EXPLANATORY NOTES

1. The codes used to designate the various certificated pilot school ratings and approved pilot training courses are as follows:

- * Indicates that the school is operated by or in conjunction with an accredited college or university.

b. FLIGHT SCHOOLS.

- SE Single-Engine Rating Course - Airplane
- TR Type Rating Course (aircraft type will be listed)
- XL External Load Operator Course - Rotorcraft

2. The letters "d/b/a" have been omitted in this publication since it is assumed that the name, corporation, or company noted below the business name is, in fact, "doing business as" the business name.

3. Each pilot flight and ground school operator is expected to notify his certificating FAA office of **ANY** change in his school status. FAA field offices then submit FAA Form 8420-6, Certificated Pilot Flight and Ground Schools, to AAC-200 for updating this publication.
4. For computer identification purposes, special codes are used when more than one school is operating under a single certificate number. These schools, in addition to their normal certificate numbers, are further identified by letter and number symbols. The letters A, B, C, etc., identify the school, and the numbers 2, 3, 4, etc., indicate the number of schools operating under that single certificate number.
5. Air carrier designation symbols are included on page 72 for the convenience of FAA personnel only. These symbols are for the **FUTURE** use of FAA field office personnel when processing AC Form 8060-40, Airman Written Test Applications for applicants who received training from air carriers. When this program is implemented, the appropriate symbol will be entered in the space provided for the Certificated School Number portion of Card B on the application form. The air carriers listed on page 72 do not conduct schools or training for the general public.
6. Requests for information concerning any school not listed should be addressed to the Regional Director of the appropriate FAA region as follows:
