Advisory Circular

Subject: Change 1 to AIRPORT WINTER
SAFETY AND OPERATIONS

Date: 10/25/89
Initiated by: AAS-120

AC No: 150/5200-30
Change: 1

1. PURPOSE. This change provides the "interim specification" for two new runway/taxiway deicing/anti-icing chemicals: calcium magnesium acetate (CMA) and magnesium calcium acetate (MCA). In addition, other material has been updated or editorially changed.

Affected pages carry the change number and effective date on the top. Asterisks (*) located on the left margin (change begins) and right margin (change ends) identify revised, added or deleted portions. Renumbered pages having no asterisks retain material that was moved without change.
