Traffic Volume Trends

Approval to Disseminate Monthly Report
Month / Year: March 2003
Number of States: 33 states submitted data and 31 were used to calculate VMT
Remarks: Weather was a minor factor in this months travel. A connection between travel and weather wasn't as discernible as it was in the previous month. However, the States of Georgia and Virginia did demonstrate this connection with increased precipitation and a decline in travel for the month based on weather service data. The State of West Virginia had a decline in travel and a decline in precipitation for the month, but after reviewing the data and contacting the State Weather was determined to be the main factor for the decline in travel. The State of Indiana submitted the same number of Stations as the previous month, but 13 of the stations failed the edit checks.

$+1.0 \%$
$+0.2 \%$
-1.3\%
-0.8\%

Note: All data for this month are preliminary. Revised values for the previous month are shown in Tables 1 and 2. All vehicle-miles of travel computed with 2001 Table VM-2 as a base
Complied with data on hand as of May 14, 2003.

Based on preliminary reports from the State Highway Agencies, travel during March 2003 on all roads and streets in the nation changed by -0.3 percent as compared to March 2002 resulting in estimated travel for the month at 233.2 billion vehicle-miles. This total includes 92.1 billion vehicle-miles on rural roads and 141.1 billion vehicle-miles on urban roads and streets.

Travel for the current month as well the cumulative yearly total on all roads and streets is shown below. Similar totals for each year since 1970 are also included.

| Travel in Millions |  |  |
| :---: | ---: | ---: |
| All Roads and Streets |  |  |

| 2003 | 233,210 | 649,276 |

Traffic Volume Trends is a monthly report based on hourly traffic count data. These data, collected at approximately 4,000 continuous traffic counting locations nationwide, are used to determine the percent change in traffic for the current month compared to the same month in the previous year. This percent change is applied to the travel for the same month of the previous year to obtain an estimate of travel for the current month.
