORD.**

- 1 Sun visor
- 2 Dashboard
- 3 Owner's manual
- 4 Glove compartment
- 5 Inside door/door panel
- 6 Steering wheel
- 8 Other (SPECIFY \_\_\_\_\_)
- 98 (VOL) Not sure
- 99 (VOL) Refused

#### **NO Questions 82 - 90**

Q91 Now I'd like to ask you some questions about a subject you may not know much about. Can you tell me what the initials "EMS" stand for?

- 1 Yes, Emergency Medical Services/Systems
- 2 Yes, wrong answer
- 3 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

**IF Q91=2 (YES, WRONG ANSWER), ASK Q91b:**

Q91b Record other response to what "EMS" stands for.

---

#### **IF Q91>1 THEN READ THIS STATEMENT, ELSE GO TO Q92A1**

Lots of people don't know it, but EMS stands for Emergency Medical Services. EMS includes all of the people in your community who respond to medical emergencies, such as ambulances, rescue squads and hospital emergency services.

Q92a1 In your opinion, are emergency medical services more important, equally important, or less important to your community than the services provided by the police department?

- 1 More important
- 2 Equally important
- 3 Less important
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q92a2 In your opinion, are emergency medical services more important, equally important, or less important to your community than the services provided by the fire department?

- 1 More important
- 2 Equally important
- 3 Less important
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q93 If there was a medical emergency in your neighborhood and you called an ambulance, how long do you think it would take for the ambulance to arrive? **(ENTER IN MINUTES)**

\_\_\_\_\_ MINUTES **RANGE=1-60**  
**(MORE THAN AN HOUR=61; (VOL) DON'T KNOW=62; (VOL) REFUSED=63)**

Q94 Regardless of the type of medical emergency, how confident are you that the ambulance or other emergency workers would know what to do? **(READ LIST)**

- 1 VERY CONFIDENT
- 2 SOMEWHAT CONFIDENT OR
- 3 NOT CONFIDENT
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q95 Have you, personally, ever called 911 or another emergency number for help?

- 1 Yes
- 2 No **SKIP TO Q96a2**
- 8 (VOL) Don't know **SKIP TO Q96a2**
- 9 (VOL) Refused **SKIP TO Q96a2**

Q95a How long ago did that occur (the last time)?

- 1 Today
- 2 Within past week
- 3 Within past month
- 4 Within past 12 months

- 5 A year or more ago
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q95b Did you call for police, fire, an ambulance or something else? **MULTIPLE RECORD**

- 1 Police
- 2 Fire
- 3 Ambulance
- 4 Rescue squad
- 5 EMS
- 6 Poison control
- 9 Other (SPECIFY \_\_\_\_\_)
- 10 (VOL) Whoever 911 thought was appropriate
- 98 (VOL) Not sure
- 99 (VOL) Refused

Q96a1 Did you call from a phone that was attached to the wall or to an outlet? Or did you call from a wireless phone, such as a cell phone?

- 1 Attached
- 2 Wireless
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q96a2 If you used a cell phone to call 911 about an emergency in your community, can the 911 Call Center identify your PHONE NUMBER without you telling them?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q96a3 If you used a cell phone to call 911 about an emergency in your community, can the 911 Call Center identify your LOCATION without you telling them?

- 1 Yes
- 2 No
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q96b Communities pay for 911 call services through fees or taxes collected from the public. Would you be willing, or unwilling, to pay more than you currently pay for 911 call services to locate callers faster?

- 1 Willing to pay more
- 2 Unwilling to pay more **SKIP TO Q96d**
- 8 (VOL) Don't know **SKIP TO Q96d**
- 9 (VOL) Refused **SKIP TO Q96d**

Q96c How much more would you be willing to pay per year for 911 call services? Would you be willing to pay less than \$5 more, \$5-\$10 more, \$10-\$20 more or over \$20 more per year?

- 1 Less than \$5 more
- 2 \$5 - \$10 more
- 3 \$10 - \$20 more
- 4 Over \$20 more
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q96d Communities use other fees and taxes collected from the public to pay for their EMS systems, which include ambulances, rescue squads, and hospital emergency services. Would you be willing or unwilling to pay more than you currently pay for your community's EMS system to improve EMS equipment and training?

- 1 Willing to pay more
- 2 Unwilling to pay more **SKIP TO Q97A**
- 8 (VOL) Don't know **SKIP TO Q97A**
- 9 (VOL) Refused **SKIP TO Q97A**

Q96e How much more would you be willing to pay per year for your community's EMS system? Would you be willing to pay less than \$5 more, \$5-\$10 more, \$10-\$20 more or over \$20 more per year?

- 1 Less than \$5 more
- 2 \$5 - \$10 more
- 3 \$10 - \$20 more
- 4 Over \$20 more
- 8 (VOL) Don't know
- 9 (VOL) Refused

Q97A Assuming it was reasonably priced and in a convenient location, how interested would you be in taking training to become an emergency medical services provider? **(READ LIST)**

- 1 Very interested
- 2 Somewhat interested
- 3 Not interested
- 4 (VOL) Already have EMS training
- 5 (VOL) Depends
- 8 (VOL) Don't know
- 9 (VOL) Refused

**If Q1=10 or 11 SKIP TO Q110**

Q104 When you drive a motor vehicle, do you usually have a wireless phone of some type in the vehicle with you? This could be a car phone, a cellular phone, a PCS phone, a GSM phone or a satellite phone.

3 Quien responde no está disponible  
4 (VOL) Rachaza

QD Hola, me llamo (INAME) y llamo en nombre del Departamento de Transporte de los Estados Unidos. Estamos llevando a cabo un estudio nacional sobre los hábitos de conducción de los americanos y sobre sus actitudes ante las leyes de circulación actuales. La encuesta es completamente confidencial. (Si usted desea saber más acerca de la encuesta, puede llamar a nuestra línea gratuita 1-888-772-4269 o visitar el sitio web de DOT: [www.nhsta.dot.gov](http://www.nhsta.dot.gov).)

D1 La entrevista es voluntaria y la información que usted nos proporcione será utilizada solamente con propósitos estadísticos. No recopilaremos información personal que permita identificarlo/a a usted. Si hay alguna pregunta que usted no quiere responder, no hay problema. La entrevista dura aproximadamente 15 ó 20 minutos. (Este estudio ha sido revisado y aprobado por la Oficina de Administración y Presupuesto bajo número de control OMB 2127-0645.) ¿Podemos comenzar ahora?

- 1 **CONTINUAR ENTREVISTA**  
2 Arreglar devolución de llamada  
3 Quiere pensarlo/no está seguro  
4 No responde

D2 Si usted lo prefiere, puede llamar a nuestra línea gratuita para hacer la entrevista o puede ir al sitio web de National Highway Traffic Safety Administration para saber más acerca de la encuesta. ¿Le gustaría el número telefónico gratuito o la dirección del sitio web?

- 1 Solicitó la línea gratuita  
2 Solicitó dirección de sitio web  
3 Solicitó ambos  
4 Ninguno

D3 ¿Me diría usted por favor por qué no quiere hacer la entrevista?

---

Esas son todas las preguntas que tengo para hoy. Gracias por su tiempo.

Q111 POR OBSERVACIÓN, ANOTE EL SEXO DE QUIEN RESPONDE

- 1 Hombre
- 2 Mujer

Q1 ¿Con qué frecuencia conduce un vehículo a motor? ¿Casi todos los días, varios días a la semana, varios días al mes, varios días al año o nunca?

- 1 Casi todos los días/todos los días
- 2 Varios días a la semana
- 3 Varios días al mes
- 4 Varios días al año
- 10 Nunca
- 5 Otra (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q1a ¿Con qué frecuencia conduce usted un vehículo automotor de noche, después de las 9:00 p.m.? ¿Conduce usted de noche casi todos los días, unos cuantos días a la semana, unos cuantos días al mes, unos cuantos días al año o nunca conduce después de las 9:00 de la noche?

- 1 Casi todos los días
- 2 Unos cuantos días a la semana
- 3 Unos cuantos días al mes
- 4 Unos cuantos días al año, o usted
- 10 Nunca conduce después de las 9:00 de la noche
- 11 Hace más de un año
- 12 Otro ESPECIFICAR) \_\_\_\_\_
- 98 (VOL) No sabe
- 99 (VOL) No responde

Q2 Sin incluir el ir y volver del trabajo, ¿conduce usted algún vehículo como parte del trabajo o negocio?

- 1 Sí
- 2 No
- 3 No trabaja
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q3 ¿Con qué frecuencia conduce usted un vehículo como parte de su trabajo o negocio? ¿Casi todos los días, varios días a la semana, varios días al mes, varios días al año?

- 1 Casi todos los días/todos los días
- 2 Varios días a la semana
- 3 Varios días al mes
- 4 Varios días al año
- 10 (VOL) Nunca/Hace más de un año
- 12 Otra (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q4 ¿Tiene su empresa o negocio alguna política que obligue a llevar el cinturón mientras está trabajando?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q4a ¿Se trata de una política escrita?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q5 Ahora quiero pensar en toda la conducción que hace (sea o no parte de su trabajo). ¿El vehículo que conduce con más frecuencia es un coche, una furgoneta o "minivan", una moto, un vehículo utilitario deportivo, camioneta descapotable u otro tipo de camión? (NOTA: SI QUIEN RESPONDE CONDUCE MÁS DE UN VEHÍCULO CON FRECUENCIA, PREGUNTAR:) "¿Cuál ha sido el ÚLTIMO vehículo que ha conducido?"

- 1 Coche (station wagon)
- 2 Furgoneta o minivan
- 3 Motocicleta
- 4 Camioneta descapotable (pick up truck)
- 5 Vehículo utilitario deportivo (Jeep/Explorer/Trooper/etc)
- 10 Otra (ESPECIFICAR)
- 1 Otro camión (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechazada

Q6 Para la próxima serie de preguntas, por favor responda solamente para el/la .... que dice que conduce habitualmente. ¿Los cinturones de seguridad delanteros del/de la ..... van por el hombro solamente, por el regazo solamente, tanto por el hombro como por el regazo?  
PARA QUIEN HACE LA ENCUESTA: LAS PREGUNTAS SOBRE EL CINTURÓN DE SEGURIDAD SE REFIEREN A LOS CINTURONES DEL LADO DEL CONDUCTOR.

- 1 Por el hombro
- 2 Por el regazo
- 3 Por ambos
- 4 El vehículo no tiene cinturones
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q7 ¿Son los cinturones del hombro y del regazo de una pieza o son dos cinturones separados?

- 1 Una pieza
- 2 Dos cinturones separados
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q8 ¿Son los cinturones del hombro y del regazo automáticos, sólo el del hombro es automático o ninguno de los dos es automático?

- 1 Ambos son automáticos
- 2 Sólo el del hombro es automático
- 3 Ninguno es automático
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q9 ¿Es el cinturón del hombro automático o se lo tiene que poner usted?

