Pennsylvania Highway Statistics

***Bureau of Planning and Research
2005 Highway Data***

PUB 600 (9-06)

Cover:

Interstate 81

Lackawanna County

INTRODUCTION

Pennsylvania Highway Statistics is annually updated to summarize a wide variety of highway mileage and travel information in Pennsylvania. Most of the information is derived from the Highway Performance Monitoring System (HPMS) and reflects 2005 travel activity and highway conditions. The implementation of new urbanized boundaries, based on the 2000 census, has caused a shift in mileage and DVMT from rural to urbanized areas.

The collection and compilation of this information was accomplished with the assistance of the Federal Highway Administration, Pennsylvania Turnpike Commission, Metropolitan Planning Organizations, Rural Planning Organizations, toll authorities and others. Without their support, this report would not be possible.

It is our goal to continuously improve this annual report as a service to anyone interested in Pennsylvania Highway Statistics. A survey has been inserted into this report. Please take a moment to complete the survey. Any comments will be greatly appreciated.

For more information, visit us through the PennDOT Homepage at <http://www.dot.state.pa.us>

If you have any questions concerning this report, please contact William Findley at (717) 787-1840 or email: wfindley@state.pa.us

MILEAGE AND TRAVEL PENNDOT DISTRICTS

TOTAL PENNDOT HIGHWAY SYSTEM LINEAR MILES AND DVMT

FUNCTIONAL CLASSIFICATION

- 1. Interstate System** – The Interstate System consists of all presently designated freeway routes meeting the Interstate geometric and construction standards for future traffic. The Interstate System is the highest classification of arterial roads and streets and provides the highest level of mobility, at the highest speed, for a long uninterrupted distance. (Maintenance Functional Class “A”)
- 2. Other Arterials** – These consist of limited-access freeways, multi-lane highways, and other important highways supplementing the Interstate System that connect, as directly as practicable, the Nation’s principal urbanized areas, cities, and industrial centers; serve the national defense; and connect at suitable border points with routes of continental importance. (Maintenance Functional Class “B” and “C”)
- 3. Collectors** – The collectors provide both land access service and traffic circulation within residential neighborhoods, commercial and industrial areas, and downtown city centers. Collectors connect local roads and streets with arterials and provide less mobility than arterials at lower speeds and for a shorter distance. (Maintenance Functional Class “D”)
- 4. Locals** – The local roads and streets provide a high level of access to abutting land but limited mobility. (Maintenance Functional Class “E”)

GLOSSARY

AADT (Annual Average Daily Traffic) – Typical daily traffic on a road segment for all days in the week, over a one year period.

Mean AADT – The weighted average of AADTs for all segments of the road.

DVMT – Daily Vehicle Miles of Travel; a measure of total travel, by all vehicles.

Federal Aid System – Roads eligible for federal-aid-highway funds; determined by functional classification.

Heavy Trucks – Trucks with 5 or more axles.

Lane Miles – Aggregate of miles times number of lanes.

12' Equivalent Lane Miles – Total pavement width is divided by 12 to yield the number of equivalent 12' lanes.

Linear Miles – Length measured along roadway centerline.

Maintenance Functional Class - Maintenance Functional Class is based on the federal functional class shown on page 32.

National Highway System (NHS) – The NHS is comprised of principal arterial and Interstate routes, serving major population centers and intermodal transportation facilities.

Other Agencies – Includes other state and federal agencies such as State Universities, Department of Conservation and Natural Resources, Department of Health, Department of Education, National Parks & US Forest Service.

Rural – The area outside the boundaries of small urban & urbanized areas.

Small Urban – Places having a population of 5,000 or more, not in an urbanized area.

Toll Bridges – Delaware River toll bridges operated by Delaware River Joint Toll Bridge Commission, Delaware River Port Authority & Burlington County Bridge Commission.

Turnpike – Toll roads operated by the PA Turnpike Commission.

Urban – Urban places of 5,000 or more population and urbanized areas as designated by the Bureau of the Census.

CUSTOMER SERVICE INFORMATION**National Highway System Maps:**

State, district and county maps available from
William Findley, Transportation Planning Division
Telephone: (717) 787-1840 or email: wfindley@state.pa.us

Functional Class Maps:

State, district and county maps available from
William Findley, Transportation Planning Division
Telephone: (717) 787-1840 or email:
