

1. Report No. DOT/FAA/AM-94/1		2. Government Accession No.		3. Recipient's Catalog No.	
4. Title and Subtitle Index to FAA Office of Aviation Medicine Reports: 1961 through 1993			5. Report Date January 1994		
			6. Performing Organization Code		
7. Author(s) William E. Collins and Michael E. Wayda			8. Performing Organization Report No.		
9. Performing Organization Name and Address FAA Civil Aeromedical Institute P.O. Box 25082 Oklahoma City, OK 73125			10. Work Unit No. (TRAVIS)		
			11. Contract or Grant No.		
12. Sponsoring Agency name and Address Office of Aviation Medicine Federal Aviation Administration 800 Independence Avenue, S.W. Washington, DC 20591			13. Type of Report and Period Covered		
			14. Sponsoring Agency Code		
15. Supplemental Notes National Technical Information Service order numbers are shown in the chronological listing after the report titles.					
16. Abstract An index to FAA Office of Aviation Medicine Reports (1964-1993) and Civil Aeromedical Institute Reports is presented as for those engaged in aviation medicine and related activities. The index lists all FAA aviation medicine reports published from 1961 through 1993: chronologically (pp. 1-37), alphabetically by author (pp. 39-46) and alphabetically by subject (pp. 47-68).					
17. Key Words Aviation Medicine Research Reports Office of Aviation Medicine			18. Distribution Statement Document is available to the public through the National Technical Information Service, Springfield, Virginia 22161.		
19. Security Classif. (of this report) Unclassified		20. Security Classif. (of this page) Unclassified		21. No. of Pages 73	22. Price

Index of FAA Office of Aviation Medicine Reports: 1961 through 1993

CAMI, the Civil Aeromedical Institute, is the medical certification, research, education, and occupational health wing of the Federal Aviation Administration's Office of Aviation Medicine. Our only purpose is *aviation safety*.

We study the factors that influence human performance in the aviation environment, find ways to understand them, and communicate that understanding to the aviation community.

OAM Reports is the major part of this effort. Published since 1961, these reports are the distillation of FAA aeromedical research efforts in aviation safety. We have published 700 reports on a wide range of subjects, from "Angular Acceleration" to "Workload Effects on Complex Performance."

The *Index* is provided as a reference for those engaged in aviation medicine and related disciplines. We do so because sharing significant findings contributes to the body of aeromedical knowledge through the synergistic effects of others, leading to understanding and the application of appropriate solutions.

The Civil Aeromedical Institute is located at the Mike Monroney Aeronautical Center in Oklahoma City, Oklahoma. The Institute's major programs are:

- AEROMEDICAL CERTIFICATION
- AEROMEDICAL EDUCATION
- HUMAN RESOURCES RESEARCH
- AEROMEDICAL RESEARCH
- OCCUPATIONAL HEALTH
