

TITLE 14-AERONAUTICS AND SPACE  
CHAPTER I-FEDERAL AVIATION AGENCY

71

SUBCHAPTER E-AIRSPACE (NEW)  
(Airspace Docket No. 63-SW-1)

PART 71-DESIGNATION OF FEDERAL AIRWAYS,  
CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

Alteration of Control Zone, Designation of Transition  
Areas, and Revocation of Control Area Extension

On April 23, 1963, a Notice of Proposed Rule Making was published in the Federal Register (28 F. R. 3988) stating that the Federal Aviation Agency proposed to alter the Midland, Tex., control zone, revoke the Midland control area extension, and designate the Midland transition area.

Interested persons have been afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable. One coordinate of a point indicating the boundary of the 1,200 foot transition area was presented incorrectly in the Notice in the Federal Register as  $103^{\circ} 33' 45''$ . The correct coordinate as presented herein, is  $103^{\circ} 03' 45''$ .

Subsequent to the publication of the Notice, separate airspace action has been proposed in Airspace Docket No. 63-SW-26 to alter the Hobbs, N. Mex., transition area. Therefore, the editorial change in the description of the Hobbs transition area, proposed in the Notice, is omitted from the action taken herein.

The substance of the proposed amendments having been published and for the reasons stated in the Notice, the following actions are taken:
