

**INTERNATIONAL**  
**GUIDE TO**  
**HIGHWAY TRANSPORTATION INFORMATION**  
**INTERNATIONAL TECHNOLOGY EXCHANGE PROGRAM**

## FOREWORD

The objective of this research project was to update Federal Highway Administration's (FHWA), Office of International Programs' (OIP) document, entitled, *Acquiring Highway Transportation Information from Abroad: Handbook* (Publication No. FHWA-PL-95-01 1[B]), which was developed out of the FHWA International Technology Scanning Program, and was published in November 1994.

The intent of the revised document is to provide for the highway transportation professional, a guide to aid in identifying principally non-U.S., as well as key U.S. highway transportation information sources and document acquisition services. Topics include: (1) highway transportation libraries, information, and research centers; (2) websites; (3) document delivery vendors, lenders, and clearinghouses; (4) bibliographic and non-bibliographic databases; and (5) highway transportation associations, organizations, and other professional societies.

The information in this report should be of interest to domestic and foreign highway transportation professionals; as well as academicians, applied researchers, and administrative officials in the highway transportation arena; and transportation information library specialists. The Guides are also useful for civil engineers or other professionals in highway construction, operations, and materials; as well as highway safety and human factors engineers; psychologists; and social scientists.

Copies of this report can be obtained through the FHWA Research and Technology Report Center, 9701 Philadelphia Court, Unit Q, Lanham, Maryland 20706, telephone: (301) 577-0818, fax: (301) 577-1421, or the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia, 22161, telephone: (703) 487-4650, fax: (703) 321-8547. The report is also available on FHWA's website at [www.international.fhwa.dot.gov](http://www.international.fhwa.dot.gov).

## NOTICE

This document is disseminated under the sponsorship of the Department of Transportation in the interest of information exchange. The United States Government assumes no liability for its contents or use thereof. This report does not constitute a standard, specification, or regulation.

The United States Government does not endorse products or manufacturers. Trade or manufacturers' names appear herein only because they are considered essential to the object of this document.

## INTRODUCTION

In November 1994, a **Handbook** (Publication No. FHWA-PL-95-01 1[B]) was produced as a companion document to the final report developed under FHWA Contract DTFH61-93-C-00035, entitled "Acquiring Highway Transportation from Abroad." The purpose of the **Acquiring Highway Transportation from Abroad: Handbook** was to provide reference sources for identifying and acquiring foreign and domestic highway transportation information. The **Handbook** covered the following topics: domestic transportation libraries and information centers; online database vendors; CD-ROM products; document delivery vendors; associations, organizations, and professional societies; foreign highway and transportation research centers; foreign transportation libraries and database contributors; electronic bulletin boards; and selected Internet discussion groups.

The **Handbook** has been very popular with highway transportation professionals since its publishing in November 1994, and it was recently suggested that the **Handbook** be reprinted. However, it was speculated that much of the information in the **Handbook** is outdated. Also, new highway transportation topics have appeared, as well as new subject database products and document acquisition services. In addition, with the advent of the Internet in the last five years, there have been dramatic changes in how people access information, as well as how they send and receive information (e.g., electronic mailing addresses and websites). Thus, a sufficient need to revise this publication was identified.

The goal of the current effort was to produce a highway transportation information resource guide for domestic and international professionals, with an emphasis on extending the coverage for international sources. This **Guide** will be useful for the traffic engineer or transportation planner, as well as academics, applied researchers, administrative officials, and highway transportation information and library professionals. The **Guide** will also be useful for civil engineers or other professionals in highway construction, operations, and materials, as well as highway safety and human factors engineers and psychologists, as well as social scientists. Intelligent transportation systems professionals will also find the **Guide** useful.

Information sources from member countries of the Organization for Economic Cooperation and Development (OECD) (i.e., Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Japan, Luxemburg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, South Korea, Spain, Sweden, Switzerland, Turkey, United Kingdom, and United States); and other selected countries, principally: Argentina, Brazil, Chile, and South Africa are included in this **Guide**. Only key United States sources are included.

This Guide encompasses the five topic areas that have each been produced as a separate volume for this project: (1) highway transportation libraries, information, and research centers; (2) websites; (3) document delivery vendors, lenders, and clearinghouses; (4) bibliographic and non-bibliographic databases; and (5) highway transportation associations, organizations, and other professional societies. A brief description of the methods used to

obtain the information included in each volume (corresponding to the major sections of this report) is presented below, along with a description about how the information is presented.

In Volume 1 (the section in this report that lists and describes Highway Transportation Libraries and Information Centers), several research and information search methods were used to identify and collect appropriate information. They include: using telephone, telefax, and electronic mail correspondence with government officials and staff from transportation libraries and information centers; reviewing existing directories of transportation information sources; conducting searches in computerized online and CD-ROM transportation-related subject databases; and conducting comprehensive searches on the Internet using several search engines, as well as accessing transportation information and library-related websites. Information about each library/information center is displayed in tabular format, one institution per page. Information includes: name of country; name of library/information center (in national language and English); mailing address; telephone and fax numbers; e-mail address; **website**; contact; coverage (topics covered in library); collection size - titles (i.e., books, reports, monographs, conference proceedings, other literature) and serials (i.e., journals, periodicals, bulletins, newsletters); special collections; and additional information.

In Volume 2 (the section in this report that lists and describes Websites), a list of organizations (native language and English), and their **website** addresses is provided, with a brief description of the organizations and **website** content. Some of the **websites** are currently presented only in the native language of the country where the **website** is produced. However, many **websites** include alternate languages, as well, such as English and French, and a few indicate that alternate language versions are being produced. State- and provincial-level transportation departments are not included in this section, nor does this section include libraries with highway transportation departments, as these sites were identified in Volume 1. The information is presented in tabular format by country. Although all **websites** included in this documents were accessed in April 2000, it is important to note that **website** addresses are subject to change.

In Volume 3 (the section in this report that lists and describes Document Delivery Suppliers), **several** research and information search methods were used to identify and collect appropriate information. They include: correspondence with transportation library staff; searching and scanning existing directories of information sources; conducting searches in computerized online and CD-ROM transportation-related subject databases; and conducting comprehensive searches on the Internet using several search engines, as well as accessing information and document vendor and clearinghouse websites. Information about each document delivery supplier is displayed in tabular format, one entity per page. Information includes: name; address; telephone and fax number; e-mail address; **website**; description of services; average costs per document delivered; and additional information. As a general rule, all of the document delivery suppliers can accommodate several different methods of payment, including deposit accounts, payment upon order, check or money order, credit card, and invoice.

In Volume 4 (the section in this report that lists and describes Bibliographic and Non-Bibliographic Database -Producers), several research and information search methods were used to **identify** and collect appropriate information. They include: correspondence with transportation

library **staff**; searching and scanning existing directories of information sources; conducting searches in computerized online and CD-ROM transportation-related subject databases; and conducting comprehensive searches on the Internet using several search engines. Information about each database is displayed in tabular format, one database per page. Information includes: name, contact/address, telephone, fax, e-mail, **website**, topics, dates covered, file size, publications covered, update frequency, and availability/access host. Several of these databases are accessible through **websites** on the Internet. However, many of the databases are only available through subscription to online service providers. These providers have several types of fee options available to meet the needs of users. The Dialog Corporation, STN International, and **SilverPlatter** Information Ltd. provide online service for the highway transportation and related subject databases that have been identified in this section. **SilverPlatter** also provides CD-ROM versions of several of the databases listed. The main contacts for these companies are also presented in this section of the **Guide**.

In Volume 5 (the section in this report that lists and describes Highway Transportation Associations, Organizations, and Other Professional Societies), the focus is on identifying international associations, organizations, and other professional societies that can provide a source of information about research projects, expert and consultant directories, standards and regulations, and calendars of conference events. In developing Volume 5, several research and information search methods were used to identify and collect appropriate information. These included: correspondence with transportation library **staff**; searching and scanning existing directories of information sources (*e.g.*, **Gale** Research Inc. '**s Encyclopedia of Associations**) in computerized online and CD-ROM transportation-related subject databases; and conducting comprehensive searches on the Internet using several search engines and searching in several government and transportation-related web sites. Volume 5 is set up in tabular form with three columns: (1) name of association, organization, or professional society; (2) contact information (i.e., address, phone, fax, **email**, and URL); and (3) a description of the association, organization, or professional society that includes the mission statement and membership characteristics.

We thank and acknowledge the following individuals for reviewing these Guides: Jeanne F. Thomas, Manager of Information Services, Michigan Department of Transportation; Daniel C. Krummes, Director of Harmer Davis Transportation Library, University of California at Berkeley; Bonnie A. Osif, Engineering Librarian, Pennsylvania State University; and Michael Kleiber, Consultant and Former Director of Harmer Davis Transportation Library.

Autostrade S.p.A.	<a href="http://www.autostrade.it">www.autostrade.it</a>	This website provides information (in English and Italian) about the autostrade. The website provides links to real time traffic information on Autostrade toll roads and to the Telepass electronic toll collection system.
Azienda Nazionale Autonoma della Strade (ANAS)  Documentation/Library Center	<a href="http://www.enteanas.it">www.enteanas.it</a>	This website is entirely in Italian. There is a link to the Ministry of Public Works (Ministero dei Lavori Pubblici).
Ministero dei Lavori Pubblici  Ministry of Public Works	<a href="http://www.llpp.it">www.llpp.it</a>	This website is entirely in Italian. One link describes statistics for traffic injuries and fatalities.
Ministero dei Trasporti e della Navigazione  Ministry of Transport and Navigation	<a href="http://www.trasportinavigazione.it">www.trasportinavigazione.it</a>	This website is entirely in Italian. It describes the ministry and its organization. A link provides information about road transportation that provides statistics about automobile ownership (by vehicle manufacturer) and driver licensing procedures. There are other links describing Departments of the Ministry that deal with air and water transportation.
University of Trieste	<a href="http://www.biblio.univ.trieste.it">www.biblio.univ.trieste.it</a>	This website describes the University and its library, mostly in Italian. Through its "Periodici elettronici" (full text online) link, the user is directed to a page where 269 periodicals are listed, and through which, the full text of articles in the online journals may be accessed.

<b>JAPAN</b>		
<b>Organization</b>	<b>Website</b>	<b>Description</b>
Association of Electronic Technology for Automobile Traffic and Driving	<a href="http://www.jsk.or.jp">www.jsk.or.jp</a>	This website presents information about the activities of the JSK Foundation (Association of Electronic Technology for Automobile Traffic and Driving) located in Tokyo. This organization is involved in the intelligent transportation systems (ITS) arena by investigating the ITS market, promoting ITS deployment, studying ITS system architecture, supporting standardization, and sponsoring vehicle control demonstrations.
Ministry of Construction (MOC), Government of Japan	<a href="http://www.moc.go.jp">www.moc.go.jp</a>	The MOC is in charge of developing, operating, and maintaining public facilities, including roads and highways. The website links to the Road Bureau of the MOC, where the following links are provided: Organization of the Bureau, Financing Road Improvement and Toll Road Systems, Standard of Road Improvement, 5-Year Road Improvement & Management Program, Road Environment, ITS, State of Road Traffic, and Links. Data are provided regarding length of roadway network, trends of passenger transportation, trends in traffic volume, and numbers of registered vehicles by type of vehicle. The ITS link further links to SmartWay, Advanced Deployment, ITS in the world, ITS in Japan, and the ITS Handbook. All the Road Bureau links are in English. Other links from the Home Page are in Japanese only, and include construction policies and urban development.
Ministry of Transport (MOT)	<a href="http://www.motnet.go.jp">www.motnet.go.jp</a>	The MOT is responsible for a wide variety of fields, such as railways, motor vehicles, maritime, and aviation. The website provides an English translation of links which include descriptions of the functions and roles of the ministry. The "Strategic Plan of Future Motor Vehicle Traffic Policy Taking Due Regard of Safety and the Environment" is provided, as well as the Motor Vehicle Inspection and Registration Guide. The monthly <i>Transport</i> journal is provided online, but is not translated from Japanese.