- 1 Automático
- 2 Manual
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q10 Cuando conduce, ¿lleva siempre el cinturón, o está alguna vez desconectado, desactivado o puesto detrás de usted?

- 1 Siempre lo llevo
- 2 Desconectado
- 3 Desactivado
- 4 Detrás de mí
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q11 Los cinturones de seguridad del hombro suelen estar fijados a la puerta o al chasis por la parte del hombro izquierdo del conductor. En algunos vehículos, esta fijación se puede mover hacia arriba o abajo para ajustar el cinturón del hombro. ¿Es ajustable esta fijación en su vehículo?

- 1 Sí, es ajustable
- 2 No, no es ajustable
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q11a ¿Ha intentado alguna vez ajustarlo?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q11b ¿Fue capaz de conseguir que el cinturón del hombro fuera más cómodo al ajustarlo?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q11c ¿Hay alguna razón por la que nunca ha intentado ajustarlo?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q11d ¿Cuál es la razón?

- 1 Ajusta bien ya
- 2 Es lo suficientemente cómodo
- 3 Alguien lo ajustó por mí
- 4 Nunca pensé en ello
- 10 Otra (ESPECIFICAR) ¿Cuál es la razón?
- 11 Difícil de ajustar
- 12 Aajuste automático
- 13 No uso cinturón de seguridad
- 14 No sabía que era ajustable
- 98 (VOL) No está seguro
- 99 (VOL) Rechaza

Q12 Al conducir este/esta ....., ¿con qué frecuencia lleva puesto el cinturón del hombro... (LEER LISTA)

- 1 TODO EL TIEMPO
- 2 LA MAYOR PARTE DEL TIEMPO

- 3 PARTE DEL TIEMPO
- 4 RARAMENTE O
- 5 NUNCA
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q13 Al conducir este/esta ....., ¿con qué frecuencia lleva puesto el cinturón del regazo... (LEER LISTA)

- 1 TODO EL TIEMPO
- 2 LA MAYOR PARTE DEL TIEMPO
- 3 PARTE DEL TIEMPO
- 4 RARAMENTE O
- 5 NUNCA
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q14 ¿Cuándo fue la última vez que NO llevaba puesto el cinturón de seguridad (ni el cinturón de seguridad del hombro ni el cinturón de seguridad del regazo) mientras conducía?

- 1 Hoy
- 2 Durante la semana pasada
- 3 Durante el mes pasado
- 4 Durante los últimos 12 meses
- 5 Hace un año o más / siempre lo llevo puesto
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q14a ¿Hubo alguna vez en los últimos 12 meses que no se abrocho o puso el cinturón de seguridad (ni el de seguridad del hombro ni el de seguridad del regazo) mientras conducía?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q15 ¿Es más probable, menos probable o igual de probable que se ponga el cinturón de seguridad en el trabajo comparado con la conducción para su uso personal?

- 1 Más probable
- 2 Menos probable
- 3 Igual de probable
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q16a ¿Por qué es MÁS probable que se ponga el cinturón mientras conduce por trabajo? ¿Otra cosa?

ANOTACIÓN MÚLTIPLE. NO LEER.

- 1 Política de la compañía
- 2 Mayor concienciación sobre la seguridad
- 3 Ley de cinturón de seguridad
- 4 No quiero que me pongan una multa
- 5 Hábito/siempre lo llevo
- 6 Conduzco grandes distancias
- 7 Llevo pasajeros / clientes conmigo en el vehículo
- 8 Motivos de seguro
- 9 Conducción en tráfico pesado
- 10 Conducción de vehículo más grande
- 11 Más conducción en autopista
- 8 Otra (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q16b ¿Por qué es MENOS probable que se ponga el cinturón mientras conduce por trabajo?

ANOTACIÓN MÚLTIPLE. NO LEER.

- 1 No es práctica ni política de empresa
- 2 No conduzco por carretera ni calles importantes
- 3 No me gusta que me digan qué hacer
- 4 No me gusta ponérmelo
- 5 Hábito/nunca/raramente lo llevo
- 6 Conduzco distancias cortas
- 7 Salgo y entro del vehículo todo el tiempo//tipo de trabajo/el equipo interfiere
- 8 Conducción lenta
- 9 No llevo pasajeros conmigo
- 10 Cinturón de seguridad roto/no funciona
- 11 Otra (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q17 En los últimos 12 meses, ¿ha aumentado, disminuido o permanecido igual su uso de los cinturones de seguridad al conducir (el coche que conduzca con más frecuencia)?

- 1 Aumentado
- 2 Disminuido
- 3 Permanecido igual
- 4 Conductor nuevo
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18\_1 ¿Qué provocó el cambio? Fue debido a....

(a) Se concienció más sobre temas de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18\_2 ¿Fue debido a....

(b) la ley del cinturón de seguridad

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18\_3 ¿Fue debido a ....

(c) que no quiere que le pongan una multa

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18\_4 ¿Fue debido a ....

(d) que le pusieron una multa por no llevar el cinturón/amonestación

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18\_5 ¿Fue debido a....

(e) que usted o alguien a quien conoce ha tenido un accidente

- 1 Sí
- 2 No
- 8 (VOL) No sabe^s
- 9 (VOL) Rechazada^s

Q18\_6 ¿Fue debido a....

(f) que otras personas le animaron o presionaron a utilizar los cinturones de seguridad

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18\_7 ¿Fue debido a....

(g) que usted quería darle un buen ejemplo a los niños

- 1 Si
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18\_8 ¿Fue debido a....

(h) Alguien que usted conoce fue multado

- 1 Si
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18i (Q18 ¿Qué provocó el cambio?)

Fue debido a.... (LEER LISTA)

¿ALGÚN OTRO MOTIVO?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q18i ¿Qué provocó el cambio?

Fue debido a.... (LEER LISTA)

¿ALGÚN OTRO MOTIVO?

[ESPECIFAR]

Q19 Le voy a leer una lista de motivos por los que pudiera usar el cinturón de seguridad. Según vaya leyendo, ¿dígame sí o no cada motivo que se le pueda aplicar a usted?

Q19\_1 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...

a. ES UN HÁBITO?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q19\_2 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...

b. NO QUIERO QUE ME PONGAN UNA MULTA

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q19\_3 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
c. ESTOY INCÓMODO/INCÓMODA SIN ÉL CINTURÓN

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q19\_4 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
d. OTROS QUIEREN QUE ME LO PONGA

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q19\_5 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
e. ES LA LEY?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q19\_6 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
f. QUIERO EVITAR SUFRIR DAÑOS SERIOS/O MUERTE?

Q21\_8 h LA GENTE CON LA QUE VOY NO LLEVAN PUESTO EL CINTURÓN DEL ASIENTO

- 1 DE ACUERDO
- 2 EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q21\_9i NO ME GUSTA QUE ME DIGAN LO QUE TENGO QUE HACER

- 1 DE ACUERDO
- 2 EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q21i ¿Hay alguna otra razón por la que no se pone el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q21IOTH

¿Cuáles son (las otras razones para no ponerse el cinturón de seguridad)?

- 1 Puede causar lesiones/enredos
- 2 En accidente donde el cinturón de seguridad causa lesiones
- 3 Conozco a alguien que se lesionó/murió debido al cinturón de seguridad
- 4 Otro (Especificar\_\_\_\_\_)

Q22 De las siguientes razones que me ha dado para no llevar el cinturón de seguridad, ¿cuál es la más importante? (LEER LISTA. ANOTAR SOLAMENTE UNA)

- 1 SÓLO CONDUZCO DISTANCIAS CORTAS
- 2 CONDUZCO CON POCO TRÁFICO
- 3 TENGO PRISA
- 4 SE ME OLVIDÓ PONÉRMELO
- 5 NO QUIERO QUE SE ME ARRUGUE LA ROPA
- 6 EL CINTURÓN DE SEGURIDAD ES INCÓMODO
- 7 LA PROBABILIDAD DE TENER UN ACCIDENTE ES DEMASIADO BAJA
- 8 LA GENTE CON LA QUE VOY NO LLEVAN EL CINTURÓN DE SEGURIDAD PUESTO
- 9 (VOL) No puedo decir cuál es más importante / todas son importantes
- 10 Puede causar lesiones/enredos
- 11 En accidente donde el cinturón de seguridad causa lesiones
- 12 Conozco a alguien que se lesionó/murió debido al cinturón de seguridad
- 13 (VOL) No puedo decir que sólo uno es el más importante/Todos son importantes
- 14 (VOL) Otra :[q21ioth]
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q22a Al conducir de noche, ¿es más probable, menos probable o apenas probable que usted use el cinturón de seguridad en comparación con cuando conduce de día?

- 1 Más probable
- 2 Menos probable
- 3 Apenas probable
- 4 (VOL) No conduzco de noche
- 8 (VOL) No sabe
- 9 (VOL) No responde

Q23 ¿Hay algo que le disguste especialmente o encuentra molesto sobre ponerse el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q24 ¿Qué es lo que le disgusta o encuentra molesto? ¿Algo más?

- 1 Poco cómodo
- 2 Los cinturones de seguridad son molestos/fastidiosos/engorrosos
- 3 Se siente uno limitado/demasiado confinado/restringido
- 4 Presión en el cuello/me ahoga/atraviesa el cuello
- 5 Presión en el hombro/la tira del hombro queda demasiado apretada
- 6 Presión en el pecho/La tira no se acomoda al pecho
- 7 Irrita/roza la piel/sarpullido

- 8 Arruga la ropa
- 9 Otro (Especificar \_\_\_\_\_)
- 98 No sabe/no está seguro
- 99 No responde

Q25 ¿ Para hacer la siguiente serie de preguntas, necesito saber cuántos niños de 15 años o menos de edad viven en su casa, al menos parte del tiempo o que la consideren su residencia principal?  
[NÚMERO (Rango 0-12); No sabe = 98; Rechazada =99]

---

Q26 ¿Qué edad tiene (Q26TXT)?  
[EDAD (Rango = 0-15) MENOS DE 1 = 0 ; No sabe = 98 Rechazada = 99]

---

Q27 Piense en todas las veces que este/esta niño/niña viajó con usted en los últimos treinta días, tanto con otros pasajeros como sin ellos. ¿Sobre qué proporción de esos viajes diría que el/la niño/niña viajó en el asiento delantero? Usted diría que el en los últimos treinta días el/la niño/niña montó en el asiento delantero...  
[LEER LISTA Y ANOTAR SOLAMENTE UNA]

- 1 Casi todas las veces, esto es el 90% o más
- 2 La mayoría de las veces
- 3 Aproximadamente la mitad de las veces
- 4 Algunas veces
- 5 Unas pocas veces, esto es, el 10% o menos
- 6 Nunca
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q28 Si se compara con hace 12 MESES este/esta niño/niña, ¿es más probable que se viaje en el asiento delantero, igual de probable que se viaje en el asiento delantero o menos probable que se viaje en el asiento delantero?

