CLOSING OF D STREET BETWEEN 6th AND 7th STREETS

The long delayed closing of D Street between 6th and 7th Streets to enable the Metro Contractor to fill, grade, and resurface that block is now scheduled for this weekend and will take from one to three weeks.

After the evening rush hour on Friday, August 22, that portion of D Street immediately in front of the garage exit will be worked on so that by Monday, August 25, traffic will flow between that exit and 6th Street. Virginia Avenue is to be open for two-way traffic. Barricades will be erected to permit traffic to turn right from Virginia Avenue against 6th Street traffic and thence into D Street garage entrance. Flagmen will be on hand to facilitate traffic flow during rush hours.

You may need to revise your present route a bit and use extra care and patience. The inconvenience should be minor and temporary.
