Published bi-monthly at no expense to the Government by the CAA Employees Association.
Address: BEACON, CAA Aero. Center, P. O. Box 1082, Oklahoma City, Oklahoma.

GREETINGS FROM "THE FRONT OFFICE"

We celebrate Christmas because it is the birthday of the One who gave us purpose in living. Not the least of these purposes for living which Christ taught was doing for others.

It is a great sense of pride to see, year after year, the enthusiasm and sincerity of our Aeronautical Center family as they go about their daily chores of service to CAA and to the Aviation industry throughout the world.

May the satisfaction of contributing to this service enrich your enjoyment of the Holiday Season.

Merry Christmas and Happy New Year!

-- And a Merry Christmas from us, too.

- Al, Allene, and Doris

Emory Williams

- Doris Nichols

As the holiday season presents itself once again, we - nearly 400 of us - at the Aeronautical Center feel it an opportunity time to get to know each other, and to let other members of CAA's vast organization know who we are. What better way could there be than -of course- pictures.

A VERY MERRY

Budget and Management Staff Division

Leona Rickman, Louise Bode, Alfred K. Whitacre, Division Chief.

Personnel Staff Division

Pauline Faulkner, Daisy Dovell, Myrrel Reed, William Jackson, Division Chief, Loren Cameron, Margo Pickens.

Photographer - Emory Williams

The accomplishments of the Aeronautical Center for the year of 1955 can only be attributed to the combined efforts of the many shining faces you'll see in this issue of the BEACON. Here we are, with our co-workers and each and everyone of us wishing you, your friends and relatives

HOLIDAY SEASON

Accounts Staff Division

Marguerite Farley, Judy Bunch, Shirley Pfrehm, Mary Price, Bill Merrill, Mildred Garrett, Ruth Townsend, Ed Schmidt, Division Chief.

HOLIDAY PLANS

The Budget folks wish everyone a very enjoyable Holiday Season. Louise Bode is spending the holidays in Florida. Leona Rickman is spending X-mas with her folks at Quinlan. Seems as though Karl Whitacre is just too busy planting his new pecan trees to have made any plans yet for the gay days.

Accounts extends to all CAA employees a most Blessed Christmas and Happy New Year. All are anticipating an enjoyable X-mas at home and are anxiously awaiting the telecast of the O. U., Maryland Football Game. Personnel sends a message of Good Holiday Cheer to all. The William Jackson's are opening the season with Open House, Dec. 17th. Pauline Faulkner will be traveling to Ada for the holidays in her new "Volks Wagn". Loren Cameron says he'll be having Quail for X-mas dinner, claims he shot 19 while on a hunting trip in the Panhandle with hot shots Howard Wilson and Clyde Daniels.

Mr. W. G. Forman and Anna J. Martin

There is no time of day or night that at least one of the Supply Division services, provided by the people pictured on these pages, is not working for you. But it is only once a year that we have the opportunity to wish you

A MERRY CHRISTMAS
AND
A PROSPEROUS NEW YEAR

Back Row, left to right: Charles J. Adams, Warren E. Collins, Richard L. Morris, Marion R. Schoepflin, Ed W. Tompkins, Vernon C. Wilson, and Charlie M. Flowers.

Front Row, left to right: Monroe Locke, James Merriweather, Leonard J. Magerus, Donald E. Butler, Buster M. Davidson, and James O. Nicholson.

Not shown in the picture were Wilbur H. Lynn and Earnest Robertson.

The Reservation Maintenance Section, supervised by Charles J. "Pete" Adams, maintains the air conditioning, Government-owned heating plants, and Government-owned buildings; reports malfunctioning in plumbing, heating, and need of structural repairs on City-owned equipment and buildings to the City maintenance department; and has the custodial responsibilities for all the Aeronautical Center. The maintenance crew is composed of James O. "Nick" Nicholson, Buster M. "Lightnin'" Davidson, Leonard J. "Lennie" Magerus, and Don Butler. The custodial staff, supervised by James Merriweather, is Earnest "BeBop" Robertson, Monroe Locke, Marion R. "Slick" Schoepflin, Charlie M. Flowers, Richard R. Morris, and Warren E. "Tom" Collins. This section's "head office" is combined with the office of the Chief, Supply Division, where all calls to report any malfunctioning of equipment or repairs to buildings are received and relayed. So, in the event anyone has a report of this nature to make, such as a building collapsing (we will be glad to come pull you out), water pipes freezing and bursting (we'll bring our mops and pails), smell gas leaking (could be the "Fertilizer Plant"), a furnace that won't warm or an air conditioner that won't cool, "This is the place" - ext. 271 or 272.