- 1 Más probable que se monte en el asiento delantero
- 2 Igual de probable que se monte en el asiento delantero
- 3 Menos probable que se monte en el asiento delantero
- 4 (VOL) No conduce actualmente con el/la niño/niña
- 5 (VOL) No conducía con el/la niño/niña hace doce meses
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q28a ¿Por qué es más probable que este/esta niño/niña viaje en el asiento delantero cuando usted conduce? NO LEER. ANOTACIONES MÚLTIPLES

- 1 El/ella es mayor/más grande
- 2 El/ella y yo vamos solos en el vehículo

- 3 El/ella prefiere ir delante
- 4 Le gusta sentarse a mi lado
- 5 Prefiero tenerlo/tenerla cerca para poder verlo/verla y poder alcanzarlo/alcanzarla
- 6 No hay otro sitio para el/la niño/niña en el vehículo
- 7 Otra (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q28b ¿Por qué es menos probable que el/la niño/niña viaje en el asiento delantero cuando usted conduce?

[NO LEER. ANOTACIONES MÚLTIPLES]

- 1 Más seguro/segura atrás
- 2 Peligro por los airbags
- 3 El/la niño/niña prefiere ir atrás
- 4 La silla para el/la niño/niña está atrás
- 5 No hay otro sitio para el/la niño/niña en el vehículo
- 6 Es la ley
- 7 El niño es demasiado joven/pequeño
- 8 Otra (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q29 En los últimos treinta días, ¿ha conducido un vehículo a motor en donde haya tenido a tres o más niños/niñas como pasajeros al mismo tiempo?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q29a ¿Ha habido algún día en los últimos 30 cuando tuvo que poner a un/una niño/niña en el asiento delantero porque había demasiados niños/niñas para el asiento trasero?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q30 ¿Con cuánta frecuencia viaja como pasajero en cualquier tipo de coche, furgoneta o camión? Diría que...(LEER LISTA)

- 1 CASI TODOS LOS DÍAS
- 2 VARIOS DÍAS POR SEMANA
- 3 VARIOS DÍAS AL MES
- 4 VARIOS DÍAS AL AÑO, O
- 5 NUNCA
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q31 Cuando usted es pasajero, ¿viaja normalmente en el asiento delantero o en el asiento trasero?

- 1 Asiento delantero
- 2 Asiento trasero
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q32 Cuando viaja como pasajero en el asiento delantero, ¿con qué frecuencia lleva su cinturón de seguridad? (LEER LISTA)

- 1 TODAS LAS VECES
- 2 LA MAYORÍA DE LAS VECES
- 3 ALGUNAS VECES
- 4 RARAMENTE, O
- 5 NUNCA
- 6 (VOL) Nunca monta en el asiento delantero
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q33 Cuando viaja como pasajero en el asiento trasero, ¿con qué frecuencia lleva su cinturón de seguridad? (LEER LISTA)

- 1 TODAS LAS VECES
- 2 LA MAYORÍA DE LAS VECES
- 3 ALGUNAS VECES
- 4 RARAMENTE, O
- 5 NUNCA
- 6 (VOL) Nunca monta en el asiento trasero
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q34 Le voy a leer una lista de motivos por los que puede que lleve el cinturón de seguridad. Según vaya leyendo, dígame sí o no cada motivo se le puede aplicar a usted.

Q34\_1 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
a. ES UN HÁBITO?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q34\_2 Cuando llevo puesto el cinturón de seguridad, lo hago porque...  
b. NO QUIERO QUE ME PONGAN UNA MULTA

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q34\_3 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
c. ESTOY INCÓMODO/INCÓMODA SIN ÉL CINTURÓN?

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q34\_4 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
d. OTROS QUIEREN QUE ME LO PONGA?

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q34\_5 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
e. ES LA LEY?

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q34\_6 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
f. QUIERO EVITAR DAÑOS SERIOS?

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q34\_7 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...  
g. QUIERO DAR BUEN EJEMPLO A OTROS?

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q34\_8 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...

h. LA GENTE CON LA QUE VOY SE PONEN EL CINTURÓN DE SEGURIDAD?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q34\_9 Cuando llevo puesto el cinturón de seguridad, ¿lo hago porque...

i. MI [+ctv+] TIENE UNA CAMPANA, ZUMBADOR O LUZ QUE LO RECUERDA?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q34I ¿Hay algún otro motivo por el que se pone el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q34IOE ¿Qué otras razones (por las que se pondría el cinturón)?

- 1 Me hace sentir cómodo
- 2 Conducir una mayor distancia
- 3 Tiempo inclemente
- 4 Conducir en autopista
- 5 Tráfico pesado
- 6 Es automático
- 7 Conducir más
- 8 Imagen de buena compañía/más profesional
- 9 Otro (Especificar\_\_\_\_\_)

Q35 De las siguientes razones que me acaba de dar para llevar su cinturón de seguridad, ¿cuál es más importante? (LEER LISTA. ANOTAR SÓLO UNA)

- 1 ES UN HÁBITO
- 2 NO QUIERO QUE ME PONGAN UNA MULTA
- 3 ESTOY INCÓMODO/INCÓMODA SIN ÉL
- 4 OTROS QUIEREN QUE ME LO PONGA
- 5 ES LA LEY
- 6 QUIERO EVITAR DAÑOS GRAVES
- 7 QUIERO DAR BUEN EJEMPLO A OTROS
- 8 LA GENTE CON QUE ESTOY LLEVAN PUESTO EL CINTURÓN DE SEGURIDAD
- 9 LO RECUERDA UNA CAMPANA, UN ZUMBADOR O UNA LUZ
- 10 Me hace sentir cómodo
- 11 Conducir una mayor distancia

- 12 Tiempo inclemente
- 13 Conducir en autopista
- 14 Tráfico pesado
- 15 Es automático
- 16 Conducir más
- 17 Imagen de buena compañía/más profesional
- 18 OTRO (ESPECIFICAR)
- 19 (VOL) No puedo decir que sólo uno es el más importante/todos son importantes
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q36 Por favor, dígame si está DE ACUERDO o EN DESACUERDO con las siguientes afirmaciones sobre su uso de los cinturones de seguridad.

Q36\_1 Algunas veces no llevo puesto mi cinturón de seguridad porque...  
a. SÓLO ESTOY CONDUCIENDO UNA DISTANCIA CORTA

- 1 DE ACUERDO
- 2 EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q36\_2 Algunas veces no llevo puesto mi cinturón de seguridad porque...  
b. VOY CON POCO TRÁFICO

- 1 DE ACUERDO
- 2 EN DESACUERDO
- 8 (VOL) No sabe

- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q36\_9 Algunas veces no llevo puesto mi cinturón de seguridad porque...

i. NO ME GUSTA QUE ME DIGAN LO QUE TENGO QUE HACER

- 1 DE ACUERDO
- 2 EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q36i ¿Hay alguna otra razón por la que a veces usted no utiliza su cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q36IOTH ¿Cuáles son (la razones para no utilizar el cinturón de seguridad)?

---

Q37 De las razones siguientes que me acaba de dar para no utilizar el cinturón de seguridad, ¿cuál es la más importante para no llevar el cinturón de seguridad?  
(LEER LISTA. ANOTAR SOLAMENTE UNA)

- 1 SÓLO CONDUZCO DISTANCIAS CORTAS
- 2 CONDUZCO CON POCO TRÁFICO
- 3 TENGO PRISA
- 4 SE ME OLVIDÓ PONÉRMELO
- 5 NO QUIERO QUE SE ME ARRUGUE LA ROPA
- 6 EL CINTURÓN DE SEGURIDAD ES INCÓMODO
- 7 LA PROBABILIDAD DE TENER UN ACCIDENTE ES DEMASIADO BAJA
- 8 LA GENTE CON LA QUE VOY NO LLEVAN EL CINTURÓN DE SEGURIDAD PUESTO
- 9 NO ME GUSTA QUE ME DIGAN LO QUE TENGO QUE HACER
- 10 (VOL) No puedo decir cuál es más importante / todas son importantes
- 11 (VOL) Otra :[q21ioth]
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q38 ¿Hay algo que le disgusta especialmente o que encuentra molesto sobre utilizar el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q39 ¿Qué es lo que le disgusta o encuentra molesto? ¿Algo más?

- 1 Poco cómodo
- 2 Los cinturones de seguridad son molestos/fastidiosos/engorrosos
- 3 Se siente uno limitado/demasiado confinado/restringido
- 4 Presión en el cuello/me ahoga/atraviesa el cuello
- 5 Presión en el hombro/la tira del hombro queda demasiado apretada
- 6 Presión en el pecho/La tira no se acomoda al pecho
- 7 Irrita/roza la piel/sarpullido
- 8 Arruga la ropa
- 9 OTRO (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q40 Ahora me gustaría preguntarle sobre su opinión acerca de las leyes sobre el uso del cinturón de seguridad. ¿Qué opina sobre las leyes que obligan a utilizar los cinturones de seguridad a los pasajeros del asiento delantero y a los conductores? ¿Está muy a favor de estas leyes, algo a favor o no está nada a favor?

- 1 Muy a favor
- 2 Algo a favor
- 3 Nada a favor
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q41 ¿Cree usted que las leyes sobre los cinturones de seguridad se deben aplicar también a los pasajeros ADULTOS del asiento trasero?

- 1 Sí
- 2 No
- 3 Depende de la edad del pasajero
- 4 Depende del tipo de vehículo
- 5 (VOL) Otra (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q42 ¿Está a favor o en contra de las multas a los conductores que no utilizan el cinturón de seguridad?

- 1 A favor
- 2 En contra
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q42a ¿Cuál piensa que debe ser la multa mínima por la primera infracción de los cinturones de seguridad? [CANTIDAD DE LA MULTA (Rango 0-1000); Sin multa/aviso = 0; No sabe = (VOL) 9998]

---

Q43 ¿Está a favor o en contra de recibir puntos en su licencia de conducir como multa por las infracciones de cinturones de seguridad?

- 1 A favor
- 2 En contra
- 3 Depende de las infracciones pasadas
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q44 Me gustaría que pensara en alguien a quien conoce que no utiliza el cinturón de seguridad siempre. Si pararan a esa persona y le pusieran una multa de (\$OFINE) por no llevar el cinturón de seguridad, ¿utilizaría esta persona el cinturón más frecuentemente, probablemente definitivamente utilizaría esta persona el cinturón de seguridad con más frecuencia o probablemente no cambiaría sus hábitos de uso del cinturón de seguridad?

- 1 Seguro que lo utilizaría con más frecuencia
- 2 Probablemente lo utilizaría con más frecuencia
- 3 Probablemente no cambiaría sus hábitos de uso de cinturón de seguridad
- 4 (VOL) Puede que haya un cambio a corto plazo, pero no un cambio a largo plazo
- 5 (VOL) No estoy seguro/segura
- 6 (VOL) No conozco a nadie así
- 9 (VOL) Rechaza

Q45 Suponga que le ponen una multa por no utilizar el cinturón de seguridad.  
¿Cuál de las siguientes afirmaciones describe mejor su reacción probable?

