

U.S. Department
of Transportation

Air Travel Consumer Report

A Product Of The
OFFICE OF AVIATION ENFORCEMENT AND PROCEEDINGS
Aviation Consumer Protection Division

Issued: December 2010

Flight Delays¹	October 2010 12 Months Ending October 2010
Mishandled Baggage¹	October 2010
Oversales¹	3rd Quarter 2010 January – September 2010
Consumer Complaints² (Includes Disability and Discrimination Complaints)	October 2010
Customer Service Reports to the Dept. of Homeland Security³	October 2010
Airline Animal Incident Reports⁴	October 2010

¹ Data collected by the Bureau of Transportation Statistics. Website: <http://www.bts.gov/>

² Data compiled by the Aviation Consumer Protection Division. Website: <http://airconsumer.dot.gov/>

³ Data provided by the Department of Homeland Security, Transportation Security Administration

⁴ Data collected by the Aviation Consumer Protection Division

Flight Causation Data, By Airline and Category			
Table 10	23		
Flight Causation Data, Graphic Representation			

INTRODUCTION

The *Air Travel Consumer Report* is a monthly product of the Department of Transportation's Office of Aviation Enforcement and Proceedings (OAEP). The report is designed to assist consumers with information on the quality of services provided by the airlines.

The report is divided into six sections (Flight Delays, Mishandled Baggage, Oversales, Consumer Complaints, Customer Service Reports to the Transportation Security Administration, and Airline Reports of the Loss, Injury, or Death of Animals During Air Transportation). The sections that deal with flight delays, mishandled baggage and oversales are based on data collected by the Department's Bureau of Transportation Statistics. The section that deals with consumer complaints is based on data compiled by the OAEP's Aviation Consumer Protection Division (ACPD). The section that deals with customer service reports to the Department of Homeland Security's Transportation Security Administration (TSA) is based on data provided by TSA. The section that deals with animal incidents during air transport is based on reports required to be submitted by airlines to the ACPD. Each section of the report is preceded by a brief explanation of how to read and understand the information provided.

The report normally is released by the end of the first week of each month. The report is available via the Internet at <http://airconsumer.dot.gov/>

FLIGHT DELAYS

This section provides information about airline on-time performance, flight delays, and cancellations. It is based on data filed by airlines each month with the Department of Transportation's Bureau of Transportation Statistics (Office of Airline Information), as described in 14 CFR Part 234 of DOT's regulations. It covers nonstop scheduled-service flights between points within the United States (including territories) by the sixteen (16*) U.S. air carriers that have at least one percent of total domestic scheduled-service passenger revenues, and the two (2**) carriers that currently report flight delay data voluntarily.

The rule requires carriers to currently report on operations to and from the 29 U.S. airports that account for at least one percent of the nation's total domestic scheduled-service passenger enplanements (see Appendix for a complete list of the reportable airports). However, all reporting airlines have voluntarily provided data for their entire domestic systems, and that information is included in this report.

A flight is counted as "on time" if it operated less than 15 minutes after the scheduled time shown in the carriers' Computerized Reservations Systems (CRS). All tables in this report except Table 4 are based on gate arrival times; Table 4 is based on gate departure times.

In fulfilling DOT's data reporting requirements, the reporting air carriers use automated and/or manual systems for collecting flight data. Those using an automated system rely on the Aircraft Communication Addressing and Reporting System (ACARS) or the Docking Guidance System (DGS). Based on the latest information available to DOT, of the 18 reporting air carriers, 12 carriers (AirTran, American Eagle, Atlantic Southeast, Delta, ExpressJet, Frontier, Hawaiian, JetBlue, Pinnacle, Southwest, United, and US Airways) use ACARS exclusively; 2 carriers (American and Continental) use a combination of ACARS and DGS; 1 carrier (Comair) records arrival times manually; and 3 carriers (Alaska, Mesa, and SkyWest) use a combination of ACARS and manual reporting systems.