Vernon C. Wilson, Ed W. Tompkins, and Wilbur H. Lynn, comprise the staff of the Automotive Maintenance Section, where all echelons of maintenance are performed. The present fleet of vehicles consists of 51 units from 1/4 to 5-tons in size. Minor repairs are also performed on forklifts, tugs, lawnmowers, and other miscellaneous pieces of equipment utilized by the Aeronautical Center. The system of preventive maintenance as programmed and accomplished by this section has resulted in increased dependability and safety of operation. Our slogan is "We fix anything but broken hearts, and help some of those".

* * * *

Emory Williams, Art McKinney, Ann Martin, Wilbur Lynn

MERRY CHRISTMAS! FROM THE PROCUREMENT AND SERVICES BRANCH - READY TO SERVE YOU THROUGHOUT THE NEW YEAR!

Back Row, left to right: W. Beverly Goudelock, Chief, Office Services Section; Harry Donceel, Purchasing Agent and Imprest Fund Cashier; Paul H. Shively, Branch Chief; Dean S. Anderson, Chief, Contract and Orders Section; Ivan "Sandy" Sanderson, Printing Plant Supervising Operator; and Jack Tisby, Messenger.

Front Row, left to right: William Murray, Duplicating Machine Operator; Carolyn Dare, Office of the Branch Chief; Jeanette Horn, "our right arm", whose assignments are too numerous to list here; Eunice Milton, "the voice of the Aeronautical Center", Switchboard Operator; Esther Woods, Contract Servicing Desk; and absent, but not forgotten our Mail Room Supervisor, Louis "Duke" Dombek.

This group is always "ready, willing, and able" to furnish guidance and assistance to the operating branches in procurement planning, reproduction layout, mail procedures, and other such matters as are within the scope of AC-170's assigned responsibilities. They enjoy the challenge offered by a difficult assignment and their enthusiasm of getting on top of a job is contagious.

* * * *

Back Row, left to right: Elmer W. Peterman, Hal C. McVey, Arthur W. McKinney, Glen H. Browning, Harvey B. Smith, Winifred C. Ladd, James T. Jones, Jr., and Albert E. Denny. Front Row, left to right: Harriet M. Wilson, Mary A. Wells, Flora D. Joslin, Kate P. Myers, Helena J. King, Ruth B. Hosey, and Evelyn B. Ezell. Other AC-180 employees not shown in the picture are Don Brown, who was out of town, and warehouse employees Roy Olinghouse and Noah Barrick, on sick leave.

Dropping in on AC-180 on a typical day you may find one of us packing parts for the CAA Beechcraft in Bangkok, Thailand, while another issues paper clips and lead pencils for a local office—while someone is searching stock lists to identify an unusual requirement for Alaska aircraft, another may be checking the best method for shipping a critical Avionics item needed by Region 2 to complete flight checking Key West, Florida facilities. In spite of what seems to be a diversity of interests, to be found at most anytime, there is also a strongly felt undercurrent of common desire to always do our best and to continuously improve ways and means of doing our jobs.

Right now though, we all have another important interest in common. AC-180 employees all join in wishing you

A MERRY CHRISTMAS AND THE BEST OF EVERYTHING IN THE NEW YEAR

Emory Williams, Art McKinney, Paul Shively

AVIATION SAFETY STANDARDIZATION DIVISION

Back row, left to right: Warren Smith; Marion Abshire; Anne McQuown; June Donceel; Clio Morrison; Charlie Coachman; Tom Dye; John Kempf; Bill Jones; Dave Baker.
Front row, left to right: Ken Archer; John Hann; Norman Jessup; Guy Arnold; T.K. Hutchins; Gordon Post; Norman Schrader; Harvey Roach.
Not shown: N.H. Rudasill; Noble Daniels and Roy Speakes. (Ed. Note: Rudy was right in the middle of a saw-tooth climb in N-500 at the time the picture was taken and Curly and Roy were homeward bound from TDy in Ecuador.

