Washington, D.C.

Subject: INDEX OF ARTICLES (MATERIALS, PARTS, PROCESSES, AND APPLIANCES)
CERTIFIED UNDER THE TECHNICAL STANDARD ORDER SYSTEM

1. **PURPOSE.** This Advisory Circular provides a list of manufacturers and articles produced by them under a Technical Standard Order (TSO) Authorization or letter of Technical Standard Order Design Approval. These articles are eligible for use on U.S. type certificated products.
2. **CANCELLATION.** AC No. 20-36J, Index of Materials, Parts, and Appliances Certified Under the Technical Standard Order System, dated January 15, 1980, is canceled.
3. **DISCUSSION.**

a. TSO Authorizations are issued for articles (materials, parts, processes, or appliances) produced by manufacturers who comply with the requirement to submit quality control system data in addition to certifying that their designs comply with the pertinent TSO. TSO Authorizations may be issued for articles manufactured outside the United States if the Administrator finds that the location of the manufacturing facilities places no undue burden on the FAA.

b. The FAA also issues letters of TSO Design Approval for appliances manufactured in foreign countries with which the United States has an agreement for the acceptance of these appliances. These approvals are limited to appliances as defined in pertinent airworthiness bilateral agreements. Such approvals do not require submittal of quality control data and are issued when the appropriate foreign civil air authority certifies that the appliance has been examined, tested, and found to meet the applicable TSO or other performance standards specified in Federal Aviation Regulations (FAR) 21.617. Foreign manufactured appliances may be eligible for use on U.S. type certificated products when accompanied by a Certificate of Airworthiness for Export issued by the civil airworthiness authority of the country of manufacture under the provisions of FAR 21.502 or 21.617.

2/3/81

c. Any article approved under FAA TSO Authorization (domestic) or a letter of TSO Design Approval (foreign) attests only to the conformity of the design and quality of the particular article with the TSO performance and quality control standards. Such approvals do not convey installation approval. Accordingly, installation approval must be obtained in a manner acceptable to the Administrator for each particular product on which the article is to be installed.

M. C. BEARD
Director of Airworthiness

PREFACE

This publication lists those manufacturers who hold a Technical Standard Order Authorization or a letter of Technical Standard Order Design Approval. The requirements for obtaining an authorization or letter are prescribed in Part 21, Subpart O of the Federal Aviation Regulations.

The page layout is arranged as follows:

Column 1 - Lists the specific Technical Standard Order number. A letter F in this column denotes foreign manufacturers.

Column 2 - Identifies the person to whom the approval was issued.

Column 3 - Contains information necessary for ADP processing. The and 4 holder code is a unique numeric designator assigned each TSO holder. RG identifies the FAA region.

Column 5 - Lists the Technical Standard Order descriptive title.

Column 6 - Lists the model or part number of the article approved under the TSO.
