Pt. 3. c. 1.

AMENDMENT

December 19, 1938

The Uniform Vehicle Code was reviewed in 1938 by the National Conference on Street and Highway Safety. Most of the changes made are in Acts II and V. In view of the small number of changes in Acts I, III and IV, these Acts are not being reprinted. The only change made in Act III (1934 edition) is as follows:

A review of the Uniform Vehicle Code was made in 1938 by the National Conference on Street and Highway Safety. In accordance therewith Section 5 of Act III is amended to read as follows:

* Sec. 5. Street or highway. - The entire width between boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel.
