Civil Air Regulations Amendment 42-43

Effective: August 23, 1962
Issued: August 17, 1962

[Reg. Docket No. 1349; Amdt. 42-43]

**PART 42—IRREGULAR AIR CARRIER
AND OFF-ROUTE RULES**

Certificate Issuance

As presently worded, Part 42 does not contain any provision requiring a specified time interval between the filing of an application for an air carrier operating certificate and the date of intended operation. On several recent occasions requests have been made of the Agency to complete the inspection and certification process within less time than is actually necessary to determine whether the applicant for an air carrier operating certificate for large aircraft is capable of conducting the proposed operations in accordance with the applicable provisions of this part.

Experience within the Agency has shown that in cases of applications under Part 42 involving large aircraft, as opposed to small aircraft, more time is required to enable the appropriate FAA inspectors to make the necessary inspections of the applicant's aircraft, operations, training programs, maintenance facilities, and manuals. While the Agency will continue to examine and process such applications as expeditiously as possible, it is believed desirable to have a note added to § 42.5(a) to insure that applicants are aware of the amount of time which may be required

to conduct the necessary inspections and process their applications. Accordingly, a note is being added to § 42.5(a) indicating that the processing of the application may require up to 60 days from the date of filing with the appropriate FAA Air Carrier District Office.

Since this amendment is a general statement of agency practice, notice and public procedure hereon are unnecessary and it may be made effective on less than 30 days' notice.

In consideration of the foregoing, Part 42 of the Civil Air Regulations (14 CFR Part 42) is hereby amended by adding a note at the end of § 42.5(a) to read as follows, effective August 23, 1962:

§ 42.5 Certificate issuance.

(a) General. * * *

Note: The inspection and processing by the FAA of an application for an air carrier operating certificate where large aircraft are to be used may require up to 60 days from the date of filing. An applicant should consider this in planning his operations.

(Secs. 313(a), 601, 604; 72 Stat. 752, 775, 778, 49 U.S.C. 1354, 1421, 1424)
