About the Bureau of Transportation Statistics

The Bureau of Transportation Statistics (BTS), an operating administration of the US Department of Transportation (DOT), is a national statistical agency, DOT's representative on the Federal Geographic Data Committee, and the home of the National Transportation Library. BTS compiles, analyzes, and makes accessible information about the nation's transportation systems; collects information on various aspects of transportation; and enhances the quality and effectiveness of the Department's statistical programs through research, the development of guidelines, and the promotion of improvements in data acquisition and use.

INTRODUCTION

Airport Activity Statistics of Certificated Air Carriers: Summary Tables presents summary data for all scheduled and nonscheduled service by large certificated U.S. air carriers—including the volume of passenger, freight, and mail enplanements, and aircraft departures for each airport served during the 12 months ending December 31, 1997.

Large certificated air carriers hold Certificates of Public Convenience and Necessity issued by the U.S. Department of Transportation (DOT) authorizing the performance of air transportation. Large certificated air carriers operate aircraft with seating capacity of more than 60 seats or a maximum payload capacity of more than 18,000 pounds. Data for commuter, intrastate, and foreign-flag air carriers are not included in this publication.

SOURCE OF DATA

The data in this publication are compiled from information reported to DOT by the large certificated air carriers on BTS Form 41, Schedules T-100 and T-3.

PRESENTATION OF DATA

The data in this publication are presented in five tables. Tables 1 and 2 contain summary data by type of service for carrier groups and individual air carriers, and summary figures by area and state. Tables 3, 4, and 5 show activity in air carrier system operations at large, medium, and small air traffic hubs. Data are not broken out by domestic or international operations at airports; only U.S. system operations are shown.

Air Traffic Hubs

Air traffic hubs are designated as geographic areas based on the percentage of total passengers enplaned in that area. A hub may have more than one airport in it. This definition of hub should not be confused with the definition used by the airlines in describing their “hub-and-spoke” route structures.

Individual communities fall into four hub classifications as determined by each community’s percentage of the total enplaned revenue passengers in all services and all operations of U.S. certificated route carriers within the 50 states, the District of Columbia, and other U.S. areas. Classifications for 1997 are based on 574,611,941 total enplaned revenue passengers.

The percentage and number of enplaned passengers in the hub classifications for 12 months ending December 31, 1997 are:

Hub classification	Percent of total enplaned passengers	Number of enplaned passengers
Large (L)	1.00 or more	5,746,119 or more
Medium (M)	0.25 to 0.999	1,436,530 to 5,746,119
Small (S)	0.05 to 0.249	287,306 to 1,436,530
Nonhub (N)	Less than 0.05	Less than 287,306

During 1997 there were 118 air traffic hubs, representing 16 percent of the 724 air traffic hubs and nonhubs in the 50 states, the District of Columbia, and other U.S. areas. The dominance of hubs in air traffic patterns is demonstrated by the fact that 97 percent of all passenger enplanements were recorded at these hubs. The table below shows the number of hubs/nonhubs and the number and percentage of passenger enplanements at the hubs/nonhubs.

Hub classification	Number of hubs/ nonhubs	Number of airports	Passengers enplaned	Passengers percent
Large	29	75	430,552,865	74.93
Medium	31	57	92,355,876	16.07
Small	58	75	36,509,464	6.35
Nonhub	606	840	15,193,736	2.65
TOTALS	724	1,047	574,611,941	100.00

GLOSSARY

Aircraft departure—An aircraft takeoff made at an airport.

Airport—A landing area regularly used by aircraft for receiving or discharging passengers or cargo.

Air traffic hub—A geographic area based on the percentage of total passengers enplaned in that area. A hub may have more than one airport in it. This definition of hub should not be confused with the definition used by the airlines in describing their “hub-and-spoke” route structures.

Air services—The total of scheduled and nonscheduled service.

Carrier group—A grouping of large certificated air carriers determined by annual operating revenues as shown below:

Carrier group	Annual operating revenues
Majors	Over \$1 billion
Nationals	\$100 million to \$1 billion
Large regionals	\$20 million to \$100 million
Medium regionals	Up to \$20 million

Certificate of Public Convenience and Necessity—A certificate issued by DOT to an air carrier under Section 401 of the Federal Aviation Act authorizing the carrier to engage in air transportation.

Certificated air carrier—An air carrier holding a Certificate of Public Convenience and Necessity issued by DOT to engage in air transportation.

Community—A city or a group of cities receiving scheduled air service by certificated air carriers.

Departure—See “aircraft departure.”

Domestic operation—In general, operations within and between the 50 states of the United States, the District of Columbia, American Samoa, the Caroline Islands, Guam Island, Johnston Island, the Northern Mariana Islands, Midway Island, Puerto Rico, U.S. Virgin Islands, and Wake Island.

Enplaned passengers—The total number of revenue passengers boarding aircraft.

Enplaned freight and mail—The number of revenue tons of freight and mail loaded on an aircraft.

Freight—Property transported by air. (Excludes mail and passenger baggage.)

Hub type—See “air traffic hub.”

International operations—Operations conducted outside the United States, including operations between the United States and foreign countries.

Large air traffic hub—A community enplaning 1 percent or more of the total enplaned passengers in all services and all operations for all communities within the 50 states, the District of Columbia, and other U.S. areas. Also see “air traffic hub.”

GLOSSARY—Continued

Large regionals—See “carrier group.”

Majors—See “carrier group.”

Medium air traffic hub—A community enplaning from 0.25 to 0.999 percent of the total enplaned passengers in all services and all operations for all communities within the 50 states, the District of Columbia, and other U.S. areas.

Medium regionals—See “carrier group.”

National—See “carrier group.”

Nonhub—A community enplaning less than 0.05 percent of the total enplaned passengers in all services and all operations for all communities within the 50 states, the District of Columbia, and other U.S. areas. Also see “air traffic hub.”

Nonscheduled service—Revenue flights, such as charter flights, that are not operated in regular scheduled service and all nonrevenue flights incident to such flights.

Revenue—Transport activities for which remuneration is received by the carrier.

Revenue passenger—Person receiving air transportation from an air carrier for which the carrier receives remuneration. Air carrier employees or others receiving air transportation against whom token service charges are levied are considered nonrevenue passengers. Infants for whom token fares are charged are not counted as passengers.

Scheduled service—Service operated over an air carrier’s routes, based on published flight schedules.

Small air traffic hub—A community enplaning from 0.05 to 0.249 percent of the total enplaned passengers in all services and all operations and for all communities within the 50 states, the District of Columbia, and other U.S. areas. Also see “air traffic hub.”

Total departures performed in all services—The total number of aircraft takeoffs made in scheduled and nonscheduled service.

Total departures performed in nonscheduled service—The total number of aircraft takeoffs made in nonscheduled service.

Total departures performed in scheduled service—The total number of aircraft takeoffs made in scheduled service including extra sections.

NOTE: The terms in this Glossary are defined as they pertain to this publication.
