

# PORT OF PITTSBURGH

## Pennsylvania

Gulf Coast & Mississippi River

Port list:

Dry bulk

Port vicinity map illustrates area facilities. Bridge air drafts may limit vessel traffic.  
The Ohio River forms the border between Ohio and West Virginia west of the Pennsylvania State line.

## Port overview

The Pittsburgh Port District includes a 12-county area that makes up much of western Pennsylvania. The port district, which includes 17 locks and dams, is located along 200 miles of the Allegheny, Monongahela, and Ohio Rivers. The 15-member Port of Pittsburgh Board of Commissioners oversees the district's operations.

The port district has a mix of over 200 public and private river and barge terminals that handle a variety of raw materials and project cargoes, including coal, sand, limestone, salt, ores, forest products, and heavy machinery. Several terminals also handle liquid bulk cargoes, including petroleum products like gasoline.

Many of the port district's terminals have access to three Class I railroads; some terminals offer direct cargo transfer between barge, rail, and truck. Additional Class II and switching railroads also provide services within the district.
