**ABOUT BTS**

As the independent statistical agency within the U.S. Department of Transportation, the Bureau of Transportation Statistics (BTS) is a politically objective supplier of trusted and statistically sound baseline, contextual, and trend information that is used to shape transportation policy, investments, and research across the United States and abroad.

BTS is a leading source of timely, accurate, and reliable information on the U.S. transportation systems used for moving people and goods, and on their impacts on the economy, society and the environment.

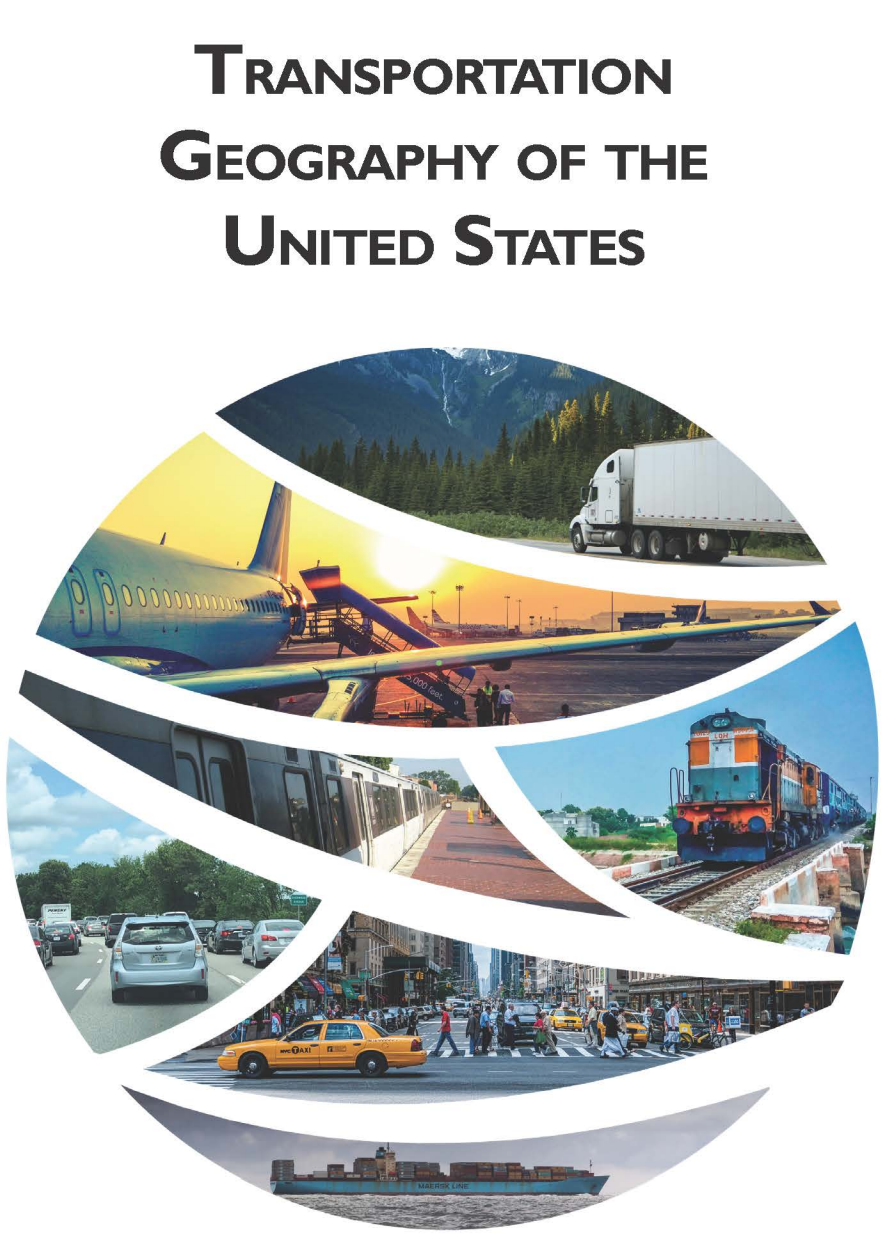

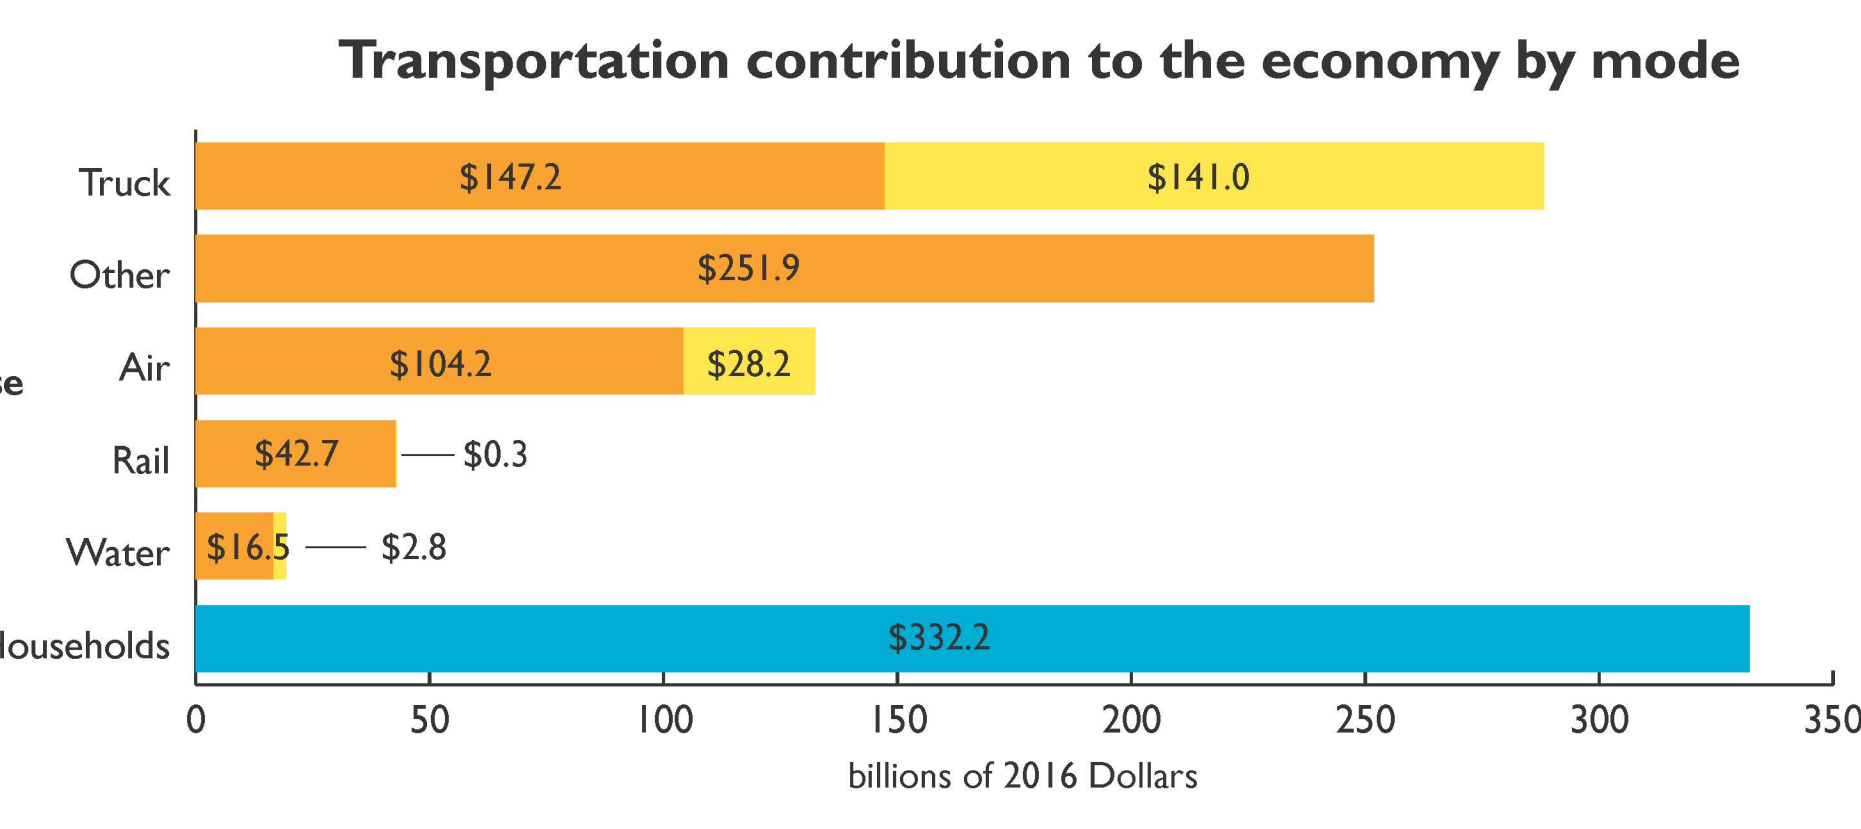

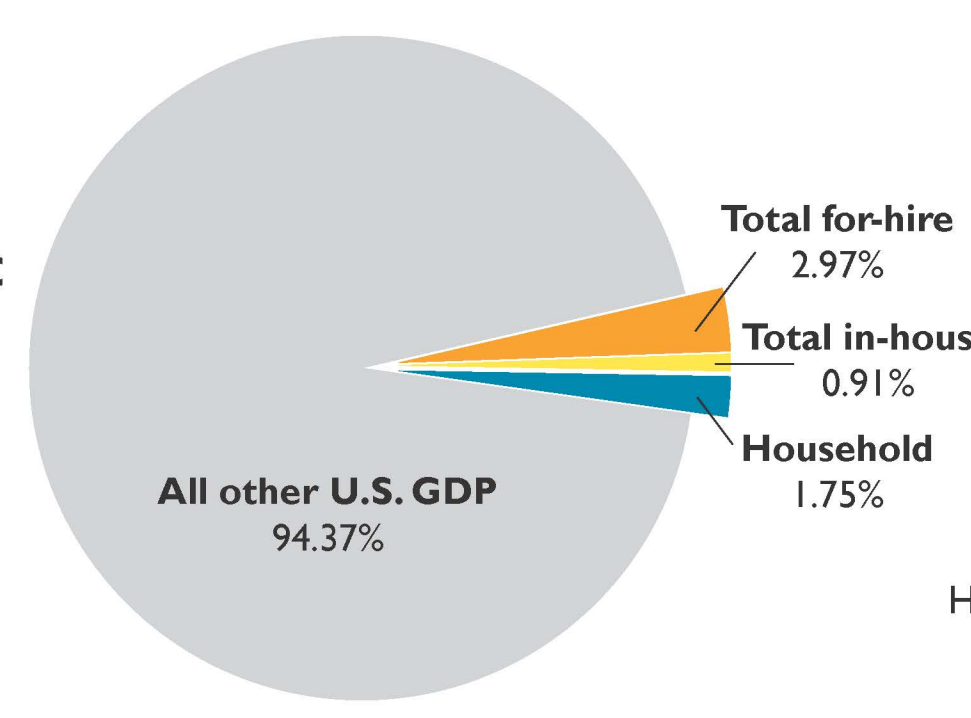

The Bureau's Office of Spatial Analysis and Visualization develops maps, geospatial information, and visualization tools, conducts spatial and network analyses, coordinates the transportation layer of the National Spatial Data Infrastructure, and publishes the National Transportation Atlas Database (NTAD). The NTAD is a collection of 70+ nationwide geospatial databases of transportation facilities, networks, and associated infrastructure that is used by government, industry and the public to support research, analysis, and decision-making across all modes of transportation. To learn more about BTS' geospatial efforts, visit us at [www.bts.gov/maps](http://www.bts.gov/maps).

For the most up-to-date happenings in transportation statistics, follow @TransportStats on Twitter or visit us at [www.bts.gov](http://www.bts.gov).

