

TITLE 14-AERONAUTICS AND SPACE
CHAPTER I-FEDERAL AVIATION AGENCY
SUBCHAPTER E-AIRSPACE (NEW)
(Airspace Docket No. 63-WE-107)
PART 73-SPECIAL USE AIRSPACE (NEW)

Alteration of Restricted Area

The purpose of this amendment to § 73.32 of the Federal Aviation Regulations is to alter the Arco, Idaho, Restricted Area R-3201 by lowering the designated ceiling from "Surface to 20,000 feet MSL" to "Surface to 10,000 feet MSL".

The Atomic Energy Commission has advised the Federal Aviation Agency that activities conducted within R-3201 are such that the designated ceiling can be lowered to 10,000 feet MSL without affecting the safety of aircraft. Accordingly, such action is taken herein.

Since this amendment will reduce the burden on the public, Notice and public procedure hereon are unnecessary and it may be made effective immediately.

In consideration of the foregoing, the following action is taken:

In the text of § 73.32 Idaho, R-3201 Arco, Idaho (28 F. R. 19-19, January 26, 1963), "Designated altitudes. Surface to 20,000 feet MSL." is deleted and "Designated altitudes. Surface to 10,000 feet MSL." is substituted therefor.

(Airspace Docket No. 63-WE-107)

This amendment shall become effective upon the date of publication in the Federal Register.

(Sec. 307(a), 72 Stat. 749; 49 U. S. C. 1348).

S/ Lee E. Warren

Director, Air Traffic Service
