LOS ANGELES 45, CALIFORNIA

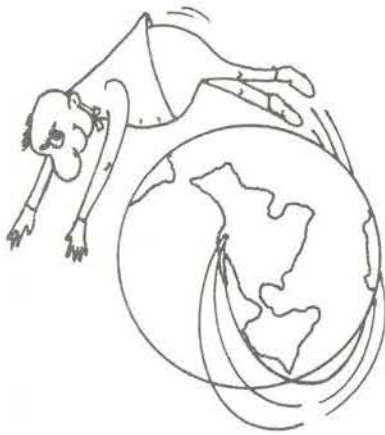

¶ LET every public servant know, whether his post is high or low, that a man's rank and reputation in this Administration will be determined by the job he does, and not by the size of his staff, his office or his budget. Let it be clear that this Administration recognizes the value of daring and dissent—that we greet healthy controversy as the hallmark of healthy change.

¶ LET the public service be a proud and lively career. And let every man and woman who works in any area of our national government, in any branch, at any level, be able to say with pride and honor in future years: "*I served the United States Government in that hour of our nation's need.*"

JOHN F. KENNEDY

State of the Union Message

REGION IV

WALTER P. PLETT - REGIONAL MANAGER

Editor - Gene Kropf

Assistant Editor - Carole Hathaway

Editing of Special Issue

Bill Sullivan	Employee Management Relations Branch
Leo McElroy	Employee Management Relations
Merrilyn Grix	Plans & Specifications Staff
Paul Newport.	Electronics Shop
Florence Smith.	Property & Services Branch

FROM THE REGIONAL MANAGER'S OFFICE

The past few years have certainly brought about many changes in our Agency, and our Region. We have been given many new responsibilities and our program has necessarily accelerated to meet the new demands that have been imposed upon us.

I, like all of you, have welcomed the opportunity these changes have provided to us as individuals, and as a group, to contribute in an even greater measure than heretofore.

My one regret, however, is that in our rapid expansion we have lost some of the close personal contact that we once enjoyed. I am no longer able to know each of you by name and to have the pleasure of greeting you individually from time to time.

This does not mean, tho, that I am not personally cognizant of the contributions that all of you, individually, have made and the enthusiasm and loyalty you have displayed. Without your individual contributions and support we could not have successfully met the challenges that have faced us.

I welcome this opportunity to extend my thanks to all of you.

There are those of you, however, who because of the extra efforts you have expended toward the efficiency of operations fall in the "Superior" category and those who, through long and faithful service to the F.A.A. are eligible for recognition under the Length-of-Service Program. To this special group our third "Awards Issue" of Omnivoice is dedicated.

You can be justly proud, as I am, of your accomplishments. I hope that you will continue to perform your duties in the same outstanding manner.

Again, my thanks and appreciation to all of you.

OUTSTANDING PERFORMANCE

To qualify for an Outstanding Performance Rating, the performance of official duties must Significantly Exceed the normal requirements of the position in ALL aspects.

Throughout Region IV the following received OUTSTANDING PERFORMANCE RATINGS and in conjunction therewith, SUSTAINED SUPERIOR PERFORMANCE CASH AWARDS:

K R Allen	H A Ekstrom	G D Jacobson	N E Merkel	J C Schulte

John G. Melville
40 years Service

John G. (Jerry) Melville was born in Denver, Colorado, September 7, 1904. He attended high school at Yakima, Washington. After a tour in the U.S. Navy as a Radioman, he began working as a Radio Operator in the U. S. Airways Service June 1926. He later worked with the U. S. Engineers in 1928 and began employment with the Bureau of Lighthouses in April 1930 as a Junior Radio Technician, installing low frequency ranges in Nebraska. He transferred to the C.A.A. Bureau of Air Commerce at Chicago, Illinois in March 1934. After working at several other locations through out the country, including Washington, D.C. he transferred to Seattle, Washington in June 1948 as Chief of the Facilities Maintenance Branch. Since June 1953 he has been working in the capacity of Chief of Systems Maintenance Branch, Los Angeles, California. During these years he has observed the growth and development of all aspects of aviation and in particular, the transition from when pilots flew by the use of Radio Beacons for navigational aids, to the highly complex series of equipment which is being used today.

Congratulations Jerry!
