DOT PUBLISHES GUIDE  
TO MASS TRANSIT R&D

The Department of Transportation has published a directory of current research, development and demonstration projects in the field of mass transportation.

The 220-page annual directory - "Innovation in Public Transportation, Fiscal Year 1978" - also is a guide to the department's Urban Mass Transportation Administration's research and development organizations.

The directory's 70 subjects include project information about bus development, downtown people movers, transit malls, transit system fire safety, fare-free, off-peak hours transit service, auto restricted zones, and rail rapid transit impact studies.

The directory was prepared by the department's Transportation Systems Center, Cambridge, Mass.

"Innovations in Public Transportation, FY 1978" may be purchased from the Superintendent of Documents, U.S. Printing Office, Washington, D.C. 20402. The single copy price is \$8.00. Order by stock No. 050-014-0016-9.