- 1 Me merezco la multa porque violé la ley, o
- 2 NO me merezco la multa porque el uso del cinturón de seguridad debería ser la decisión del individuo
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q46 Las preguntas siguientes son acerca de las leyes sobre el uso del cinturón de seguridad en su estado.

¿Tiene [oempty] una ley que obligue al uso del cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q47 ¿A quién se le obliga a utilizar el cinturón de seguridad según la ley de su estado?

Q47\_1 ¿Se les obliga a los/las

a. Conductores/conductoras a utilizar el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q47\_2 ¿Se les obliga a

b. los/las niños/niñas en el asiento delantero a utilizar el cinturón de seguridad?

- 1 Sí
- 2 No

- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q47\_3 ¿Se les obliga a  
c. los/las niños/niñas en el asiento trasero a utilizar el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q47\_4 ¿Se les obliga a  
d. los/las pasajeros/pasajeras adultos/adultas del asiento delantero a utilizar el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q47\_5 ¿Se les obliga a  
e. los/las pasajeros/pasajeras adultos/adultas del asiento trasero a utilizar el cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q48 Según la ley de su estado, ¿puede parar la policía a un vehículo si ve una infracción del uso del cinturón de seguridad o tienen que detectar otra infracción primero para parar al vehículo?

- 1 Puede parar sólo por infracción del uso del cinturón de seguridad
- 2 Tiene que detectar otra infracción primero
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q49 En su opinión, DEBERÍA permitirse a la policía parar vehículos si observa una infracción de uso del cinturón de seguridad si no hay ninguna otra infracción de las leyes de tráfico?

- 1 Debería permitírsele parar
- 2 No debería
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q49a La mayoría de las otras leyes sobre el tráfico permite a la policía parar a un vehículo cada vez que vea una infracción. ¿Por qué piensa que las infracciones del uso del cinturón de seguridad se deberían tratar diferentemente de otras infracciones de tráfico?  
NO LEER LISTA. ANOTACIÓN MÚLTIPLE

- 1 No suponen un riesgo para otros
- 2 No es una infracción tan grave
- 3 La policía abusa de ello
- 4 Debería ser una opción personal/ no es una buena norma/infringe los derechos
- 5 No siempre puedo decir que el cinturón de seguridad está puesto/Puede estar mal puesto
- 6 Sólo debería aplicarse a los niños
- 10 Otra (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechaza

Q50 En los últimos doce meses, desde (Q50TXT) del año pasado, ¿le ha parado la policía por CUALQUIER razón que tuviera que ver con el tráfico mientras conducía?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q50a ¿Utilizaba el cinturón de seguridad cuando le pararon?  
(SI LE PARARON MÁS DE UNA VEZ EN LOS ÚLTIMOS 12 MESES, PREGUNTAR SOBRE LA MÁS RECIENTE)

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q50b ¿Le pusieron multa por violar las leyes sobre el uso del cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q50c ¿Recibió usted un aviso por violar las leyes sobre el uso del cinturón de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q50d ¿Le pusieron una multa por alguna otra infracción del tráfico?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q50e ¿Le pusieron una multa por cualquier infracción del tráfico?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q51 ¿Le han puesto alguna vez una multa por no utilizar los cinturones de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q52 ¿Le han dado alguna vez un aviso por no utilizar los cinturones de seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q52a Después de recibir el/la [q52atxt] por el uso del cinturón de seguridad, ¿empezó a usted a utilizar los cinturones de seguridad con más frecuencia, menos frecuentemente o no hubo cambio en la frecuencia con que los utilizaba?

- 1 Utilizó el cinturón de seguridad con más frecuencia
- 2 Utilizó el cinturón de seguridad con menos frecuencia
- 3 Sin cambio en la frecuencia de utilización del cinturón de seguridad
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q53 Suponga que no utiliza el cinturón de seguridad NUNCA mientras conduce en los próximos seis meses. ¿Cuán probable es que le pongan una multa por no utilizar el cinturón de seguridad? (LEER LISTA)

- 1 MUY PROBABLE
- 2 ALGO PROBABLE
- 3 ALGO IMPROBABLE
- 4 MUY IMPROBABLE
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q54 ¿Con cuánta frecuencia cree que la policía debe que poner multas por infracciones del uso del cinturón de seguridad? En una escala del 1 al 10, donde 1 significa que la policía casi nunca debería poner multas y 10 significa que la policía debería poner multas en todas las ocasiones cuando se trata de hacer cumplir las leyes sobre el uso del cinturón de seguridad, ¿Cuán estricta debe ser la imposición de la policía?

\_\_\_\_\_ [(VOL) No sabe = 98; (VOL) Rechaza = 99]

Q55 Ahora le voy a leer varias afirmaciones. Por favor, dígame usted si está muy de acuerdo, algo de acuerdo, algo en desacuerdo o muy en desacuerdo.

Q55\_1 a. Es igual de probable que los cinturones de seguridad le ayuden como que le dañen (Q55TXT)

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q55\_2 b. La policía de mi comunidad generalmente no se molesta en poner multas por infracciones del uso del cinturón de seguridad

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q55\_3 c. Los accidentes cerca de casa normalmente no tienen la gravedad de los accidentes más lejanos

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q55\_4 d. Si tuviera un accidente, me gustaría llevar el cinturón de seguridad puesto

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q55\_5 e. La mayoría de los accidentes de vehículos a motor ocurren dentro de un radio de cinco millas de la casa

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q55\_6 f. Me daría reparo con mis amigos si yo utilizara el cinturón de seguridad y ellos no

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q55\_7 g. Tengo el hábito de utilizar el cinturón de seguridad porque mis padres insistieron en que lo utilizara cuando era niño/niña

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q55\_9 i. El ponerme el cinturón de seguridad hace que me preocupe más de tener un accidente

- 1 Muy DE ACUERDO
- 2 Algo DE ACUERDO
- 3 Algo EN DESACUERDO
- 4 Muy EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Me gustaría hacerle varias preguntas sobre límites de velocidad.

Q57 En general, ¿piensa usted que la mayoría de los límites de velocidad de las autopistas son demasiado bajos, demasiado altos o aproximadamente correctos?

- 1 Demasiado bajos
- 2 Demasiado altos
- 3 Aproximadamente correctos
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q58 ¿Y qué opina sobre los límites de velocidad residenciales o que no sean en autopistas? ¿Cree que son demasiado bajos, demasiado altos o aproximadamente correctos?

- 1 Demasiado bajos
- 2 Demasiado altos
- 3 Aproximadamente correctos
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q59 ¿Usted cree que la conducción de la mayoría de los/las otros/otras conductores/conductoras es ...(LEER LISTA)

- 1 EXCELENTE
- 2 MUY BUENA
- 3 BUENA
- 4 ACEPTABLE
- 5 MALA
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q60 ¿Con cuánta frecuencia se siente presionado por parte de otros/otras conductores/conductoras para que conduzca por encima del límite de velocidad? (LEER LISTA)

- 1 CON MUCHA FRECUENCIA
- 2 CON FRECUENCIA
- 3 RARAMENTE
- 4 NUNCA
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q61 ¿Qué afirmación describe mejor su conducción en autopista.

- 1 > TIENDO A ADELANTAR A OTROS COCHES CON MÁS FRECUENCIA QUE OTROS COCHES ME ADELANTAN, O
- 2 > OTROS COCHES TIENDEN A ADELANTARME CON MÁS FRECUENCIA
- 1 Tiendo a adelantar a otros coches con más frecuencia que otros coches me adelantan a mí
- 2 Otros coches tienden a adelantarme a mí con más frecuencia
- 3 (VOL) Ninguna, conduzco parecido a la mayoría de los/las otros/otras
- 4 (VOL) No conduzco en autopistas
- 5 (VOL) Ambas, esto es, tiendo a adelantar y otros tienden a adelantarme
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

- Q62 En general, ¿a qué velocidad conduce en autopista?  
[RANGO: 40 A 120 MPH; No conduce en autopista = 997; No sabe = 998; Rechazada = 999]

Ahora me gustaría hacerle varias preguntas sobre los airbags.

- Q63 ¿Tiene el/la ..... que usted conduce normalmente airbag?

1 Sí  
2 No  
8 (VOL) No sabe  
9 (VOL) Rechaza

- Q64 ¿Tiene su ..... airbag delante del/de la conductor/conductora?

1 Sólo para el conductor  
2 Para el conductor y pasajero/pasajera delantero/delantera  
8 (VOL) No sabe  
9 (VOL) Rechaza

- Q65 ¿Tiene su ..... airbag delante de donde iría un/una pasajero/pasajera en el asiento delantero?

1 Sí  
2 No  
8 (VOL) No sabe  
9 (VOL) Rechaza

- Q65a ¿Tiene su ..... airbag en algún otro sitio? En caso afirmativo, ¿dónde?  
(SÍ: ¿DÓNDE?) ¿Dónde más? [Si dice que air bag lateral, pregunte si frontal o posterior o ambas cosas].  
(ANOTACIÓN MÚLTIPLE; LEER SI ES NECESARIO)

1 En las puertas del coche cercanas al asiento delantero  
2 En las puertas del coche cercanas al asiento trasero  
3 Cortina descendiente encima de la puerta delantero  
4 Cortina descendiente encima de la puerta trasero  
5 En el asiento delantero  
6 En el asiento trasero  
7 Añadir luego(7)  
8 Añadir luego(8)  
9 Sí, pero no sé dónde  
10 Otra (ESPECIFICAR)  
11 No  
98 (VOL) No sabe  
99 (VOL) Rechaza

Q66 Si está conduciendo un vehículo que tiene airbag y usted tiene un accidente que involucra daños importantes del vehículo, ¿es probable o improbable que usted sufra daños?

- 1 Probable
- 2 Improbable
- 3 (VOL) Depende del tipo de accidente
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q67 Por favor, dígame si usted está DE ACUERDO o EN DESACUERDO con la siguiente afirmación. Si mi coche tiene (Q67TXT1) airbag(s) lateral(es), no necesito utilizar mi cinturón de seguridad al (Q67TXT2).

- 1 DE ACUERDO
- 2 EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q71 ¿Preferiría usted que su próximo vehículo tenga airbag para el/la CONDUCTOR/CONDUCTORA solamente, airbag para el/la CONDUCTOR/CONDUCTORA Y PASAJERO/PASAJERA o que no tenga airbags?

- 1 Conductor/Conductora
- 2 Conductor/Conductora y pasajero/pasajera
- 3 Sin airbags
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q72 ¿Tiene alguna preocupación sobre la seguridad de los airbags?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q72a ¿Cuáles son esas preocupaciones (sobre la seguridad de los airbags)?

- 1 Se infla accidentalmente/despliegue prematuro
- 3 No se despliega/preocupación de que no funcionen correctamente
- 4 Polvo químico que quema
- 5 La velocidad del inflado del airbag causa lesiones
- 6 Lesiones/airbags pueden fracturar el cuello
- 7 Huesos fracturados/los airbags pueden fracturar los huesos (nariz, dedos, etc.)
- 8 Lesiones cuando el airbag se abre tras el impacto
- 10 Los adultos pueden lesionarse con los airbags
- 11 Los adultos pueden sofocarse/no pueden respirar con los airbags
- 12 Los adultos jóvenes pueden lesionarse con los airbags

- 13 Seguridad/lesiones en niños
- 14 Otra (ESPECIFICAR)

Q73 En general, ¿se siente usted más seguro/segura en coches con airbags, aproximadamente igual o menos seguro/segura en coches con airbags?

