ADVISORY CIRCULAR

DEPARTMENT OF TRANSPORTATION FEDERAL AVIATION ADMINISTRATION

SUBJECT: STATUS OF FEDERAL AVIATION REGULATIONS

1. PURPOSE.

This circular sets forth the current publication status of the Federal Aviation Regulations, any Changes issued to date, and provides a price list and ordering instructions.

2. CANCELLATION.

AC 00-44H, dated September 30, 1977, is cancelled.

3. PRINCIPAL CHANGES.

The Special Federal Aviation Regulations (SFARs) which are presently in effect are now being included in their related FAR Parts. The listing of SFARs is now included in this Advisory Circular as Appendix 3.

4. HOW TO ORDER

a. Federal Aviation Regulations are sold by the Superintendent of Documents. Send orders for FARs to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. A check or money order payable to the Superintendent of Documents must be included with the order. The prices of all FAR publications are listed in Appendixes 1 and 2.

b. Only Parts having frequent Changes are sold on subscription. Parts which are changed less frequently are sold on a single-sale basis and Changes to these Parts are sold separately.

c. To expedite your order, prepare separate lists for subscription items and single-sale items. Include the Part number, title, and catalog or stock number, as appropriate, for each item ordered. Submit each list separately with the correct remittance attached. Include your name and address on each list because subscription and nonsubscription orders are separated for processing when received by the Superintendent of Documents.

5. FAA INTERNAL DISTRIBUTION

Distribution of FARs to FAA personnel is handled through the FAA distribution system based on the survey of requirements made in January 1974. FAA personnel should not order FARs from the Superintendent of Documents.

² Due to their length, complexity, and frequency of issuance, individual Airworthiness Directives are published separately in the Federal Register. Copies of Airworthiness Directives that have been issued are for sale in summary form by DOT, FAA Aeronautical Center (consignee agent for Superintendent of Documents), P.O. Box 25461, Oklahoma City, Okla. 73125, Attn: AAC-23.

³ Due to their length, complexity, and frequency of issuance, individual airspace designations, airways descriptions, restricted areas, jet route descriptions, and enroute IFR altitudes are not included in the publication of these basic Parts. Such descriptions are published in the Federal Register and depicted on appropriate aeronautical charts. Aeronautical charts can be obtained from the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, Distribution Division (C-44), National Ocean Survey, Riverdale, Maryland 20840.

⁴ Standard instrument approach procedures are published in the Federal Register by reference to FAA documents which are available for examination in the Rules Dockets (AGC-24) and the National Flight Data Center, FAA Headquarters, Washington, D.C., and at the appropriate FAA Regional Offices and Flight Inspection District Offices. These approach procedures can be obtained from the U.S. Department of Commerce, National Oceanic and Atmospheric Administration, Distribution Division (C-44), National Ocean Survey, Riverdale, Maryland 20840.
