Dear Reader:

I am pleased to present the *2001 Traffic Crash Facts Report*. This report contains data from the department's crash database, compiled from traffic crash reports completed by state and local law enforcement agencies.

While progress has been made in reducing deaths, injuries and economic losses on Florida's highways, we continue to strive for improvement. Despite a 1.9 billion increase in the number of vehicle miles driven and a 1.5 million increase in the number of registered vehicles in Florida between 2000 and 2001, the mileage death rate was the lowest in over ten years.

We must never lose sight, however, of the fact that in excess of 256,000 police-reported motor vehicle crashes still occurred on our highways in 2001. Information about these crashes helps us better understand highway safety issues and develop effective solutions such as promoting the use of seatbelts and child safety seats.

Special recognition and appreciation is extended to the law enforcement officers who, in addition to responding to the immediate needs of crash victims on the scene, also collect vital crash data that helps make highways safer in the future for Floridians, visitors and their families.

Sincerely,

A handwritten signature in black ink that reads "Fred O. Dickinson".

Traffic Crash report Form

Source of Data

2001 Florida Traffic Crash Facts

The information contained in this Traffic Crash Facts booklet is extracted from law enforcement agency long-form reports of traffic crashes. A law enforcement officer must submit a long-form crash report when investigating:

- Motor vehicle crashes resulting in death or personal injury, or
- Motor vehicle crashes in which one or more of the following conditions occur:

Leaving the scene involving damage to an attended vehicle or property (Section 316.061 (1), F.S.);

Driving while under the influence of alcoholic beverages, chemical substances, or controlled substances or with an unlawful blood alcohol level (Section 316.193, F.S.).

An investigating officer may report other traffic crashes on the long-form crash report. In particular, applicable statutes specify an officer's discretion to submit a long-form report in crashes where a vehicle is rendered inoperable to the degree that a wrecker is required to remove it from traffic.

Statutory revisions in 1983 and 1989 reduced the number of non-injury crashes required to be reported to the Department. Any presentation of historical data that includes such crashes, such as total traffic crash counts, will reflect these changes. Data on traffic crashes involving death, injury, or other criteria for law enforcement long-form reports as outlined above are not affected.

Please Note:

All 1992 data in this publication have been updated from preliminary figures published in the Department of Highway Safety and Motor Vehicles Traffic Crash Data, 1992. Figures from the 1992 publication should not be used for year-to-year comparisons.

Definition of Terms

2001 Florida Traffic Crash Facts

The following terms are defined as they apply to the crash data presented in this publication. These definitions may differ from legal or other uses of the same terms.

Alcohol-related traffic crash	A crash involving a driver and/or pedestrian for whom alcohol use was reported (does not presume intoxication).
Bicycle	A vehicle propelled solely by human power or a motorized bicycle propelled by a combination of human power and an electric helper motor rated at 200 watts or less (this term does not include a vehicle with a seat height less than 26 inches from the ground when the seat is adjusted to its highest position, or a scooter or similar device).
Bicyclist	The driver of a bicycle. A passenger on a bicycle is considered a vehicle passenger.
Driver	Unless otherwise indicated, the operator of a motor vehicle or bicycle. Driver data typically exclude uninjured persons presumed to have been operating hit-and-run, phantom, or properly parked vehicles.
Fatal traffic crash	A traffic crash that results in one or more fatalities within thirty days of occurrence.
First harmful event	The first damage-producing event in a traffic crash.
Injury	Hurt, damage, or loss sustained by a person as a result of a traffic crash.
Possible injury	No visible signs of injury but complaint of pain or momentary unconsciousness.
Non-Incapacitating injury	Any visible injuries such as bruises, abrasions, limping, etc.
Incapacitating injury	Any visible signs of injury from a crash or person(s) who had to be carried from the scene.
Total injury	The sum of possible, non-incapacitating, and incapacitating injuries.
Injury crash	A traffic crash that results in one or more injuries that is not fatal.
Moped	A motor-powered cycle with a pedal-activated motor and two brake horsepower maximum.
Motor vehicle	Any motorized vehicle not operating on rails.

Definition of terms

(Continued)

2001 Florida Traffic Crash Facts

Motorcycle	A motor vehicle, with a seat or saddle for the driver's use, traveling with no more than three wheels in contact with the ground, excluding a tractor or a moped.
Motorcyclist	The driver of a motorcycle. A passenger on a motorcycle is considered a vehicle passenger.
Vehicle and/or Property damage only crash	Loss of all or part of an individual's vehicle and/or property resulting from a traffic crash not involving injury to a person.
Traffic crash	A crash involving at least one motor vehicle on a roadway that is open to the public.
Traffic fatality	The death of a person as a direct result of a traffic crash within thirty days of the crash occurrence.
Vehicle occupants	Drivers and passengers of automobiles, vans, trucks, buses, and motor homes.
Long form	Refers to a crash report prepared by a law enforcement officer when the driver of a vehicle involved in a crash resulting in bodily injury to or death of a person or where a criminal offense has been committed.
Short form	Refers to a crash report in which the threshold of the long form does not apply. Therefore, a long form report is not prepared.
