

ADVISORY CIRCULAR

DEPARTMENT OF TRANSPORTATION FEDERAL AVIATION ADMINISTRATION

SUBJECT: STATUS OF FEDERAL AVIATION REGULATIONS

1. PURPOSE.

The Federal Aviation Administration (FAA) is converting its Federal Aviation Regulations (FARs) from a series of Volumes, each containing a number of FAR Parts, to a system in which each Part is published separately. This Advisory Circular summarizes the current status of the conversion program, lists FAR prices, and provides ordering instructions for purchasing the regulations.

2. BACKGROUND.

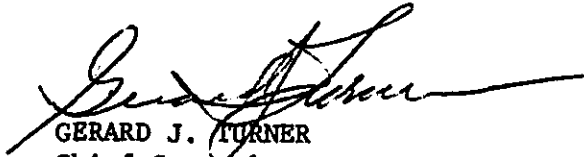

- a. In January 1974, FAA began phasing out the FAR Volumes as the subscription term for each Volume expired and replacing them with individually published FAR Parts. Parts subject to frequent amendment will be sold on a subscription basis which provides subscribers with automatic mailing of Changes as they are published. Parts which are amended less frequently will be sold on a single-sale basis. Changes to these Parts will be sold separately as issued and their availability will be announced periodically by FAA through revisions to this Advisory Circular.
- b. Prior to the expiration of the subscription term for each Volume, the Superintendent of Documents sends current subscribers a notice with order forms and instructions for ordering the individual Parts formerly contained in that Volume.

3. HOW TO ORDER.

- a. Federal Aviation Regulations are sold by the Superintendent of Documents. Orders for FARs should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. A check or money order payable to the Superintendent of Documents must be included with the order. The prices of all FAR publications are listed in Appendixes A, B, and C.
 - b. To expedite your order, prepare separate lists for subscription items and single-sale items. Include the Part number, title, and catalog number for each item ordered. Each list should be submitted separately with the correct remittance attached. Your name and address should be placed on each list as subscription and nonsubscription orders are separated for processing when received by the Superintendent of Documents.
-

4. FAA INTERNAL DISTRIBUTION.

Distribution of FARs to FAA personnel is handled through the FAA distribution system based on the survey of requirements made in January 1974. FAA personnel should not order FARs from the Superintendent of Documents.

GERARD J. TURNER
Chief Counsel

* Add 25% for foreign mailing.

** Due to their length, complexity, and frequency of issuance, individual Airworthiness Directives are published separately in the Federal Register. Copies of Airworthiness Directives that have been issued are for sale in summary form by DOT, FAA Aeronautical Center (consigned agent for Superintendent of Documents), P.O. Box 25461, Oklahoma City, Okla. 73125, Attn: AAC-23.

	*73 Special Use Airspace					
	*75 Establishment of Jet Routes and High Area Routes					
	77 Objects Affecting Navigable Airspace					
	*95 IFR Altitudes					
	**97 Standard Instrument Approach Procedures					
	157 Notice of Construction, Alteration, Activation, and Deactivation of Airports					
	169 Expenditure of Federal Funds for Nonmilitary Airports or Air Navigational Facilities Thereon					
	171 Non-Federal Navigation Facilities					

* Due to their length, complexity, and frequency of issuance, individual airspace designations, airways descriptions, restricted areas, jet route descriptions, and enroute IFR altitudes are not included in the publication of these basic parts. Such descriptions are published in the Federal Register and depicted on appropriate aeronautical charts. Aeronautical charts can be obtained from the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, Distribution Division (C-44), National Ocean Survey, Riverdale, Maryland 20840.

** Standard instrument approach procedures are published in the Federal Register by reference to FAA documents which are available for examination in the Rules Dockets (AGC-24) and the National Flight Data Center, FAA Headquarters, Washington, D.C., and at the appropriate FAA Regional Offices and Flight Inspection District Offices. These approach procedures can be obtained from the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, Distribution Division (C-44), National Ocean Survey, Riverdale, Maryland 20804.
