

TITLE 14-AERONAUTICS AND SPACE

CHAPTER I-FEDERAL AVIATION AGENCY

SUBCHAPTER E-AIRSPACE (NEW)

(Airspace Docket No. 63-SW-28)

PART 71-DESIGNATION OF FEDERAL AIRWAYS,  
CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

Modification of Amendment

On October 23, 1963, there was published in the Federal Register (28 F. R. 11303) an amendment to § 71.181 of the Federal Aviation Regulations. This amendment designated the Deming, N. Mex., transition area.

Subsequent to publication of the amendment, precise cartographic measurements, attendant to the production of aeronautical charts, has revealed that the length of the transition area extension with a floor of 700 feet above the surface, based on the Deming VOR 264° radial, is not sufficient to join the Deming control zone extension and the transition area extension as intended. Therefore, action is taken herein to redescribe this portion of the Deming transition area as extending from the Deming VOR to 3.2 miles west of the VOR.

Since this change is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the effective date of the final rule as initially adopted may be retained.

In consideration of the foregoing, effective immediately, Airspace Docket No. 63-SW-28 (28 F. R. 11303) is hereby modified as follows:

(Airspace Docket No. 63-SW-28)

In the description of the Deming, N. Mex., transition area "extending from the VOR to 2.5 miles W of the VOR," is deleted and "extending from the VOR to 3.2 miles W of the Deming VOR," is substituted therefor.

(Sec. 307(a), 72 Stat. 749; 49 U. S. C. 1348).

s/ H. B. Helstrom

Acting Chief, Airspace Utilization Division

Issued in Washington, D. C. on November 15, 1963