<b>Organization</b>	<b>Website</b>	<b>Description</b>
Nihon Doro Kodan (NDK) Japan Highway Public Corporation	<a href="http://www.japan-highway.go.jp">www.japan-highway.go.jp</a>	The NDK is a non-profit governmental corporation for constructing and operating national motorways and regional motorways throughout Japan under the toll road system. NDK carries out research into various aspects of design and engineering relating to construction of motorways and maintenance, through its Engineering Department and Research Institute. The Research Institute also has a technical information center. The website (in English) describes the NDK and its activities in further detail, including international activities and financial statements of the Corporation.
Public Works Research Institute (PWRI) Ministry of Construction	<a href="http://www.pwri.go.jp">www.pwri.go.jp</a>	The PWRI is the largest National institute in the field of civil engineering in Japan. The website has English pages, and links to the Road Department, which has links to the Traffic Engineering Division, the Intelligent Transport Systems Division, the Traffic Safety Division, the Pavement Division, and Tunnel Division. There is also a Structure and Bridge Department. The Road Department conducts research on the design of geometric highway structures, pavement and tunnel design, and on measures for improving traffic safety. Descriptions of the research activities are provided by the links to each division. The Home Page also provides a link to recent PWRI Publications (Technical Note of PWRI, Technical Memorandum of PWRI, and Cooperative Research Report of PWRI), where the title and abstract are provided. The PWRI Newsletter link provides full text and figures from articles published in the quarterly magazine.
VERTIS (Vehicle, Road and Traffic Intelligence Society)	<a href="http://www.ijnet.or.jp">www.ijnet.or.jp</a>	The VERTIS website presents summary information about the objectives and role of VERTIS within the Japanese ITS arena as well as more general information about ITS in Japan.

<b>MEXICO</b>		
<b>Organization</b>	<b>Website</b>	<b>Description</b>
Instituto Mexicano del Transporte (IMT)  Mexican Institute of Transport	<a href="http://www.imt.mx">www.imt.mx</a>	The IMT is a center for research and technological development under the Mexican Secretariat of Communications and Transport. The functions of IMT include: basic and applied research; the generation and adaptation of new technologies; and the training of human resources for transportation in Mexico. The website provides the following links that describe IMT: Goals, Projects, Training, Publications, CID, Bulletin, Roads Traffic Count, and Links. At present, the website is under construction, and therefore all links lead to documents written in Spanish. The Publications link leads to a link of 136 technical publications (title, author and cost). The Publications link also leads to Manuals, Books, and other publications of the IMT. The Links page lists other foreign and domestic organizations (e.g., INRETS, TRB, Volpe Center, and the Mexican Secretary of Communications and Transport).
Universidad Nacional Autonoma de Mexico; Instituto de Ingenierial (U.N.A.M)  National Autonomous University of Mexico Institute of Engineering	<a href="http://www.iingen.unam.mx">www.iingen.unam.mx</a>	This website is entirely in Spanish, and provides links to information about the University, Director, Areas of Investigation, and Publications. An online order form is provided for obtaining the Catalog of Publications of the Instituto de Ingenieria.

NETHERLANDS		
Organization	Website	Description
Institute for Traffic Care	<a href="http://www.itctrffic.com/">www.itctrffic.com/</a>	The organization set the goal of collecting existing and future traffic safety expertise by making use of police experts available to it, to achieve a structural development and implementation of traffic safety activities, with the end result of bringing about a positive behavioral influence of road traffic users.
Kenniscentrum Voor Verkeer, Veruieren Infrastructeour (CROW)  Information and Technology Center for Transport and Infrastructure	<a href="http://www.crow.nl">www.crow.nl</a>	Within the CROW foundation, government and industry work together in protecting their joint interests when designing constructing and managing road and traffic/transport facilities. The three main objectives of CROW are: research in civil and traffic engineering; standardization in civil, hydraulic, and road engineering; and technology transfer through publications, a documentation center, courses, congresses/seminars, and the magazine <i>Wegen</i> . Research activities include road construction and traffic engineering. This website (provided in an English version) describes these activities in more detail, and provides links describing or listing Projects, Publications, and other Related sites. Titles of publications are provided as well as cost and language of the full text. The full text is (usually) in Dutch, and must be ordered. The abstracts are available online in English. Another link describes <i>Wegen</i> magazine—a Dutch journal for traffic, civil, hydraulic, and road engineering—published by CROW. Information about subscriptions is provided.
Rijkswaterstaat, Adviesdienst Verkeer en Vervoer (AVV)  Ministry of Transport, Public Works, and Water Management	<a href="http://www.minvenw.nl">www.minvenw.nl</a>	One responsibility of the Ministry is to ensure safe mobility and good communication facilities needed for Dutch society to function healthy, both nationally and internationally. The aim of the Directorate General for Passenger Transport is to achieve a durable and safe traffic and transport system with attention to the safety of the infrastructure, vehicles, and users. This website (provided in an English version) provides links to Traffic and Transport activities, such as the Dynamic Public Lighting (DYNO) roadway lighting project, the Automated Vehicle Guidance project, and the Vehicle-Roadside Communication project. Links are provided that describe the research in great detail. Also, the text of monthly press releases is available online.

Organization	Website	Description
The School of Systems Engineering, Policy Analysis and Management (SEPA) of Delft University of Technology	<a href="http://www.sepa.tudelf.nl">www.sepa.tudelf.nl</a>	This website (provided in an English version) describes SEPA at Delft TU, and provides links to detailed information regarding research activities, including programs of the Research School for Transport, Infrastructure, and Logistics (TRAIL) and the Delft research Initiative for Telematics-based Systems Engineering (DITSE). A listing of projects links to a one-page description.
Stichting Wetenschappelijk Onderzoek Verkeersveiligheid (SWOV)  Institute for Road Safety Research	<a href="http://www.swov.nl">www.swov.nl</a>	SWOV is the centerpoint for road safety research in the Netherlands, and is partly subsidized by the Ministry of Transport. SWOV's objective is to contribute to road safety by means of scientific research dissemination of the results. The website (provided in an English version) links to Current Topics, Profile, Knowledge Base, Publications, Links, and Search. Links to nine major research themes are provided: Road users-the relationship between behavior, surroundings, and crashes; Preconditions for safe behavior; The strategy for safe road infrastructure; Road design and road safety; Vehicle safety; Telematics and road safety; Road safety analysis; Decision making and administration; and Knowledge distribution, information, and communication. Another link is provided that describes the SWOV library and how to obtain information. It is also possible to search the entire SWOV site using search terms and obtaining either a summary or the full report online. The site also provides a 9-page listing of 83 foreign and domestic organizations with a brief description and link to each.
Verkeerskunde internetwijzer	<a href="http://www.verkeerskunde.nl">www.verkeerskunde.nl</a>	This website presents news and articles about traffic control and intelligent transportation issues with emphasis on the Netherlands. Several links are provided to other sites.

