Addendum

Preambles of Amendments to Civil Air Regulations Part 51

NOTE

Part 51 of the Civil Air Regulations was last revised by the Civil Aeronautics Board with an effective date of June 1, 1955. This was not a general revision of the part, but only a reprint to incorporate outstanding amendments. This revision was published in the Federal Register on June 2, 1955 (20 F.R. 3844).

Amendment 51-1

Airman Identification Card

Adopted: Nov. 13, 1956
Effective: Nov. 13, 1956
Published: Nov. 21, 1956
(21 F.R. 9011)

The identification card requirement contained in present Part 51 was intended to facilitate the identification of the holder in the event that future security restrictions might so require. However, after 5 years' experience with the issuance of identification cards, it is now evident that they have served no useful purpose in the past, and it appears unlikely that the carriage of such a card by airmen would have any future beneficial effect upon the exercise of security controls. In view of this experience and in view of the fact that the requirement has created a burden for the applicant as well as the Government, for which no safety or security justification exists, it is being deleted by this amendment.

Since this amendment is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective without prior notice.

Amendment deleted section 51.6.

Amendment 51-2

Clarification of Age Requirement for Issuance of Rating and Certificate

Adopted: Dec. 21, 1956
Effective: Dec. 21, 1956
Published: Dec. 28, 1956
(21 F.R. 10372)

Currently effective section 51.1(a) of Part 51 of the Civil Air Regulations specifies that an applicant for a ground instructor rating and certificate shall be at least 18 years of age.

This provision could be construed to mean that a person must be 18 years old before he can apply for a ground instructor rating and certificate, although the intent of the Board in adopting the provision was to require only that the applicant reach the minimum age specified before being issued a rating and certificate.

Since the present minimum age provision may be construed to prevent a person from applying for a ground instructor rating and certificate before reaching the prescribed minimum age, the wording of this provision is being modified to make it clear that the minimum age requirement applies only to the actual issuance of the rating and certificate. This modification in language will not adversely affect safety, since the minimum age for the issuance of a ground instructor rating and certificate is not reduced and the privileges associated with such rating and certificate remain unchanged.

Since this amendment is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and it may be made effective without prior notice.

Amendment revised paragraph (a) of section 51.1.