- 1 Más seguro/segura en vehículos a motor con airbags
- 2 Aproximadamente igual
- 3 Menos seguro/segura en coches con airbags
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q73a En general, ¿cuánta protección contra heridas le siente un airbag habría proveer en un accidente involucrando daños importante al vehículo? Lo diría...(LEERE LISTA)

- 1 Mucho protección contra heridas,
- 2 Alguna protección contra heridas,
- 3 Muy poca protección contra heridas, o
- 4 No provee ninguna protección contra heridas?
- 5 (VOL) Depende en el tipo de accidente
- 6 (VOL) No sabe
- 7 (VOL) Rechaza

Q78 Ahora le voy a hacer varias preguntas sobre el consumo de alcohol. Durante los últimos 30 días, ¿ha tomado al menos una copa de bebida alcohólica, incluyendo licor, cerveza, vino o wine coolers?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q79 ¿Ha tomado alguna bebida alcohólica durante los últimos 12 meses?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q80 ¿Cuántos días de los últimos 30 tomó bebidas alcohólicas?  
[(Rango=0-30) No sabe = 98; Rechazada = 99]

Q81 Como media, ¿cuántas bebidas tomó típicamente en los días que bebió?  
[(Rango=0-12); MÁS DE 12 = 13; No sabe = 98; Rechazada = 99]

---

Q82 Durante los últimos 30 días, ¿ha conducido algún vehículo después de beber alcohol?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q83 ¿Cuántos días de los últimos 30 ha conducido usted después de beber bebidas alcohólicas?  
[(Rango=0-30); No sabe = 98; Rechazada = 99]

---

Q84 En los últimos 30 días, ¿ha conducido algún vehículo cuando pensaba que había consumido demasiado alcohol para conducir con toda seguridad?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q86 ¿Ha sufrido USTED alguna herida en un accidente de vehículo a motor? Cuento solamente los  
heridas que necesitaron atención médica.

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q86a ¿Ha sufrido USTED algún daño en un accidente de vehículo a motor en el que usted era  
pasajero/pasajera o ha sido usted golpeado/golpeada y herido/herida por un vehículo a  
motor mientras caminaba o montaba en bicicleta? Cuento solamente los daños que  
necesitaron atención médica.

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q87 ¿Cuántas veces le ha ocurrido esto?  
[No sabe = 98; Rechazada = 99]

---

Q88 ¿Hace cuánto tiempo que pasó %Q88TXT% accidente?  
[SOLAMENTE LOS ACCIDENTES DONDE SE NECESITÓ AYUDA MÉDICA]  
[EN EL ÚLTIMO 12 MESES = 0; No sabe = 98; Rechazada = 99]

---

Q88a ¿Ocurrió (Q88TXT) accidente a menos de 5 millas de donde usted vivía?

- 1 Sí, a menos de 5 millas
- 2 No, a 5 millas o más
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q88b ¿A dónde IBA usted cuando tuvo ese accidente? Iba a casa, al trabajo, al supermercado, al domicilio de un/una amigo/amiga o a otro sitio?

- 1 Casa
- 2 Trabajo
- 3 Supermercado
- 4 Domicilio de un/una amigo/amiga/ de un familiar
- 5 Escuela/Universidad/Clase
- 6 Restaurante/Sitio de comidas rápidas
- 7 Actividad recreativa (juego de pelota, cine, etc.)
- 8 Ningún lugar en particular/sólo viajaba/caminaba
- 9 De compras/centro comercial/almacén
- 10 Otro sitio (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechazada

Q88c ¿A dónde IBA usted cuando tuvo ese accidente? Venía del trabajo, del supermercado, del domicilio de un/una amigo/amiga o de otro sitio?

- 1 Hogar
- 1 Trabajo
- 2 Supermercado
- 3 Domicilio de un/una amigo/amiga/ de un familiar
- 4 Escuela/Universidad/Clase
- 5 Restaurante/Sitio de comidas rápidas
- 6 Actividad recreativa (juego de pelota, cine, etc.)
- 7 Ningún lugar en particular/sólo viajaba/caminaba
- 8 De compras/centro comercial/almacén
- 9 Otro sitio (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechazada

Q89 ¿Era usted pasajero/pasajera o conductor/conductora en ese accidente?

- 1 Conductor/conductora
- 2 Pasajero/pasajera
- 3 (VOL) Peatón/peatona
- 4 (VOL) Ciclista
- 5 (VOL) Motocicleta
- 6 (VOL) Otra (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q90 ¿Llevaba el cinturón de seguridad abrochado en el momento del accidente?

- 1 Sí
- 2 No
- 3 (VOL) Conductor/conductora/pasajero/pasajera de motocicleta
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q91 ¿En cuál de los siguientes recibió tratamiento para sus heridas?

Q91\_1 ¿Recibió tratamiento en ....(LEER LISTA)?

(a) Sala de urgencias de un hospital

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q91\_2 ¿Recibió tratamiento en .... (LEER LISTA)?

(b) La consulta de un doctor?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q91\_3 Recibió tratamiento en .... (LEER LISTA)?

(c) Una clínica?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q91\_4 ¿Recibió tratamiento en .... (LEER LISTA)?

(d) En el lugar del accidente?

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q91E (Q91 ¿En dónde de los siguientes recibió tratamiento para sus heridas?) ¿OTRO SITIO?

- 1      Respondió
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q92 ¿Se le transportó desde el lugar del accidente en ambulancia o en helicóptero?

- 1      Sí, ambulancia (o vehículo de rescate)
- 2      Sí, helicóptero
- 3      No, ninguno
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q93 ¿Estuvo hospitalizado/hospitalizada?

- 1      Sí
- 2      No
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

Q93a ¿Cuánto tiempo estuvo hospitalizado/hospitalizada?

- 1      Respondió en DÍAS
- 2      Respondió en HORAS
- 8      (VOL) No sabe
- 9      (VOL) Rechaza

(Q93a ¿Cuánto tiempo estuvo hospitalizado/hospitalizada?)  
[ANOTAR DÍAS (0-365)]

---

(Q93a ¿Cuánto tiempo estuvo hospitalizado/hospitalizada?)  
[ANOTAR HORAS (0-23)]

---

Q94 ¿Recibió usted algún tratamiento continuado o de seguimiento para sus heridas?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q94A\_1 (LEER LISTA) ¿Fue en..... La consulta de un doctor?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q94a ¿Dónde recibió este tratamiento de seguimiento?

Q94A\_2 (LEER LISTA) ¿Fue en..... En la consulta de un fisioterapeuta?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q94A\_3 (LEER LISTA) ¿Fue en..... Una clínica?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q94A\_4 (LEER LISTA) ¿Fue en..... Un hospital?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q94A\_5 (LEER LISTA) ¿Fue en..... Un quiropráctico?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q94a ¿Dónde recibió este tratamiento de seguimiento?  
¿EN OTRO SITIO?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

(Q94a ¿Dónde recibió este tratamiento de seguimiento?

(¿EN OTRO SITIO?) [ESPECIFICAR]

Q95 ¿Le impidieron los daños de ese accidente al realizar alguna de sus actividades normales (trabajo, clases, trabajo doméstico) durante al menos una semana?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q95a ¿Hubo alguna actividad que fuera incapaz de efectuar debido a sus daños incluso un año después del accidente?

- 1 Sí
- 2 No
- 3 Pasó hace menos de 1 año
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q96 ¿Ha tenido alguna vez daños de un accidente de tráfico que le hayan impedido realizar alguna de sus actividades normales (trabajo, clases, trabajo doméstico) durante al menos una semana?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q96a ¿Hubo actividades que no pudo desarrollar debido a los daños incluso un año después del accidente?

- 1 Sí
- 2 No
- 3 Pasó hace menos de 1 año
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q96b ¿Ha tenido daños causados por un accidente de tráfico que le impidiese hacer cualquiera de sus actividades normales (trabajo, clases, trabajo doméstico) un año después del accidente?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q97 ¿Ha sido alguna vez el/la conductor/conductora o pasajero/pasajera de un accidente en un vehículo de motor que involucrara la muerte o heridas que necesitaran atención médica?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

La gente tiene creencias diferentes sobre sus propias posibilidades de supervivencia en un accidente.

Q98 ¿Está DE ACUERDO o EN DESACUERDO con que si es su hora de morir, morirá, por lo que no importa si utiliza o no el cinturón de seguridad?

- 1 DE ACUERDO
- 2 EN DESACUERDO
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q99 Ahora tengo que hacerle unas preguntas sobre usted y su casa. ¿Qué edad tiene?  
[EDAD Rechazada = 99]

---

Q101 ¿Cuántos/cuántas niños/niñas MENORES DE 16 viven en su casa al menos parte del tiempo o la consideran su residencia principal?  
[NINGUNO/NINGUNA = 0; Rechazada = 99]

---

Q102 ¿Se considera usted hispano/hispana o latino americano/latina americana?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q103 ¿Cuál de los siguientes grupos raciales le describe a usted? Puede seleccionar más de uno.  
LEER LA LISTA Y ANOTACIÓN MÚLTIPLE

- 1 Indio/india americano/americana o nativo/nativa de Alaska
- 2 Asiático/asiática
- 3 Negro/negra o africanoamericano/africanoamericana

- 5 Blanco/blanca
- 6 (VOL) Hispano/latino
- 7 Otra (ESPECIFICAR)
- 9 (VOL) Rechazada

Q103b ¿Habla usted en casa un idioma diferente al inglés?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q103c ¿Cuál es este idioma?

- 1 Spanish
- 2 Chinese
- 3 French
- 4 German
- 5 Tagalog
- 6 Vietnamese
- 7 Italian
- 8 Korean
- 9 Russian
- 10 Polish
- 11 Arabic
- 12 Portuguese
- 13 Japanese
- 14 French Creole
- 15 Greek
- 16 Hindi
- 17 Persian
- 18 Urdu
- 19 Gujarathi
- 20 Armenian
- 21 Otra (ESPECIFICAR)
- 99 (VOL) Rechazada

Q105 ¿Cuál es el curso o año académico más alto que ha completado?

- 8 Octavo grado o menos
- 9 Noveno grado
- 10 Décimo grado
- 11 Undécimo grado
- 12 Duodécimo grado/GED
- 13 Algo de universidad
- 14 Graduado/graduada de universidad o más alto
- 99 (VOL) Rechazada

Q106 ¿Cuál de las siguientes categorías define mejor los ingresos totales de su casa antes de impuestos en 1999? (Incluir los ingresos de todas las personas de la casa.) Los ingresos totales de su casa fueron de [LEER LISTA]

- 1 Menos de 5.000 dólares
- 2 5.000 a 14.999 dólares
- 3 15.000 a 29.999 dólares
- 4 30.000 a 49.999 dólares
- 5 50.000 a 74.999 dólares
- 6 75.000 a 99.999 dólares
- 7 100.000 dólares o más
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Para entender mejor las características de conductor/conductora y pasajero/pasajera, nos gustaría preguntarle su peso y altura.

Q108 ¿Cuál es aproximadamente su estatura sin zapatos?

- 1 Respondió
- 8 (VOL) No sabe
- 9 (VOL) Rechaza

Q108a ¿Aproximadamente, cuánto mide usted sin zapatos?)  
[ANOTAR PIES]

Q108b Aproximadamente, cuánto mide usted sin zapatos?)  
[ANOTAR PULGADAS]

Q109 ¿Cuánto pesa usted? [LIBRAS]  
[No sabe =998 ; Rechazada =999]

Q110 Sin incluir buscas y mensáfonos, ¿tiene más de un número de teléfono en su casa en los que pueda recibir llamadas telefónicas entrantes?

- 1 Sí
- 2 No
- 9 (VOL) Rechaza

Q110a ¿Cuántos números de teléfono distintos tiene usted en esta residencia en los que puede recibir normalmente llamadas telefónicas entrantes?  
[10 O MÁS = 10; No sabe = 11; Rechazada = 12]

Q110b ¿Visitó usted el sitio web de D.O.T. para averiguar más información sobre la encuesta? (en [www.nhtsa.dot.gov](http://www.nhtsa.dot.gov))

- 1 Sí
- 2 No

- 8 (VOL) No sabe
- 9 (VOL) No responde

Q112 La encuesta se realizó en:

- 1 Inglés
- 2 Español

Q2 ¿El vehículo que conduce más frecuentemente es un coche, una Furgoneta o "minivan", una moto, un vehículo utilitario deportivo u otro tipo de camión? (NOTA: SI QUIEN RESPONDE CONDUCE MÁS DE UN VEHÍCULO CON FRECUENCIA, PREGUNTAR:) "¿Cuál ha sido el ÚLTIMO vehículo que ha conducido?"

- 1 Coche
- 2 Furgoneta o minivan
- 3 Motocicleta
- 4 Camioneta descapotable (pick up truck)
- 5 Vehículo utilitario deportivo (Jeep/Explorer/Trooper/etc)
- 10 Otro (ESPECIFICAR)
- 11 Otra camioneta (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechazada

Q3 Cuando se compró el/la ....., ¿era nuevo/nueva o usado/usada?

- 1 Nuevo/nueva
- 2 Usado/usada
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

**INSTRUCCIÓN PARA QUIEN HACE LA ENCUESTA: LAS PREGUNTAS SOBRE EL CINTURÓN DE SEGURIDAD SE REFIEREN A LOS CINTURONES DEL LADO DEL CONDUCTOR.**

Q4 Para la próxima serie de preguntas, por favor responda solamente para el/la .... que dice que conduce habitualmente. ¿Los cinturones de seguridad del/de la ..... van por el hombro solamente, por el regazo solamente, tanto por el hombro como por el regazo?

- 1 Por el hombro
- 2 Por el regazo
- 3 Por ambos
- 4 El vehículo no tiene cinturones
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q5 ¿Son los cinturones del hombro y del regazo de una pieza o son dos cinturones divididos?

- 1 Una pieza
- 2 Dos cinturones divididos
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q6 ¿Son los cinturones del hombro y del regazo automáticos, sólo el del hombro es automático o ninguno de los dos es automático?

- 1 Ambos son automáticos
- 2 Sólo el del hombro es automático
- 3 Ninguno es automático
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q7 ¿Es el cinturón del hombro automático o se lo tiene que poner usted?

- 1 Automático
- 2 Manual
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q8 Cuando conduce, ¿lleva siempre el cinturón, o está alguna vez desconectado, desactivado o puesto detrás de usted?

- 1 Siempre lo llevo
- 2 Desconectado
- 3 Desactivado
- 4 Detrás de mí
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q9 Al conducir este/esta ....., ¿con qué frecuencia lleva puesto el cinturón del hombro... **(LEER LISTA)**

- 1 TODO EL TIEMPO

Q41 ¿Cuán fáciles o difíciles fueron de entender las instrucciones? ¿Diría que las instrucciones fueron muy fáciles, algo fáciles, algo difíciles o muy difíciles de entender?

- 1 Muy fáciles
- 2 Algo fáciles
- 3 Algo difíciles
- 4 Muy difíciles
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q42 ¿Había instrucciones disponibles?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q43 ¿Cuán fácil le resulta ajustar el asiento de seguridad niño/niña para coche al vehículo que conduce normalmente...(LEER LISTA)

- 1 MUY FÁCIL
- 2 ALGO FÁCIL
- 3 NADA FÁCIL
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q44 ¿Qué le resulta difícil de ajustar el asiento de seguridad niño/niña para coche al vehículo?  
ENCUESTADOR/ENCUESTADORA: (NOTAR AL PIE DE LA LETRA LAS RESPUESTAS  
SOBRE SEGURIDAD JUNTO A Q44 Y LUEGO ANOTAR "1" PARA CONTINUAR)

- 1 Acomodar el cinturón de seguridad en el agujero/aro del asiento del auto
- 2 Engancharlo/sujetarlo al asiento/abrocharlo
- 3 Ajustar el cinturón de seguridad asegurándose de que está suficientemente apretado
- 4 No hay suficiente espacio para maniobrar/El diseño del asiento trasero lo hace torpe
- 5 Tengo que poner la mano/el brazo por atrás del asiento para niños para sujetarlo
- 6 Otro (Especificar \_\_\_\_\_)
- 8 (VOL) No sabe/no está seguro
- 9 (VOL) No responde

Q46 ¿Ha conducido alguna vez con el niño/la niña en el asiento para coche y más tarde se ha dado cuenta de que el asiento para coche no estaba ajustado de manera segura?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q46a ¿Por qué ocurrió esto?

- 1 Lo olvidé/no estaba prestando atención/descuido
- 2 Difícil de sujetarlo de manera suficientemente apretada
- 3 Asiento puesto por el cónyuge/otra persona que no lo colocó correctamente
- 4 Se cambió el asiento del auto a otro auto/dentro del mismo auto
- 5 El niño sabe cómo desabrocharlo él mismo
- 6 Otro niño aflojó accidentalmente el asiento para bebés
- 7 Otro (Especificar \_\_\_\_\_)
- 8 (VOL) No sabe/no está seguro
- 9 (VOL) No responde

Q46b Cuando ajusta el asiento de niño/niña para coche a su ..... ¿utiliza el cinturón de seguridad en el/la ..... para ajustar el asiento de niño/niña para coche o utiliza otra cosa para ajustar el asiento para coche al vehículo?

- 1 Utiliza el cinturón de seguridad
- 2 Utiliza otra cosa
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q46c ¿Qué utiliza usted para ajustar el asiento de niño/niña para coche a su .....?

- 1 Respondió
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q46d Algunos asientos de niño/niña para coche tienen una cinta por la parte TRASERA del asiento para coche, cerca de la parte superior. Esta cinta o tether está diseñada para ajustar a un vehículo a motor detrás del asiento del coche cuando el niño/la niña está sentado/sentada mirando hacia delante. ¿Tiene el asiento de niño/niña para coche que utiliza usted con ..... este tipo de tether por detrás ?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q46e Cuando el/la niño/niña de ..... años monta en el asiento de niño/niña para coche, ¿con qué frecuencia está la tether ajustada al vehículo a motor? ¿Diría que la tether está ajustada al vehículo a motor en....(**LEER LISTA**)

- 1 Todos los viajes en que el niño/la niña monta en el asiento para coche,
- 2 La mayoría de los viajes,
- 3 Algunos viajes, o
- 4 Ningún viaje?
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q46f Cuando el niño/la niña está montado/montada en el asiento de niño/niña para coche y la tether no está ajustada al vehículo a motor, ¿cuáles son las razones por las que la tether no está ajustada? **(NO LEER LISTA; ANOTACIÓN MÚLTIPLE)**

- 1 No hay sitio en el vehículo para sujetar la tether
- 2 No sabe cómo sujetar la tether
- 3 Otra (ESPECIFICAR)
- 4 No se requiere/necesita
- 5 No quiere molestar
- 6 El cinturón de seguridad es suficientemente bueno
- 7 Lo olvidé
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q47 ¿Le resulta fácil abrochar correctamente a su niño/niña en el asiento de niño/niña para coche? **(LEER LISTA)**

- 1 MUY FÁCIL
- 2 ALGO FÁCIL
- 3 NADA FÁCIL
- 4 (VOL) El niño/la niña se abrocha solo/sola
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q48 ¿Qué le resulta difícil al abrochar a su niño/niña al asiento de niño/niña para coche ["Asiento Auxiliar para Niños"]? **(ANOTAR LAS RESPUESTAS AL PIE DE LA LETRA EN SAF JUNTO A Q48, LUEGO ANOTAR "1" PARA CONTINUAR)**

- 1 Difícil de insertar/abrochar
- 2 Ajustar las correas para hombro para que queden bien/estrechez del asiento
- 3 La ropa pesada/voluminosa/de invierno hace difícil abrochar al niño
- 4 El niño no se sienta/se sienta quieto/no coopera/se retuerce
- 5 Difícil que un adulto pase/se estire hacia la parte posterior del vehículo para abrocharlo
- 6 Otro (Especificar \_\_\_\_\_)
- 8 (VOL) No sabe/no está seguro
- 9 (VOL) No responde

Q50 Alguna vez su niño de (EDAD) se ha salido del asiento auxiliar para niños mientras usted va manejando?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q50a ¿Con qué frecuencia cambia el asiento de niño/niña para coche ["Asiento Auxiliar para Niños"] de un vehículo a motor a otro vehículo a motor? ¿Diría usted que cambia el asiento de niño/niña para coche ["Asiento Auxiliar para Niños"] de un vehículo a motor a otro casi todos los días, varios días a la semana, varios días al mes, varios días al año o nunca?

- 1 Casi todos los días/todos los días
- 2 Varios días por semana
- 3 Varios días al mes
- 4 Varios días al año
- 10 Nunca
- 12 Otra (ESPECIFICAR)
- 98 (VOL) No sabe
- 99 (VOL) Rechazada

If Q25b = 1 Leer: "Para la siguiente serie de preguntas, voy a indagar acerca de su experiencia con asientos de auto para niños en lugar del asiento auxiliar para niños que actualmente usa usted".

Q51 En muchas comunidades, hay sitios a donde la gente puede ir para que alguien compruebe si están ajustando los asientos de niño/niña para coche y si están abrochando a sus niños/niñas de manera correcta. ¿Ha ido alguna vez a un sitio como estos para que alguien comprobara cómo estaba ajustando el asiento de niño/niña para coche ?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q51a ¿Me podría decir qué tipo de organización o empresa patrocinó la prueba del asiento de niño/niña para coche a la que fue?