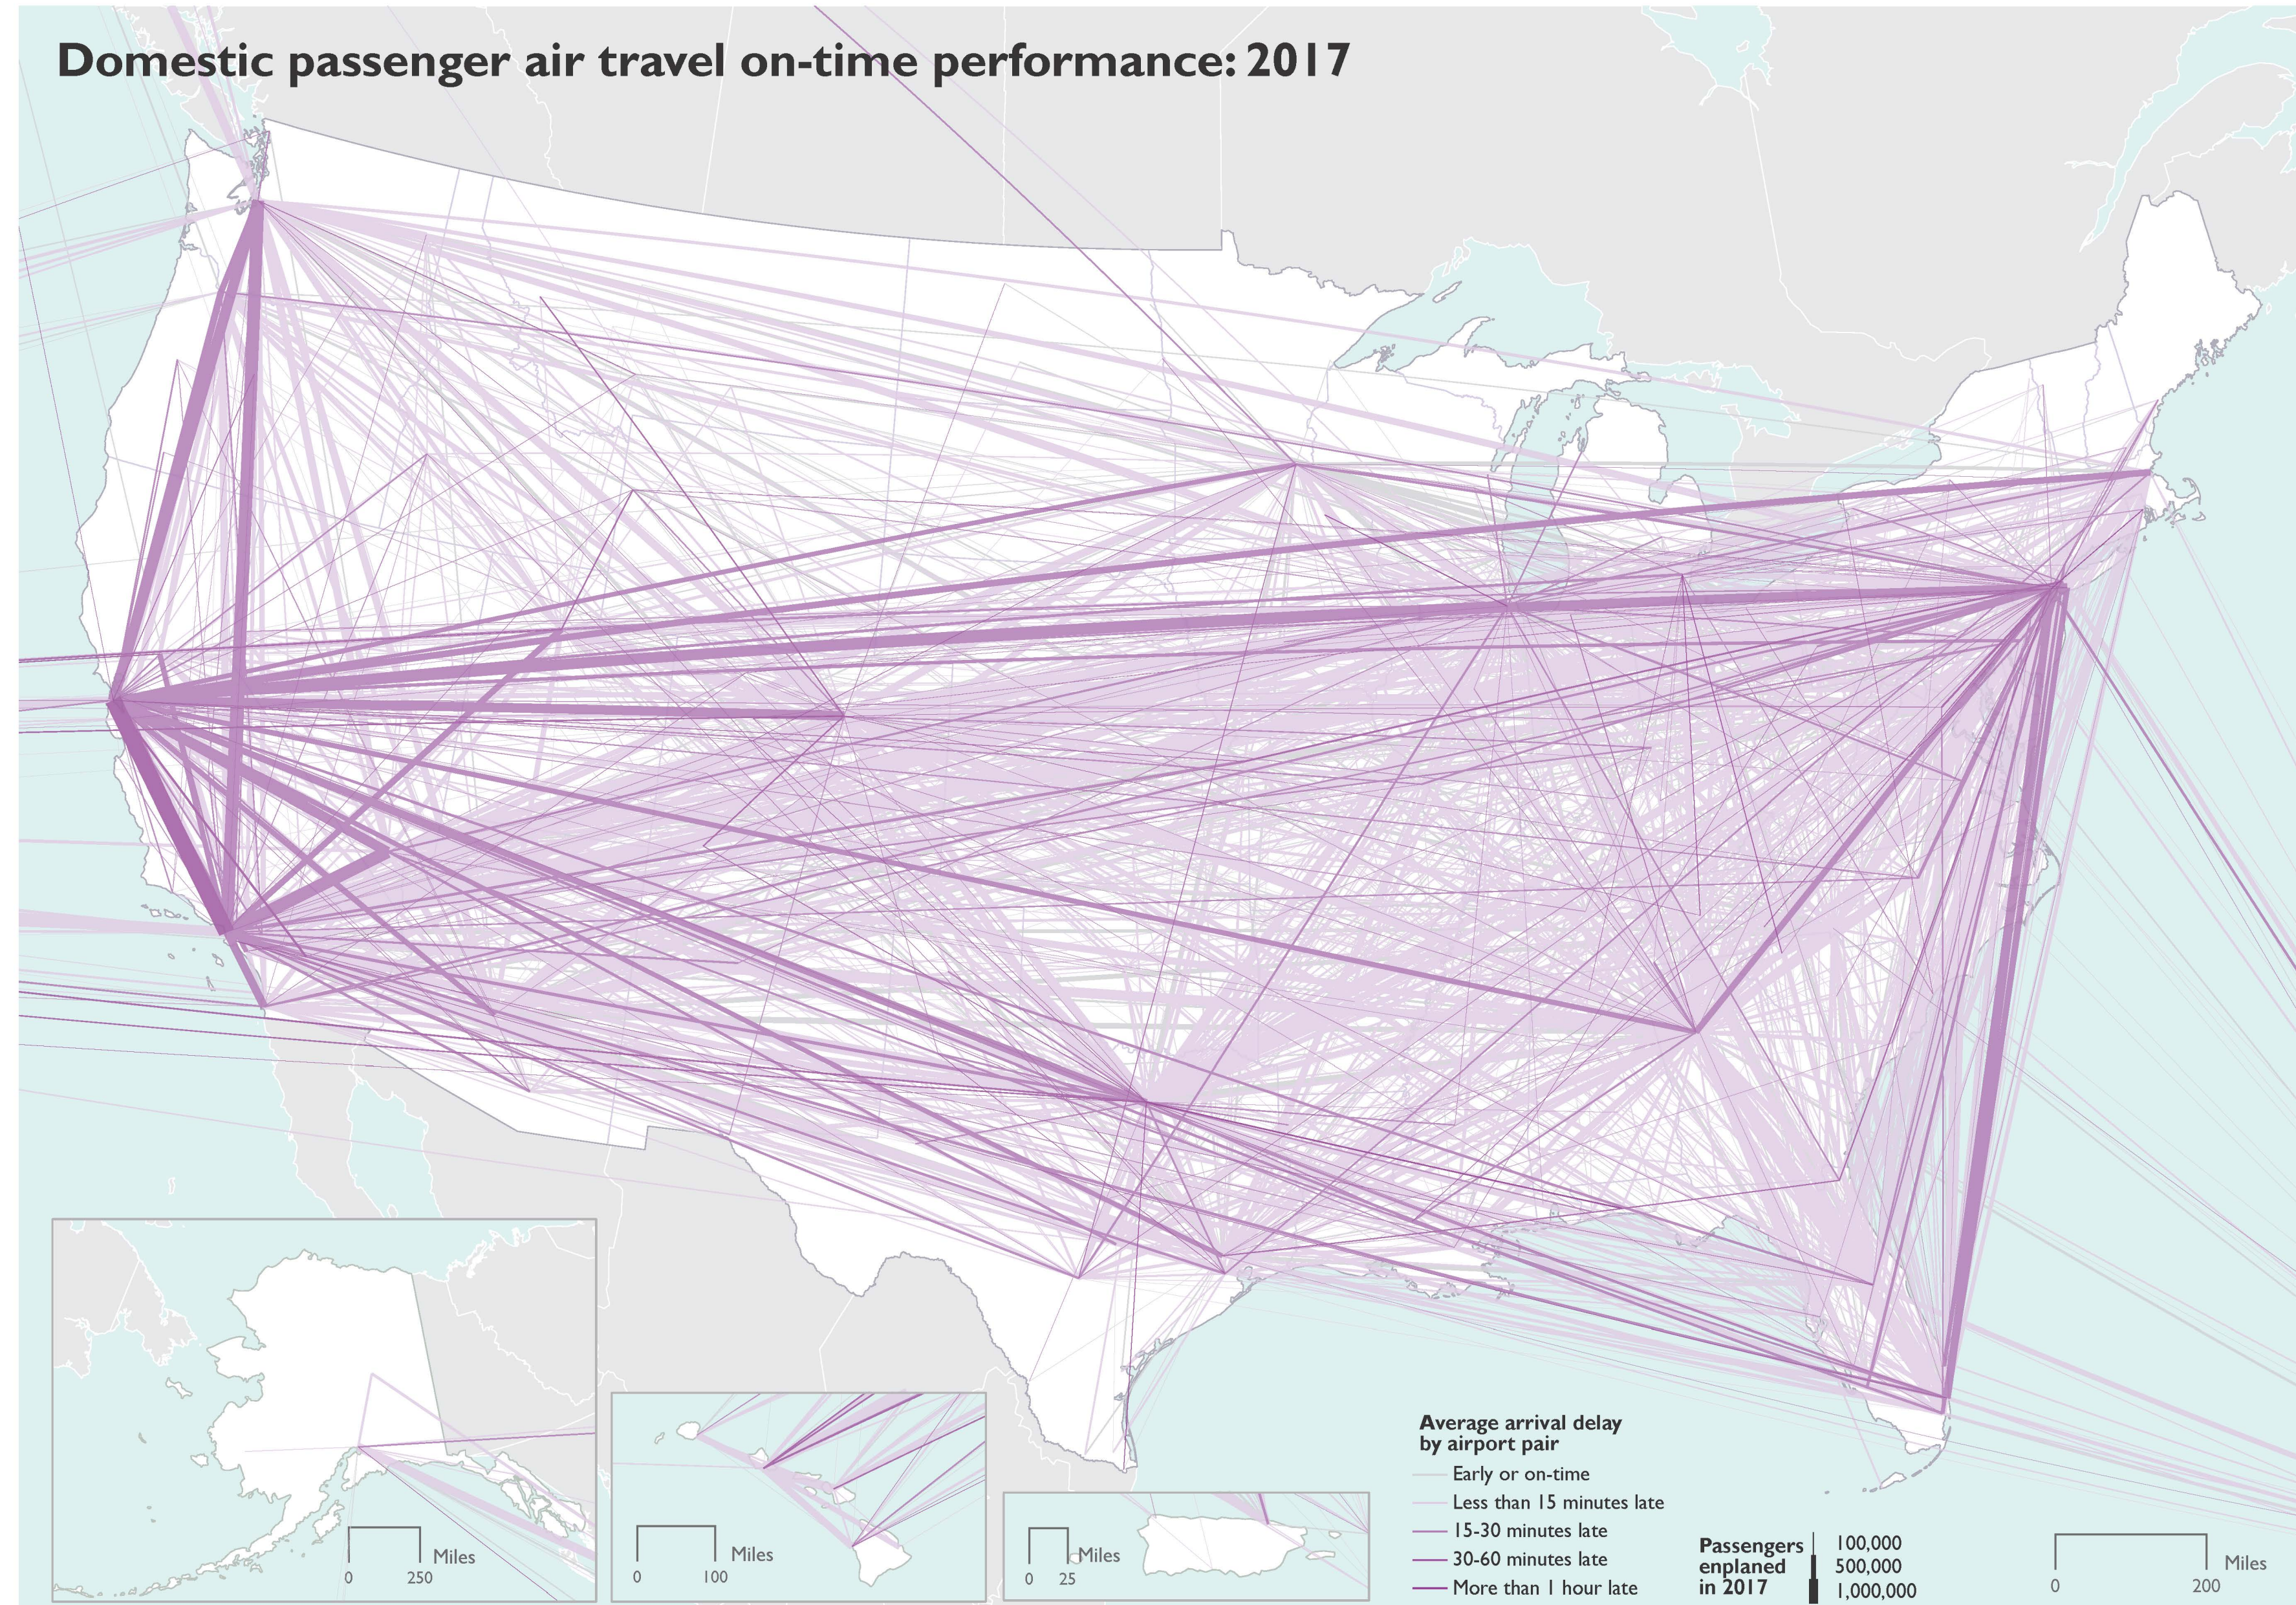

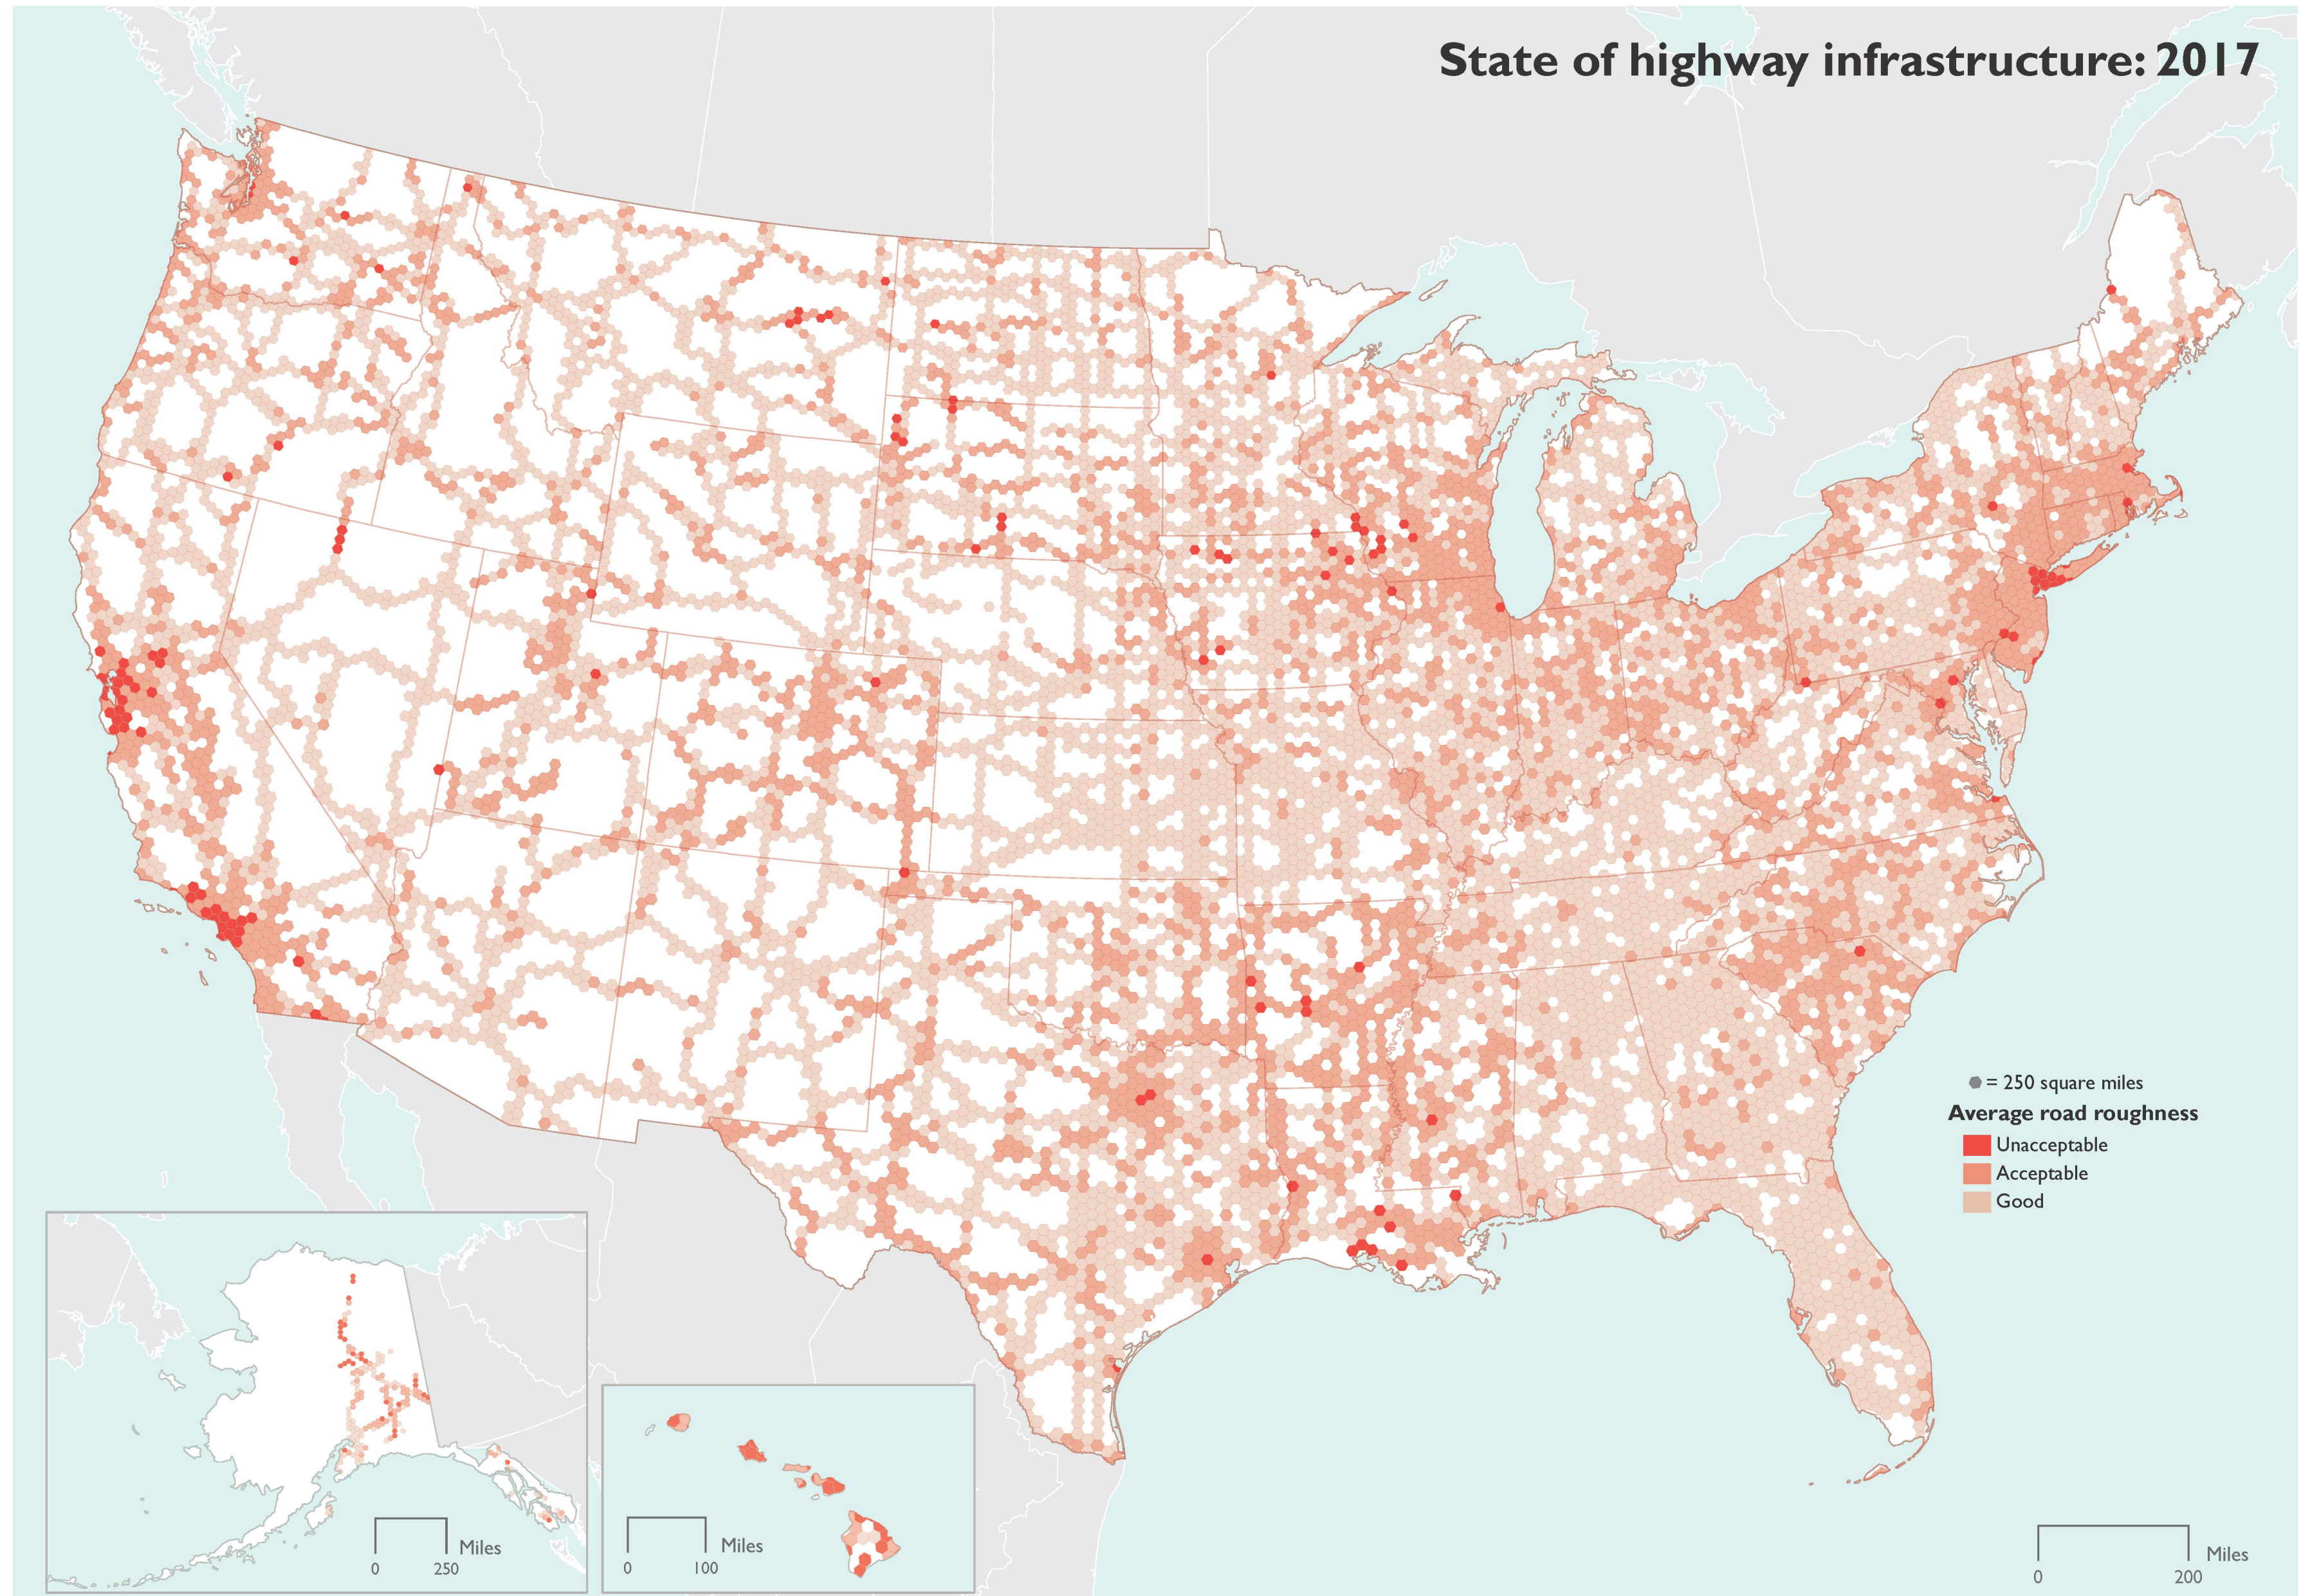

**Contribution of transportation to U.S. gross domestic product: 2016**

Total enhanced GDP = \$19.0 trillion  
 Total transportation contribution = \$1,066.9 billion

**TRANSPORTATION GEOGRAPHY OF THE UNITED STATES**

# Safety, Performance, and Usage of U.S. Transportation Systems

**Select Transportation Infrastructure of the United States (front):** U.S. Department of Transportation, Bureau of Transportation Statistics, National Transportation Atlas Database, 2018. **Major airports** include only airports with 1 million enplanements or more in 2017. **Major ports** include only ports with a total tonnage of 6 million or more in 2017. **Ports of entry** are shown for all ports with a road border crossing, with the five busiest ports of entry at each border bolded. **Non-capital cities** with a population of 250,000 or more are shown, based on 2017 Census Bureau population estimates.

**Interstate highway and waterway congestion:** Waterway data reflects only segments for which data was available; special tabulation (2018). U.S. Army Corps of Engineers (USACE) and BTS from Automated Identification System (AIS) and Navigable Waterways; USACE special tabulation (2018). BTS from National Performance Management Research Datasets (NPMRDs), Regional Integrated Transportation Information System (RITIS); **Average travel time to work by mode, Average distance traveled to work by mode:** special tabulation (2018). BTS from National Household Travel Survey 2009 and 2017. Federal Highway Administration (FHWA); **Average individual household expenditures:** BTS from Consumer Expenditure Survey (2018), U.S. Department of Labor, Bureau of Labor Statistics; **Compensating strategies for people with travel-limiting disabilities:** FHWA from National Household Travel Survey 2017; **Highway fatalities by state:** Fatality Analysis Reporting System (FARS), National Highway and Transportation Safety Administration (NHTSA), 2018; **Transit ridership and bikeshare system extent:** special tabulation (2018). BTS from National Transit Database (NTD), Federal Transit Administration (FTA); **Bike Share Programs in the United States 2016,** National Association of City Transportation Officials (NACTO), published 2017; **Contribution of transportation to U.S. gross domestic product, Transportation contribution to the economy by mode:** BTS, Transportation Statistics Annual Report 2018; **State of highway infrastructure:** Highway Performance Monitoring System (HPMS), FHWA; **Domestic passenger air travel on-time performance:** Data represents the top 100 airports by enplanements for 2017; special tabulation (2018). BTS from Air Carrier Airport Activity Statistics and On-time Performance Data, BTS Office of Airline Information (OAI).
