02.1 Type certificates.

02.10 Application. Application for a type certificate for an aircraft, aircraft engine, propeller, or for any appliance specified in the Civil Air Regulations as eligible for such certificate, shall be made upon the applicable form prescribed and furnished by the Administrator.

02.11 Requirements for issuance. The applicant shall submit, with the application or within a reasonable time thereafter, technical data, including drawings, representing the design, material, specifications, construction, and performance of the aircraft, aircraft engine, propeller, or appliance, and during manufacture and after completion, such aircraft, aircraft engine, propeller, or appliance shall be subjected to specified tests and shall successfully meet specified standards. The foregoing shall be successfully accomplished in such manner and form as may be required by the Civil Air Regulations.

02.12 Duration. A type certificate shall be of indefinite duration, unless cancelled, suspended, or revoked.

02.13 Transferability and licensing. A type certificate is transferable, and the benefits of such certificate may be extended by licensing arrangements. In the event of any transfer or licensing arrangement, the person making the transfer or granting the license shall immediately notify the Administrator in writing. Upon the termination of any licensing arrangement, the person holding the license shall immediately notify the Administrator in writing.

02.2 Production certificates.

02.20 Application. Application for a production certificate for an aircraft, aircraft engine, propeller, or for any appliance specified in the Civil Air Regulations as eligible for such certificate, shall be made upon the applicable form prescribed and furnished by the Administrator.

02.21 Requirements for issuance. The applicant shall hold a currently effective type certificate for the type of aircraft, aircraft engine, propeller, or appliance proposed to be manufactured or shall

hold a current right to the benefits of such type certificate under a licensing arrangement. The applicant shall also demonstrate, to the satisfaction of the Administrator, that he is adequately prepared to produce duplicates of the aircraft, aircraft engine, propeller, or appliance for which such type certificate has been issued.

02.22 Production Limitation Record. The benefits of a production certificate shall be available only with respect to the type certificate or certificates set forth in the currently effective Production Limitation Record,¹ prescribed and issued by the Administrator, which shall be attached to the production certificate.

02.23 Duration. A production certificate shall be of 60 days' duration and, unless the holder thereof is otherwise notified by the Administrator within such period, shall continue in effect indefinitely thereafter, unless cancelled, suspended, or revoked.

02.24 Transferability. A production certificate shall not be transferred.

02.3 Type and production certificate rules.

02.30 Display. Type and production certificates shall be presented upon the request of any duly authorized representative of the Administrator, or any State or municipal official charged with enforcing local laws or regulations involving Federal compliance.

02.31 Cancellation. Type and production certificates may be cancelled upon the written request of the holder thereof.

02.32 Surrender. Upon the cancellation, suspension, revocation, or expiration of a type or production certificate, the holder thereof shall, upon request, surrender such certificate to any officer or employee of the Administrator.

02.33 Inspection. An inspector of the Administrator shall be permitted at any time and place to make such inspections as may be deemed necessary to determine compliance with the requirements of this Part of the Civil Air Regulations.

02.34 Statement of Conformity. The holder of a type certificate or of a current right to the benefits of a type certificate under a licensing arrangement, upon the transfer by him of the ownership of any aircraft manufactured under such type certificate, shall, unless an airworthiness certificate has previously been issued, furnish to the transferee of such aircraft a Statement of Conformity on a form prescribed and furnished by the Administrator.

02.35 Production reports. On the first day of January and July of each year and at such other times as the Administrator may require, every holder of a type certificate, of a production certificate, or of a current right to the benefits of a type certificate under a licensing arrangement, shall transmit to the Administrator a correct and completely executed production report on the form prescribed and furnished by the Administrator. Such reports shall be transmitted regardless of whether any aircraft, aircraft engines, propellers, or appliances were constructed during the period covered by the report.

¹This Record will contain a list of the type certificates with respect to which the production certificate is applicable. It supplants the "letter of transmittal" heretofore issued.
