2/25/2025 14:30	2-6 months	Yes	Yes, I'm aware of the sign, Yes, I'm aware of the announcement	Yes	Yes	I have noticed, at times, the bus would make it through the intersection, yet the pedestrian signs/announcements would be delayed until the bus was completely out of the intersection. If the light would be responsive to the unprotected left turn onto George Bush and become a protected left turn, would make the chances of the cyclists/pedestrians crossing to be diminished.

I have seen a big issue with cyclists/skateboarders turning into my line going the wrong way in the bike lane, resulting in them almost hitting my bus since we pull up to stop signs/lights already covering the bike lane.
