ADVISORY CIRCULAR CHECKLIST

(and status of other FAA Publications for sale by

**Federal Aviation
Administration**

Advisory Circular

**Subject: ADVISORY CIRCULAR CHECKLIST
(and Status of Other FAA Publications)**

**Date: 8/15/95
Initiated By: ABC-100**

AC No: 00-2.9

1. Purpose. This circular transmits the revised checklist of Federal Aviation Administration (FAA) Advisory Circulars (AC's). It also lists the current status of certain other FAA publications sold by the Superintendent of Documents, U.S. Government Printing Office (GPO). This checklist is published on an annual basis in October. However, an increase in the number of AC updates necessitated an earlier issuance date of the checklist.

2. Cancellation. AC 00-2.8 dated June 15, 1994, is canceled.

3. Explanation of AC system. The FAA issues advisory circulars to inform the aviation public in a systematic way of nonregulatory material of interest. Unless incorporated into a regulation by reference, the contents of an advisory circular are not binding on the public. Advisory circulars are issued in a numbered-subject system corresponding to the subject areas of the Federal Aviation Regulations (FAR's) (Title 14, Code of Federal Regulations, Chapter I, Federal Aviation Administration). An AC is issued to provide guidance and information in its designated subject area or to show a method acceptable to the Administrator for complying with a related Federal Aviation Regulation.

4. The Advisory Circular Checklist.

a. General. The checklist is divided into six appendices. Appendix 1 provides a cancellations and additions listing. Appendix 2 gives information on the title and the issuance date for each circular shown. A brief explanation of the contents is given for each listing. For cross-referencing purposes an alphabetical section is provided as Appendix 4. To make it easy for the user, a listing of FAA publications sold by GPO is provided in Appendix 5. You'll find it easy to order the desired publications by using the handy order forms/blanks located in Appendix 6 of this checklist.

b. Omitted numbers. In some series, some consecutive numbers are missing. These numbers were assigned to advisory circulars still in preparation which will be issued later or were assigned to advisory circulars that have been canceled.

5. How to order:

a. Free Advisory Circulars (AC's). If no price is listed after the AC, it is free. You can expedite the delivery of your order by using the special order blank in the back of this checklist, Appendix 6 (photocopies are acceptable) or send it through FAX: 202-366-2795. Distribution personnel will send up to ten copies of any "free" publication. Higher quantities must be approved by the issuing office. Send your order for "free" AC's to:

U.S. Department of Transportation
General Services Section
M-45.3
Washington, D.C. 20590

To be added to or deleted from an AC MAILING LIST, for your convenience, we have included in the back of this checklist (Appendix 6) a "Request For Mailing List Action" sheet. Complete this sheet and mail to:

U.S. Department of Transportation
Distribution Requirements Section,
M-483.1
Washington, D.C. 20590

b. Publications for Sale. A list of FAA advisory circulars, directives, and other publications is shown in Appendix 5. All of these publications are for sale by the U.S. Government Printing Office (GPO) with the exception of the Summary of Airworthiness Directives which are available from U.S. Department of Transportation, Federal Aviation Administration (FAA) for GPO. When "(Sub.)" is included with the price, the publication is available on a subscription basis only; supplements or changes to the basic document will be sent to you at no additional charge until the subscription expires. Orders for mailing to foreign countries should include an additional 25 percent of the total price to cover handling. C.O.D. orders are not accepted

Do not send orders or follow-up inquiries to the Federal Aviation Administration regarding orders not received. Inquiries should be addressed to the organization (Department of Transportation or Government Printing Office) with which you placed the original order.

On occasion, our supply personnel may misinterpret your request. At other times the publication(s) may be out-of-

print. If you do not receive desired publication(s) after your second written request please follow instructions provided in Appendix 6.

6. Reproduction of Advisory Circulars. Advisory circulars may be reproduced in their entirety or in part without permission from the Federal Aviation Administration.

4. Individual circular identification numbers. Each circular has a subject number either followed by a dash and a consecutive number (135-15) or a period with a specific FAR section number, followed by a dash and a consecutive number (135.169-2) identifying the individual circular. This consecutive number is not used again in the same subject series. Revised circulars have a

letter A, B, C, etc., after the consecutive number to show complete revisions. Changes to circulars have Chg. 1, Chg. 2, Chg. 3, etc., after the identification number on pages that have been changed. The date on a revised page is changed to the date of the Change transmittal.

General-

Subject No. 00

→ **00-1.1 Government Aircraft Operations (4-19-95) (AFS-220).** Provides guidance on whether particular government aircraft operations are public aircraft or civil aircraft operations under the new statutory definition of "public aircraft."
