UMTA REPORTS PUBLICATION OF ANNUAL NATIONAL TRANSIT DATA

The Urban Mass Transportation Administration today announced the availability of the 1981 National Urban Mass Transportation Statistics.

The report covers the fiscal year from July 1, 1980, through June 30, 1981, and contains financial data from recipients of Federal funding under the Urban Mass Transportation Act.

"This data provides valuable management information that can assist local policy officials and transit managers, and can also serve the needs of those State and Federal officials involved in making public sector investment decisions," said Arthur Teele, Urban Mass Transportation Administrator. "It contains complete financial and operating data submitted to UMTA by 319 public transit systems."

The annual report has been substantially revised this year for ease of use. A major revision includes a separate Transit Agency Data Guide, and a glossary of terms.

The report is available from the Office of Public Affairs, Urban Mass Transportation Administration, 400 Seventh Street, S.W., Washington, D.C. 20590. A self-addressed mailing label should be provided with the request.
