CHAPTER I-FEDERAL AVIATION AGENCY

SUBCHAPTER E-AIRSPACE (NEW)

(Airspace Docket No. 62-WE-135)

PART 71-DESIGNATION OF FEDERAL AIRWAYS,
CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

Alteration of Control Zone, Revocation of Control
Area Extension and Designation of Transition Area

On April 19, 1963, a Notice of Proposed Rule Making was published in the Federal Register (28 F. R. 3873) stating that the Federal Aviation Agency proposed to alter the Fallon, Nev., control zone, revoke the Fallon control area extension and designate the Fallon transition area.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and no adverse comments were received regarding the proposed amendments.

Subsequent to the publication of the Notice, the FAA has determined that the floor of the portion of the proposed Fallon transition area extension based on the Fallon TACAN 139° True radial, extending from 23 to 44 miles southeast, could be raised from 1,200 feet above the surface to 9,500 feet MSL with no adverse effect on instrument flight activity. The action taken herein reflects this change.