NEW ZEALAND		
Organization	Website	Description
Land Transport Safety Authority (LTSA)	<a href="http://www.ltsa.govt.nz">www.ltsa.govt.nz</a>	New Zealand's LTSA is a stand-alone crown entity, whose role is to promote land transport safety at reasonable cost. LTSA carries out and coordinates research in the following areas: child safety; young and older road users; motorcyclists; bicyclists; pedestrians; road design standards; road construction and maintenance; traffic management and control; roadway safety improvement; vehicle standards; vehicle and driver controls; vehicle inspections; and new vehicle technology. The website describes the vision, mission, goals, and structure of the LTSA. There are links that describe road safety projects such as the Black Spot Program, which identifies road sites with high crash rates and makes improvements where necessary; and the Speed Camera. There are links to <i>Stats</i> , a monthly report on road crash data that includes factors contributing to crashes, types of road users killed, ages of users injured or killed, and other behavioral measures such as alcohol and seat belt use. There are links to fact sheets (vehicle registration/licensing; road rules & enforcement, etc); links to publications and resources (titles and prices, with some downloadable); links to traffic standards and guidelines; links to legislation (rules in progress, published rules, penalties & offenses, etc.) and links to public education and information brochures on topics such as highway-rail grade safety; bicycle safety; and speed.
Manukau Consultants Limited (MCL)	<a href="http://www.mclltd.co.nz">www.mclltd.co.nz</a>	MCL is a company that provides its clients with transportation services such as: project feasibility and assessment; project evaluation; road design; intersection design; computer-aided design; road network management; RAMM; street lighting; traffic engineering; and safety auditing. The website provides links services provided by MCL (transportation being one of the seven), but there are currently no links beyond the page that describes each of the services.

American Traffic Safety Services Association (ATSSA)	<a href="http://www.atssa.com">www.atssa.com</a>	ATSSA is an international trade association representing providers, manufacturers, consultants and public agency personnel involved in the temporary traffic control industry. The website provides links to general information, conventions and meetings, member service, community and government relations, traffic safety products, training, and other topics.
Bureau of Transportation Statistics (BTS), USDOT	<a href="http://www.bts.gov">www.bts.gov</a>	BTS compiles, analyzes, and makes accessible information on the nation's transportation systems. The website provides links to general information, travel surveys, geographic information services, information needs, international transportation, national transportation library, product information and services, transportation studies, statistical policy and research, and current news.

## WEBSITES

UNITED STATES OF AMERICA		
Organization	Website	Description
Federal Highway Administration (FHWA), USDOT	<a href="http://www.fhwa.dot.gov">www.fhwa.dot.gov</a>	The FHWA is part of the U.S. Department of Transportation. It provides expertise, resources, and information to continually improve the quality of the nation's highway system and its intermodal connections. The Federal-Aid Highway Program provides federal financial assistance to States to construct and improve the National Highway system, urban and rural roads, and bridges. Technical expertise is provided in the following areas: roadway and bridge design, construction, and maintenance; policy and planning; highway safety; intelligent transportation systems; environmental protection and enhancement; and research, development, and technology transfer. The website provides links to current news, programs, legislation and regulations, electronic reading room, other websites, general information, employee phone directory, conducting business, and others.
FHWA Office of International Programs (OIP), USDOT	<a href="http://www.international.fhwa.dot.gov">www.international.fhwa.dot.gov</a>	FHWA's OIP works to improve the technological and institutional base of highway transportation system performance and program delivery in the United States and abroad. The website provides links to general information, programs, publications, conferences, international scanning reports. Full text of publications is offered on this site.
Insurance Institute of Highway Safety (IIHS)	<a href="http://www.hwysafety.org">www.hwysafety.org</a>	IIHS is an independent, nonprofit, research and communication organization funded by auto insurers and dedicated to reducing highway crash deaths, injuries, and property losses. Their website provides links to vehicle ratings, safety facts, news releases, publications, video, general information, a site index, and related sites.

UNITED STATES OF AMERICA		
Organization	Website	Description
ITS America	<a href="http://www.itsa.org">www.itsa.org</a>	ITS America membership includes federal, state, local, and foreign government agencies; national and international companies involved in the development of intelligent transportation systems; universities, independent research organizations, and public interest groups. The mission of ITS America is to foster public/private partnerships to increase the safety and efficiency of surface transportation through the application of advanced technologies. The website provides links to general information, site resources, special activities, current news, annual meetings, press information, and other topics. The Access ITS homepage is also at this site. This site provides a one-stop shopping source for the latest news in the field.
Institute of Transportation Studies (ITS), University of California	<a href="http://www.its.berkeley.edu">www.its.berkeley.edu</a>	The website provides links to ITS' programs, research, publications, career opportunities, and current news. A link describes PATH (Partners for Advanced Transit and Highways), a collaboration between the California Department of Transportation, the University of California, and other public and private institutions and private industry whose mission is to apply advanced technology to increase highway capacity and safety, and to reduce traffic congestion, air pollution, and energy consumption. Another link describes the Pavement Research Center, which uses innovative research and sound engineering principles to improve pavement structures, materials, and technologies. This further links to current PRC news and an Institute of Technology Studies Technology Transfer web page.

WEBSITES

UNITED STATES OF AMERICA		
Organization	Website	Description
National Highway Institute (NHI), USDOT	<a href="http://www.nhi.fhwa.dot.gov">www.nhi.fhwa.dot.gov</a>	The NHI is the technical training organization of FHWA. It develops and administers transportation-related training and education programs that assist Federal, State, and local transportation agencies, as well as private transport firms and providers in applying new technologies to the planning, construction, maintenance, and rehabilitation of our Nation's highways. The website contains links to course catalogs and schedules; fellowships and grants; personnel directory; Federal and State contracts; training bulletin; instructor certification program; news update; related websites; and a link to FHWA home.
National Highway Traffic Safety Administration (NHTSA), USDOT	<a href="http://www.nhtsa.dot.gov">www.nhtsa.dot.gov</a>	NHTSA is responsible for reducing deaths, injuries, and economic losses resulting from motor vehicle crashes. This is accomplished by setting and enforcing safety performance standards for motor vehicles and motor vehicle equipment, and through grants to state and local governments to enable them to conduct effective local highway safety programs. NHTSA also conducts research on driver behavior and traffic safety. NHTSA's website provides several dozen links to topics relating to their agency, popular information, vehicle and equipment information, car safety, people safety, campaigns, current news, contracts, the hotline, kids' activities, and others.
National Safety Council (NSC)	<a href="http://www.nsc.org">www.nsc.org</a>	Th NSC is a nonprofit, nongovernment international public service organization dedicated to improving the safety, health, and environmental well being of all people. The NSC website provides over two dozen links to topics related to public safety, workplace, environment, and community home and youth. A link to the Motor Transportation Division of the NSC provides school bus safety fact sheets. A link to the NSC air bag and seat belt safety campaign provides information about fatalities, tips, on/off switches, legislation, and enforcement. A link to public safety describes the NSC Defensive Driving Course Programs.

