Federal Transit Administration

2009
*Awards
Ceremony*

Message

from the *Administrator*

I am truly grateful for this opportunity to recognize my colleagues at the Federal Transit Administration that perform their duties day after day in an exceptional and uncommon way. It is apparent to me that you all take our agency's mission and public service responsibilities very seriously. Furthermore, you have embraced the additional workload of implementing the American Recovery and Reinvestment Act with diligence and increased performance.

We realize the important role we have in financing, designing, building and maintaining our Nation's transit systems, encouraging the principles of sustainability, and helping people enjoy the benefits and convenience of public transportation. Beyond our critical role in financing the nation's transportation infrastructure, FTA is an exemplary organization because it is comprised of individuals who regularly exceed expectations.

I know many of you are looking for ways to streamline our processes to expedite the funding of transit projects. I have seen your efforts to improve how we serve our customers and overall program management. Due to your efforts, we keep getting better as an organization and are able to provide top quality service to the American people in a time when they need it most. It is a great privilege for me to applaud your achievements.

As we continue in our work to build and improve the nation's public transportation system, I thank and congratulate you for a job well done.

Peter W. Rogoff

Administrator

Federal Transit Administration

Therese W. McMillan
Deputy Administrator
Federal Transit Administration

Message

from the

Deputy Administrator

It gives me a great deal of pleasure to join the Administrator in recognizing the individual accomplishments and the outstanding performance of duties of the 2009 Federal Transit Administration award winners. I truly appreciate the commitment, unlimited creativity, knowledge and expertise you bring to this agency and apply each day to your individual responsibilities. Your hard work has enabled us to meet our goals in providing essential funding for transit projects under the American Recovery and Reinvestment Act and to meet the intricate transit needs of the various communities that make up our great nation.

I commend the award recipients' devotion to developing common-sense transit solutions that help strengthen the economy, increase mobility, and encourage development of livable communities across the country. I am proud of the opportunity to work beside you as we strive to maintain our rail and bus systems' state of good repair, make them more sustainable, and to ensure that we improve Americans' quality of life by providing better public transportation solutions.

Thank you and congratulations!