AVIATION SAFETY

WARREN W. SMITH, Chief - "Smitty" is not only an accomplished pilot, but also has an extensive knowledge of technical matters, and is as nice a boss as you'd find anywhere. In his spare time he is an auto mechanic and a dog fancier, raising show dogs - Daschunds and Bassetthounds.
MARION ABSHERE, Secretary - Marion is the proud mama of year-old Shaun, and is expecting again in June - that is her husband's graduation with an M.D. degree.

AIR CARRIER OPERATIONS

JOHN KEMPF, Acting Chief - John is a man of many talents. He is a fine pilot, an accomplished "horn" player, and has his diploma for "bird-watching".
CLIO MORRISON, Secretary - "Cupcake" to her friends, is quite a gal in the culinary department. Her specialty is chocolate cupcakes with gooey icing. You should be with us on birthdays.
JOHN HANN - John conducts training on the Dehmel "separator" (so-called because it

separates the men from the boys). In his spare time is building an addition on his home to accomodate his 6'4" frame and the height potentials of his 4 children.

NORM SCHRADER - Quite a man with a putter and mashie; he says it would be too expensive to play if it weren't for the lost tees he picks up in his rounds. Seriously, he did place 2d or 3d in a recent city tournament.

NORM JESSUP - He is a versatile person. Besides being an excellent technician, including typewriters, he reads and writes shorthand, which is quite a shock to the secretaries.

FLIGHT TEST

DAVE BAKER, Chief - "T-Category" Baker keeps busy with numerous flight courses, flight testing Center planes and heckling Ebner and Matthews, & "running Operations".

N.H. RUDASILL - Rudy is a rancher on the side and not only raises the beef but does a masterful job at the barbeque. He has a new little daughter "Kathy" who is the
(Cont'd 1st col., page 7)

AVIATION SAFETY STANDARDIZATION DIVISION

Back row, left to right: Guy Faulkner; Rex Anger; Iola McElderry; Ed Timme; Nan Jenkins; Clyde Daniels; Clyde Elliott; Bob Bridges.

Front row, left to right: John Temte; Frank Fuhrer, Murph Shedenhelm; Lynn Thompson; Hope Biggers; Bill Brown.

Not pictured because he is no longer with CAA is Bob Spear, but of whom the Aircraft Branch and the Aero Center still have fond memories.

AIRCRAFT BRANCH

L. E. SHEDENHELM, Chief - Although he has been a resident of Oklahoma City for 10 years, he is still being entertained by the Newcomers' (?) Club. He spends most of his working hours trying to figure out how to keep Biggers busy and his spare time figuring out how to get "maximum cruise" and keep his Mercury right side up.

IOLA McELDERRY, Branch Secretary - She serenely copes with the Shedenhelm-Biggers feud, having learned they really don't mean all they say. Gets her exercise running from both of them.

NAN (IBM) JENKINS - Is going "round and round" these days with text material on the new electric typewriter - perhaps it's her magnetic personality.

GENERAL AIRCRAFT MAINTENANCE

HOPE BIGGERS, Chief - Has trouble keeping up with son (Admiral Biggers) who is engineering (Navy) student at OU. At work Mr. B. spends most of his time trying to avoid Shedenhelm. Among his mentionable hobbies are raising Wiener-Schnitzel dogs, shutterbugging, trying to chisel flying time to maintain his "swooping" rating.

EDWIN H. TIMME - How he gets his 6 ft. in a Morris-Minor is a mystery of the Jet Age. He has a lot of titles - Captain of a CAA bowling team, Major in CAP - but wears them all well.

GUY W. FAULKNER - Over 30 years of aircraft experience has come in handy in redesigning and overhauling his outboard motors, Chevrolets and fishing equip-
(Cont'd 2nd col., page 7)

light of his life.

T.K. HUTCHINS - Hutch is a quiet person but has a keen sense of humor. On hearing one of the girls complaining that she had to rock her baby to sleep, he replied her only trouble was she wasn't using big enough rocks.

GENERAL OPERATIONS

T.K. ARCHER, Chief - His hobby is well-known throughout CAA, and has given birth to the "Archerlac" - a Nash equipped with Cadillac engine, which is "real gone".

JUNE DONCEEL, Secretary - As much a problem to writeabout as to work with. (If you don't believe the work part ask Hutch and Dye, the writing part, ask me. j.d.) And I don't trust anyone else.

TOM DYE - His teen-age son has acquired his first car and altho dad doesn't tell it that way, we believe he's getting as big a bang out of it as junior.

