

Iosco Transit Corporation Press Release

Iosco Transit Corporation Launches New Online Trip Planning Tool to Enhance Rural Transit Access

Iosco County, MI — [Iosco Transit Corporation \(ITC\)](#) is excited to announce the launch of a new online [trip-planning tool](#) as part of the Advancing Rural Mobility pilot project. This initiative, funded through a United States Department of Transportation [SMART](#) grant, is designed to improve transportation access and efficiency for residents across rural Michigan.

Iosco Transit Corporation and 13 other transportation agencies in Michigan are participating in Stage 2 of the pilot project.

The new trip planner tool aims to simplify the process of navigating transportation options, increase awareness of [ICT services](#), and provide seamless connections with other local transit providers.

Users can enter their starting location, destination, and desired departure or arrival times to receive personalized route options. For example, if you need to travel within Iosco County, such as from Oscoda to the Tawas City Courthouse, simply input your starting point, destination, and travel preferences. The tool will generate a list of available transit services in Iosco County, including bus routes and schedules, helping you choose the most convenient option for your trip.

Additionally, the trip planner provides real-time updates on transit services so users can stay informed about any delays or changes to their scheduled routes.

This tool is designed to make accessing information on routes, schedules, and connections easier than ever, helping residents plan their travel efficiently across Iosco County. This project is an important step toward ensuring that all Michigan residents can effectively use public transit to meet their needs.
