I am sorry if this seems to overload you, but email seems to be the easiest way...

FHWA Austin has offered to help out other modal folks coming down. They HAVE agreed to have an extra van to take us all to the airport after the event. So that would accomodate DOT staff and panelists. (and I wil have a car). I assume we are all on the 6:13 flight.

But you might let the other special assts know they could call Dan Regan, FHWA Div Admn if they need other help down there.