As indicated above, a carrier may voluntarily file data for its entire domestic system. Tables 2, 3, and 4 are limited to the 29 required or "reportable" airports; Tables 5, 6 and 7 contain data on flights to/from all airports that were reported. Tables 1 and 8 each have one column for the 29 "reportable" airports and another for all of the airports reported; see footnote C for additional explanation.

Tables 1 through 4 display percentages of flight operations that were on time, while Tables 5 and 6 show service that was late. Tables 1, 1A, and 2 present data by carrier; airlines are ranked by performance in Table 1 and are listed in alphabetical order by carrier code in Table 2 (see Appendix for codes). Beginning with the February 1988 report, Table 1A shows carrier rankings by month and time-series data on the percentage of flight operations that arrived on time.

Tables 3 and 4 provide information by airport and time of day. Table 5 is a list of the regularly scheduled flights with more than 50% delayed arrivals of more than 30 minutes for two or more consecutive months. Table 6, like Tables 1, 1A, and 2, presents data by carrier, but lists the carriers in rank order from worst to best based on the number of flights which were late 70% of the time or more. Table 7 lists more than 200 cities in alphabetical order with the corresponding on-time arrival and departure percentages.

Tables 3, 4, and 5 contain information on the time of day that a flight operated. All times are local. A 10:50 a.m. departure from Atlanta is 10:50 a.m. Atlanta time; if that flight arrived in Dallas at 11:45 a.m., that is 11:45 a.m. Dallas time. If a flight's scheduled operating time changed during the month, Table 5 shows the time that was in effect for the last flight operation performed that month.

Table 8 displays the number of operations, number of flight cancellations, and percentage of cancellations by air carrier for the reportable airports and for the air carriers' domestic system. Table 8A displays the number and percentage of regularly scheduled flights canceled 5% or more of the time.

Table 9 displays airline flight delay causation data by categories, and Table 10 provides an overall graphic representation of that data.

Table 11 lists the regularly scheduled flights with tarmac delays of more than 3 hours, and Table 12 displays the number and percentage of regularly scheduled flights with tarmac delays of 2 hours or more.

Except for the flights listed in Tables 5 and 11, this report provides summary information - it does not show the on-time record of individual flights. The on-time performance for individual markets and flights can be searched at http://www.bts.gov/programs/airline_information/airline_ontime_statistics/ Airline Service Quality Performance data from the most recent six months is available for free download as a CD product from the BTS Bookstore at <https://www.bts.gov/pdc/index.xml> CDs for earlier months can be purchased by sending an email to: Orders@bts.gov Additional summary data for airports and airlines can be found at BTS' Flight Delays at-a-Glance at: <http://www.transtats.bts.gov/HomeDrillChart.asp> Cause of delay data for airports and airlines can be found at: http://www.transtats.bts.gov/OT_Delay/OT_DelayCause1.asp

Information on the performance of specific flights is displayed on the CRS used by most airlines and travel agencies. Each of the reporting carriers' flights have a one-digit code between 0 and 9 representing that flight's percentage of on-time operations for the latest reported month. For example, "8" means that flight arrived on time (within 15 minutes) between 80% and 89.9% of the time during the latest reported month.

*** Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear only as DL or Delta Air Lines data in the flight delay tables.**

****ExpressJet Airlines and Pinnacle Airlines currently report flight delay data voluntarily, as permitted by Part 234.**

