CIVIL AIR REGULATIONS

PART 53—MECHANIC SCHOOL RATING

Sec.		Sec.	
53.1	Mechanic school rating certificate requirements.	53.3	Mechanic school certificate.
53.10	Curriculum.	53.30	Application.
53.11	Mechanic instructors.	53.31	Display.
53.12	Mechanic instructors, ratio.	53.32	Duration.
53.13	Facilities, equipment, and material.	53.33	Nontransferability.
53.2	Student instruction.	53.34	Surrender.
53.20	Student examinations.	53.35	Inspection.
53.21	Records.	53.4	General rules.
53.22	Reports.	53.40	Advertising.
53.23	Graduation certificate.	53.41	Curriculum changes.
53.24	Standard of instruction.	53.42	Maintenance of facilities, equipment, and material.
53.25	Credit for extra-curricular work.		

53.1 Mechanic school rating certificate requirements. To be eligible for a rating as a mechanic school and certification as such an applicant shall comply with the following requirements:

53.10 Curriculum:

(a) An applicant shall have a curriculum of not less than 1,650 hours of instruction in the theory and practice of construction, inspection, maintenance, overhaul, and repair of aircraft, aircraft engines, propellers, and their appliances, and in the contents of the applicable Civil Air Regulations. This curriculum shall be designed to be completed in not less than 35 weeks and shall not require attendance for more than 8 hours in any one day, or for more than 6 days in any one week.

(b) The applicant may also secure approval by the Administrator of the following additional curricula:

(1) An aircraft curriculum which shall include all subjects appearing in the aircraft and aircraft engine curriculum specifically dealing with aircraft, including the applicable provisions of the Civil Air Regulations. This curriculum shall include not less than 960 hours of instruction, shall be designed to be completed in not less than 20 weeks, and shall not require attendance for more than 8 hours in any one day, or for more than 6 days in any one week.

(2) An aircraft engine curriculum which shall include all subjects appearing in the aircraft and aircraft engine curriculum specifically dealing with aircraft power plants, including the applicable provisions of the Civil Air Regulations. This curriculum shall include not less than 960 hours of instruction, shall be designed to be completed in not less than 20 weeks, and shall not require attendance for more than 8 hours in any one day, or for more than 6 days in any one week.

(c) Each curriculum described in this section shall provide for instruction in all the subjects necessary properly to qualify the student to perform the duties and functions of the position for which he may seek an airman certificate.¹

53.11 Mechanic instructors. The applicant shall have, for all subjects included in any approved curriculum, instructors holding valid mechanic certificates and valid ground instructor certificates, with ratings for each certificate appropriate for the subject or subjects in which such persons give instruction: *Provided*, That the applicant may be deemed to have met this requirement if he shows that any such instruction being given by a person not so rated and certificated is being given under the direct supervision of a full-time instructor with the certificate and ratings required by this section.

¹ The contents of the several curricula provided for are outlined in Manual 53, Mechanic School Rating.

53.12 Mechanic instructors, ratio. The applicant shall have at least one instructor giving instruction in each subject in an approved curriculum for each 25 students simultaneously receiving instruction in that subject.

53.13 Facilities, equipment, and material. An applicant shall have the following facilities, equipment, and material:

(a) Suitable classrooms adequate to accommodate the largest number of students scheduled for attendance at any one time. Such classrooms shall be properly heated, lighted, and ventilated.

(b) Suitable shop space adequate to accommodate the largest number of students scheduled for attendance at any one time. Such shop space shall be at least 10,000 square feet in area and shall be properly heated, lighted, and ventilated.

(c) Material and equipment of the kind and quantity necessary to give each student theoretical and practical training in the use of such material and equipment sufficient to qualify him to perform the duties and functions of the position for which he may seek an airman certificate.²

53.2 Student instruction.

53.20 Student examinations. Upon completion of each subject included in any approved curriculum, each student taking such subject shall be given an appropriate examination. The student's examination, or, in the case of a practical examination, a report thereof, shall be kept by the school as a part of its records for not less than 1 year from the date of the termination of the student's enrollment.

53.21 Records. Certificated mechanic schools shall keep an accurate individual record of each student enrolled therein, which record shall include a chronological log of all instruction, attendance, subjects covered, examinations, and examination grades. The entire record shall be certified by an authorized official of the school familiar with the facts contained therein.

53.22 Reports. On the first day of January and July of each year and at such other times as the Administrator may require, every holder of a mechanic school certificate shall transmit to the Administrator a correct and completely executed report on the form prescribed and furnished by the Administrator. Such report shall include the following information as to students enrolled in the course or courses approved by the Administrator:

(a) The names of all students enrolled.

(b) The course or courses for which they are enrolled.

(c) The names of the students who have been graduated within the period covered by the report and the course or courses from which graduated.

(d) The names of all students dropped from enrollment, within the period covered by the report, and the reasons therefor.

53.23 Graduation certificate. Each student graduating from a certificated mechanic school who has satisfactorily completed an approved curriculum shall be given a graduation certificate executed on a form prescribed and furnished by the Administrator.

53.24 Standard of instruction. The standard of instruction in a certificated mechanic school shall be sufficiently high to insure that an average of 8 out of 10 of its graduates, who apply within 1 year after graduation, will qualify for a mechanic certificate and rating corresponding to the curriculum from which they were graduated. This average shall be computed on the basis of the number of students graduated by the school during each 6 months' period after May 1, 1940, who apply and are examined for the mechanic certificate and rating corresponding to the curriculum from which they were graduated.

53.25 Credit for extracurricular work. A student who is engaged in a mechanical occupation, the nature of which is comparable to some portion of the curriculum in which he is enrolled, may receive credit for a number of hours equivalent to the experience received, in lieu of such portion of the curriculum: *Provided*, That such credit shall not exceed 400 hours in the 1,650-hour curriculum, nor 200 hours in each 960-hour curriculum.

53.26 Hours of attendance. No student shall be given a graduation certificate unless such student has been in attendance not less than 98 percent of the total hours required by the school to complete the approved curriculum for which he was enrolled.

53.3 Mechanic school certificate.

53.30 Application. Application for a mechanic school certificate shall be made upon the applicable form prescribed and furnished by the Administrator, and shall be accompanied by two copies of any proposed curriculum.

² The equipment, facilities, and material which are necessary to comply with sec. 53.13 are outlined in Manual 53, Mechanic School Rating.

53.31 Display. A mechanic school certificate shall be presented for inspection upon the reasonable request of any person.

53.32 Duration. A mechanic school certificate shall be of 60 days' duration and, unless the holder thereof is otherwise notified by the Administrator within such period, shall continue in effect indefinitely thereafter, unless suspended or revoked.

53.33 Nontransferability. A mechanic school certificate is not transferable.

53.34 Surrender. Upon the suspension, revocation, or expiration of a mechanic school certificate, the holder of such certificate shall, upon request, surrender such certificate to any officer or employee of the Administrator.

53.35 Inspection. The applicant for a mechanic school certificate shall offer full cooperation with respect to any inspection or examination which may be made of said applicant, its personnel, facilities, equipment, and records, upon proper request by an authorized representative of the Administrator prior or subsequent to the issuance of a mechanic school certificate.

53.36 Revocation. No person whose mechanic school certificate has been revoked shall apply for or be issued a mechanic school certificate for a period of one year after the revocation, except as the order of revocation may otherwise provide.

53.4 General rules.

53.40 Advertising. No certificated mechanic school shall in any manner make any statement pertaining to such school which is false or is designed to mislead any person contemplating enrollment in such school: *Provided*, That any advertising which indicates that such school is approved by the Administrator shall clearly differentiate between those subjects which have been approved by the Administrator and those which have not.

53.41 Curriculum changes. No change shall be made in any approved curriculum prior to approval of the change by the Administrator. Unless the school is notified to the contrary within 60 days after submission of the proposed change to the Administrator, such change will be deemed to have been approved.

53.42 Maintenance of facilities, equipment, and material. The holder of a currently effective mechanic school certificate shall maintain personnel, facilities, equipment, and material at least equal in quality and quantity to those required for the issuance of such a certificate.
