## FOREWORD

The tables represent all mileage in the State of Illinois open to public travel with the exception of **1,111.87** miles of ramps and **46.38** miles of collector-distributors.

The five highway systems included in the tables and defined below are not identical to those highway systems defined in the publication "Road, Bridge and Other Related Laws of Illinois", 2002 Edition.

**State System** is comprised of the following categories:

1. State primary includes all highways signed as Interstate State, United States, and Illinois marked routes excluding the Toll System.
2. State supplementary includes all other highways which are the jurisdictional responsibility of the state.

**Toll System** includes all road and bridge mileage which is the jurisdictional responsibility of various toll authorities and commissions within the state of Illinois.

**County System** includes those highways which are the jurisdictional responsibility of the counties and are not signed as an Interstate, United States, or Illinois marked route.

**Municipal Street System** includes those highways located within municipalities which are not part of the state, county, or toll systems. This system is located in the row entitled "Municipal" under the system heading of "Township/Road District and Municipal" in the HS-1 Table.

**Township/Road District System** includes the remaining highways which are not included in any of the preceding systems. This system is located in the row marked "Rural" under the system heading of "Township/Road District and Municipal" in the HS-1 Table. The **73,228.76** miles of this system includes **71,218.17** miles which are township maintained and **192.74** miles which are maintained by various park, forest preserve, and conservation districts. The remaining **1817.85** miles are maintained by various agencies, such as the Illinois Department of Conservation, Army Corps of Engineers, as well as some private and unknown maintenance.

Because District Construction/Maintenance boundaries differ from administrative district boundaries, the attached table entitled "Summary of State System Mileage by Maintenance/Construction District" HS-A has been provided to show the state jurisdictional mileage for which each district is responsible.

The term "Municipal" in the following tables denotes mileage within incorporated municipalities, while the term "Rural" denotes mileage located outside municipalities.

The term "Urban" denotes mileage within urban places as designated by the Bureau of Census having a population of 5,000 or more. Mileage as denoted in the tables is that which is contained within the urban area boundaries established for urban places by the state and local agencies and approved by the Federal Highway Administration.

The term "Chargeable" denotes interstate mileage designated in accordance with 23 U.S.C.A. section 103(e) which sets the national limitation at 42,500 miles.

The term "Non-Chargeable" denotes mileage added to the interstate system under 23 U.S.C.A. section 139(a) and is not chargeable against the limitation as provided in 23 U.S.C.A. section 103(e).