OCTOBER 2010

AIR TRAVEL CONSUMER REPORT

TABLE 1. OVERALL PERCENTAGE OF REPORTED FLIGHT OPERATIONS ARRIVING ON TIME BY CARRIER *

CARRIER	AT 29 REPORTABLE AIRPORTS B/		AT ALL REPORTABLE AIRPORTS C/	
	NUMBER OF AIRPORTS REPORTED	PERCENT OF ARRIVALS ON TIME D/	NUMBER OF AIRPORTS REPORTED	PERCENT OF ARRIVALS ON TIME D/
HAWAIIAN AIRLINES S/	7	81.7	15	95.4
AIRTRAN AIRWAYS S/	22	89.8	65	90.4
UNITED AIRLINES S/	26	89.5	68	89.9
ALASKA AIRLINES S/	18	88.4	50	88.1
MESA AIRLINES S/	17	87.9	79	87.9
CONTINENTAL AIRLINES S/	26	86.7	54	87.5
FRONTIER AIRLINES S/	21	87.2	44	87.0
EXPRESSJET AIRLINES S/V/	18	85.8	113	86.8
PINNACLE AIRLINES S/V/	16	84.7	125	86.7
AMERICAN EAGLE S/	19	85.5	129	86.5
AMERICAN AIRLINES S/	28	86.1	74	86.3
US AIRWAYS S/	28	83.9	78	84.0
SKYWEST AIRLINES S/	17	83.0	144	83.0
DELTA AIR LINES S/	29	82.5	111	82.9
ATLANTIC SOUTHEAST AIRLINES S/	16	79.8	120	80.7
COMAIR S/	17	73.2	83	78.0
SOUTHWEST AIRLINES S/	20	77.9	69	77.5
JETBLUE AIRWAYS S/	20	76.2	45	76.7
TOTAL		83.6		83.8

➤ For simplicity, statistics are displayed to one decimal place. Actual ranking order is based on our computer carrying out the number of decimal places to nine.

* All U.S. airlines with at least one percent of total domestic scheduled-service passenger revenues, plus other carriers that report voluntarily. The carriers that are ranked in this table are the same carriers that are ranked in the "Mishandled Baggage" and "Consumer Complaints" sections of this report.

Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear as Delta Air Lines data in this table.

NOTE: Beginning March 1, 2010, one of the four runways at New York's JFK International Airport was closed for construction. The closure lasted through June, and associated work will continue later into the year. The closure and associated work may cause or exacerbate flight delays for all carriers operating to/from JFK, as well as other airports throughout the National Airspace System, and should be recognized in any year-over-year comparisons

NOTE: Beginning March 1, 2010, one of the four runways at New York's JFK International Airport was closed for construction. The closure lasted through June, and associated work will continue later into the year. The closure and associated work may cause or exacerbate flight delays for all carriers operating to/from JFK, as well as other airports throughout the National Airspace System, and should be recognized in any year-over-year comparisons.

* See Appendix at end of this section for list of airport codes.

NOTE: Beginning March 1, 2010, one of the four runways at New York's JFK International Airport was closed for construction. The closure lasted through June, and associated work will continue later into the year. The closure and associated work may cause or exacerbate flight delays for all carriers operating to/from JFK, as well as other airports throughout the National Airspace System, and should be recognized in any year-over-year comparisons.

Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear as Delta data in this table.

NOTE: Beginning March 1, 2010, one of the four runways at New York's JFK International Airport was closed for construction. The closure lasted through June, and associated work will continue later into the year. The closure and associated work may cause or exacerbate flight delays for all carriers operating to/from JFK, as well as other airports throughout the National Airspace System, and should be recognized in any year-over-year comparisons.

For simplicity, statistics are displayed to one decimal place. Actual ranking order is based on our computer carrying out the number of decimal places to nine.

* This table includes all flights that were scheduled to operate 1 or more times during the month. The "Regularly Scheduled Flights" in Table 6 are those flights scheduled to operate at least 15 times in the month.

Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear as Delta data in this table.

NOTE: For a complete list of flights canceled 5% or more of the time, go to <http://www.bts.gov/5PctCancels/index.html>

NOTE: Beginning March 1, 2010, one of the four runways at New York's JFK International Airport was closed for construction. The closure lasted through June, and associated work will continue later into the year. The closure and associated work may cause or exacerbate flight delays for all carriers operating to/from JFK, as well as other airports throughout the National Airspace System, and should be recognized in any year-over-year comparisons.