- 1 Concesionario de coches
- 2 Fabricante de coches
- 3 El estado o condado
- 4 Unidades de bombero o de rescate
- 5 Otra (ESPECIFICAR)
- 6 Almacén minorista
- 7 Hospital/centro médico/de salud

Q51c ¿Encontró la persona que comprobó su asiento para coche que había algo mal en la manera en que usted había ajustado el asiento o abrochado a su niño/niña?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q51d ¿Sugirió algo la persona que comprobó el asiento para coche que usted hiciera algo de manera diferente de como ajusta el asiento o abrocha a su niño/niña?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q51e ¿Qué sugirió que hiciera diferentemente?

**(ANOTAR LA RESPUESTA AL PIE DE LA LETRA EN SAF JUNTO A Q51e Y MARQUE LA ANOTACIÓN "1", SI NO MARQUE LA ANOTACIÓN "98" SI NO SABE; ANOTACIÓN "99" PARA RECHAZADA)**

- 1 Apretar más el cinturón de seguridad/Más presión en el cinturón de seguridad
- 2 Colocar rodilla/peso en un asiento de auto para asegurarlo más
- 3 Usé espuma/toalla/algo detrás/debajo para asegurarlo más
- 4 Ajustar las correas para el niño
- 5 Otro (Especificar \_\_\_\_\_)

Q51f Durante la comprobación del asiento para coche, ¿se le dio la oportunidad de practicar el ajustar el asiento y abrochar al niño/a? ¿O pasó todo el tiempo observando a alguien comprobar el asiento y mostrarle cómo ajustarlo?

- 1 Se me dio oportunidad para practicar
- 2 Pasé todo el tiempo observando
- 3 Otra (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q51g Antes de dejar la comprobación del asiento para coche, ¿quién fue la última persona en ajustar el asiento para coche? ¿Fue usted o la persona que comprobó los asientos?

- 1 Usted (quien responde)
- 2 La persona que comprueba los asientos
- 3 Otra persona (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q51h (Cuál de las siguientes afirmaciones describe mejor cómo se sintió al salir del sitio de comprobación de asientos para coche? **(LEER LISTA)**)

- 1 Me sentí más confuso/confusa cuando me fui que cuando llegué
- 2 Sintió que no había aprendido nada que usted no supiera ya
- 3 Sintió que usted había aprendido a hacer un mejor trabajo al sujetar y abrochar a su niño/niña, pero seguía inseguro/insegura de poder hacer todo correctamente,
- 4 Me sentí completamente seguro de que podía ajustar y abrochar a su niño/niña de manera segura por sí mismo/misma
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q51i Cuando usted se fue, ¿sobre qué se sentía más inseguro?

**(ANOTAR LA RESPUESTA AL PIE DE LA LETRA EN SAF JUNTO A Q51i Y MARQUE LA ANOTACIÓN "1", SI NO MARQUE LA ANOTACIÓN "98" SI NO SABE; ANOTACIÓN "99" PARA RECHAZADA)**

(d) ¿Pone el niño/la niña el cinturón del hombro por detrás de él/ella?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

(e) ¿Pone el niño/la niña el cinturón del asiento para el hombro por debajo de su brazo?

- 1 Sí

- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

(f) ¿Se doblan las piernas del niño/de la niña por el borde del asiento?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q64 En general, ¿a qué edad cree que un niño/una niña está preparado/preparada para empezar a llevar el cinturón de seguridad en vez de utilizar algún tipo de asiento para coche?

\_\_\_\_\_

Q65 Antes de hoy, ¿había visto usted u oído hablar de un tipo de asiento para coche llamado asiento de seguridad elevado antes de hoy?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q66 ¿Ha utilizado alguna vez un asiento de seguridad elevado mientras conducía con su (CHILD)?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q66a ¿A qué edad empezó usted a utilizar un asiento de seguridad elevado para su (CHILD)?

\_\_\_\_\_ [RANGO = 0 A 8; Menos de 1 YR = 0; No sabe/Rechazada = 9]

Q66b ¿Aproximadamente cuánto pesaba el/la (CHILD) en el momento en que empezó a utilizar asiento de seguridad elevado? [ANOTAR EN LIBRAS]

\_\_\_\_\_ [No sabe = 998; Rechazada = 999]

Q67 ¿Tiene algún tipo de preocupaciones sobre la seguridad de los asientos de seguridad elevados?

- 1 Sí
- 2 No

- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q67a ¿Cuáles son esas preocupaciones (sobre la seguridad de los asientos de seguridad elevados)?

**(ANOTAR LA RESPUESTA AL PIE DE LA LETRA EN SAF JUNTO A Q67a Y MARQUE LA ANOTACIÓN "1", SI NO MARQUE LA ANOTACIÓN "98" SI NO SABE; ANOTACIÓN "99" PARA RECHAZADA)**

- 1 El asiento no está sujetado de manera segura al asiento del auto/no es estable
- 2 Restricción inadecuada/No sujeta completamente al niño
- 3 El asiento no es seguro
- 4 El niño/bebé podría salirse de él
- 5 Preocupaciones de seguridad/No sé qué tan seguros son
- 6 Qué tan seguros son en comparación con los asientos de seguridad normales
- 7 Qué tan seguros serían en un accidente
- 8 Otro (Especificar \_\_\_\_\_)
- 98 (VOL) No sabe
- 99 (VOL) No responde

Q67b ¿Cuál diría que es la razón MÁS IMPORTANTE para que un niño/una niña utilice un asiento de seguridad elevado? **(NO LEER LISTA)**

- 1 Que el niño/la niña esté más seguro/segura
- 2 Hacer que el cinturón de seguridad ajuste correctamente
- 3 Los profesionales de la salud y de la seguridad lo recomiendan
- 4 Permitir que el niño/la niña vea mejor fuera de la ventana
- 5 Es la ley
- 6 No quiero que me pongan una multa
- 7 (VOL) Otra (ESPECIFICAR)
- 8 Cuando el niño es demasiado grande para asiento de seguridad pero demasiado pequeño para cinturón de seguridad
- 9 Mejor que el cinturón de seguridad
- 10 Mantiene quieto al niño
- 98 (VOL) No sabe
- 99 (VOL) No responde

Q67c ¿Qué hace que el asiento de seguridad elevado para que el niño/la niña esté más seguro/seguro?

**(ANOTACIÓN MÚLTIPLE. NO LEER)**

- 1 Hace que el cinturón de seguridad ajuste correctamente
- 2 Eleva al niño/a la niña
- 3 Mantiene al niño/a la niña en su sitio
- 4 Evita que el niño/la niña salga despedido del vehículo
- 5 (VOL) Otra (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q68 ¿Cuando su niño de (EDAD) deje su actual asiento auxiliary para niños; espera usted que el/ella use un asiento de carro auxiliary diferente o cinturón de seguridad solamente?

- 1 Diferente asiento tipo de automóvil
- 2 Asiento auxiliar solamente
- 8 Otro (ESPECIFICAR)
- 9 (VOL) Nada
- 10 (VOL) Asiento de seguridad elevado
- 98 (VOL) No sabe
- 99 (VOL) Rechazada

Q69 ¿Qué opina personalmente sobre la obligación de la policía de las leyes sobre el uso del cinturón de seguridad? En una escala de a 10, donde 1 significa que la policía casi nunca debería poner multas y 10 significa que la policía debería poner multas por cada infracción de las leyes sobre el uso del asiento de niño/niña para coche, cuán estricta debería ser la obligación de la policía?

LA POLICÍA CASI NUNCA  
LA POLICÍA PONER  
PONER MULTA POR  
MULTA A CADA  
INFRACCIONES  
OPORTUNIDAD

- |    |                 |   |   |   |   |   |   |   |    |
|----|-----------------|---|---|---|---|---|---|---|----|
| 1  | 2               | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| 98 | (VOL) No sabe   |   |   |   |   |   |   |   |    |
| 99 | (VOL) Rechazada |   |   |   |   |   |   |   |    |

Q70 ¿Cuál piensa que debería ser la multa mínima por la infracción de las leyes sobre el uso del asiento de niño/niña para coche?

\_\_\_\_\_ [(Rango=1-1000); Sin multa/aviso = 0 ; (VOL) No sabe = 9998;

No responde = 9999]

Q71 ¿Qué opina sobre cuando a los niños/las niñas se les queden pequeños los asientos de niño/niña para coche, incluyendo los asientos de seguridad elevados? ¿Está de acuerdo o en desacuerdo en que se les debería obligar por ley a llevar el cinturón de seguridad al montar en un vehículo?

- 1 De acuerdo
- 2 Depende de la edad
- 3 En desacuerdo
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q72 ¿Qué edad deberían tener los niños/las niñas antes de que no se les obligue por ley a llevar el cinturón de seguridad o piensa que a todos los niños/las niñas se les debería obligar?

\_\_\_\_\_ [EDAD (Rango: 0-21); SE DEBERÍA OBLIGAR A TODOS  
LOS NIÑOS = 21; 0=NO SE DEBERÍA OBLIGAR A  
NINGUNA EDAD; (VOL) No sabe = 98; No responde=99]

Q72a Ahora me gustaría hacerle algunas preguntas acerca de enseñar a los adolescentes a conducir. En su opinión, ¿cuál es la edad más temprana en la que se les debería otorgar a los adolescentes un permiso de practicante para conducir?

\_\_\_\_\_ EDAD  
98 (VOL) No sabe  
99 (VOL) No responde

Q72b Si los adolescentes toman un curso de formación en conducción, ¿qué tan importante es que ellos **también tengan** a uno de sus padres o tutor que les enseñe a conducir además de la instrucción del curso? ¿Diría usted que es muy importante, un poco importante o que no es importante?

1 Muy importante  
2 Un poco importante  
3 No es importante  
8 (VOL) No sabe  
9 (VOL) No responde

Q72c ¿Cuántas horas recomendaría usted que un padre o tutor pase enseñando a su hijo adolescente a conducir? ¿Recomendaría usted que un padre o tutor pase más de 50 horas, entre 25 y 50 horas, menos de 25 horas o ninguna hora enseñando a su hijo adolescente a conducir?

1 Más de 50 horas  
2 Entre 25 y 50 horas  
3 Menos de 25 horas  
4 Ninguna hora  
8 (VOL) No sabe  
9 (VOL) No responde

Q72d Cuando **usted** aprendió a conducir, ¿cuántas horas pasaron sus padres enseñándole a conducir. ¿Diría usted que pasaron más de 50 horas, entre 25 y 50 horas, menos de 25 horas o ninguna hora enseñándole a usted a conducir?

1 Más de 50 horas  
2 Entre 25 y 50 horas  
3 Menos de 25 horas  
4 Ninguna hora  
5 (VOL) Un adulto diferente a mis padres me enseñó  
8 (VOL) No sabe  
9 (VOL) No responde

- Q72e En la mayoría de los estados, los adolescentes deben conducir con un permiso de practicante durante un periodo de tiempo requerido, generalmente 6 meses. Después de este periodo, algunos estados permiten a los adolescentes obtener la misma licencia de conducción que obtienen las personas adultas. Otros estados exigen que se otorgue una licencia provisional, la cual tiene normas especiales que los conductores deben seguir, como no conducir de noche.

¿Qué cree usted que es lo mejor **después del permiso de practicante**.....?

- 1 Que los adolescentes obtengan la misma licencia de conducción que los adultos,
- o
- 2 Que los adolescentes obtengan una licencia provisional con reglas especiales
- 8 (VOL) No sabe
- 9 (VOL) No responde

- Q72f Por favor, dígame si usted está de acuerdo, en desacuerdo o no tiene opinión acerca de si una licencia provisional para adolescentes debería incluir las siguientes normas especiales.

|                                                                                                                                                 | De<br>acuerdo | En<br>desacuerdo | No<br>opina |
|-------------------------------------------------------------------------------------------------------------------------------------------------|---------------|------------------|-------------|
| a. El adolescente No puede conducir sin supervisión después de las 9:00 p.m                                                                     | 1             | 2                | 3           |
| b. El adolescente tiene restricción sobre el número de pasajeros adolescentes cuando está conduciendo                                           | 1             | 2                | 3           |

Q91 Ahora me gustaría hacerle varias preguntas sobre un asunto sobre el que puede que no sepa mucho . ¿Puede decirme qué significan las iniciales "EMS"?

- 1 Sí, servicio/EMS
- 2 Sí, respuesta errónea
- 3 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q91b Otra respuesta a los que significa "EMS".

---

Muchas personas no lo saben, pero ems significa servicios medicos de emergencias ( por sus siglas en ingles). Llos servicios medicos de emergencia incluye a todas las personas de su comunidad que responden a emergencias medicas , tales como ambulancias, grupos de rescate y servicios de emergencias en los hospitales.

Q92a1 En su opinión, ¿son los servicios médicos de emergencia más importantes, igual de importantes o menos importantes para su comunidad que los servicios que proporciona el departamento de policía?

- 1 Más importantes
- 2 Igual de importantes
- 3 Menos importantes
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q92a2 En su opinión, ¿son los servicios médicos de emergencia más importantes, igual de importantes o menos importantes para su comunidad que los servicios que proporciona el departamento de bomberos?

- 1 Más importantes
- 2 Igual de importantes
- 3 Menos importantes
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q93 Si hubiera una emergencia médica en su vecindario y llamara a una ambulancia, ¿cuánto tiempo cree que tardaría en llegar la ambulancia?

\_\_\_\_\_ [(ANOTAR MINUTOS): (Rango: 1-60)  
MÁS DE UNA HORA=61 ; No sabe=98; Rechazada=99]

Q94 Independientemente del tipo de emergencia médica, ¿cuán confiado está usted de que la ambulancia u otros trabajadores de emergencias sabrán qué hacer?

**(LEER LISTA)**

- 1 MUY SEGURO/SEGURA
- 2 ALGO SEGURO/SEGURA, O
- 3 NO SEGURO/SEGURA
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q95 ¿Ha llamado usted personalmente alguna vez al 911 o a otro número de emergencia pidiendo ayuda?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q95a ¿Cuánto tiempo hace que ocurrió eso (la última vez)?

- 1 Hoy
- 2 Durante la semana pasada
- 3 Durante el mes pasado
- 4 En los últimos 12 meses
- 5 Hace un año o más
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q95b ¿Llamó a la policía, los bomberos, una ambulancia o a algo diferente?  
**[ANOTACIÓN MÚLTIPLE]**

- 1 Policía
- 2 Departamento de bomberos
- 3 Ambulancia
- 4 Grupo de rescate
- 5 Servicios médicos de emergencia
- 6 Control de intoxicaciones
- 7 Otro (ESPECIFICAR)
- 8 (VOL) No sabía que 911 era el apropiado
- 98 (VOL) No sabe
- 99 (VOL) Rechazada

Q96a1 ¿Llamó usted de un teléfono que estaba unido a la pared o a una salida? ¿O llamó usted de un teléfono inalámbrico, como un teléfono celular?

- 1 Conectado a la pared
- 2 Inalámbrico
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q96a2 Si usted utilizara un teléfono celular para llamar al 911 por una emergencia en su comunidad, ¿puede el Centro de Atención Telefónica del 911 identificar su NÚMERO TELEFÓNICO sin que usted se lo diga?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q96a3 Si usted utilizara un teléfono celular para llamar al 911 por una emergencia en su comunidad, ¿puede el Centro de Atención Telefónica del 911 identificar su UBICACIÓN sin que usted se la diga?

- 1 Si
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q96b Las comunidades pagan por los servicios de llamada al 911 a través de tarifas o impuestos cobrados al público. ¿Estaría usted dispuesto o poco dispuesto a pagar más de lo que usted paga actualmente por los servicios de llamada al 911 para ubicar más fácilmente a las personas que llaman?

- 1 Dispuesto a pagar más
- 2 Poco dispuesto a pagar más
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q96c ¿Cuánto más estaría usted dispuesto a pagar por año por servicios de llamada al 911? ¿Estaría usted dispuesto a pagar menos de \$5 más, entre \$5 y \$10 más, entre \$10 y \$20 más o más de \$20 más por año?

- 1 Menos de \$5 más
- 2 Entre \$5 y \$10 más
- 3 Entre \$10 y \$20 más
- 4 Más de \$20 más
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q96d Las comunidades utilizan otros impuestos y tarifas cobrados al público para pagar los sistemas de servicios médicos de emergencia, los cuales incluyen ambulancias, grupos de rescate y servicios de emergencia hospitalarios. ¿Estaría usted dispuesto o poco dispuesto a pagar más de lo que usted paga actualmente para el sistema de servicios médicos de emergencia de su comunidad para mejorar los equipos y la capacitación de los servicios médicos de emergencia?

- 1 Dispuesto a pagar más

- 3 Aproximadamente en la mitad de los viajes
- 4 Menos de la mitad de los viajes, o
- 5 Nunca
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q106a Cuando usted habla por teléfono mientras que conduce, ¿tiende a sostener el teléfono con su mano o tiende a utilizar el manos libres?

- 1 Sujeta el teléfono
- 2 Utiliza el manos libres
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q106b ¿Utiliza siempre el manos libres cuando habla por teléfono mientras conduce o a veces sujeta el teléfono con la mano al conducir y hablar por teléfono?

- 1 Siempre utiliza el manos libres
- 2 A veces utiliza el manos libres
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q106c Cuando está hablando por teléfono mientras conduce, ¿lleva normalmente audífono o auricular para hablar, utiliza normalmente un teléfono con altavoz o normalmente utiliza otra cosa para hablar?

- 1 Audífono/auricular
- 2 Teléfono con altavoz
- 3 Sólo el teléfono
- 4 Otra cosa (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q106d ¿Cuando se pone normalmente el auricular/auricular? ¿Se pone normalmente el audífono/auricular antes de empezar a conducir, se los pone mientras conduce o se los pone normalmente al parar temporalmente?

- 1 Antes de empezar a conducir
- 2 Mientras conduce
- 3 Al parar temporalmente
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q106e Cuando está conduciendo y quiere marcar el teléfono, ¿tiende a marcar el teléfono mientras está conduciendo, intenta marcar el teléfono mientras está PARADO TEMPORALMENTE o intenta parar y detener el vehículo a motor antes de marcar?

- 1 Mientras conduce
- 2 Al parar temporalmente
- 3 Para y se detiene
- 4 (VOL) Nunca marco
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q107 ¿En su estado hay alguna ley por la cual sea ilegal hablar por teléfono celular utilizando la mano mientras se conduce?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q108 ¿Ha utilizado alguna vez un teléfono de coche o teléfono celular u otro tipo de teléfono inalámbrico para informar de una emergencia mientras conducía o montaba en un vehículo motocicleta?

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q109 ¿Sobre qué llamada de emergencia llamó?

- 1 Auto varado en la carretera/avería/vehículo descompuesto
- 2 Conductor ebrio
- 3 Accidente automovilístico/colisión/choque/estrellada
- 5 Conductor imprudente/agresivo
- 6 Restos y escombros en la vía
- 7 Animal golpeado/arrollado
- 8 Fuego
- 10 Emergencia médica
- 11 Comportamiento criminal
- 12 Incendio vehicular
- 13 Otro (Especificar\_\_\_\_\_)
- 98 (VOL) No sabe
- 99 (VOL) No responde

Q99 Supongamos que usted va conduciendo y ve que ocurre un accidente y no hay nadie en la escena para ayudar. ¿Qué preocupaciones tendría usted para detenerse y ayudar? ¿Algo Ma's?

- 1 No tengo preocupaciones
- 2 Procesos judiciales/responsabilidades
- 3 No sabría qué hacer/cómo ayudar
- 4 Truco para hacerlo detener
- 5 Causar más lesiones a la víctima
- 6 Seguridad personal
- 7 Seguridad de mis hijos/pasajeros
- 8 Qué tan lesionada puede estar la víctima/gravedad de la lesión
- 13 Otro (ESPECIFICAR\_\_\_\_\_)
- 14 No me gusta ver muertos/cuerpos mutilados
- 15 No soy físicamente apto para ayudar/demasiado viejo para ayudar
- 98 (VOL) No sabe
- 99 (VOL) No responde

Q110 ¿Ha sufrido USTED heridas en un accidente de vehículo a motor? Cuento solamente las heridas que necesitaron atención médica.

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q110a ¿Ha sufrido USTED alguna herida en un accidente de vehículo a motor en el que usted era pasajero/pasajera o ha sido usted golpeado/golpeada y lesionado/lesionada por un vehículo a motor mientras caminaba o montaba en bicicleta? Cuento solamente las heridas daños que necesitaron atención médica.

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q111 ¿Cuántas veces le ha ocurrido esto?  
[No sabe=98; Rechazada=99]

Q112 ¿Hace cuánto tiempo que pasó %Q112TXT% accidente?  
[EN EL ÚLTIMO AÑO=0; NO SABE=98; RECHAZADA=99]  
[ANOTAR EL NÚMERO DE AÑOS]

Q113 ¿Era usted conductor/conductora o pasajero/pasajera en ese accidente?

- 1 Conductor/conductora
- 2 Pasajero/pasajera
- 3 (VOL) Peatón
- 4 (VOL) Ciclista
- 5 Otro (ESPECIFICAR)
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

Q114 ¿Llevaba el cinturón de seguridad abrochado en el momento del accidente?

- 1 Sí
- 2 No
- 3 (VOL) No sabe
- 4 (VOL) Conductor/conductora/pasajero/pasajera de motocicleta

Q115 ¿En cuál de los siguientes recibió tratamiento para sus heridas?'

Q115\_1 ¿Recibió tratamiento en ...(LEER LISTA)?

(a) Sala de urgencias de un hospital

- 1 Sí
- 2 No
- 8 (VOL) No sabe
- 9 (VOL) Rechazada

(b) La consulta de un doctor

- 1 Sí
