

# Southwest Seventh

DEPARTMENT OF TRANSPORTATION HEADQUARTERS BUILDINGS

No. 28

June 1, 1971

## 1971 SAVINGS BONDS CAMPAIGN

Take Stock in America! Join the Payroll Savings Plan. The money you save now could save you later. Bonds pay 5 - 1/2 % interest and are a good investment.

## CAFETERIA PROGRESS IN DOT HEADQUARTERS BUILDING

The latest forecast from Drug Fair regarding the cafeteria is that they expect the basic construction to be completed by June 15; they estimate an additional 45 days for installation of equipment, furniture, etc. That would place the opening date approximately on August 1, 1971. The location is in the first level basement along the Sixth Street side of the building.

This bulletin will be issued periodically during the consolidation of the Department of Transportation headquarters into two buildings -- 400 Seventh Street, S.W., and 800 Independence Avenue, S.W.

## BUS TOKENS TO BE SOLD BY FIRST NATIONAL BANK

The First National Bank of Washington will soon offer a new service to employees in the DOT Headquarters Building and other interested customers. If D. C. Transit delivers on time, the bank will place bus tokens on sale beginning June 1. We have had a number of requests to provide a convenient source for bus tokens and we appreciate First National Bank's efforts in providing this service to DOT employees.

## DOT HEADQUARTERS BUILDING FEDERAL CREDIT UNION

Transportation Federal Credit Union will establish a branch office in the Headquarters Building on Tuesday, June 1, 1971, in Room 2324. The Credit Union will provide all services for members as presently being provided in the FOB-10A building with the exception of Notary Public services. The hours of operation for the Credit Union are between 9:00 a.m. and 4:30 p.m., Monday through Friday. The telephone number is Extension 62827.

## DOT HEADQUARTERS BUILDING

As mentioned in one of our earlier issues, there appears to be a minor continuing confusion between the terms "NASA Building," and "Nassif Building." Forming the habit of using "DOT Headquarters Building" when referring to 400 Seventh Street, S. W., in our conversation and correspondence will help to eliminate this problem.

## JUMPER CABLES AVAILABLE FOR EMERGENCIES

From time to time, employees have found themselves unable to start their cars in the garage due to a dead battery and have had to go to great trouble and expense to have a tow truck pull the car to a garage. To assist in cases where the problem is simply a run-down battery, the Support Services Division, TAD-44, has obtained booster cables and will lend them to you in these emergencies.

Obviously, you will need someone with a car with a good battery in addition to the cables. You should also know that damage to the electrical system sometimes results if you reverse the polarity of the batteries of the two cars. Be sure to connect the positive terminals of the two batteries with the same color (red) gripper-handle and the two negative terminals with the other matching-handled (black) lead. Detailed instructions for use of cables are available upon request when you borrow them. Please present your ID card when signing out the cables. Cables can be borrowed from:

DOT Headquarters Bldg.	Room 2320	Ext. 62458
FOB-10A	Room 526	Ext. 63340
