Research Notes

Information at Your Fingertips!

Ever wonder what the "state of the practice" is in your field of expertise? Now you can use the internet to access research. The Transportation Research Information Service (TRIS) now offers public access to a database of almost half a million records. **TRIS Online** contains references to books, technical reports, conference proceedings, journal articles and on-going research in the field of transportation.

TRIS Online includes full-text reports or links to publishers or suppliers of the original documents. You will find titles, publication dates, authors, abstracts, and document sources.

TRIS searches may be as simple or as complicated as you like. For a simple search example, see http://www.odot.state.or.us/tddresearch/rsnote.htm. The search tips on the online form (shown at right) can help you target the most useful information.

Each year over 20,000 new records are added to TRIS. The database includes international research as well as research sponsored by the federal and state transportation agencies.

The modes and disciplines covered include:

- Highways
- Transit
- Railroads
- Maritime

- Aviation
- Planning
- Finance
- Design and Construction

- Materials
- Environmental Issues
- Safety and Human Factors
- Operations

*Access **TRIS Online** at http://199.79.179.82/sundev/search.cfm*

Try the ODOT Library, too! Once you have the results of your TRIS query, you can contact the ODOT Library & Information Resource Center to obtain copies of published reports. Some documents will be available directly from the ODOT Library while others may need to be ordered. Other resources available from the Library include:

ODOT Research Group staff are also available to help with your questions or problems. We can assist you with TRIS searches, with developing research proposals to address your issue, or with research on the latest technologies, methods, or new products. Give us a call!

For more information about TRIS Online, contact:
Liz Hunt in Research, by phone at (503) 986-2848, or via e-mail at elizabeth.a.hunt@odot.state.or.us
or
Garnet Elliott at the ODOT Library, by phone at (503) 986-3280, or via e-mail at

Search In:

Article or Book Title	Keyword	Organization or Corporate Authors
Abstract	Authors	Journal Title or Conference Title

Search Period: All　Last year　Last 5 years　Last 10 years　Last 20 years

Search By: Accession Number

Search the International Transport Research Documentation (ITRD) Database for additional international material.

TRIS is a bibliographic database funded by sponsors of the Transportation Research Board (TRB), primarily the state departments of transportation and selected federal transportation agencies. TRIS Online is hosted by the National Transportation Library under a cooperative agreement between the Bureau of Transportation Statistics and TRB.
