Advisory Circular

Subject: INDEX OF ARTICLES (MATERIALS, PARTS, PROCESSES, AND APPLIANCES) CERTIFIED UNDER THE TECHNICAL STANDARD ORDER SYSTEM	Date: 7/12/84 Initiated by: AVN-113	AC No: AC 20-36P Change:
--	--	---

1. PURPOSE. This Advisory Circular provides a list of manufacturers and articles produced by them under a Technical Standard Order (TSO) Authorization or letter of Technical Standard Order Design Approval. These articles are eligible for use on U.S. type certificated products.

2. CANCELLATION. AC 20-36N, Index of Articles (Materials, Parts, Processes, and Appliances) Certified Under the Technical Standard Order System, dated August 24, 1983, is canceled.

3. DISCUSSION.

a. TSO Authorizations are issued for articles (materials, parts, processes, or appliances) produced by manufacturers who comply with the requirement to submit quality control system data in addition to certifying that their designs comply with the pertinent TSO. TSO Authorizations may be issued for articles manufactured outside the United States if the Administrator finds that the location of the manufacturer's facilities places no undue burden on the FAA in administering applicable airworthiness requirements.

b. The FAA also issues letters of TSO Design Approval for appliances manufactured in foreign countries with which the United States has an agreement for the acceptance of these appliances. These approvals are limited to appliances as defined in pertinent bilateral airworthiness agreements. Such approvals do not require submittal of quality control data and are issued when the appropriate foreign civil air authority certifies that the appliance has been examined, tested, and found to meet the applicable TSO or other performance standards specified in Federal Aviation Regulations (FAR) 21.617. Foreign manufactured appliances may be eligible for use on U.S. type certificated products when accompanied by a Certificate of Airworthiness for Export issued by the civil airworthiness authority of the country of manufacture under the provisions of FAR 21.502 or 21.617.

c. An FAA TSO Authorization (domestic) or letter of TSO Design Approval (foreign) does not convey installation approval. Accordingly, installation approval in a manner acceptable to the Administrator must be obtained for each particular product on which the article is to be installed.

Director, Aviation Standards
National Field Office

PREFACE

This publication lists those manufacturers who hold a Technical Standard Order (TSO) Authorization or a letter of TSO Design Approval. The requirements for obtaining an authorization or letter are prescribed in Part 21, Subpart O of the Federal Aviation Regulations.

The page layout is arranged as follows:

Column 1 - Lists the specific TSO number. A letter F in this column denotes foreign manufacturers.

Column 2 - Identifies the person to whom the approval was issued.

Column 3 - A unique ADP code assigned to each TSO holder.

Column 4 - The FAA region which issued the authorization or letter of approval.

Column 5 - The TSO descriptive title. This title appears one time at the beginning of each group of TSO holders meeting the requirements of a specific TSO.

Column 6 - The model or part number of the article approved.

Anyone desiring further information on an article listed herein should contact the TSO holder or the FAA region which issued the authorization or letters of approval.

INFORMATION REGARDING USE AND INSTALLATION
OF APPLIANCES PRODUCED BY FOREIGN MANUFACTURERS

- NOTE 1: Each appliance manufactured in a foreign country and identified with a TSO marking under the provisions of an FAA TSO Design Approval (FAR 21.617) must be accompanied by a Certificate of Airworthiness for Export required by FAR 21.617(c), issued by the Civil Aviation Authority of the country of manufacture. The Certificate of Airworthiness may be in any form, e.g., certificate, tag, memo, etc. These appliances may be eligible for use on U.S. type certificated products, under the provisions of FAR 21.502, when accompanied by such certifications and when the installation (reference Note 2) has been approved by the FAA.
- NOTE 2: Neither the FAA issued letter of TSO Design Approval nor the Certificate of Airworthiness for Export from the country of manufacture convey installation approval. Accordingly, installation approval in a manner acceptable to the Administrator must be obtained for each particular product on which the article is to be installed. Approval for return to service must be performed by a person authorized in FAR Part 43, Maintenance, Preventive Maintenance, Rebuilding and Alteration.
