GENERAL

1. Each pilot school operator is expected to notify his certificating FAA office of ANY CHANGE in his school status. FAA field offices then submit FAA Form 8420-6 or 8420-9, as appropriate, to AAC-200 for processing.
2. For computer identification purposes, special codes are used when more than one school is operating under a single certificate number. These schools, in addition to their normal certificate numbers, are further identified by letter and number symbols. The letters (A, B, C, etc.) identify the specific school, and the numbers (2, 3, 4 etc.) indicate the number of schools operating under that single certificate number.
3. Air Carrier designation symbols are included in this publication solely for the convenience of FAA personnel when processing AC Form 8080-3, "Airman Written Test Application," for applicants who received training from air carriers. The appropriate symbol will be entered in the space provided for the Certificated School Number portion of Card B on the written test application form.
4. Requests for information concerning any school not listed should be addressed to the Regional Director of the appropriate FAA region as follows:
