Introduction

Iowa's Statewide Transportation Improvement Program (STIP) has been developed in conformance with the guidelines prescribed by 23 USC and 49 USC. The STIP is generated to provide the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) a listing of all projects that are candidates for federal aid from the FHWA and FTA for four federal fiscal years (FFY). Preceding the listings of federal-aid candidates are general comments concerning Iowa's public participation process for selection of federal-aid projects and the basis for funding the proposed projects. Documents evidencing the Iowa Department of Transportation's (Iowa DOT) authority to act concerning matters related to transportation, federal-aid expenditures and approvals of Metropolitan Planning Organizations' (MPOs) Transportation Improvements Programs (TIPs) have been provided in past STIP's and can be provided again upon request.

The projects identified within the 2012-2015 STIP are divided into two groups. Projects proposed for funding from FHWA programs are shown first. FTA programs follow. Maps are included that identify locations of Iowa DOT District Planners, Metropolitan Planning Organizations (MPOs), Regional Planning affiliations (RPAs), and, transit systems.

Both FHWA and FTA projects have been arranged in this document by planning area. Proposed statewide activities are shown first. MPO and RPA programs follow as shown in the Index. There is a map of the planning area containing contact information for the MPO or RPA. In addition, there is a project location map illustrating the projects contained in the document. Within each planning area, projects are identified by the specific FHWA or FTA programs they are expected to be administered under. Project listings are further subdivided by the location of the proposed investment, either by region, county or transit provider. Each entry shows the expected total project cost and the respective federal-aid participation.

The Iowa STIP is presently updated annually. In addition, administrative modifications or amendments may be accomplished during the period covered by this STIP. Addition of new projects requires public review at MPO/RPA levels and on a statewide basis.

Projects proposed for funding from FHWA are presented by the various program designations such as the Surface Transportation Program (STP) and some of its subaccounts, Highway Bridge Program (HBP), the National Highway System (NHS), or the Interstate Maintenance (IM) Program. The projects within each program are alphabetically ordered by the county in which they are located. Each project that has an entry for federal-aid participation during 2012 has been assigned an Item Number to facilitate FHWA reporting

Some projects are identified that have no federal-aid support proposed. There are also projects identified that show no funding in total cost or federal-aid categories. Remarks may indicate that these projects are presently scheduled for authorization during FFY 2011, but authorization may not have been accomplished yet; that the projects have been authorized sometime previously, but have not been initiated (no contract secured) at this time; or that projects may be under consideration for funding, but no source has been committed. These projects have all stood the test of Iowa's statewide public participation process and are candidates for federal aid if additional funds become available, or if project schedules require deferral of candidates presently identified for FHWA participation. All projects that have identified funding sources are expected to be accomplished in the FFY indicated in the STIP, but may be accomplished without FHWA funds.

Projects proposed for FTA programs have been compiled by planning area and are further identified by the transit system providing the associated services. The proposed funding source for each line item has been noted. In addition to "traditional" FTA fund categories, some funding from the FHWA Surface Transportation Program or Iowa Clean Air Attainment program may be identified.

Inclusion of a project in the STIP does not assure federal-aid eligibility. Each project will be reviewed to determine its qualifications for federal aid when authorization is requested from the FHWA or FTA. In addition, 2012-2015 Iowa DOT STIP projects are as approved in the 2012-2016 Iowa Transportation Improvement Program.

FINANCIAL ANALYSIS

The STIP identifies federal-aid candidates for roadway, transit and enhancements investments for four federal fiscal years. The amounts of FHWA funding considered available for the various apportionment (formula) categories are based on one hundred percent of the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) apportionments projected to be available during each year of the upcoming four-year period by the Iowa DOT. Some projects identified for funding from demonstration or other allocation (non-formula) programs are also included in the STIP for information. These other categories of funds have been programmed within amounts expected to be available from non-formula sources in the year programmed. The table on page 4 shows proposed FHWA funding by appropriation code as is currently identified for projects in the STIP. Although the amounts shown by appropriation code may exceed specific category limits, the total amounts of proposed obligations is within the limits of an annual one hundred-percent apportionment. Funding for some projects will be modified to address category limits. As an example, the Iowa Clean Air Attainment program (which parallels the Congestion Mitigation and Air

Quality (CMAQ) Improvement Program not required for attainment states like Iowa) may expend some CMAQ funds, but these projects may also be funded from state funds to allow use of Appropriation Code L40 for other NHS and STP projects. It is also probable that some bridges presently identified for funding from Appropriation Code L11 will be accomplished from Appropriation Code L1C. In some cases additional projects currently programmed for federal-aid obligation may be authorized as Advance Construction (AC) candidates, allowing more immediate conversion of projects previously authorized as AC candidates to federal-aid obligations/reimbursements.

The transit program identified in the STIP reflects the majority of transit activities in the state of Iowa. The amount available for FTA programs is based on expected allocations that will not be determined until after FFY 2012 has begun. Projected revenues used from programming (shown in the following table) are based on recent experience. Unlike FHWA programs, whereby the Iowa DOT is sponsor for a significant portion of the proposed expenditures, sponsors for transit activities are local governments and/or the service providers. Although some state funds are distributed to support transit activities, administration of the various programs occur at the local level. Because costs related to transit capital and operating costs are relatively stable, it is unlikely reduced funding levels can be offset by any potential reductions in project costs. If available funds are less than projected, projects will be deferred or additional non-federal shares will become the responsibility of the local sponsors. If funding is available beyond levels identified, additional expenditures may be rescheduled from the 2012 or 2013 proposals. As during previous programming periods, a revised program will be submitted to the FTA if actual allocations differ significantly from current estimates.

**2012-2015 Statewide Transportation Improvement Program
Estimated FTA Programs Summary (x\$1,000)**

Funding Source	2012	2013	2014	2015
Capital Discretionary Program	\$97,523	\$25,354	\$12,435	\$11,321
Job Access/Reverse Commute Program	\$1,534	\$1,461	\$1,497	\$1,364
Metropolitan Planning Program	\$1,757	\$1,863	\$1,963	\$227
Urbanized Area Formula Program	\$19,990	\$20,668	\$20,707	\$19,321
Elderly and Persons with Disabilities Program	\$1,056	\$1,050	\$1,070	\$1,070
Nonurbanized Area Formula Program	\$11,287	\$10,468	\$9,296	\$8,743
New Freedom	\$1,487	\$1,195	\$1,096	\$1,162
Statewide Planning Program	\$54	\$39	\$39	\$39
Surface Transportation Program	\$1,179	\$839	\$999	\$1,168
Iowa Clean Air Attainment Program	\$558	\$2,616	\$0	\$0
ITS	\$0	\$1,360,000	\$0	\$0
Contingency Fund	\$800	\$800	\$800	\$800
TIGER	\$10,000	\$0	\$0	\$0

*Distorted due to individual discretionary earmarked projects.

A portion of Highway Bridge Program (HBP) funds are targeted directly to counties. In addition, a portion of the HBP funds are awarded to city bridge projects. The Iowa DOT's policy currently requires a part of the FHWA apportionments for Surface Transportation Program and Transportation Enhancement funds be targeted to each MPO/RPA for the direct programming toward local systems. All levels of roadway jurisdiction have other sources of significant funds for roadway construction and maintenance.

Although federal funds do provide a portion of the highway construction program, they are not the singular component for the Iowa DOT and are an even smaller portion of the budgets for local governments in Iowa. FHWA funds constitute about 20 percent of the annual highway funds budget in Iowa. Unlike the FTA programs administered by local governments, the majority of FHWA funding will be administered by the Iowa DOT, and nearly all projects accomplished by local jurisdictions will be let by the Iowa DOT.

Many potential FHWA projects are identified in the STIP without proposing federal aid at this time. Some of these projects may be administered as Advance Construction candidates to maintain the Iowa DOT's opportunity for federal reimbursement. The department continues to administer a sufficient number of FHWA projects as federal-aid candidates to assure all funds will be obligated in the FFY they become available.

Although the STIP may not include the entire state roadway improvement program, all projects known to be considered federal-aid candidates have been included. This approach has been used to assure public involvement in the federal-aid programming process and to minimize the need for resource-consuming efforts to accomplish amendments to the STIP at some later time. In the event all identified projects can be accomplished during 2012, the department will accomplish work for which no FHWA obligation authority is available by funding the projects from other sources; in some instances use of the AC provision may be requested. Advance Construction is an important aspect of Iowa DOT's cash flow management process that cannot be used effectively without the ability to authorize federal-aid candidates and costs that exceed the baseline annual federal-aid apportionments. The DOT maintains a "backlog" of Advance Construction projects to allow optimum use of federal aid from the standpoint of the Iowa DOT funding strategies and revenue streams. This is done so the department can accomplish full recovery of obligation authority at an accelerated rate by converting AC projects against new apportionments for work substantially completed, and accomplishing new projects with state funds under the Advance Construction umbrella. The State of Iowa plans to continue this strategy by requesting authorization of many of the federal-aid projects identified in the STIP as AC candidates and converting previous AC candidates for reimbursement on completed contracts. A listing of authorized AC candidates is maintained by the FHWA and the Iowa DOT and is included in the Appendix.