UNITED STATES OF AMERICA		
Organization	Website	Description
National Transportation Safety Board (NTSB), USDOT	<a href="http://www.nts.gov">www.nts.gov</a>	NTSB is an independent Federal agency that investigates every civil aviation crash in the United States and significant crashes in the other modes of transportation, conducts special investigations and safety studies, and issues safety recommendations to prevent future crashes. The website includes several links for general information, members, organization chart, studies, products, information sources and contacts, office locations, and other information. Links from the homepage include Aviation, Highway, Marine, Pipeline, and Railroad. Some of the NTSB's Highway products are available online, including: descriptions of recent crashes investigated by NTSB (available soon); recent publications (abstract and full document); public hearing schedules and exhibit items from safety studies (recently including commercial drivers, and truck and bus safety); and board meeting schedules for major reports and safety studies (recently including bus crashworthiness and pupil transportation on nonconforming buses).
National Work Zone Safety Information Clearinghouse	<a href="http://www.wzsafety.tamu.edu">www.wzsafety.tamu.edu</a>	The purpose of the clearinghouse is to provide information and referrals to government agencies, public and private organizations, and the general public concerning the safe and effective operation of traffic work zones. The website provides links covering sponsors, general information, current news, questions, comments, site map, and other topics.
Northwestern University Transportation Center	<a href="http://www.nutweb.tpc.northwestern.edu">www.nutweb.tpc.northwestern.edu</a>	The Center's objective is to make substantive and enduring contributions to the movement of materials, people, energy, and information. The website provides links to general information, current news, faculty, staff, student information, calendar, career services, library, research programs, and other areas.

## WEBSITES

UNITED STATES OF AMERICA		
Organization	Website	Description
Pan American Institute of Highways (PIH), USDOT	<a href="http://www.pih-ipc.org">www.pih-ipc.org</a>	PIH is an independent organization with an objective to transfer innovative and traditional technology for improving highway transportation systems throughout the Americas. The website offers links to general information, current news, activities, information resources, centers, membership and sponsorships, and other topics.
Partners for Advance Transit and Highways (PATH)	<a href="http://www.path.eecs.berkeley.edu">www.path.eecs.berkeley.edu</a>	PATH is administered by ITS, University of California. It is a multidisciplinary program focusing on advanced transit technologies and ITS application. The website covers links to activities, funded programs, job opportunities, newsletter information, and other topics.
The Pennsylvania Transportation Institute (PTI)	<a href="http://www.pti.psu.edu">www.pti.psu.edu</a>	PTI is a multidisciplinary research institute that conducts research directed toward current and future transportation needs. The website provides links to topics related to PTI's programs and research activities.
Research and Special Programs Administration (RSPA), USDOT	<a href="http://www.rspa.dot.gov">www.rspa.dot.gov</a>	RSPA is one of nine major agencies of the U.S.DOT, and is involved in the following transportation areas: transportation research, transportation of hazardous materials, safety and environmental risks of pipeline transportation, training and technical assistance in transportation safety. The website provides links to general information, strategic plan, offices, procurement opportunities, vacancy announcements, press releases, waivers, as well as other links and topics.
Texas Transportation Institute (TTI)	<a href="http://www.tti.tamu.edu">www.tti.tamu.edu</a>	TTI is the official research agency for the Texas Department of Transportation and the Texas Railroad Commission. Mission is to improve the safety and efficiency of transportation systems. The website includes over one dozen links including general information, contacts, research, publications, organization charts, personnel directory, facilities, and other links.

UNITED STATES OF AMERICA		
Organization	Website	Description
Transportation Research Board (TRB)	<a href="http://www.nas.edu/trb">www.nas.edu/trb</a>	TRB is a unit of the National Research Council, a private, nonprofit organization. Its mission is to promote innovation and progress in transportation by stimulating and conducting research, facilitating the dissemination of information, and encouraging the implementation of research results. The website provides links to general information, programs, calendar, directory, and other links.
	<a href="http://www.mrc.fhwa.dot.gov/tt">www.mrc.fhwa.dot.gov/tt</a>	The "Transportation Information Sources Online" website is a compilation of transportation information sources which is divided into five parts covering each mode of transportation. It is international in scope. Sources from Australia, Canada, European Union and European Free Trade Association member countries, and the United States are included.
Turner-Fairbank Highway Research Center (TFHRC), USDOT	<a href="http://www.thfrc.gov">www.thfrc.gov</a>	TFHRC is the research development and technology branch of the FHWA. The website provides links to general information, library, current news, site map, areas of RD & T expertise, and publications.
University of Michigan Transportation Research Institute (UMTRI)	<a href="http://www.umtri.umich.edu">www.umtri.umich.edu</a>	UMTRI provides multidisciplinary transportation research and training. The website includes links to general information, staff directory, products and services, publications, seminars, work in progress, and other topics.
U.S. Department of Transportation (USDOT)	<a href="http://www.dot.gov">www.dot.gov</a>	USDOT is the Federal Government agency responsible for all modes of transportation. The website covers links to all of the agencies within the USDOT.
The University of North Carolina at Chapel Hill Highway Safety Research Center (UNC/HSRC)	<a href="http://www.hsrc.unc.edu">www.hsrc.unc.edu</a>	The UNC Highway Safety Research Center, located on the UNC-Chapel Hill campus, conducts research dealing with highway safety, including driver, pedestrian, and bicycle safety, and vehicle safety. The website includes links to public information (alcohol studies, bicycle safety and access, child passenger information, NC occupant restraint laws, graduated driver licensing, Highway Safety Information System-HSIS, pedestrian and bicycle information center); research (human factors); about us (staff, history, employment); and publications.

WEBSITES

<b>UNITED STATES OF AMERICA</b>		
<b>Organization</b>	<b>Website</b>	<b>Description</b>
Volpe National Transportation Systems Center	<a href="http://www.volpe.dot.gov">www.volpe.dot.gov</a>	Volpe is an organization within the USDOT's RSPA dedicated to creating awareness and fostering technical, operational, and managerial innovations in the transportation system. The website includes links to current news, general information, staff, visitor information, and phone directory.

<b>WORLDWIDE ORGANIZATIONS</b>		
<b>Organization</b>	<b>Website</b>	<b>Description</b>
<p>Association Internationale Permanents des Congres de la Route (AIPCR)</p> <p>Permanent International Association of Road Congresses (PIARC)</p> <p>(World Road Association)</p>	<p><a href="http://www.piarc.inrets.fr">www.piarc.inrets.fr</a></p>	<p>PIARC is an international association concerned with road engineering, road policy, and the management of road networks. There are 95 member governments and other members in 129 countries worldwide. The website provides links to aims and activities, member, technical committees and working groups, world exchange networks, routes/roads, and current news.</p>
<p>Community Research and Development Information Service (CORDIS), Transport RTD Programme</p>	<p><a href="http://www.cordis.lu/transport">www.cordis.lu/transport</a></p>	<p>CORDIS' Transport RTD Programme supports the development and implementation of transport policy. The European Union funds research activities. Research contributes to the development, integration and management of a more efficient, safer and environmentally friendly transport system which will ensure the sustainable mobility of goods and persons. The website provides over a dozen links covering current news, publications, projects, each mode, correspondence, newsletter, general, and others.</p>
<p>Institution of Highways and Transportation (IHT)</p>	<p><a href="http://www.iht.org">www.iht.org</a></p>	<p>IHT is concerned specifically with the design, construction, maintenance and operation of sustainable transport systems and infrastructure. The website provides links to general information, news and events, membership, job opportunities, publications, and other links.</p>

<b>WORLDWIDE ORGANIZATIONS</b>		
<b>Organization</b>	<b>Website</b>	<b>Description</b>
Institute of Transportation Engineers (ITE)	<a href="http://www.ite.org">www.ite.org</a>	ITE is an international individual member educational and scientific association. ITE members are traffic engineers, transportation planners and other professionals who are responsible for meeting society's need for safe and efficient surface transportation through planning, designing, implementing, operating, and maintaining surface transportation systems worldwide. The website provides links covering general information, publications, membership, directories, RFPs, meetings and conferences, discussion groups, technical information, federal register notices, certification programs, councils, and other topics. Full text of articles from the <i>ITE Journal</i> is available on the website, for ITE members.
Intelligent Transport Systems Europe (ERTICO)	<a href="http://www.ertico.com">www.ertico.com</a>	ERTICO is an international public/private partnership for intelligent transport systems (ITS) in Europe. ERTICO partners include: public authorities, industry, infrastructure operators and service providers, users, and others. The website provides links to homepage, definitions, general information, activities, partners, newsroom, forums, and others.

<b>WORLDWIDE ORGANIZATIONS</b>		
<b>Organization</b>	<b>Website</b>	<b>Description</b>
International Road Federation (IRF)	<a href="http://www.irfnet.org">www.irfnet.org</a>	IRF is a service organization whose purpose is to encourage better road and transportation systems worldwide and to help apply technology and management practices which will give maximum economic and social returns from national road investment. The website includes links describing: mission statement; membership; press releases and special reports; programs (education, training, road, advocacy); conferences and meetings; products and publications; and IRF partners. One publication called <i>World Road Statistics</i> is the only global compilation of road and vehicle statistics. It is based on data compiled from official sources within national statistics offices and national road administrations in more than 200 countries. Data cover road network length, production & export of motor vehicles, vehicles in use, road traffic, motor fuels, road crashes, and rates and basis of assessment of road user taxes. <i>World Road Statistics 2000</i> contains data from 1994 to 1998.
International Road Transport Union (IRU)	<a href="http://www.iru.org">www.iru.org</a>	IRU represents the entire road transport industry world-wide. Its task is to ensure the mobility of people and goods, and speaks for the operators of coaches, taxis and trucks. The website covers the following links: mission, organization, membership, publications, transport indices for 17 individual western European countries and the OECD countries as a whole, information on restrictions and traffic bans on European roads, border delays, fuel prices, and safety and the environment.
Organisation for Economic Cooperation and Development (OECD)	<a href="http://www.oecd.org">www.oecd.org</a>	OECD is an organization that provides governments a setting in which to discuss, develop and perfect economic and social policy. The website has several links covering general information, news, statistics, recruitment, bookshop, publications, location of centers worldwide, and other topics. (French and English versions)

**HIGHWAY TRANSPORTATION ASSOCIATIONS, ORGANIZATIONS,  
AND OTHER PROFESSIONAL SOCIETIES**

<b>Association, Organization, Professional Society</b>	<b>Contact Information</b>	<b>Description</b>
AAA Foundation for Traffic Safety	AAA Foundation for Traffic Safety 1440 New York Ave. NW Suite 201 Washington, DC 20005 USA Phone: (202) 638-5944 Fax: (202) 638-5943 Email: <a href="mailto:steph@aaafits.org">steph@aaafits.org</a> URL: <a href="http://www.aaafits.org">http://www.aaafits.org</a>	Serves as research and development medium to saving lives and reducing injuries by preventing traffic crashes. Produces and distributes safety videos and related materials for government agencies, automobile clubs, driving schools, corporations, school districts, and other organizations.
Advocates for Highway and Auto Safety (AHAS)	Advocates for Highway and Auto Safety 750 First St. NE, Suite 901 Washington, DC 20002 USA Phone: (202) 408-1711 Fax: (202) 408-1699 Toll-Free: 800-659-2247 Email: <a href="mailto:stone@saferoads.org">stone@saferoads.org</a> URL: <a href="http://www.saferoads.org">http://www.saferoads.org</a>	Promotes effective highway safety legislation, standards, policies, and programs at the National and State levels to reduce deaths, injuries, and economic losses associated with motor vehicle crashes, fraud, and theft. Monitors State and National automotive safety legislation.
Alliance for Traffic Safety (ATS)	Alliance for Traffic Safety c/o Glenn A. Carriker Safety Center Humphreys Bldg., Suite 201 Central Missouri State University Warrensburg, MO 64093 USA Phone: (660) 543-4830 Fax: (660) 543-4482	Educational, trade, and professional organizations with an interest in highway traffic safety. Acts as a forum for exchange of information among members and as a source of contact for State and Federal safety officials for reaching participating organization safety personnel at both the State and National levels.
American Academy of Safety Education (AASE)	American Academy of Safety Education c/o Robert L. Baldwin Central Missouri State University Safety Center Humphreys Bldg. Warrensburg, MO 64093 USA Phone: (660) 543-4281	Elected fellows interested in or employed by safety education programs. Promotes safety education and crash prevention throughout the nation.
American Association of Motor Vehicle Administrators (AAMVA)	American Association of Motor Vehicle Administrators 4301 Wilson Blvd., Suite 400 Arlington, VA 22203-1800 USA Phone: (703) 522-4200 Fax: (703) 522-1553 URL: <a href="http://www.aamva.org">http://www.aamva.org</a>	Promotes reasonable and uniform laws and regulations governing registration, certification of ownership, equipment and operation of motor vehicles, and issuance of motor vehicle driver's licenses. Officials represent 67 States, provinces, and territories who administer motor vehicle laws and regulations.

HIGHWAY TRANSPORTATION ASSOCIATIONS, ORGANIZATIONS, AND OTHER PROFESSIONAL SOCIETIES

Association, Organization, Professional Society	Contact Information	Description
American Association of State Highway and Transportation Officials (AASHTO)	American Association of State Highway and Transportation Officials 444 N. Capitol St. NW, Suite 249 Washington, DC 20001 USA Phone: (202) 624-5800 Fax: (202) 624-5806 Toll-Free: 800-231-3475 Email: <a href="mailto:aashto@aashto.org">aashto@aashto.org</a> URL: <a href="http://www.aashto.org/main">http://www.aashto.org/main</a>	Provides advocacy for multimodal and intermodal transportation. Represents the fifty-member State highway and transportation departments and the District of Columbia and Puerto Rico, fostering development, operation, and maintenance of an integrated national transportation system.
American Automobile Association (AAA)	American Automobile Association 1000 AAA Drive Heathrow, FL 32746-5063 USA Phone: (407) 444-7965 Fax: (407) 444-7759 URL: <a href="http://www.aaa.com">http://www.aaa.com</a>	Provides services and produces publications on traffic safety, including driver education, automobile history, statistics, insurance, and business management. Provides traffic safety curriculum materials to elementary schools. Works with National, State, and local Governments on safety issues.
American Concrete Institute International (ACI)	American Concrete Institute International P.O. Box 9094 Farmington, MI 48333 Phone: (248) 848-3700 Fax: (248) 848-3701 email: <a href="mailto:BKStore@aci-int.org">BKStore@aci-int.org</a> URL: <a href="http://www.aci-int.org">http://www.aci-int.org</a>	ACI develops and disseminates information regarding the use of concrete structures and facilities. Members represent engineering and architectural professions, contractors, and materials producers, government, and academia. The website provides information about ACI and its activities, the ACI bookstore and library. Codes and standards, technical reports, handbooks and manuals, CD-ROMS and software, periodicals and videos may be ordered online.
American Driver and Traffic Safety Education Association (ADTSEA)	American Driver and Traffic Safety Education Association Highway Safety Center Indiana University of Pennsylvania Indiana, PA 15705 USA Phone: (724) 357-4051 Toll-Free: 800-896-7703 Fax: (724) 357-7595 URL: <a href="http://adtsea.iup.edu/adtsea">http://adtsea.iup.edu/adtsea</a>	Professional organization of teachers, supervisors, commercial driving school owners, vocational rehabilitation specialists, and police traffic safety personnel interested in improving driver and traffic safety education in colleges and secondary and elementary schools. Provides assistance to State departments of education, colleges and universities, State associations, and local school districts.
American Highway Users Alliance	American Highway Users Alliance 1776 Massachusetts Ave. NW Washington, DC 20036 USA Phone: (202) 857-1200 Fax: (202) 857-1220 Email: <a href="mailto:gohighway@aol.com">gohighway@aol.com</a> URL: <a href="http://www.highway.org">http://www.highway.org</a>	Promotes highway safety and encourages sound highway transportation development on a National basis by cooperating with private and public organizations active in these areas. Includes organizations and associations representing major industry and highway-user groups.

HIGHWAY TRANSPORTATION ASSOCIATIONS, ORGANIZATIONS, AND OTHER PROFESSIONAL SOCIETIES

Association, Organization, Professional Society	Contact Information	Description
American Public Works Association (APWA)	<p>American Public Works Association 2345 Grand Blvd., Suite 500 Kansas City, MO 64108 USA Phone: (816) 472-6100 Fax: (816) 472-1610 Toll-Free: 800-595-APWA Email: atatum@apwa.net</p> <p>American Public Works Association 1401 K Street, NW, 11th Floor, Washington, DC 20005 Phone: (202) 408-9541 Fax: (202) 408-9542 Email: apwa.dc@apwa.net URL: <a href="http://www.pubworks.org">http://www.pubworks.org</a></p>	International educational and professional association of public agencies, private sector companies, and individuals dedicated to providing high quality public works goods and services. Includes chief administrators, commissioners, and directors of public works, city engineers, superintendents, and department heads of transportation, water, waste, and other public works departments. Conducts historical research on public works subjects and demonstrates applicability of history to current public works problems and issues. Sponsors research and education foundations.
American Road and Transportation Association (ARTA)	<p>American Road and Transportation Association 1010 Massachusetts Ave., NW 6<sup>th</sup> Floor Washington, DC 20001 USA Phone: (202) 289-4434 Fax: (202) 289-44435</p>	Works to upgrade U.S. transportation systems by promoting public awareness of needs. Seeks to increase public support for improvement programs and to focus national attention on State highway and transportation problems. Includes executives of State transportation betterment organizations and allied associations and firms.
American Road and Transportation Builders Association (ARTBA)	<p>American Road and Transportation Builders Association The ARTBA Building 1010 Massachusetts Ave., NW Washington, DC 20001 USA Phone: (202) 289-4434 Fax: (202) 289-4435 Email: artbadc@aol.com URL: <a href="http://www.artba-hq.org">http://www.artba-hq.org</a>.</p>	Represents the construction industry in all modes of transportation systems. Publishes technical information for engineers, designers, contractors, educators, manufacturers, and suppliers of the transportation construction industry.
American Society of Civil Engineers (ASCE)	<p>American Society of Civil Engineers 1801 Alexander Bell Dr. Reston, VA 20190 USA Phone: (703) 295-6252 Fax: (703) 295-6278 Toll Free: 800-548-2723 Email: Marketing@asce.org</p> <p>ASCE - Washington Office 1015 15th St. N.W., Suite 600 Washington, D.C. 20005 Phone: (202) 789-2200 Fax: (202) 289-6797 fax URL: <a href="http://www.asce.org">http://www.asce.org</a></p>	Represents more than 123,000 members of the civil engineering profession worldwide. Provides membership perspectives on advancing technology, promoting the profession, leadership, career development, and marketing. Publishes books and journals on civil engineering.

HIGHWAY TRANSPORTATION ASSOCIATIONS, ORGANIZATIONS, AND OTHER PROFESSIONAL SOCIETIES

Association, Organization, Professional Society	Contact Information	Description
American Society of Highway Engineers (ASHE)	American Society of Highway Engineers 908 North Second street Harrisburg, PA 17102 Phone: Fax: Email: info@highwayengineers.org URL: http://www.highwayengineers.org	The mission of ASHE is to promote the planning, design, construction, maintenance, and operation of safe & efficient highways; to foster a general understanding of the value of highways and seek support for their fiscal viability; to stimulate & publicize technology advances in the highway field; to encourage communications among all segments of the highway industry; to stress the value of individuals; and to facilitate ethics, leadership, & career growth of the members. Website offers overviews, contact information, membership information, news, calendar, etc.
American Society of Transportation and Logistics (ASTL)	American Society of Transportation and Logistics 320 E. Water St. Lock Haven, PA 17745-1419 USA Phone: (570) 748-8515 Fax: (570) 9118 Email: info@astl.org URL: http://www.astl.org	Works to establish standards of knowledge, technical training, experience, conduct, and ethics, and to encourage high standards of education and technical training requisite for the proper performance of traffic, transportation, logistics, and physical distribution management. Members are engaged in transportation, traffic, logistics, or physical distribution.
American Traffic Safety Services Association (ATSSA)	American Traffic Safety Services Association 15 Riverside Pkwy., Suite 100 Fredericksburg, VA 22406-1022 USA Phone: (540) 368-1701 Fax: (540) 368-1717 Email: general@atssa.com URL: http://www.atssa.com	An international trade association representing individuals and firms engaged in the renting, leasing, and/or selling of highway signs, pavement markings, and traffic control devices for construction and repair areas; suppliers to the industry. Distributes technical information, promotes safety; compiles statistics, promotes uniform use of lights, signs, pavement markings, and barricades. Provides training to roadway safety workers and offers pavement marking, flagger and inspection programs.
Andean Association of International Highway Transportation	Asociacion Andina de Transportistas Internacionales por Carretera c/o JUNAC Paseo de la Republica 3895 Casila 18-1177 Lima 27, Peru Phone: 51 14 2212222 Fax: 51 14 2213329 Telex: JUNAC 20104 PU	Promotes improvement and expansion of the road network in the Andean region. Works with government agencies to plan and build new international highways; and represents members' commercial and regulatory interests. Includes road transportation companies and agencies.

HIGHWAY TRANSPORTATION ASSOCIATIONS, ORGANIZATIONS, AND OTHER PROFESSIONAL SOCIETIES

Association, Organization, Professional Society	Contact Information	Description
Arab Roads Association (ARA)	Arab Roads Association Wabba Bldg. 33 Kasar Al-Nil Cairo, Egypt Phone: 20 2 244452 Fax: 20 2 2842643 Telex: 22829 COLAM	Promotes growth and development of the road transportation industry. Seeks to improve the road network in the Arab World. Advocates on behalf of the road construction and transportation industries. Serves as a forum for exchange of information among members. Includes road building and transportation companies.
Argentina Center of Road Technology Transfer	Centro Argentina de Transferencia de Tecnologia Vial Junin 1173 PB "A" (1113) Buenos Aires, Argentina Telefax: (54-11) 4823-3748 E-mail: info@vial.org.ar URL: http://www.vial.org.ar	Represents the Permanent International Association of Road Congresses (PIARC) Argentine National Committee. Responsible for arranging conferences and other technology transfer activities.
ARRB Transport Research (ARRB)	ARRB Transport Research 500 Burwood Highway Vermont South, VIC 3133, Australia Phone: 61 3 98811555 Fax: 61 3 8878104 Email: info@arrb.org.au URL: http://www.arrb.org.au	Conducts road and road transport research with emphasis on Australia. Provides equipment and services for instrumentation and data collection.
Association for the Advancement of Automotive Medicine (AAAM)	Association for the Advancement of Automotive Medicine 2340 Des Plaines Ave., Ste. 106 Des Plaines, IL 60018 USA Phone: (847) 390-8927 Fax: (847) 390-9962 Email: aaaml@aol.com URL: http://www.carcrash.org	Physicians and other professionals concerned with motor vehicle safety, design, and road engineering. Works to reduce the number of injuries and fatalities on the Nations's highways by encouraging research on the effects of diseases, disabilities, and environmental factors on driver capabilities. Supports laws and regulations to upgrade the standards for licensing drivers and research and development programs leading to improved bio-engineering of motor vehicles. Encourages the use of appropriate protective devices and disseminates new information in the field of traffic, vehicular, and pedestrian safety.
Association of African Road Directors (AARD)	Association of African Road Directors Boite Postale 4631 Ouagadougou, Burkina Faso Phone: 226 35 302323 226 35 340199 Fax: 226 35 307069	National Administrators responsible for roadway development, maintenance, or transportation. Promotes expansion of the African road network. Seeks to increase shipping of goods and passengers by road. Facilitates cooperation among African road development and maintenance authorities, sponsors transportation research.

HIGHWAY TRANSPORTATION ASSOCIATIONS, ORGANIZATIONS, AND OTHER PROFESSIONAL SOCIETIES

Association, Organization, Professional Society	Contact Information	Description
