Advisory Circular

obsolete

**Subject: DESIGNATED U.S. INTERNATIONAL
AIRPORTS**

**Date: 7/28/88
Initiated by: AAS-3**

**AC No: 150/5000-5B
Change:**

1. PURPOSE. This advisory circular (AC) explains the different categories of U.S. airports designated to serve international air traffic and provides a listing of these airports.

2. CANCELLATION. Advisory Circular 150/5000-5A, Designated U.S. Airports Serving International Air Traffic, dated 5/16/88, is cancelled.

3. BACKGROUND.

a. Under Section 1109(b) of the Federal Aviation Act of 1958, the Secretary of the Treasury is authorized to "...designate places in the United States as ports of entry for civil aircraft arriving in the United States from any place outside thereof and for merchandise carried on such aircraft...." This responsibility is assigned to the U.S. Customs Service.

b. Article 68 of the Convention on International Civil Aviation provides for the designation by the signatory governments (referred to by the International Civil Aviation Organization ((ICAO)) as Contracting States) of "...the route to be followed within its territory by any international air service and the airports which any such service may use."

4. CATEGORIES OF INTERNATIONAL AIRPORTS.

a. **Designated International Airports of Entry.** These airports have been designated as international airports for customs purposes. They are open to all international aircraft for entry and clearance purposes without the necessity of obtaining permission. However, advance notice of arrival is required in order that inspectors may be readily available. Designation as an international airport of entry follows application by the airport operator and finding by the U.S. Customs Service that the airport will generate sufficient international traffic. An airport of entry must provide adequate space and facilities for Customs and Federal inspection purposes and satisfy certain other requirements established by the U.S. Customs Service.

b. **Landing Rights Airports.** Landing rights airports are those airports where incoming international flights must obtain prior permission to land and must furnish advance notice of arrival to U.S. Customs. This category of airports includes most of the so-called major U.S. "international airports" (e.g., John F. Kennedy International, Chicago-O'Hare International, Los Angeles International, etc.). Advance notice of arrival may be transmitted via flight plans at those airports where Advise Customs (ADCUS) service is available and such notice is treated as application for permission to land. Customs officers may, at their discretion, grant blanket "landing rights" to individuals or companies at certain airports for a specific period of time, in which case advance notices of arrival are the only requirement. This blanket permission is generally given for scheduled airline flights at busy landing rights airports.

c. **ICAO-Designated U.S. Airports Serving International Operations.** ICAO airports are those designated under Article 68 of the Convention on International Civil Aviation as airports serving international operations (for traffic or refueling purposes). U.S. airports so designated are identified in ICAO Regional Air Navigation Plans, Document 8755 (North Atlantic, North American, and Pacific Region) and Document 8733 (Caribbean and South American Regions) and include those regularly served by scheduled and

nonscheduled international commercial air transport, those designated as alternates, and those used regularly by international general aviation flights.

5. UNOFFICIALLY NAMED INTERNATIONAL AIRPORTS. In addition to the designated international airports discussed above, there are a number of airports in the United States that contain the word "International" within their names but are not officially so designated. Nothing prohibits such a practice, though it is discouraged. However, without any official designation, these airports have no international status.

6. RELATED READING MATERIAL.

a. The International Flight Information Manual (IFIM) contains up-to-date information on airports of entry and landing rights airports. Information on the hours of availability and notification procedures for Federal inspection services are included. An annual subscription for the manual may be purchased from the Superintendent of Documents, U.S. Government Printing office, Washington, D.C. 20402.

b. U.S. Airports designated by the International Civil Aviation Organization (ICAO) to serve international operations are listed in the following documents.

(1) Air Navigation Plan, North Atlantic, North American and Pacific Regions, DOC 8755.

(2) Air Navigation Plan, Caribbean and South American Regions, DOC 8733.

These documents may be purchased from:

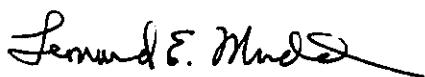

International Civil Aviation Organization
Attention: Distribution Officer
1000 Sherbrooke Street West, Suite 400
Montreal, Quebec
Canada H3A 2R2

c. The U.S. Customs Service publishes a booklet entitled "Airports Within the United States--Guidelines for Federal Inspection Services Facilities" which contains guidance material on the physical and facility requirements of airport terminals to accommodate the inspection of international traffic. A free copy of this booklet can be obtained by writing to: Director, Logistics Management Division, U.S. Customs Service, 1301 Constitution Avenue, NW., Washington, DC 20229, ATTN: Engineering Section.

7. LISTING OF U.S. AIRPORTS SERVING INTERNATIONAL AIR TRAFFIC.

a. Appendix 1 is a list of U.S. airports designated as airports of entry and landing rights airports as of January 1988. Changes in Federal Inspection Service locations, hours, and limitations occur frequently; consequently, Appendix 1 should not be used for flight planning. For this purpose, the International Flight Information Manual should be consulted.

b. Appendix 2 contains a listing of U.S. ICAO-designated airports serving international operations which are included in the ICAO Regional Air Navigation Plans.

Leonard E. Mudd
Director, Office of Airport Standards

APPENDIX I—U.S. AIRPORTS DESIGNATED AS INTERNATIONAL AIRPORTS OF ENTRY AND LANDING RIGHTS AIRPORTS

The following airports are designated for Customs purposes as international airports of entry and landing rights airports. Airport locations preceded with "o" are designated airports of entry. All others are landing rights airports.

| LOCATION | NAME OF AIRPORT | LOCATION | NAME OF AIRPORT |
