

71

TITLE 14-AERONAUTICS AND SPACE  
CHAPTER I-FEDERAL AVIATION AGENCY  
SUBCHAPTER E-AIRSPACE (NEW)

(Airspace Docket No. 63-CE-20)

PART 71-DESIGNATION OF FEDERAL AIRWAYS,  
CONTROLLED AIRSPACE, AND REPORTING POINTS (NEW)

Modification of Amendment

On August 28, 1963, there was published in the Federal Register (28 F. R. 9425) an amendment to § 71.181 of the Federal Aviation Regulations. This amendment, in part, designated a transition area at Bloomington, Ind.

Subsequent to the publication of this amendment, it was noted that the controlled airspace floor was omitted in the description of the Bloomington transition area. Therefore, action is taken herein to designate the Bloomington transition area as extending upward from 700 feet above the surface.

Since the change effected by this amendment is editorial in nature, notice and public procedure hereon are unnecessary and the effective date of the Final Rule as initially adopted may be retained.

In consideration of the foregoing, effective immediately, Airspace Docket No. 63-CE-20 (28 F. R. 9425) is hereby modified as follows:

In the description of the Bloomington, Ind., transition area "Within a 5-mile radius" is deleted and "That airspace extending upward from 700 feet above the surface within a 5-mile radius" is substituted therefor.
