New Participant Refund Policy

Because many of NHI's ILT sessions require a minimum number of attendees, last-minute cancellations by individual participants put pressure on hosts and training coordinators to fill remaining seats or cancel a session entirely. To remedy this situation, NHI has revised its participant cancellation and refund policy.

Participants who cancel their enrollment in a session within ten (10) business days of the session start date will be charged the full amount for the session. Participants who cancel before this period are eligible for a full refund.

FHWA participants who cancel enrollment in a course within ten (10) business days of the session start date will be subject to penalties, including supervisor notification and potential restrictions on taking future NHI courses.

NHI will allow participant substitution any point prior to the start of the course, with notice.