The passage of SAFETEA-LU added additional reporting requirements applicable to financial plans for states and MPOs. One of these requirements is that TIPs and the STIP express project costs in year of expenditure (YOE) dollars. Each MPO, RPA and Iowa DOT project has been estimated with consideration of inflationary costs. In addition, the TIPs and STIP need to include information illustrating operations and maintenance costs associated with management of the federal-aid system. As discussed previously, federal aid is a minor portion of the total funding invested in transportation in Iowa. This is demonstrated in the table included on page 6.

Public Participation

Iowa's public involvement procedures for federal-aid candidates and other investments encourage public participation in development of transportation policy and project selection. Development of the state's transportation policy is the responsibility of the Iowa Transportation Commission, a citizen board appointed by the Governor. Development of the state's TIP is subject to the review and approval of the Iowa Transportation Commission. Public meetings provide opportunities for public input directly to the Commission at least monthly. The department also maintains planning, field services coordination and local systems staff at district offices to facilitate public involvement on a daily basis.

The approximately 114,000 miles of public roads in Iowa are managed by various government agencies. The Iowa DOT holds jurisdiction over those portions of the system designated the Primary Road System (approximately 9,000 miles), which includes interstates. Other rural roadways are the responsibility of the county governments (approximately 90,000 miles). Cities and towns generally retain jurisdiction over roadways within their corporate limits (approximately 14,000 miles). Roadways on federal properties are under jurisdiction of the respective federal agencies, just as those at state-owned facilities are under the jurisdiction of the various state agencies. Similarly, transit programs are administered by governmental agencies, generally on a city or regional basis.

Selection of projects funded by FHWA and FTA occur at several levels, all subject to public participation requirements. Local programs are coordinated by MPOs in cities over 50,000 population, and by similar organizations representing the "rural" area called RPAs. In most situations, projects are initiated by sponsors within the MPO/RPA that are directly responsible for revenues required to match federal aid, providing future maintenance and other support and accomplishing activities that are not selected for federal-aid participation. Maps showing locations of the MPOs and RPAs, transit systems, Iowa DOT District Planners, and the Iowa DOT's direct contacts for local planning efforts are provided in the Appendix.

Cities, counties, transit services, and interested individuals assisted the MPOs and RPAs in development of local improvement programs and transportation services. Each planning organization held public forums to consider FHWA and FTA investments in their areas for 2012-2015. Each group considered proposed expenditures and developed priorities for their area. All are also encouraged to review proposals for improvements on the state system and may propose modifications to programmed projects or identify candidates for future consideration. Subsequently, each MPO and RPA generated a draft TIP, held public meetings to record comments concerning the proposed program and submitted the local TIP to the Iowa DOT for integration into a draft STIP. Iowa

Transportation Commission meetings are periodically held in locations outside the Iowa DOT's central complex to solicit input concerning the Commission's programming decisions. Just as the MPO/RPA participants develop projects for roadways within their jurisdictions, the DOT develops projects based on an overall investment strategy consistent with the State's Long Range Plan "Iowa in Motion." Some programs are intended to address specific aspects of the transportation systems like highway safety or rail crossing signalization. Many projects and programs are developed to address transportation needs within an investment strategy that focuses portions of the available funds toward economic development, maintenance and repairs or systems improvements. Many aspects of the programs, such as the railroad crossing improvements, clean air efforts, some bridge replacements and highway safety have specific selection/ranking processes that have been adopted by the DOT to guide commitments of funds. Safety is always a foremost consideration. Investments approved by the Iowa Transportation Commission are identified in Iowa's State (five-year) TIP and, subsequently in the STIP.

The Iowa DOT has also implemented public involvement procedures specific to the STIP. After compiling of the state TIP and MPO/RPA TIPs, copies of the Draft STIP were distributed for public review. The STIP was also made available on the Iowa DOT's Web site. In addition, an Iowa DOT news release was processed notifying the media of the STIP availability. Meetings were conducted by MPOs and RPAs to facilitate public comment concerning proposed federal-aid obligations within their geographic areas. Written comments and e-mail could also be submitted. All comments received by the Iowa DOT from STIP or other public participation activities that relate to state level programming are provided to the Iowa Transportation Commission for consideration during development of the next Iowa TIP. A compilation of all public comments concerning the Iowa DOT's program will be available during review of the proposed TIP. Comments regarding projects generated at the local level will be used by the respective MPOs and RPAs during development of future TIPs .

A special meeting to solicit public input concerning the draft STIP from a statewide perspective was held at the Iowa DOT central complex on August 18, 2011.

Revising/Amending an Approved STIP

Revising the TIP and STIP

Revisions are defined as changes to a TIP or STIP that occur between scheduled periodic updates. There are two types of changes that occur under the umbrella of revision. The first is a major revision or “Amendment.” The second is a minor revision or “Administrative Modification.” We request that each MPO or RPA adopt these definitions and thresholds at a minimum when determining an amendment vs. an administrative modification.