***Causes of Delay:**

- **Air Carrier Delay:** The cause of the cancellation or delay was due to circumstances within the airline's control (e.g. maintenance or crew problems, etc.).
- **Extreme Weather Delay:** Significant meteorological conditions (actual or forecasted) that, in the judgment of the carrier, delays or prevents the operation of a flight.
- **National Aviation System Delay:** Delays and cancellations attributable to the national aviation system refer to a broad set of conditions -- non-extreme weather conditions, airport operations, heavy traffic volume, air traffic control, etc.
- **Security Delay:** Delays caused by evacuation of terminal or concourse, re-boarding of aircraft because of security breach, inoperative screening equipment and long lines in excess of 29 minutes at screening areas.
- **Late Arriving Aircraft Delay:** Previous flight with same aircraft arrived late which caused the present flight to depart late.

A "cancelled" flight is a flight that was not operated, but was in the carrier's computer reservation system within 7 days of the scheduled departure. A "diverted" flight is a flight which is operated from the scheduled origin point to a point other than the scheduled destination point in the carrier's published schedule.

** See Appendix at the end of this section for list of carrier codes. Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear as DL data in this table.

NOTE: Beginning March 1, 2010, one of the four runways at New York's JFK International Airport was closed for construction. The closure lasted through June, and associated work will continue later into the year. The closure and associated work may cause or exacerbate flight delays for all carriers operating to/from JFK, as well as other airports throughout the National Airspace System, and should be recognized in any year-over-year comparisons.

Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear only as DL data in this table.

NOTE: Beginning March 1, 2010, one of the four runways at New York's JFK International Airport was closed for construction. The closure lasted through OCTOBER, and associated work will continue later into the year. The closure and associated work may cause or exacerbate flight delays for all carriers operating to/from JFK, as well as other airports throughout the National Airspace System, and should be recognized in any year-over-year comparisons.

FOOTNOTES FOR TABLES 1 THROUGH 6 (FLIGHT DELAYS) AND 8 (CANCELLATIONS)

- A** See Appendix for list of carrier codes.
- B** See Appendix for list of 29 airports for which data must be reported. Data include all reported domestic flight operations to the 29 reportable airports (e.g., Albany to Atlanta, Toledo to Boston).
- C** All domestic airports for which carriers reported data. Data include all reported domestic flight operations to the 29 reportable airports and from those airports to other destinations (e.g., Albany to Atlanta, and Atlanta to Albany). In addition, for carriers that reported data for their entire domestic systems, the data also include all reported domestic flight operations between non-required airports (e.g., Albany to Toledo).
- D** "On time" means an arrival less than 15 minutes after scheduled arrival time; cancelled and diverted flights are not considered on-time arrivals.
- E** "On time" means a departure less than 15 minutes after scheduled departure time; cancelled flights are not considered on-time departures; diverted flights may be on time or late departures, depending on actual departure time.
- F** Incomplete data; percentage based on operations reported.
- G** Carrier did not report useable data.
- H** Carrier did not serve airport.
- I** Regularly scheduled flights are those for which the carrier reported at least 15 operations for the month.
- J** Blanks in any time interval in Tables 3 and 4 indicate no arrival operations (Table 3) or departure operations (Table 4) for domestic flights of the reporting carriers during that time period. Other carriers, including code-sharing partners, may operate during those periods.
- K** Flights listed arrived at the scheduled destination gate more than 30 minutes after the published arrival time more than 50 percent of the time in each month. Some flights on the list are a combination of flights operated by the same carrier between the same origin and destination with a change in scheduled departure time of 30 minutes or less.
- S** Carrier reported data for entire domestic system.
- V** Carrier reported data voluntarily.

APPENDIX

NOTE: The Department of Transportation has screened the reporting carriers' data for completeness and verified all arithmetic data elements computed by the carriers (e.g., length of delay). Individual flight operations records with incorrect calculations, erroneous city-pairs, or missing data elements were rejected and excluded from the data base; such rejected records accounted for less than 0.01% of the flight operations records submitted. Any errors in the data base with respect to basic flight data -- non-computed data elements such as flight numbers, scheduled and actual arrival/departure times, days of operation -- are the responsibility of the reporting carrier.

Air Carriers Voluntarily Reporting

Data to DOT and to CRS Vendors

9E	Pinnacle Airlines
XE	ExpressJet Airlines

* Based on the Bureau of Transportation Statistics' Technical Reporting Directive #19, issued November 23, 2009, effective January 1, 2010.

** Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear only as DL or Delta Air Lines data in the flight delay tables.

MISHANDLED BAGGAGE

This section gives the rate of mishandled-baggage reports per 1,000 passengers by carrier and for the industry. The rate is based on the total number of reports each carrier received from passengers concerning lost, damaged, delayed or pilfered baggage. The reports of mishandled baggage do not distinguish between carriers that interline and those that do not. As with the data on flight delays in the previous section, these baggage statistics are filed with DOT's Bureau of Transportation Statistics (Office of Airline Information) on a monthly basis by U.S. airlines that have at least one percent of total domestic scheduled-service passenger revenues, plus any other airline that voluntarily submits the data. See 14 CFR Part 234.

TOTALS***		145,926	49,697,875	2.94	157,442	44,836,263	3.51

For simplicity, statistics are displayed to two decimal places. Actual ranking order is based on our computer carrying out the number of decimal places to nine.

TOTAL BAGGAGE REPORTS—For the domestic system only. These are passenger reports of mishandled baggage, including those that did not subsequently result in claims for compensation.

ENPLANED PASSENGERS—For the domestic system only.

* All U.S. airlines with at least one percent of total domestic scheduled-service passenger revenues, as determined by DOT's Bureau of Transportation Statistics, plus other carriers that report flight delay data voluntarily (ExpressJet and Pinnacle). The carriers that are ranked in this table are the same carriers that are ranked in the "Flight Delays" and "Consumer Complaints" sections of this report.

** This table was revised on May 9, 2011, to include the correction made by Southwest Airlines to its Total Baggage Reports for October 2011.

*** Effective January 2010, "Total Baggage Reports" and "Enplaned Passengers" data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear only as Delta Air Lines data in this table. Effective January 2010, Northwest Airlines is no longer ranked in this table. Totals for October 2009 reflect the deletion of Northwest's data for that month.

OVERSALES

This section furnishes data on the number of passengers who hold confirmed reservations and are denied boarding ("bumped") from a flight because it is oversold. These figures include only passengers whose oversold flight departs without them; they do not include passengers affected by cancelled, delayed or diverted flights.

The report includes U.S. airlines that have at least one percent of total domestic scheduled-service passenger revenues *and* operate aircraft with a passenger capacity of 30 or more seats (see footnote on chart for details). It provides system data for scheduled passenger service on domestic flights and data on international flight segments that originate in the United States. Information is displayed for the latest available quarter and for the year to date, for the current period and for the same period in the previous year. The data are reported quarterly to DOT's Bureau of Transportation Statistics (Office of Airline Information). The reporting requirement is found in 14 CFR 250.10.

These tables give information by carrier on the number of passengers bumped involuntarily and on the number who voluntarily gave up their seat on an oversold flight in exchange for compensation. Also shown is the rate of involuntary denied boardings per 10,000 passengers. This rate determines the order in which carriers are listed; the airline with the lowest rate appears first. The number and rate of involuntary denied boardings include both passengers who received denied boarding compensation and passengers who did not qualify for compensation because of one of the exceptions in the oversales rule. There are four exceptions: 1) passenger accommodated on another flight scheduled to arrive within one hour of the original flight; 2) passenger fails to comply with ticketing, check-in or reconfirmation procedures; 3) aircraft of smaller capacity is substituted; and (4) passenger is denied boarding due to safety-related weight restrictions on an aircraft with 60 or fewer seats. Totals appear at the end of each table.

The enplanements figures that are used to calculate the involuntary denied boarding rate do not include "shuttle" service on which reservations are not offered, nor do they include inbound international service, since the rule does not apply to these flights.

* U.S. Airlines with at least one percent of total domestic scheduled-service passenger revenues that operate aircraft with a passenger capacity of 30 seats or more. The carriers that are ranked in this table are the same carriers that are ranked in the "Flight Delays," "Mishandled Baggage," and "Consumer Complaints" sections of this report.

** Effective January 2010, data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear only as Delta Air Lines data in this table. Effective the first quarter 2010, Northwest Airlines is no longer ranked in this table. Totals for January-September 2009 reflect the deletion of Northwest's data for that quarter.

CONSUMER COMPLAINTS

This section summarizes aviation consumer complaints filed with the Department in writing, by telephone, via e-mail, or in person. DOT has not determined the validity of the complaints. The report does not include safety complaints (which are handled by the Federal Aviation Administration) or security complaints (which are handled by the Transportation Security Administration). An explanation of each section of the report appears below:

Summary - Table 1 gives the total number of complaints, and also breaks down complaints by industry groups (U.S. airlines, tour operators, etc.). As with most other sections of the report, figures for the current month are compared to the same month in the previous year.

Complaint Categories - Table 2 ranks the categories of complaints (baggage, refunds, etc.). A detailed explanation of each category appears at the end of the report.

U.S. Airlines - Table 3 shows the number of complaints against individual U.S. airlines, listed alphabetically and broken down by complaint category.

Incident Date - Table 4 shows the number of complaints against individual U.S. airlines, listed alphabetically and broken down by the percentage of complaints where the incident occurred in the most recent month versus previous periods (Incident Date data is not included in YTD section).

Companies Other Than U.S. Airlines - Table 5 (Table 4 in YTD reports) provides the same information as above for foreign airlines, and for tour operators, travel agents, etc.

Airline Rankings - Table 6 (Table 5 in YTD reports) ranks the largest U.S. airlines (those that each account for one percent of total domestic scheduled-service passenger revenues, plus any other carrier that voluntarily reports flight delay and mishandled baggage data to DOT) according to the rate of complaints per 100,000 passengers. This ranking takes into account airline size when identifying the carriers against whom the most complaints have been filed.

	TOTAL	522	55,121,803	0.95	397	48,570,009	0.82

Note: For simplicity, statistics are displayed to two decimal places. Actual ranking order is based on our computer carrying out the number of decimal places to nine.

* All U.S. airlines with at least one percent of total domestic scheduled-service passenger revenues, as determined by DOT's Bureau of Transportation Statistics, plus other carriers that report flight delay and mishandled baggage data voluntarily (ExpressJet and Pinnacle). The carriers that are ranked in this table are the same carriers that are ranked in the "Flight Delays" and "Mishandled Baggage" sections of this report.

Note: Effective January 2010, "Complaints" and "Systemwide Enplanements" data of the merged operations of Delta Air Lines and Northwest Airlines are combined, and appear only as Delta Air Lines data in this table. Northwest is no longer ranked in this table. Totals for October 2009 reflect the deletion of Northwest's data for that month. Effective August 2010, "Complaints" and "Systemwide Enplanements" of the merged operations of Frontier Airlines and Midwest Airlines are combined, and appear as Frontier Airlines in this table.

COMPLAINT CATEGORIES

Flight Problems: Cancellations, delays, or any other deviations from schedule, whether planned or unplanned.

Oversales: All bumping problems, whether or not the airline complied with DOT oversales regulations.

Reservations, Ticketing, Boarding: Airline or travel agent mistakes made in reservations and ticketing; problems in making reservations and obtaining tickets due to busy telephone lines or waiting in line, or delays in mailing tickets; problems boarding the aircraft (except oversales).

Fares: Incorrect or incomplete information about fares, discount fare conditions and availability, overcharges, fare increases and level of fares in general.

Refunds: Problems in obtaining refunds for unused or lost tickets, fare adjustments, or bankruptcies.

Baggage: Claims for lost, damaged or delayed baggage, charges for excess baggage, carry-on problems, and difficulties with airline claims procedures.

Customer Service: Rude or unhelpful employees, inadequate meals or cabin service, treatment of delayed passengers.

Disability: Civil rights complaints by air travelers with disabilities.

Advertising: Advertising that is unfair, misleading or offensive to consumers.

Discrimination: Civil rights complaints by air travelers (other than disability); for example, complaints based on race, national origin, religion, etc.

Animals: Loss, injury or death of an animal during air transport provided by an air carrier.

Other: Frequent flyer, smoking, tours credit, cargo problems, security, airport facilities, claims for bodily injury, and others not classified above.

Customer Service Reports to the U.S. Department of Homeland Security for the Month of October 2010 as provided by the Transportation Security Administration^a

The Transportation Security Administration (TSA) screened approximately **55** million airline passengers and their **44** million checked bags in the month of October as part of its efforts to secure the homeland. Since its formation, TSA has maintained a strong focus on customer service and began collecting customer service data voluntarily to improve security operations. TSA values all input and encourages passengers to contact the agency if they believe that the level of service provided does not meet their expectations^b. Below is a summary of contacts with TSA either by e-mail, or telephone for the month of October.

Note: Comparing the numbers below with the number of passenger complaints about airlines (found in this report) is not appropriate. Complaints about airlines tabulated in this report represent a more limited group, namely, those who take the extra step of contacting the U.S. Department of Transportation to complain about an airline. Airlines themselves receive thousands of complaints and inquiries directly from passengers that are not recorded in this report.

Courtesy ^c		Screening Procedures		Processing Time		Personal Property	
Number of Complaints	Percentage of Flying Public ^c	Number of Complaints	Percentage of Flying Public	Number of Complaints	Percentage of Flying Public	Number of Complaints	Percentage of Flying Public
317	.0006	164	.0003	112	.0002	483	.0009

In addition, TSA also processes damage claims concerning loss or damage to passenger property. Claims allegedly resulting from an incident that occurred at a passenger screening checkpoint are handled exclusively by TSA. While in most cases TSA screeners handle checked baggage for a very small amount of time relative to the airline personnel, liability is no longer clearly exclusive to the airlines. Consequently, the data below for checked baggage claims includes claims for which TSA and/or the airlines may be liable.

Number of Damage Claims Received			
Checkpoint (TSA)	Percentage of Total Passengers Screened	Checked Baggage (TSA and/or Airline)	Percentage of Total Checked Bags Screened
196	.0004	710	.002

NOTES

^a Under Section 421(a) of Vision 100--Century of Aviation Reauthorization Act, Public Law 108-176 (December 12, 2003), 49 U.S.C. 329(e), the U.S. Department of Homeland Security, through TSA, has provided this customer service report on passenger and baggage screening complaints and incidents to the U.S. Department of Transportation.

^b The TSA Contact Center can be reached via e-mail, TSA-ContactCenter@dhs.gov, or telephone, (866) 289-9673. Contact Center representatives are available 9AM- 7PM Monday through Friday.

^c The percentage is based on the number of reports divided by the number of passengers or number of bags screened by TSA in the month of October.

As of October 2007, TSA calculates the number of checked bags screened. In the past, TSA used data provided by the Air Transport Association to calculate the number of checked bags screened.

October 2010 Airline Reports to DOT of Incidents Involving the Loss, Injury or Death of Animals During Air Transportation

[Section 710](#) of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (“AIR-21”; P.L. 106-81) requires U.S. airlines that perform scheduled passenger transportation to file reports with the Department concerning incidents involving the loss, injury or death of animals during air transportation. This requirement was implemented through the issuance of 14 CFR 234.13 ([70 FR 7392](#)) as supplemented by a Reporting Directive published at [70 FR 9217](#).

An airline is required to submit a report for any month in which it experienced a loss, injury or death of a pet during air transportation. DOT publishes these reports monthly and also forwards the reports to the U.S. Department of Agriculture, which enforces the Animal Welfare Act. The copies of the reports that appear here are redacted to remove identifying information about individuals, including the owner of the pet.

A statistical summary of the reports appears in the table below. To see the actual (redacted) reports filed by these airlines, click the airline’s name in the web version of the report (see <http://airconsumer.ost.dot.gov/reports/index.htm>).

Carrier	Death	Injury	Loss
<i>Alaska</i>		1	1
<i>Delta</i>	3	2	
<i>Total</i>	3	3	1
