RE: Follow-up with Senator Robb

This Friday, Kate and I will be meeting with William Clyburn of Senator Robb's office and the Senator's press secretary to discuss an Austin, Texas event to commemorate President Johnson's signing of the legislation establishing the Department.

This meeting promises to be one of several. During this first discussion, we hope to develop a tentative date, time, and place as well as possible program ideas. We will continue to update you regularly. If you have any particular requests, please let us know.

Dear Rodney:

Just a brief note to thank you for introducing me after your keynote speech this morning and to follow up on the DOT 30th anniversary celebration in Austin. When you get around to specifics if you or someone in your office will touch base with me I'll be happy to make things mesh with the annual tribute on LBJ's birthday.

Again, many thanks.

Sincerely,

Charles S. Robb