Amendment

An amendment is a revision to a TIP that involves a major change to a project included in the TIP/STIP. This includes an addition or deletion of a project or a major change in project cost, project/project phase initiation dates, or a major change in design concept or scope (e.g. changing project termini or the number of through lanes). Changes to projects that are included only for illustrative purposes, do not require an amendment. An amendment is a revision that requires public review and comment, redemonstration of fiscal constraint, or a conformity determination (for metropolitan TIPs involving “non-exempt” projects in nonattainment and maintenance areas). Changes that affect fiscal constraint must take place by amendment of the TIP.

Administrative Modification

A minor revision to a TIP or STIP is an administrative modification. It includes minor changes/project phase costs, minor changes to funding sources of previously-included projects, and minor changes to project/project phase initiation dates. An administrative modification is a revision that does not require public review and comment, redemonstration of fiscal constraint, or a conformity determination (in nonattainment and maintenance areas).

Amendment vs. Administrative Modification

There are four main components that can be used to determine whether a project change constitutes an amendment or an administrative modification. They include the following:

Project costs-Determination will be made based on the percentage change or dollar amount of change in federal aid. Projects in which the federal aid has been changed by more

than 30% or total federal aid increases by \$2.0 million or more will require an amendment. Anything less can be processed with an administrative modification.

Schedule changes-Changes in schedules to projects which are included in the first four years of the TIP/STIP will be considered administrative modifications. Projects which are added or deleted from the TIP/STIP will be processed as amendments.

Funding sources-Additional federal funding sources to a project will require an amendment. Changes to funding from one source to another will require an administrative modification.

Scope changes-Changing project termini or changing the amount of through traffic lanes will be processed as an amendment. Other examples of changes that require amendment are changing the type of work from an overlay to reconstruction. Another example is changing a project to include widening of the roadway.

Procedural Requirements for Revisions

Amendments are considered major revisions and therefore have more procedural requirements. The main requirement is that there is an opportunity for public input. The second is technical and policy board approval of the amendment. Public involvement for amendments will occur at the local level for all RPA and MPO amendments.

Statewide public review for Iowa DOT project amendments takes place at the time of inclusion in the Iowa DOT’s Transportation Improvement Program. Iowa DOT sponsored projects within an MPO must go through the MPO’s adopted amendment process, which includes public review and approval by the appropriate boards and committees.

Administrative modifications have simplified procedures which allow more flexibility in the processing of changes. Each RPA and MPO is allowed to process their changes by seeking board approval or the planning agency may make minor changes if the process is documented and approved by the appropriate technical and policy boards.

2012 Transportation Improvement Program

Map key:

- Bridge / Culvert project
- Road work
- Trail or Enhancement Work

HBP-5771 Funding program ("HBP")
and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

-  Trail or Enhancement Work

HBP-5771 Funding program ("HBP")
and TPMS ID number ("5771").

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

2012 Transportation Improvement Program

Map key:

- Bridge / Culvert project
 - Road work
 - Trail or Enhancement Work
- HBP-5771 Funding program ("HBP") and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e. HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

[HBP-5771] Funding program ("HBP")
and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e.
HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

Map key:

- Bridge / Culvert project
- Road work
- Trail or Enhancement Work
- HBP-5771 Funding program ("HBP") and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

Map key:

- Bridge / Culvert project
- Road work
- Trail or Enhancement Work
- HBP-5771 Funding program ("HBP") and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

HBP-5771 Funding program ("HBP")
and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

HBP-5771 Funding program ("HBP") and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

- Urban Area Boundary
- City Boundary

Map key:

- Bridge / Culvert project
- Road work
- Trail or Enhancement Work
- HBP-5771 Funding program ("HBP") and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

Map key:

- Bridge / Culvert project
- Road work
- Trail or Enhancement Work
- HBP-5771 Funding program ("HBP") and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

HBP-5771 Funding program ("HBP")
and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"

RPA 18 - MAPA Transportation Planning Affiliation

2222 Cuming Street, Omaha, NE 68102

Phone: 402-444-6866, Fax: 402-342-0949, www.mapacog.org

Executive Director: Paul Mullen, paul_mullen@mapacog.org

Transportation and Data Manager: Greg Youell, gyouell@mapacog.org

Map key:

- Bridge / Culvert project
- Road work
- Trail or Enhancement Work
- HBP-5771 Funding program ("HBP") and TPMS ID number ("5771")

To locate project in print listing:

1. Look under funding program - i.e HBP, STP, ENH, etc.
2. Locate county in which project sits
3. Find the TPMS number - e.g. "10238"