OPERATIONS OFFICE

ANNE McQUOWN - She's the gal who keeps 'em flying and keeps the wheels rolling under Aviation Safety. She owns that snazzy yellow and black convertible you see around the field.

HARVEY ROACH - Harvey has only been with us about 6 months and we don't know him too well yet, but he is a very friendly and obliging person.

POLICIES & PROCEDURES STAFF

Charlie Coachman, Chief - Charlie is still busily engaged in studying the heavenly bodies (celestial, that is). New this year is his "pick-up", a Plymouth Savoy.

GUY ARNOLD - Guy is our weather expert. His predecessor was "Ted McCann the Weatherman", so we're waiting for Guy to have his ups and downs with highs and lows on TV.

SIMULATED INSTRUMENT TRAINING

W.D. JONES, Chief - Bill is our gadgeteer. If you see him muttering to himself, with a far away look in his eye, you know he has another gadget in the mill.

GORDON POST - Gordon is the "Sgt. Bilko" of WRF. He'll bet on the direction the wind is going to blow.

ROY SPEAKES - After 3 months in Ecuador and planning on TDY in NY after Jan 1, We are getting the idea he doesn't like us.

NOBLE DANIELS - Curly is a dan-dan-dandy dancer and all you girls who haven't tripped the "light fantastic" with him sure have missed out.

* * * * *

AIRCRAFT BRANCH (Cont'd)

ment. A whiz at records he doesn't know the cost per fish or how many big ones got away.

LYNN G. THOMPSON - Tommy has many local projects such as mowing ALL that grass on his acreage but he will shelve any or all such work for low flying trips to Ohio.

AIRCARRIER MAINTENANCE

JOHN N. TEMTE, Chief - Did teaching Whirlybirds and "Dizzy" 6's and Connies drive him to a study of radio bulbs for rocket escape to the moon? (Radio is what he is studying at night school).

REX ANGER - Builder of THAT jeep, Pater of Pancho (Daschund), square dancer par excellence. His Jeep flies the Confederate Flag but winter garb for driving same makes Rex look like a Man from Mars.
CLYDE ELLIOTT - A softball pitcher of no mean ability, he has been active in organizing Junior baseball in Moore, Okla.from none to 12 teams.

POWER PLANT

WILLIAM L. BROWN, Chief - In addition to his known capabilities in the jet and piston engine field he is also a pump house architect and raises daughters who play the piano and win beauty prizes.
FRANK FUHRER - Tsk! Tsk! those words he uses to give his opinion of the bugs and varmints that eat up his garden. Besides being an expert shutterbug, he keeps the engines spinning (in the lab, that is).

ELECTRICAL-ELECTRONICS

CLYDE L. DANIELS, Chief - Popularly known as "Coach" because of his play-by-play explanations of intricate subjects. Spends his leisure time fishing with his father on the Gulf or hunting with a Brittany spaniel.

BOB BRIDGES - Idea Man, photographer, general helper outer, he is the scholarly type. Bob is in OCU 3 nights a week majoring in "electron chasing".

Hope Biggers

L.E. Shedenhelm

June Donceel

Iola McElderry

W. H. Hill, Chief; Asia Krause

Alumni of the Division Schools and Facilities will note the presence of many new faces of personnel who have joined the staff during the past year and the absence of many of the familiar faces of friends who have moved on to new and more challenging assignments.

During the past year we have been fortunate in being able to make certain improvements in our schedules and facilities which we believe will enable us to offer more effective training and service to both the individual and organization during the forthcoming year.

One of the more interesting aspects of our work at the Aeronautical Center is the opportunity and privilege of meeting and working with fellow employees from all parts of the country and of renewing these acquaintances from time to time. The opportunity to contribute materially to the continuing improvement of the service offered by the C.A.A. to the public, and to the career potential of each of you who come to us for assistance, is the source of considerable gratification to each of us.

We wish to extend our best wishes for the Happiest of Holiday Seasons and the Most Successful of New Years.

Back - John Sullivan, Jim Ritchey, Miles Ullman, Gus Hall: Middle - Ed McNulty, Perry Bolyard, Jack Grewell, Chief; John VonRunnen: Front - Grace Upshaw, Loretta Falvey, Cleo Ullman.
Bill Morgan was absent the day we took the pictures. Sorry, Bill.

Back - Roy Yeltman, Norm Realph, John Dodson, George Wolfe: Front - Bob Riedel, Darwin Maurer, Russ Frick.
