## STATE HIGHLIGHTS

# Washington

Long-distance trips account for a significant amount of travel and include a large share of American households. This travel has economic, social and environmental consequences.

- During 1995, about 90 percent of the households in Washington took one or more long-distance trips to a destination 100 or more miles away. Washington households travel more than the national average which is about 80 percent of all households.
- Travelers who live in Washington took 26.1 million person-trips, an average of 4.4 trips and 4,455 miles per traveler. Visitors to Washington took 21.6 million person-trips, an average of 4.7 trips and 4,168 miles per traveler.
- The number of trips per visitor to Washington has decreased 10 percent since 1977, but the number of miles per visitor has grown 13 percent. On average in the United States, the number of trips per traveler has grown 20 percent and the number of miles has increased 39 percent since 1977.
- People who live in Washington take 3.8 car trips per traveler compared with 2.2 airplane trips per traveler, however more miles per traveler are by air (5,455 miles) than by car (2,011 miles).
- Travelers from Washington who live in households with incomes less than \$25,000 travel less often than travelers in households with incomes greater than \$50,000, about 3.7 trips per traveler compared with 4.9 trips per traveler.
- The most popular destination states for travelers who live in Washington are Oregon, California and Idaho. Oregon, California and Idaho also are the most popular origin states for travelers to Washington.

## WHAT IT'S ALL ABOUT

**T**he American Travel Survey collected information from approximately 80,000 households about their long-distance travel in 1995. The ATS provides answers to how, why, where, when, and who travels in America. The ATS is the first comprehensive effort since 1977 to determine where and how people travel in the United States. The data provide insight into Americans' long-distance transportation choices, and are useful for transportation planners and decision makers, the transportation industry, the travel and tourism industry, and others interested in learning about domestic and foreign travel.

The Summary Travel Characteristics publication series contains summary tables of travel statistics for census regions and divisions, States, and metropolitan areas. The tables in this report provide an overview of the findings of the American Travel Survey for each State. Information includes the origin, destination, volume, and characteristics of long-distance travel. Tables 1 through 5 include information for household trips and tables 6 through 15 provide information for person trips. Table 16 provides information about household trips, person trips, person miles of travel, and vehicle miles of travel.

The printed versions of these Internet-based summary tables can be accessed electronically at <http://www.bts.gov/programs/ats>. The tables are presented in Adobe PDF (Portable Document Format) file format which can be viewed or printed using the Adobe® Acrobat® Reader software. The Internet site also contains a spreadsheet file in Microsoft® Excel (XLS) format for those users who would like to use the tables in spreadsheet format.

Information about the American Travel Survey data collection and processing procedures and/or sampling error is available on the website. Definitions of travel and transportation characteristics are also available on the website. This information can be accessed from the ATS home page by selecting "Documentation."

Subsequent reports, tabulations, and electronic files will present more detailed information on travel for the United States, census regions and divisions, States, and metropolitan areas.

For availability of data products and information about the American Travel Survey, consult the Bureau of Transportation Statistics' American Travel Survey home page on the World Wide Web at <http://www.bts.gov/programs/ats>, call the Bureau at 202 366-3282, or write to:

1995 American Travel Survey--Summary Travel Characteristics (No. BTS/ATS95-ESTC/WA)

**Table 5. Household Trips to Washington from the Most Frequent State Origins, by Selected Trip Characteristics: 1995**

[Trips of 100 miles or more, one way. Data based on a sample and subject to sampling variability; see documentation. For definitions of terms, see documentation. Symbol -- means "rounds to or represents zero." NA means "Not Applicable." Numbers are in thousands. The most frequent State origins are those States with the 10 largest volumes of travel to Washington which have coefficients of variation less than 10 percent. Characteristics of the flows shown in this table may have coefficients of variation 10 percent or greater.]

Trip characteristics	Destination in Washington, origin in:

1995 American Travel Survey--Summary Travel Characteristics (No. BTS/ATS95-ESTC/WA)

**Table 9. Person Trips from Washington to the Most Frequent State Destinations, by Selected Trip Characteristics: 1995**  
 [Trips of 100 miles or more, one way. Data based on a sample and subject to sampling variability; see documentation. For definitions of terms, see documentation. Symbol -- means "rounds to or represents zero." NA means "Not Applicable." Numbers are in thousands. The most frequent State destinations are those States with the 10 largest volumes of travel from Washington which have coefficients of variation less than 10 percent. Characteristics of the flows shown in this table may have coefficients of variation 10 percent or greater.]
