

A stylized graphic of the state of Illinois in a light gray tone. A road with a white double line runs from the western coast of the state towards the bottom right of the page. The road is depicted with a gradient, appearing to recede into the distance. The title text is overlaid on the right side of the map.

INTRODUCTION

The 2004 Illinois Travel Statistics publication is assembled to provide detailed traffic information to the different users of traffic data. While most users of traffic data at this level of detail are within the Illinois Department of Transportation, this publication is distributed outside the Department.

The 2004 Illinois Travel Statistics publication along with the previous seven years of travel publications can be viewed and downloaded from the IDOT web site www.dot.state.il.us under the “Traveling Public” selection.

Annual average daily traffic volumes (AADT) and vehicle miles of travel (VMT) are products of the IDOT's Traffic Count Program. Counts from this program range in duration from data continuously recorded at permanent count stations to thousands of coverage count locations that are counted for a 24-hour period during the year. More information about IDOT's Traffic program can be found in the “Illinois Traffic Monitoring Program” document at <http://www.dot.il.gov/itmp.pdf> .

The mileage and vehicle miles of travel data in the following tables are based on roads/streets located within the Districts geographical boundaries (Administrative District). In this report, the State System consists of state maintained highways including highways marked as Interstate, United States or Illinois routes.

Vehicle miles of travel (VMT) are calculated by multiplying the mileage times the annual average daily traffic (AADT) from the Illinois Highway Information System. VMT data are expressed as either daily vehicle miles of travel (DVMT) or as annual vehicle miles of travel (AVMT).

The term "urban" applies to those miles that are in incorporated or unincorporated places with 5,000 or greater population. Urban areas may include any adjacent areas that have or are developing urban characteristics. The term "rural" consists of those miles located outside an urban area. An urbanized area, consists of an incorporated place and adjacent densely settled area that together have a minimum population of 50,000.

If additional information about this publication is needed, please contact the Office of Planning and Programming at (217) 785-2353.

Northeastern Illinois Interstate (Urban) Traffic patterns

AADT - Annual Average Daily Traffic

Data from 38 locations provided by the Traffic Systems Center in Northeastern Illinois from 2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.

Northeastern Illinois Interstate (Rural) Traffic patterns

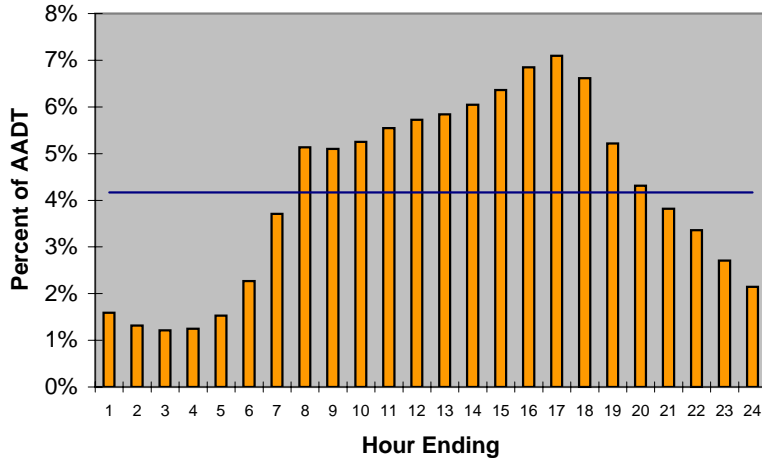

Traffic by Month

Traffic by Day

Traffic by Hour (mon-thurs only)

AADT - Annual Average Daily Traffic

Data from 3 continuous count sites from Northeastern Illinois during 2001-2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.

Northeastern Illinois Non-Interstate (Urban) Traffic patterns

AADT - Annual Average Daily Traffic

Data from 30 continuous count sites from Northeastern Illinois during 2001-2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.

Northeastern Illinois Non-Interstate (Rural) Traffic patterns

AADT - Annual Average Daily Traffic

Data from 9 continuous count sites from Northeastern Illinois during 2001-2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.

Downstate Interstate (Urban) Traffic patterns

AADT - Annual Average Daily Traffic

Data from 3 continuous count sites throughout Downstate Illinois during 2001-2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.

Downstate Interstate (Rural) Traffic patterns

AADT - Annual Average Daily Traffic

Data from 9 continuous count sites throughout Downstate Illinois during 2001-2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.

Downstate Non-Interstate (Urban) Traffic patterns

AADT - Annual Average Daily Traffic

Data from 18 continuous count sites throughout Downstate Illinois during 2001-2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.

Downstate Non-Interstate (Rural) Traffic patterns

AADT - Annual Average Daily Traffic

Data from 9 continuous count sites throughout Downstate Illinois during 2001-2004 were used to determine these travel patterns.

— The blue line represents the annual average daily traffic each chart.

Any bar above the blue line represents higher than average traffic for that period.

The bars on the hourly chart represent the percent of the average daily traffic for that hour. Only Mondays through Thursdays are used.
