Accidents of Motor Carriers of Property 1985

Office of Motor Carriers

September 1987

Publication No. FHWA-MC-88-046

Introduction

This publication represents the 1985 compilation of accident reports submitted to the Federal Highway Administration's Office of Motor Carriers (OMC) by motor carriers of property in interstate or foreign commerce. These accident reports are a vital source of information upon which the OMC relies in administering its regulatory and enforcement responsibilities.

The Federal Motor Carrier Safety Regulations (FMCSR) require accident reports to be filed whenever an accident occurs that involves a motor vehicle engaged in the interstate, foreign or intrastate operations of a motor carrier subject to the Department of Transportation Act and meets the established reporting criteria.

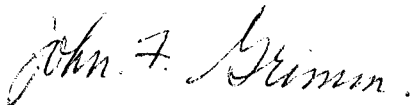

The accident statistics reported in this publication were generated by motor carriers of property filing accident reports with the OMC. These statistics do not represent all accidents that have occurred within the regulated motor carrier industry. The statistics were compiled from those accidents that meet the reporting criteria as "reportable accidents." The term "reportable accident" means an occurrence involving a motor vehicle operated by a motor carrier subject to the FMCSR resulting in: (1) the death of a human being; (2) bodily injury to a person who, as a result, receives medical treatment away from the scene of the accident; and/or (3) total damage to all property aggregating \$2,000 or more based on actual cost of reliable estimates.

From 1980 to 1983 the reported accidents, fatalities and injuries remained relatively stable. However, during 1983 the number of injuries increased and in 1984 all the statistics showed a substantial increase but in 1985 only the reported accidents increased. A comparison of the 5-year accident experience illustrates our findings.

YEAR	1981	1982	1983	1984	1985
Accidents	32,306	32,277	31,628	36,854	39,273
Fatalities	2,810	2,456	2,528	2,721	2,646
Injuries	28,533	26,117	26,692	29,149	28,988

The information contained in this report must be considered in the terms of the regulatory definitions and instructions for data collection. Comparisons between data contained herein and other data must be made with caution since incompatible associations may be made. The information contained herein is based on accidents involving motor carriers subject to the FMCSR and is distinct and different from any other accident data collected elsewhere. Caution is therefore urged when comparing this motor carrier accident data with other accident data.

The motor carrier industry is urged to use the information contained herein as a tool in assessing its operations and making highways safer. Industry, as well as the general public, is the beneficiary when Government and the motor carrier transportation industry work together, through accident reporting, to improve highway safety.

John F. Grimm, Director
Office of Motor Carrier Information Management and Analysis
Federal Highway Administration

SUMMARY

This section presents aggregated data concerning accidents, fatalities, injuries and property damage as well as a geographic summary of the same categories.

DEFINITIONS

As an aid for reviewing this statistical report, a number of definitions are furnished which define certain words as they are used in this document.

PRIVATE (carrier) - A motor carrier whose highway transportation activities are incidental to and in furtherance of its primary business activity.

AUTHORIZED (carrier) - A motor carrier engaged in interstate or foreign commerce and generally subject to economic regulation by the Interstate Commerce Commission. Authorized carriers are also known as "for-hire-carriers," "regulated carriers," or "certified carriers."

EXEMPT (carrier) - A motor carrier (not a private carrier) transporting commodities or conducting operations not subject to economic regulations of the Interstate Commerce Commission. Exempt carriers include, for example, firms engaged in the transportation of raw agricultural commodities.

MAIL AND OTHER (carrier) - Motor carriers under contract to the U.S. Postal Service or a small number of motor carriers that have not otherwise been classified.

OVER-THE-ROAD TRIP - An intercity movement by motor vehicle.

LOCAL TRIP - Generally an intracity operation or a very short mileage trip involving pickup and delivery service.

NOT REPORTED - Those accidents or accident facts that were omitted from the reports filed by the motor carriers with the Office of Motor Carriers.

NOT APPLICABLE - Those accidents or accident facts appearing on a particular statistical table that have no relationship to the parameters of that table.

COLLISION ACCIDENT - Those accidents in which a motor vehicle collides with another motor vehicle, or fixed objects.

NON-COLLISION ACCIDENT - Those accidents wherein no other motor vehicle is involved, or structures, such as, ran-off-roadway, jackknife, overturn, separation of units, fire, loss or spillage of cargo, cargo shift or other non-collision accidents that were not aforementioned. Example-structural failure of trailer, etc.

When more than one of the vehicles involved in an accident is operated by motor carriers subject to the Federal motor vehicle accident reporting requirements, reports of two or more "involvements" may be submitted. Shown under the heading "involvements" are three tables, which include data on all drivers of vehicles for which accident reports were filed with the OMC. During the calendar year 1985 there were 39,692 involvements in 39,273 accidents.

The Accident

THIS SECTION CONTAINS INFORMATION IN THE FOLLOWING AREAS RELATING TO COLLISION AND NON-COLLISION ACCIDENTS:

- TYPE CARRIER
- VEHICLE MOVEMENT
- PHYSICAL CONDITION OF DRIVER
- MECHANICAL DEFECTS
- SEAT BELT INFORMATION

COLLISION ACCIDENTS

Collisions with automobiles, commercial trucks, and fixed objects accounted for the majority of collision accidents (90.7%). These types of collision accidents also accounted for 81.4% of all fatalities, 86.4% of the injuries, and 91.4% of the property damage. The relative percentages for these collision type accidents are displayed below.

PERCENT OF TOTAL

Collision Involving	Accidents	Fatalities	Injuries	Property Damage	Fatalities Per 100 Accidents
Automobile	58.5	64.5	66.1	42.9	8.8
Commercial Truck	17.7	12.0	14.9	30.7	5.4
Fixed Object	14.5	4.9	5.4	17.8	2.7

NON-COLLISION ACCIDENTS

Ran-off-road, jackknife, and overturn accidents accounted for 92.1% of the non-collision accidents. These three categories comprise 95.8% of the fatalities, 96.7% of the injuries and 92.8% of the property damage in non-collision accidents. A more detailed display is shown below.

PERCENT OF TOTAL

Type	Accidents	Fatalities	Injuries	Property Damage
Ran-off-road	27.2	55.4	33.3	32.2
Jackknife	30.7	5.4	20.7	16.4
Overturn	34.3	35.0	42.7	44.2
